Portland, Oregon
October 1, 1957

Pursuant to adjournment of its meeting held on September 12 and 13, 1957, the State Highway Commission met at 10:00 A. M., Standard Oregon Time, in the Elizabeth Room of the Imperial Hotel, Portland, Oregon. Among others, the following persons were present:

Chas. H. Reynolds, Chairman
M. K. McK[illegible], Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Chief Auditor
H. B. Glaisyer, Secretary

Also present were Mr. John W. Shuler, Bond Attorney, Portland, and Mr. Fred Paul[illegible]s, Deputy State Treasurer of Oregon, Salem.

Chairman Reynolds called the meeting to order at 10:00 A. M. and announced that the meeting was held for the principal purpose of receiving and opening bids for the purchase of $20,600,000 of Oregon State Highway Bonds that were authorized by the 1957 Oregon Legislative Assembly. He then inquired if there were any bids for the bonds that had not been presented at the Commission's table. There being none, bids as follows for the purchase of the bonds offered for sale were then opened and read aloud by the Secretary pursuant to official notice heretofore published in The Daily Bond Buyer of New York, New York, and in the Daily Journal of Commerce of Portland, Oregon, at the conclusion of which Chairman Reynolds stated that the bids would be studied by the Commission and that the Commission's decision with respect thereto would be publicly announced at 11:00 A. M. this day:

List of Bidders

1. Bankers Trust Company, Harris Trust and Savings Bank, First National Bank of Portland, and Associates

2. The First National Bank of Chicago and Associates

3. C. J. Devine & Co., Halsey Stuart & Co., Inc., Smith Barney & Co., Continental Illinois National Bank and Trust Company of Chicago, and Associates

(For names of Associates, see list attached)

Bidder	Bond Maturity Date	Designated Interest Rate	Price Bid	Effective Interest Cost	Effective Interest Rate
1.	Nov. 1, 1960 to Nov. 1, 1961 Inclusive	2-3/4%	$20,200,692.70	$7,017,807.30	3.17261
	Nov. 1, 1962 to Nov. 1, 1974 Inclusive	3%			
2.	Nov. 1, 1960 to Nov. 1, 1961 Inclusive	3-1/4%	$20,194,014.00	$7,059,486.00	3.19144
	Nov. 1, 1962 to Nov. 1, 1974 Inclusive	3%			
3.	Nov. 1, 1960 to Nov. 1, 1963 Inclusive	2-3/4%	$20,192,120.00	$7,130,880.00	3.2237
	Nov. 1, 1964 to Nov. 1, 1972 Inclusive	3%			
	Nov. 1, 1973 to Nov. 1, 1974 Inclusive	3-1/4%

October 1, 1957

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

An Indenture of Access form was presented by the Right of Way Engineer concerning the McDonald-Gay property, File No. 19676, on the Douglas County Line-Hauser Section of the Oregon Coast Highway in Coos County. He explained that the indenture provides for the closure of a 25 foot access at Station 295 and substitutes a similar access at Station 291+75 and recommended approval of the change. The Commission approved the change of access as recommended.

Consideration was given to a form of "Consent to Assignment of Sublease" whereby the State agrees to the subleasing of certain State property in the City of Eugene, with Katherine A. Ruth as lessee, the property being located more specifically on the Franklin Avenue Section of the Pacific Highway. The Right of Way Engineer explained that the sublease provides for assignment of the interests of Pitchford Mack Sales Company to Mack Trucks, Inc. He said that the State will suffer no harm, and he recommended that the assignment of sublease be approved. The Commission unanimously accepted his recommendation.

The Commission considered payment of $1,402.84 to Kulick Well Drilling Company, Willamina, for drilling a well and installing a pump and a pipe line on the Bertyl Harris property on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County. The Right of Way Engineer explained that Mr. Harris' original well was destroyed by highway construction and it had been necessary to provide a new well. The Commission approved the payment of $1,402.84 as full and complete remuneration for the destroyed well.

Consideration was given to a form of ground lease with Candida Cerragino, lessor, covering land and buildings on N. E. 82nd Avenue at Sandy Boulevard in Portland, for use as a section maintenance headquarters. The Engineer pointed out that the lease covers a period of twelve months from September 1, 1957, and that the consideration is $150.00 per month. He recalled that funds originally budgeted for construction of a maintenance headquarters in this vicinity had been transferred due to the fact that a suitable building site could not be located. The Commission approved the lease as submitted.

The Right of Way Engineer reported that two parcels of property are no longer required for highway purposes and he requested authority to sell them at public sale. The properties are described as follows:

1. 3.8 acres of the former Schilling property on the Goshen-Divide Section of the Pacific Highway in Lane County for a minimum consideration

of $1,000, without access to the new Pacific Highway. (SEE EXHIBIT "B")

2. 1,200 square feet of the former Copeland property on the T. H. Banfield Expressway in Multnomah County at 31st Avenue and Wasco Street, Portland, for a minimum price of $300.

The Commission authorized sale of the properties as requested, by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a claim submitted by John and Anna Naegeli and Karl and Rose Zweifel for damage to their property because of faulty drainage on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County. The Right of Way Engineer explained that in construction of this highway section drainage water which did not formerly exist, had been diverted on these people's property. The property owners, he stated, have agreed to accept the sum of $2,000 to construct necessary drainage facilities and have also agreed to give a complete release for any claims for further damages. It was his opinion that the settlement is fair remuneration. Upon his favorable recommendation the Commission approved the payment of $2,000 as complete settlement of the claims.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-22513 - E. C. Urbigkeit and Ella Urbigkeit
(Multnomah County)
Parcel No. 1: 35,000 square feet for Right of Way
Parcel No. 2: 59,500 square feet for Right of Way
Parcel No. 3: 8,100 square feet for Right of Way

Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East

R-26871 - Morehouse Holding Company
(Multnomah County)
Parcel No. 1: 1,797 square feet for Right of Way
Parcel No. 2: 3,690 square feet for a Slope Easement
Amended resolution to add permit of entry clause

Right of way maps and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter

in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBIT "D-1" and EXHIBIT "D-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Chairman Reynolds was called to the telephone at this time. Upon his return to the Commission table he stated that he had talked with Mr. Roach of the Idaho Power Company who requested that the Power Company be billed for highway construction costs upon demand as payments are due the State's contractor, the Company in the meantime would furnish a bond guaranteeing such payments. The Engineer pointed out that the agreement recently executed with the Power Company provides that the Company shall pay the full amount of its share of the expense involved ($816,000) by October 15, 1957, which provision was inserted in the agreement at the Power Company's suggestion. The Chief Counsel stated that any arrangement for payment by the Power Company other than that stipulated in the recently executed agreement would have to be covered by a supplemental agreement. After some further discussion the Commission decided to adhere strictly to the arrangements specified in the existing agreement. Chairman Reynolds thereupon telephoned the action to Mr. Roach who stated his approval.

A report was presented by the Chief Counsel concerning condemnation cases in which settlements have been reached out of court. A summary of these cases is listed below:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Muzzio, et al R-22738	Multnomah	(Portland Salem Expressway) Pacific Highway	Harbor Drive-Barbur Boulevard	$ 630	$ 5,750
R. Glickman, et al R-22546	Multnomah	(Portland Salem Expressway) Pacific Highway	Harbor Drive-Barbur Boulevard	8,000	14,000

Report of Condemnation cases settled (Cont)

Case	County	Highway	Section	State's Offer	Amount of Settlement
Hill, Norman C. et al R-26170	Multnomah	(Portland-Salem Expressway) Pacific Highway	Harbor Drive-Barbur Boulevard	$ 200	$ 400
Houston, et al R-25474	Linn	Pacific Highway	N. Jefferson Jct. - Albany Section	$13,750	$15,750
Josephsen, et al R-19932	Douglas	Umpqua Highway	Luder Creek-Hinsdale Slough	$10,850	$17,000
Brandon, et al R-25773	Marion	Pacific Highway	Salem By-pass-Jefferson Jct.	$ 325	$ 400

The Commission approved the settlements as reported. (For further details see the Chief Counsel's letter, dated October 1, 1957, with tabulation attached, in the General Files in Salem).

The Chief Counsel requested authority to initiate a suit in court requiring Allum Brothers, their sureties, and the U. S. Internal Revenue Service to interplead their claim to funds held by the State Highway Department under State Highway Contracts 4592 and 4880. He explained that funds due for work performed in connection with these contracts are claimed by the sureties on the performance bonds and by the U. S. Internal Revenue Service, and that the action proposed will leave with the court the decision as to how the money is to be distributed. The Commission approved the request.

The necessity of reading descriptive matter in bid proposals when bids are read aloud was discussed. The Chief Counsel reported that as instructed by the Commission at the previous meeting, he investigated Federal regulations in connection with the reading of bids and determined that it is not necessary to read the descriptive matter and that bid items need be identified only by number. The Commission ordered in view thereof, that the bids be so read, beginning at the next Highway Commission meeting.

The Chief Counsel presented an oral report on cases which are pending trial in court. He stated that the Stumbos, whose property is involved on the Pacific Highway in southern Oregon, are demanding the sum

of $250,000, based on the square inch value of the property involved. Concerning the Strausbaugh case against the State's contractor, Rogers Construction Company and Babler Bros., Inc., on the Ontario-Nyssa Section of the Old Oregon Trail in Malheur County, he explained that the State is defending the contractor and that the State Land Board has agreed to file an interpleader stating that it is the owner of the land involved and not Strausbaugh. The State Land Board, he added, also plans to file suit for an accounting of all gravel sold on the property. The Commission accepted the report.

The Commission discussed the matter of accepting a deed from Clatsop County conveying to the State a section of county road near Hugg Point, south of Cannon Beach, which connects with US 101. It was the opinion of the Chief Counsel that the State should accept a deed from Clatsop County as urged by County Judge Boyington of Clatsop County at the last Commission meeting. He pointed out that the road was a portion of an old county coastal road which was taken over by the State in 1928, with the exception of the stub which is under consideration. He recommended that the Commission accept the deed to the stub road. His recommendation was approved by the Commission.

The Engineer reported that as previously authorized by the Commission he has awarded contracts which had been referred to him by the Commission to award when certain conditions had been fulfilled. These conditions, he continued, have now been fulfilled and the following contracts have been awarded:

(1) Grading the Salem By-pass Section of the Pacific Highway, Marion County. Bids received August 8, 1957. Contract awarded September 20, 1957 to Earl L. McNutt Company, Eugene, low bidder.

(2) Grading the Valley Junction-Wallace Bridge Unit, Valley Junction-Sheridan Section of the Salmon River Highway, Polk County. Bids received July 18, 1957. Contract awarded September 16, 1957 to A. L. Harding, Inc., Stayton, low bidder.

(3) Grading and paving the Ross Lane-Jacksonville Section of the Crater Lake Highway-Jacksonville Road, Jackson County. Bids received August 8, 1957. Contract awarded September 16, 1957 to Glen Ousley Construction Co., Eugene, low bidder.

(4) Construction of the 26th Avenue Structures on Harbor Drive-Washington County Line Section of the Pacific Highway and Pacific Highway West, Multnomah County. Contract awarded September 19, 1957 to Birkemeier Construction Co., Milwaukie, low bidder.

(5) Grading and paving the Goble-Tide Creek Section of the Columbia River Highway, Columbia County. Bids received August 8, 1957. Contract awarded September 20, 1957 to Rogers Construction Company, Portland, low bidder.

(6) Grading, stone base and furnishing crushed material in stock pile on the Flora Spur Section of the Flora Spur Road, Wallowa County. Bids received September 12, 1957. Contract awarded September 23, 1957 to J. F. Konen Construction Company, Inc., Lewiston, Idaho, low bidder.

The Commission confirmed the awards as reported.

Reclassification from Group II status to Group I status of portions of two state highways described below, was reported by the Engineer. He stated that successful test runs had been made over each of these highway sections and it was found that truck and trailer combinations having an overall length of 60 feet can negotiate them without encroaching upon the opposing traffic lane. The Commission confirmed reclassification to Group I status of the following highway sections:

1. The Woodburn-Estacada Highway, No. 161, from M.P. 0.00 (junction with US99E) to Hamrick's Corner, M. P. 7.59 (junction with the Canby-Marquam Secondary Highway, No. 170), approved September 17, 1957.

2. A section of the Medford-Provolt Secondary Highway, No. 272, from Applegate, M.P. 4.40 to M.P. 25.42 (junction with US99 northbound, in Medford), approved September 17, 1957.

The Engineer reported that under authority previously delegated to him by the Commission, he has established temporary reduced speed zones on two sections of state highways because of highway construction under way, as follows:

1. 30-mile-per-hour speed zone on a portion of the Sunset Highway at the Highlands Interchange project from Engineer's Station 94+00 (0.32 mile east of the west city limits of Portland) to Engineer's Station 126+00, effective at 9:00 a.m., September 9, 1957.

2. 35-mile-per-hour speed zone on US99W (Barbur Boulevard) from M.P. 4.7, at 19th Avenue, to M.P. 6.5, at S. W. Capitol Highway intersection, effective at 9:00 a.m., September 17, 1957.

The Commission approved the speed limitations as reported.

An item of unfinished business shown on the summary dated September 13, 1957, concerning garnishments against State employees was considered by the Commission. The Engineer stated that an analysis of these garnishments has been made and it was found that during a twenty-month period from January 1, 1956 to August 31, 1957, 140 garnishments were served against 95 State Highway employees. Twenty-nine of these employees have terminated their employment. Forty-seven of the remaining employees had one garnishment against them; fifteen had two; one had three; one had five; and two had six. He explained that in the past it has been the procedure, when a complaint

has been received from a creditor that an employee makes no effort to pay his account, to write to the employee and his immediate supervisor, advising them of the complaint and suggesting that an effort be made to clear up the overdue bills. Commissioner McIver commented that employment by the Highway Department should not act as a shield to prevent payment of bills. He suggested that the garnishments be watched carefully to detect and check on those who have a number of attachments against them. Chairman Reynolds stated that he felt the situation at present is not too bad but should be watched carefully to see that it does not get worse. The Commission ordered that such procedure be followed hereafter.

The Commission gave attention to the following additional items of unfinished business, as shown on the Secretary's Summary dated September 13, 1957.

1. Request of Clatsop County that the State take over as a parking area a section of county road near Hugg Point south of Cannon Beach: The Commission ordered this item deleted from the list as a report was made by the Chief Counsel earlier in the day.

2. Request of Heppner-Morrow County Chamber of Commerce that a State park be developed on Route 207 at confluence of Chapin and Rock Creeks, approximately 25 miles south of Heppner: The Parks Superintendent stated that the matter is being investigated. This item is to remain on the list of unfinished business.

3. Reading of descriptive matter in bid proposals: The Commission ordered this item deleted from the list of unfinished business as a report was submitted by the Chief Counsel earlier in the day.

4. Request of the Department of Motor Vehicles and the State Police that the Highway Department finance construction of a building near the State Highway Shops in Salem: The Engineer reported that his investigation in this matter is not yet complete. This item is to remain on the list of unfinished business.

5. Proposal that State Parks personnel wear uniforms: The Parks Superintendent reported that an investigation is under way as to the feasibility of uniforms, and his report would be presented later. This item is to remain on the list of unfinished business.

6. Development of policy regarding action to be taken against State employees who consistently refuse to pay their bills: This item was ordered deleted from the list as a report was presented by the Engineer earlier in the day.

7. Request of the City of Oceanlake for installation of a traffic signal at the intersection of US 101 at Raymond Street; that US 101 near "D" River Bridge be widened to four lanes, and that the existing four-lane section of US 101 be extended northerly to the north city limits of Oceanlake: The Engineer reported that the investigation concerning these requests is still

under way and a report will be presented later. The item is to remain on the list of unfinished business.

8. Request of Seaside City Council that construction of Roosevelt Drive Route on US 101 in Seaside be expedited: The Engineer stated that as previously instructed by the Commission, an investigation is being made concerning the feasibility of constructing a by-pass route around Seaside and a report will be made later. This item is to remain on the list of unfinished business.

The Engineer recalled that sometime ago the City of Springfield, as an experiment and with the consent of the Highway Commission, closed its Main Street, route of the McKenzie Highway, and routed highway traffic over streets lying one block north and one block south of the highway. The city is now analyzing the results of the experiment but finds that it does not have sufficient funds to complete the analysis and has asked the State to contribute $500 toward the expense, which is approximately half the cost of the analysis. It was his opinion that the information to be obtained is valuable and he recommended approval of the request. Commissioner McIver inquired if the report would be of any assistance to the Highway Department. He pointed out that two similar situations may arise in Portland and others may come up in other cities. It was his feeling that the data secured would be of value to the city but would provide no worthwhile information for the traveling public or the Highway Department. After some further discussion, the Commission ordered that the city be advised that their request for funds to complete this study does not come within the scope of the State Highway Department, so the Commission is precluded from spending motorist's money to finance the report.

The Commission had under consideration the offers and bids of Bankers Trust Company, Harris Trust and Savings Bank, First National Bank of Portland, and Associates; The First National Bank of Chicago and Associates; C. J. Devine & Co., Halsey Stuart & Co., Inc., Smith Barney & Co., Continental Illinois National Bank and Trust Company of Chicago, and Associates, submitted at 10:00 A.M. this day for the purchase of $20,600,000 of Oregon State Highway Bonds. It was the considered opinion of the members of the Commission that the offer submitted by Bankers Trust Company, Harris Trust and Savings Bank, First National Bank of Portland, and Associates was the best offer received, and that the interests of the State of Oregon would be best served by acceptance of said offer. Accordingly, motion was made by Commissioner McIver that the offer of Bankers Trust Company, Harris Trust and Savings Bank, First National Bank of Portland, and Associates be accepted for the entire amount of $20,600,000 face value of Oregon State Highway Bonds now offered for sale and that the bonds be sold to Bankers Trust Company, Harris Trust and Savings Bank, First National Bank of Portland, and Associates for the amount of their said offer. The motion was seconded by Commissioner Chessman, and having received the majority vote of the members of the Commission, was by Chairman

Reynolds declared carried unanimously. At 11:00 A.M. the Commission's decision was publicly announced by Chairman Reynolds.

Mr. Robert C. Notson, Editor of The Oregonian and member of the Travel Advisory Committee, came before the Commission concerning the budget for the Travel Department during the calendar year 1958. He reported that in 1957 up to August 1, the number of out-of-state cars that visited Oregon increased 4.2 percent over the corresponding period in 1956. However, tourists spent less money in the State as indicated by a drop of 4.8 percent from the total tourist expenditures made in 1956. Analysis of this trend, he continued, indicates that more tourists either camp in State parks or stay with relatives and friends. It was his feeling that these facts reflect a national economic trend. Concerning revenues to the State from tourists, he said that the year of 1957 showed an increase of approximately $110,000 over the previous year. He presented for the Commission's consideration a budget for 1958, which he said, has been carefully prepared by the Committee and is similar to the 1957 budget. Some minor changes, he continued, were made reflecting responses to particular magazines and newspapers. The total budget is in the sum of $310,000, an increase of $2,000 over the budget for 1957. He pointed out that much detailed information in support of the budget is available in the Salem office of the Director of Travel Information Division. The Commission unanimously approved the budget as presented and expressed appreciation to the members of the Travel Advisory Committee for the time and effort represented in preparation of the budget and for services rendered in other respects. (See copy of the complete budget in General Files for details.)

Mr. Baird French, Regional Engineer of the Bureau of Public Roads for Division 8, and Mr. R. L. Kellogg, Assistant Engineer, came before the Commission concerning a revision in the Federal Forest Highway Program. Mr. French pointed out the revisions which he said are necessary to take care of rising costs and to provide orderly construction. After discussion and upon the favorable recommendation of the State Highway Engineer, the Commission approved the revisions in the Federal Forest Road program as reported and thereupon signed a letter directed to the Comissioner of Public Roads and the Chief of the U. S. Forest Service recommending the revisions as follows:

Previous unprogrammed balance (lapsing).....$93,414.66

Project and Account No.	Route Name and Type of Work	Mileage (Length)	Forest Highway Funds
	Withdraw previously approved projects		
FH 34-C1 (L-3349-00)	Pendleton-John Day Highway Grading, Surfacing and Paving	2.46	$ 205,000
FH 47-F1, G (L-3351-00)	North Umpqua Highway Grading Advance Clearing	3.00 2.50	450,000

Project and Account No.	Route Name and Type of Work	Mileage (Length)	Forest Highway Funds
FH 51-B (L-3352-00)	Belknap Springs Highway Grading and Surfacing	4.43	$ 430,000
	Substitute the following projects		
FH 34-C1 (L-3349-00)	Pendleton-John Day Highway Grading, Surfacing and Paving	2.46	275,000
FH 47-F1, G (L-3351-00)	North Umpqua Highway Grading	3.00	450,000
FH 51-B (L-3352-00)	Belknap Springs Highway Grading	4.43	385,000
Revised unprogrammed balance (lapsing).....			$68,414.66

The Commission gave attention to letters from the Coquille Chamber of Commerce, Coos County Chamber of Commerce and the Port of Coos Bay, requesting immediate improvement of the Powers Secondary Highway between M.P. 6.0 and M.P. 18.6 to permit operation thereover of 60-foot vehicular combinations. The Engineer advised that the 1957 Legislative Assembly passed a law allowing the operation of certain truck-tractor, trailer, and semi-trailer combinations of a length not to exceed 60 feet over the Baker-Homestead Highway and the Powers Secondary Highway. Notwithstanding that the law specifically permits the operation of 60-foot combinations of vehicles over these highways there are sections of the Powers Secondary Highway over which such vehicles cannot operate without encroaching upon the opposing traffic lane. He also pointed out that whereas, the law allows the operation of the longer vehicles, no mention is made therein as to weight, so up to the present time weighmasters have not allowed a gross combined weight in excess of 68,000 pounds. He recommended that the maximum load be increased from 68,000 pounds to 76,000 pounds, subject to limitations on single tandems or groups of axles. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also instructed the Engineer to conduct an investigation as to the cost of improving the Powers Secondary Highway between the mile points previously mentioned to allow the operation of 60-foot combinations of vehicles and to present a report thereon.

The Engineer reported that at the request of the City of Oswego, a traffic investigation was made of conditions at the intersection of "A" Avenue with the Oswego Highway in that city, and that the investigation revealed that a traffic signal should be installed at this location. The city

of Oswego, he continued, has offered to contribute 50 percent of the cost involved. He recommended that a signal be installed on such basis, under the terms of an agreement to be entered into with the city. He estimated the cost of the signal at $7,500, half of which is to be paid by the city. The Commission approved the installation as recommended.

The Commission considered and upon recommendation of the Engineer, granted the following requests for extensions of time within which to complete highway contracts and waived, except as noted, payment by the contractors of engineering expenses and other expenses incurred by the State in connection with the work during the period of the extensions:

1. Inland Construction Company, Contract No. 4683, for grading, paving and construction of the 28th Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from February 28 to August 27, 1957. Approved as requested.

2. Warren Northwest, Inc., Contract No. 4675, for grading and paving on North Main Street in the City of Cornelius, Washington County, requested an extension of time from September 15, 1956 to August 2, 1957. Approved as requested.

3. Columbia Aerial Surveys, Inc., Contract No. 4782, for statewide aerial photography, requested an extension of time from July 31 to September 15, 1957. Approved as requested.

FOOTNOTE: The action taken by the Highway Commission upon the extensions of time within which to complete the highway contracts listed above was made upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 4636, 4675, 4683, 4782, 4896, 4897A, 4919, 4932, 4945, 4952, 4964, 4965, 4978, 4983, 4984, 4989, 4991, 5009, and 5015 for highway construction have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave attention to the revision of stop signs at the intersection of the county road that leads to the Condon Air Force Base and the Wasco-Heppner Highway, in Gilliam County. The Engineer recalled that at the Commission meeting on February 28, 1957 a resolution was adopted adjusting stop signs at this intersection. Subsequently, as a result of negotiations with Gilliam County Court a revision has been agreed upon to

allow free flow of traffic within the intersection without coming to a complete stop. He recommended that the Commission's action of February 28, which provided for the stopping of eastbound traffic on the Wasco-Heppner Highway before entering the intersection with the Condon Air Force Base Road be rescinded and that the "Through-stop" Highway Resolution adopted on September 21, 1949 be amended with respect to the Wasco-Heppner Highway as follows: "Except that at M.P. 40.17 eastbound traffic on the county road from the Condon Air Force Base shall not be required to stop before entering its intersection with the Wasco-Heppner Highway, No. 300." The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from the Directors of Bellview School on Siskiyou Boulevard, US99, at Tolman Creek Road, approximately one mile south of the south city limits of Ashland, for a reduced speed zone in the school area. The Engineer reported that a traffic investigation was made and based on the findings of this investigation it is his recommendation that a 45-mile-per-hour speed zone be established between the east city limits of Ashland at M.P. 325.23 and a point 0.3 mile south of the Tolman Creek Road at M.P. 326.13, except that between a point 600 feet north of Tolman Creek Road and a point 600 feet south of Tolman Creek Road the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Upon the favorable recommendation of the Engineer, the Commission approved payment of $25.00 to Ronald Gasner, Coquille, as full settlement for damage to his car caused by the spray-painting operations of a bridge maintenance crew while painting the Coquille River Bridge on the Oregon Coast Highway in Coquille.

The Commission, upon recommendation of the Engineer, also approved payment of $34.00 to Claude Willhoit, Philomath, as full settlement for damage to his vegetable garden, flowers and shrubs that were sprayed with weed killer by a section maintenance crew on the Corvallis-Newport Highway about three miles west of Philomath. The Engineer explained that on July 24, 1957 the Corvallis section maintenance crew was spraying blackberry vines and other undesirable growth and that a slight wind carried a portion of the spray beyond the limits of the right of way, with subsequent damage to Mr. Willhoit's plants.

Attention was given to a proposed agreement with the U. S. Army Engineers concerning engineering studies pertaining to the relocation of the Columbia River Highway around the proposed John Day Dam. The Engineer explained that the agreement is merely to extend an existing agreement to June 30, 1958, and provides that the State shall be reimbursed for engineering work performed. The purpose of the study, he continued, is to determine the cost to construct the highway on a higher level. The

Commission approved the extended agreement.

The Engineer recommended and the Commission approved the attendance of Ralph B. Sipprell, Director of Permits, at a meeting of the Western Interstate Committee on Highway Policy Problems of the Council of State Governments, in San Francisco on October 31 through November 2, 1957, at an estimated cost of $125.

The Engineer reported that a well belonging to Martin L. Grosser had been damaged by construction of the Wallace Bridge-Sheridan Section of the Salmon River Highway and that Mr. Grosser has demanded that the State drill a new well. He requested authority to drill the well which he estimated would cost not to exceed $1,000. The Commission granted authority to perform the well-drilling operation as requested.

The Chief Counsel reported that a settlement of the condemnation case against Edmond Verdurman involving lots 12 and 13, Block 25, Capitol Hill Addition of the Harbor Drive-Barbur Boulevard Section of the Baldock Freeway in Portland, has been agreed upon for the sum of $1,100, which is only $170 more than the $930 which the Commission authorized to be paid. He recommended that the settlement be approved as it would cost more than $170 to try the case. The Commission approved the settlement.

Consideration was given to an agreement with the City of Eugene and the Eugene Water and Electric Board concerning changes in plans for construction of a frontage road utilizing Augusta Street in the City of Eugene. The Right of Way Engineer explained that it is necessary to move the frontage road and he recommended approval of the agreement. The Commission approved the agreement.

The Engineer reported that the city of Chiloquin wants to annex an area northeast of the city, but to do so must secure the consent of the Highway Commission as the area involves a portion of the State Chiloquin Secondary Highway. He said that the State will not be adversely affected by the annexation and he recommended that no objection be raised thereto. The Commission accepted his recommendation.

The Engineer presented for signature an agreement with the U. S. Army Engineers concerning diking work at the South Yamhill Crossing of the Bellevue-Amity Section of the Bellevue-Hopewell Secondary Highway. He recalled that the agreement previously had been authorized by the Commission and the agreement is now ready for signing. The agreement provides for an expenditure of State funds in the amount of $5,000.

The Engineer reported that a request had been received from the Curry County Judge for a public hearing concerning reconstruction of the Oregon Coast Highway from the California State Line to Gold Beach. The Commission authorized him to conduct such hearing and to set a date for it. (The Engineer later scheduled the hearing for Wednesday, October 23, 1957 in Brookings.)

The Engineer also commented that the public hearing in Klamath Falls has been set for October 17, 1957 concerning the westside by-pass route for The Dalles-California Highway.

Chairman Reynolds stated that the Umatilla County Court has again brought up the matter of extending the VanSycle Federal Aid Secondary (county road) Highway northwesterly from Van Sycle to the Washington State line. He recalled that the County previously requested that this road be designated a state secondary highway but the Commission denied it. It appears that the County Court has an agreement with Walla Walla County, Washington, whereby Walla Walla County will build a connecting road in Washington, four and one-half miles in length when the Oregon portion is completed and the matter comes up now because a paper mill is being located on McNary Dam at Wallula, Washington, which will use a tremendous amount of pulp wood from Weston Mountain, Oregon, and the shortest route to the mill is via VanSycle Canyon. The Commission indicated that it would consider placing the road on the County FAS System for future improvement with County FAS Funds, so far as it lies within the State of Oregon, and accordingly instructed the Engineer to make a rough reconnaissance survey of the road and to render a cost report on the subject.

At the request of Chairman Reynolds, the Engineer reviewed briefly the proposed new three-year highway construction program. He explained projects in each of the five divisions that are under consideration. The Commission deferred action on the matter pending study of a corrected list of projects that the Engineer was asked to prepare.

The Commission approved a three-year extension, from November 2, 1957 to November 2, 1960, of its $50,000 forgery bond written by Pacific Indemnity Company, being policy No. 501137

There being no further business to transact at this time, the meeting adjourned at 12:30 p. m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

October 1, 1957

EXHIBIT "A"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

GRAND AVENUE-UNION AVENUE ONE-WAY COUPLET SECTION - PACIFIC HIGHWAY

26864	Lister, Janet			(Scott)
	Right of Way, 1906 N.E. Union Ave., Sta. 2			
	Option expires March 18, 1958			
	4,500 sq. ft. at $3.50/sq. ft.(3,999 sq. ft. Excess)		$15,750.00	
	Building, 4,500 sq. ft. at $7.05 per sq. ft.		31,750.00	
	Amount to be paid owner-chrg to Right of Way			$47,500.00
	Grantor's pro-rata 1957-58 taxes deducted from settlement			- 240.00
				$47,970.00

EXHIBIT "B"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Goshen-Divide Section of the Pacific Highway described as follows:

A parcel of land lying in the Samuel B. Knox D. L. C. No. 68, also lying in Section 15, Township 20 South, Range 3 West, W.M., Lane County, Oregon, and being a portion of that property conveyed by that deed to the State of Oregon, by and through its State Highway Commission, recorded Nov. 19th, 1954 on Reel 48, 54 D, Instrument #42986, of Lane County Records of Deeds. The said parcel being that portion of said property lying Westerly of a line parallel to and 75 feet Westerly of the center line of the Pacific Highway as said highway was relocated in 1953, which center line is described as follows:

Beginning at Engineer's center line Station 636+50, said Station being 60.4 feet South and 481.6 feet East of the N.W. corner of said Samuel B. Knox D. L. C. No. 68; thence S 20° 40' W 2350 feet to Station 660+00, said center line crossing the North Line of said property and the South line of said Section 15 approximately at Stations 638+22 and 649+50 respectively.

The parcel of land to which this description applies contains 3.8 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes:

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway. Access will be by way of a County Road

EXHIBIT "B" (Cont)

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 53 be entered in the minutes and records of the Commission as of the 1st day of October, 1957.

EXHIBIT "C"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4636, with J. J. Walton for illumination installation on the Goshen-Anlauf Unit, Goshen-Myrtle Creek Section of the Pacific Highway in Lane County, completed August 22, 1957.

"Contract No 4675, with Warren Northwest, Inc., for paving on the Cornelius (N. Main St.) City Street Section in Washington County, completed August 2, 1957.

"Contract No. 4683, with Inland Construction Co. for constructing 28th Ave. Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed August 27, 1957.

"Contract No. 4782, with Columbia Aerial Surveys, Inc., for state-wide aerial photography, completed September 15, 1957.

"Contract No. 4896, with Babler Bros., Inc., for oiling on the Fort Klamath, Chiloquin and Klamath Falls Sections of the Klamath Lake, Chiloquin and The Dalles-California Highways in Klamath County, completed September 13, 1957.

"Contract No. 4897A, with Pacific Marine Service for Springfield Bridge Maintenance painting on the McKenzie Highway in Lane County, completed September 13, 1957.

"Contract No. 4919 with Russell Olson Construction Co., Inc., for stone leveling course and oiling on the Cove Avenue and Fruitdale Road on city street and county road in Union County, completed September 14, 1957.

"Contract No. 4932, with Leslie Harris for oiling on the La Grande-Haines Section of the Old Oregon Trail and La Grande-North Power Highways in Union and Baker Counties, completed September 17, 1957.

"Contract No. 4945, with C. E. Leseberg for furnishing crushed material in stockpiles on the Baker-Oxman Section of the Old Oregon Trail Highway in Baker County, completed September 16, 1957.

"Contract No. 4952 with Rochat Electric for installing traffic signals at Tigard on the Pacific Highway West in Washington County, completed September 20, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4964 with H. J. and H. W. Miller for stone base and paving on the Elgin (Division St. and S. 7th Avenue) City Street Section in Union County, completed September 17, 1957.

"Contract No. 4965, with Leslie Harris for grading and paving on the North Powder ("G" Street) City Street Section in Union County, completed September 23, 1957.

"Contract No. 4978 with Decatur & Maerz for constructing the Alsea maintenance building on the Alsea-Deadwood Highway in Benton County, completed September 10, 1957.

"Contract No. 4983, with Russell Olson Construction Co., Inc., for paving on the Milton-Freewater (Poplar and W. Broadway Sts.) City Street Section in Umatilla County, completed September 25, 1957.

"Contract No. 4984, with Horton Construction Co. for oiling on the Clear Creek-Willow Creek and Timberline-Government Camp Sections of the Warm Springs and Timberline Highways in Wasco and Clackamas Counties, completed September 12, 1957.

"Contract No. 4989, with Babler Bros., Inc., for grading and oiling on the Lobert Channelization Section of The Dalles-California Highway in Klamath County, Completed September 9, 1957.

"Contract No. 4991, with Eugene Gardens for grading and paving on the Siuslaw Junction Section of the Pacific Highway in Lane County, completed September 9, 1957.

"Contract No. 5009, with J. C. Compton Co. for oiling on the Radar Station-Condon Junction Section of the Seales County Road in Gilliam County, completed September 18, 1957.

"Contract No. 5015, with Calkins Crushing Company for stone revetment on the Harrisburg Bridge Section of the Pacific Highway in Lane County, completed September 17, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 66 shall be entered in the minutes and records of the Commission as of the 1st day of October, 1957.

29008

EXHIBIT "D-1"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreements, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of October, 1957, as Condemnation Resolution No. 870.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 870, under the heading "Real Property Condemnation Resolutions", and said descriptions maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-2"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "D-2" (Cont)

2. That the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of October, 1957, as Condemnation Resolution No. 871.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 871, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or "through" highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949, the Highway Commission declared the Wasco-Heppner Highway No. 300 to be a "through" highway and stipulated that traffic should stop before entering said highway; and

WHEREAS, on the 28th day of February, 1957, based on the results of an engineering investigation and the recommendation of the State Highway Engineer, the Commission modified said resolution of September 21, 1949, by providing that "eastbound traffic on the Wasco-Heppner Highway No. 300, (ORE 206), shall stop before entering the junction of the Condon Air Force Base Road at M.P. 40.17"; and

WHEREAS, subsequent to the above-mentioned modification, improvements have been made at the intersection of the Wasco-Heppner Highway and the Condon Air Force Base Road so that it no longer is necessary that traffic on the Wasco-Heppner Highway stop before entering the said intersection,

NOW, THEREFORE, based upon said improvements and upon the recommendation of the State Highway Engineer, this Commission does hereby find, declare, resolve and order as follows:

1. That said resolution of September 21, 1949, be amended by deleting the following exception pertaining to the Wasco-Heppner Highway:

"Exception: Eastbound traffic on the Wasco-Heppner Highway No. 300, (ORE206), shall stop before entering the junction of the Condon Air Force Base Road at M.P. 20.17", and by adding the following exceptions:

"Exception: Eastbound traffic on the county road from the Condon

EXHIBIT "E"

Air Force Base shall not be required to stop before entering its intersection with the Wasco-Heppner Highway No. 300 at M.P. 40.17."

In all other respects, the provisions of said resolution of September 21, 1949, shall remain in full force and effect.

2. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

3. That this resolution shall be entered in the minutes and records of the Commission as of the first day of October, 1957, as "Through Highways" Resolution No. 13-e, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads, and a like copy to the County Clerk of Gilliam County and to the Superintendent of the Department of State Police for their information.

EXHIBIT "F-1"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway

Highway number 1 Route number US99

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
325.23 (east city limits of Ashland)	326.13 (0.3 mile south of Tolman Creed Rd.)	45

except that between a point 600 feet north of Tolman Creek Road and a point 600 feet south of Tolman Creek Road the indicated speed shall be 20 miles per hour during the hours of school crossings.

EXHIBIT "F-1"

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 255 be entered in the minutes and records of the Commission as of the 1st day of October, 1957.

EXHIBIT "G"

Minutes of October 1, 1957

RESOLUTION

WHEREAS, Chapter 483 of Oregon Revised Statutes, sets forth maximum limits with respect to the weight of vehicles or combinations of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combination of vehicles having weight in excess of said maximum limits; and

WHEREAS, under the provisions of ORS §483.525, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection 3 of ORS 483.506, the commission is authorized to so declare by resolution and to fix the maximum gross weight of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permits shall be required for the operation upon such highway of any combination of vehicles not exceeding the maximum gross weight fixed for combinations of vehicles of that type and class; and

WHEREAS, State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength and stability of the Powers Secondary Highway No. 242, and

WHEREAS, the 1957 Legislature enacted into law Chapter 621, Oregon Laws 1957, allowing the maximum length of certain enumerated combinations of vehicles to be extended to 60 feet when operating on the State Highway No. 242 (Powers Secondary Highway) and when operating on State Highway Route No. 86;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this commission as follows:

1. That based upon the legislative mandate that the maximum overall length of certain combinations of vehicles traveling the Powers Secondary State Highway No. 242 may be extended to 60 feet, and based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this commission that the Powers Secondary State Highway No. 242 between Milepost 6.0 and Powers and State Highway Route No. 86 between Richland and Halfway are capable of carrying combinations of vehicles having a gross weight in excess of that authorized in subsection 3 of ORS 483.506.

EXHIBIT "G" (Cont.)

2. That notwithstanding Paragraph No. 2 of State Highway Commission Resolution No. 208, dated August 8, 1957, any combination of vehicles consisting of a truck and trailer, or of a truck tractor and semi-trailer drawing one trailer, or a truck tractor and semi-trailer drawing one additional semi-trailer mounted on a dolly equipped with a fifth wheel having a gross weight not in excess of 76,000 pounds, may be operated without a permit upon that section of the Powers Secondary State Highway No. 242 which lies between Milepost 6.0 and Powers, and upon State Highway Route No. 86 between Richland and Halfway.

3. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weight set forth in the tables of weight in subsections (3) and (4) or ORS 483.524, nor any gross wheel, axle or tandem axle weight in excess of that set forth in subsection (3) of ORS 483.506. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon PUC plate and certificates or, except as otherwise expressly provided herein, which does not comply in all respects to the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

4. That this resolution be entered in the minutes of the Commission as of the 1st day of October, 1957, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.

Portland, Oregon
October 31, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Charles H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction as follows, were opened and read aloud by the Secretary, who then announced that the Commission would award contracts at 4:00 p.m. for projects on which bids were received in the Salem office on October 3, as well as for the projects on which bids were received this morning:

A delegation from Tillamook County came before the Commission concerning the closure of certain county roads on the Tillamook-Donaldson Creek Section of the new Wilson River Highway a short distance east of Tillamook. The following people were present: O. E. Effenberger, Tillamook County Judge; Charles Ross, Chairman of Tillamook County Highway Committee; Burford Wilkerson, Manager, Chamber of Commerce; Mr. Maxwell, Pomona Grange of Tillamook County. Judge Effenberger, who acted as spokesman, introduced the members of the delegation. Mr. Maxwell requested that access to the new highway be granted from Schild Road on the south as well as from the north side so farmers can move their equipment directly across the highway without the hazard that is created by moving slow, wide equipment parallel with traffic. He also requested access from both sides of the highway at Randall Corner (Maxwell private road) and he advised that if that is granted they would not ask for access on both sides of the highway at Donaldson Road. Commissioner Reynolds stated that the matter would be discussed with the Engineer and the delegation would be advised of their decision in the near future. (Near the end of the day the matter was again considered and upon the recommendation of the Engineer, the Commission approved opening of the Schild Road and the Maxwell road at Randall Corner as requested by the delegation. These changes are to be incorporated as an amendment to the existing agreement with Tillamook County.)

The Commission deferred until later in the session approval of the minutes of the special meeting held in Salem on August 29, and of the regular Commission meetings held on September 12 and 13 and on October 1, 1957. (See minute entry ahead.)

The Parks Superintendent introduced Mr. A. D. "Cap" Collier, Klamath Falls, a member of the Parks Advisory Committee, who was present, following which he presented the following Parks matters:

1. Parks budget for the year 1958: In discussing the Parks budget, Commissioner Chessman inquired as to why the Parks budget is submitted separately from the Highway budget. The Engineer explained that the Parks Division, being a separate entity under the Highway Commission, submits a separate budget so that adequate detail can be shown concerning Parks matters. He also explained that a separate budget is submitted for the Travel and Information Department for the same reason, however, both of these budgets are included in the general highway budget. After due consideration and some further discussion, the Commission approved the Parks budget as presented. (Details concerning this budget may be found in the Parks budget filed in the office of the Commission in Salem.)

2. Proposed grazing lease on the former Joseph property located between the Columbia River Highway and the Union Pacific Railroad near Rooster Rock Park: The Parks Superintendent explained that the property had been purchased in 1938 with a clause allowing grazing rights for a period of 20 years. The 20-year period expires January 1, 1958, and as there have been several requests for the grazing right, he recommended that bids be received for a 5-year period beginning January 1, 1958. The Commission approved the recommendation.

3. Request of Jack Flaucher, concessionaire at Depoe Bay, that he be permitted to close the Depoe Bay concession building during the months of January, February, and March except on week ends: The Parks Superintendent reported that there is very little tourist travel during these months and as a consequence, the concession does very little business. He recalled that although only one bid had been received for operation of the concession, there still remains the question of whether to permit modifications of the contract. The Engineer pointed out that the building had been constructed to provide rest room facilities for public convenience as well as the concession and there would probably be objections if it were closed. The Commission deferred action on the matter pending further study by the Park Superintendent and another report by him at the next meeting.

4. Request of Columbia Telephone Company to install a telephone booth in Rooster Rock State Park: The telephone is urgently needed, the Parks Superintendent reported, and he recommended that the installation be allowed at a site to be selected by the Parks Department, the arrangement to be covered by an agreement which, among other things, will provide that the Telephone Company shall pay to the State 15% of gross receipts. The Commission approved the installation on such basis.

5. Petition from residents of Klamath County for overnight camping privileges at Kimball State Park near Fort Klamath: The Parks Superintendent advised that facilities for day use have been provided at this Park, but the area is too small to accommodate overnight camping facilities, moreover, it would be difficult and expensive to maintain. He recommended that the request be denied. It was his opinion that overnight facilities, however, should be provided at Collier State Park if proper arrangements can be made with an adjacent property owner and when the need has been established. He mentioned that an oral agreement had been made at one time with the owner of the adjacent property, a Mr. Lorenz, who planned to establish similar facilities just north of Collier Park to the effect that the State would not duplicate these facilities, however, Mr. Lorenz has not provided such facilities. It was the Parks Superintendent's opinion that satisfactory arrangements can be made with Mr. Lorenz. The Commission denied the request for overnight camping at Kimball State Park and authorized the Park Superintendent to negotiate with Mr. Lorenz relating to providing such facilities in Collier State Park. The Commission approved establishment of overnight camping in Collier Park if and when Mr. Lorenz's objections have been eliminated.

6. Sale of down and dead timber in Humbug Mountain State Park: This timber, the Parks Superintendent stated, lies in the north edge of the park and consists of 44 MFBM of dead and down trees. The value of the logs he estimated at $10.00 per thousand, or a total of $440.00. He said that Mr. George Kalina of Port Orford has requested that he be allowed to purchase the logs at this price and as no one else has evidenced any interest in the logs he recommended acceptance of Mr. Kalina's offer. The Commission approved the recommendation.

7. Report on study concerning concessions in Oregon State Parks: The Parks Superintendent presented an eleven-page written report on this matter and remarked that it is his opinion that concessions should be allowed at a few parks on a trial basis to determine the actual need and use as well as to discover various problems that may accompany the concessions. He anticipated that there might be some opposition from private businesses. Other matters to be considered would be the scattering of trash and the amount that should be charged for concession privileges. He recommended the establishment of a food and refreshment concession and possibly a boat concession at Rooster Rock State Park; a food concession at Fort Stevens Park; a mobile-type unit to supply campers' needs at Beverly Beach and Humbug Mountain Parks; and vendor-type sales at Honeyman State Park located in the bathhouse. The Commission accepted his report and approved the recommendation for establishment of concessions. (For details see copy of the Parks Superintendent's report, dated October 28, 1957, in the General Files.)

8. Offer of A. West Johnson, Eugene, to donate 140 acres of land adjoining a short road leading to the beach at Hug Point, south of Cannon Beach: The Parks Superintendent stated that Mr. Johnson has made the offer with some restrictions including the requirement that the State purchase a house which is surrounded by the land. Mr. Johnson, he continued, has been absent and there are some points which have not been fully resolved. He requested authority to continue negotiations. The Commission approved his request.

9. Report on proposed uniforms for park employees: As instructed at a previous Commission meeting, the Parks Superintendent stated that he had made a thorough examination concerning uniforms for park employees including the practice followed in other states and by other agencies within Oregon. Consideration was also given to the matter of weather conditions which may vary greatly in the eastern and western parts of the State, as such conditions affect the kind of uniforms to be worn. It also appears desirable, he continued, that the type of material and cloth be selected by the state and that the employees purchase the uniforms at local clothing stores in order to provide well fitting clothes. No color has been selected nor has there been a determination on the design of the shoulder patch to be worn. It was his feeling that those park employees who meet the public should wear a good looking coat and slacks of gabardine, a shirt, tie, hat, and suitable shoes. He recommended that employees who are required to wear woolen gabardine material be allowed the sum of $25.00 annually for uniforms and that employees who are required to wear suntan type of clothing be allowed the sum of $15.00 on the first outlay requiring this type of uniform, after which no allowance is to be made. Lifeguards would be required to wear swim suits of a standard color and design to be selected by the State and be allowed the sum of $15.00 annually for the purchase of such clothing. As a result of discussion the Commission approved the recommendations as made by the Parks Superintendent, with the stipulation that the requirement shall be effective in the spring of 1958 as a trial proposition and that changes thereafter may be made if deemed necessary, also that only those employees who meet the public shall wear uniforms.

The Parks Superintendent reported a trespass of state land in the Carpenterville-Brookings Wayside in Curry County by J. E. Phillips and Elmer C. Jordan. These men, he said, inadvertently removed timber which at double value, amounted to $434.00, or $217.00 to each of them. Mr. Jordan wishes to pay his entire share but has requested a covenant whereby the State agrees not to sue him for the amount that might remain unpaid by Mr. Phillips. He pointed out that there was no apparent intent to defraud the State and that it is very difficult in that area to determine boundary lines. The Commission approved the settlement as presented by the Parks Superintendent and also approved a covenant not to sue Mr. Jordan.

Receipt of a deed from Marion County for a strip of land 5500 feet long fronting on the Willamette River adjoining Champoeg State Park was reported by the Parks Superintendent. He recalled that several months ago the Marion County Court agreed to deed approximately one mile of right of way which had been dedicated for a county road which was never constructed. The land, he stated, will fit in with proposed plans for development of Champoeg State Park, and he recommended that the deed be accepted. The Commission accepted the deed with thanks.

The Right-of-Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway right-of-way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The meeting recessed at 11:45 a.m. and reconvened at 2:15 p.m. in the same room and with the same persons present, following a luncheon held in the Congress Hotel honoring C. H. Armstrong, State Parks Superintendent, sponsored by the Visitors Service Committee of the Portland Chamber of Commerce.

Immediately upon reconvening the meeting, the Parks Superintendent introduced the members of the State Parks Advisory Committee, as follows: Mr. Glen Jackson, Medford; Mr. V. W. McCormack, Pendleton; Mr. Robert B. Frazier, Eugene; Mr. A. D. Collier, Klamath Falls; Mr. George Henderson, Portland; and Mr. William Tugman, Reedsport. Chairman Reynolds welcomed the members of the Committee and stated that he felt that with their combined knowledge, they would contribute much to the development of the Oregon State Parks system and would be of great help to the Highway Commission. The Commission, he stated, has no intent to interfere with or dictate to the Committee but intends to work with the Committee in much the same manner as the Commission has worked with the Travel Advisory Committee. The Commission, he continued, desires the advice and guidance of the Parks Advisory Committee. Mr. Tugman stated that he had no particular comments to make at this time other than it might be in order for them to withdraw and organize. The other members of the Committee indicated a similar attitude whereupon the Committee withdrew in company with the Parks Superintendent.

The Commission resumed discussion of matters appearing on the

agenda as follows:

The Right-of-Way Engineer presented the Property Manager's monthly report on miscellaneous sales dated October 31, 1957, showing sales in the amount of $13,097. He also presented the Property Manager's rental report showing new rentals during the period from August 26 to October 17, 1957, and a report showing rental terminations during the same period. Rental receipts for the month of September, he pointed out, were $9,286.00. (For additional details, see copies of the reports in the General Files.)

Changes in points of access to a number of State Highways were presented by the Right-of-Way Engineer, who explained that in each instance no additional access has been granted but the changes are simply in the locations of existing accesses. The Commission approved the following changes in access:

1. Mathis-Holstad property, File 24163, on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County.

2. Marcus property, 22841, on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County.

3. Weaver property, 12095, on the Glendale Junction-Wolf Creek Section of the Pacific Highway in Josephine County.

4. Weaver property, File 12096 and 12097, on the Glendale-Wolf Creek Section of the Pacific Highway in Josephine County.

5. Moon property, File 25519, on the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway in Jefferson County.

Attention was given to a claim submitted by A. C. Baumback for extra work performed in moving a house on the North Jefferson Junction-Albany Section of the Pacific Highway in Marion County. The Right-of-Way Engineer stated that because of changes in highway design, it was necessary to move the house farther than was originally contemplated and Mr. Baumback had to construct a longer driveway. It was his opinion that Mr. Baumback's claim in the amount of $200.00 is legitimate and he recommended that it be paid. The Commission approved the payment.

Authority was requested by the Right-of-Way Engineer to offer at public sale a parcel of excess property formerly owned by a Mr. Kunz, File 15503, located on the T. H. Banfield Expressway in Multnomah County. This property, he said, is no longer required for right-of-way purposes and has been appraised at $7,500.00. Also that access is to be allowed to 102nd Avenue. The Commission authorized the sale of the property by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a proposed exchange of properties with Mr. Charles M. Brooks, near Hunter Creek on the Oregon Coast Highway south of Gold Beach. The Right-of-Way Engineer explained that Mr. Brooks holds an easement for a roadway from his property to the beach, which will be crossed by the new highway, and he has offered to exchange this parcel of property for a State-owned parcel nearby. The State-owned parcel, he stated, is not needed for highway purposes and as the value of the two parcels is approximately the same, he recommended that the exchange be approved. The Commission approved the exchange.

Upon the favorable recommendation of the Right-of-Way Engineer, the Commission approved granting access to Mr. and Mrs. F. W. Triska from their property to the highway on the South Unit, Forest Boundary-Burns section of the John Day-Burns Highway in Harney County. The Right-of-Way Engineer explained that in acquiring the property, access had been restricted except for existing driveways. One driveway was overlooked for which it had been intended to allow access.

The matter of allowing compensation in the sum of $3,630.00 to Bonneville Power Administration on the Comstock-Anlauf Section of the Pacific Highway in Douglas County was discussed. The Right-of-Way Engineer stated that when this section of the highway was constructed, the Bonneville Power line was crossed and through an oversight, no negotiations were conducted with them. It has now been determined that the clearance between the highway and the power line is not sufficient so the line must be raised. He estimated the cost involved at $3,630.00 and advised that the State is obligated to pay the actual cost of the work which will be performed by the Bonneville Power Administration. The Commission approved the payment, and authorized the preparation of a trust agreement pertaining thereto.

A Bargain and Sale Deed conveying to Weyerhaeuser Timber Company excess right-of-way on the old Millicoma Bridge Unit of the Coos River Highway in Coos County was considered. In acquiring right-of-way for the new Millicoma Bridge Section the Right-of-Way Engineer remarked, it was agreed to transfer to the timber company a small loop on the old highway that was to be abandoned. The Company has asked that the property be transferred to them by deed so that it can be recorded. It was his opinion that the request is legitimate and he recommended that the deed be granted. The Commission approved the deed.

Consideration was given to the vacation of Custer and Canby Streets in the vicinity of S. W. 13th Avenue in Portland. The Right-of-Way Engineer stated that a request had been received from the Fred Meyer Company in Portland for the vacation and that Commission consent is required as the Commission owns property nearby. He could see no reason to protest the vacation and he recommended that no objection be offered. The Commission accepted his recommendation and granted him authority to sign the "Consent to Vacate" form.

The Right-of-Way Engineer presented a Bargain and Sale deed conveying to Crown Zellerbach Corporation a 1-inch strip of land immediately above high water mark of the Willamette River between 9th and 15th Streets in

Oregon City. He explained that in 1955 the Commission sold to Crown Zellerbach Corporation riparian rights between 9th and 15th Streets for the sum of $10,000. Subsequently, title companies refused to furnish title insurance to Crown Zellerbach because there was no land included in the instrument conveying title to the riparian rights. Transfer of the 1-inch strip of land will remedy this difficulty and he recommended that the deed be approved. The Commission approved the deed.

The Right-of-Way Engineer also brought up for discussion a settlement pertaining to the Smith property on the Finn Rock-Elk Creek section of the McKenzie Highway east of Eugene. He advised that when the right of way was acquired it was agreed to provide an access. After construction, however, it was found impossible to provide satisfactory access at the stipulated point but by subsequent negotiations with Mr. Smith, agreement has been reached whereby he will accept the sum of $1500.00 in lieu of the promised access. Following his favorable recommendation, the Commission approved the payment of such sum.

The Chief Counsel requested authority to acquire by condemnation if necessary the following described properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Forest Grove-Cornelius Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-26515 - Archdiocese of Portland in Oregon

Material Source (Yamhill County)
16.38 acres
Amended resolution to include covenant

DAVIS SLOUGH-BANDON SECTION OF THE OREGON COAST HIGHWAY

R-26097 - David R. Philpott and Ruth J. Philpott
Coos County
Parcel No. 1: 15.1 acres for Right of Way
Parcel No. 2: 0.15 acre for an Easement for an Approach Road
Amended resolution to eliminate Parcels No. 2 and 3 of resolution dated August 8, 1957. (Said parcels are set up under file No. R-27262 below for condemnation.) Also,

Davis Slough-Bandon Section of the Oregon Coast Highway Continued

to authorize condemnation of Parcel No. 2 above.

R-26098 - Heirs of E. E. Stillwell
Coos County
Parcel No. 1: 8.1 acres for Right of Way
Parcel No. 2: 4.4 acres for Excess Taking
Amended resolution to change location of access point

R-26105 - Martin Clausen
Coos County
Acquiring interest in frontage road

R-27262 - David R. Philpott and Alfred E. Maneely, et al.
Coos County
Parcel No. 1: 9.2 acres for Right of Way
Parcel No. 2: 10.7 acres for Material Source

HARBOR DRIVE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY (formerly Portland-Salem Expressway)

L-2816 (R-26411) - Ira R. Lyon, et al.
Multnomah County
Parcel No. 1: 10,303 square feet for right of way
Parcel No. 2: 17,337 square feet for a Slope Easement
Amended resolution for change in access provision and change in descriptions of Parcel No. 1 and Parcel No. 2

WASHINGTON COUNTY LINE-HILLSDALE SECTION OF THE BEAVERTON-HILLSDALE HIGHWAY

R-27172 - August A. Schuler and Mona V. Schuler
Multnomah County
Parcel No. 1: 1,5[illegible] square feet for Right of Way
Parcel No. 2: 500 square feet for a Permanent Slope Easement

Right-of-way maps and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action on the Chief Counsel's request was deferred by the Commission pending study of the material submitted.

(Condemnation of the parcels as submitted was authorized on the following day. See minute entry ahead.)

The Commission accepted a report submitted by the Chief Counsel concerning condemnation cases which were tried in court during the period September 13 to October 22, 1957, summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
September 13, 1957 to October 22, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Thorpe, et al R-25686	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 806	$ 806	$ 806 Jdgmt.
Brandon R-22114	Marion	Pacific	Salem By-pass Jefferson Jct.	600	800	950
Ryan, et ux R-26553	Marion	Pacific	Salem By-pass	210	210	210 Jdgmt.
Adolf, et al R-25344	Yamhill	Hillsboro-Silverton	Newberg-Gearin Corner	8,500	16,000	8,750
Walton, et ux R-22711	Multnomah	Portland-Salem Expressway	Harbor Dr. Barbur Blvd.	965	4,500	3,000

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2730 L-2731	California-Oregon Power Co.	State of Oregon	Jackson	Inverse condemnation of power line overhang easements.	$ 260 plus attorneys' fees in each case.	Judgment for plaintiff in amount of $260 in each case. Total $1404.46 plus court costs.
L-2769	C. E. Wells, et al	State of Oregon	Jackson	Erroneous estimate of excavation in advertised proposal for construction contract.	3,356.32	Judgment for plaintiff in amount of $3,356.32

(For additional details concerning the cases tried, see the Chief Counsel's letters dated October 25 and October 30, 1957, in the General Files).

October 31, 1957

The Commission also accepted a report submitted by the Chief Counsel showing settlements of condemnation cases and other cases which have been made out of court since the last Commission meeting, summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Brunell, et al R-24606	Coos	Coos River	Catching Slough-Chandler Bridge	$ 1,745	$ 4,500
Verdurmen, et ux R-24837	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	930	1,100
Johnson, et ux R-22908	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	5,750	5,750
Lois M. Clough & Huron Clough R-26509	Douglas	Pacific	Myrtle Creek-Canyonville	500	17,000 Both cases
R-23758 & R-25140	Douglas	Pacific	Myrtle Creek-Canyonville	14,225	
Rahoutis, et ux R-22772	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	22,650	26,000 (see footnote)
Stone, John A. and Virginia A. R-26153	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	42,000	47,345 (see footnote)
Carter, et ux. R-26405	Columbia	Columbia River	Goble-St. Helens	6,070	6,070
Laurance, et ux R-23035	Douglas	Pacific	Shady Canyonville	125	200
Spurrier R-22890	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	15,000	15,000

Report of Condemnation cases settled (continued)

Case	County	Highway	Section	State's Offer	Amount of Settlement
Foster, Lola O.	Columbia	Columbia River	Goble-St. Helens	$ 85	$ 200
Wyatt, et ux. R-26406	Columbia	Columbia River	Goble-St. Helens	217	220
First National Bank of Portland, Adm. of Estate of Ed McSorley, deceased R-25089	Linn	Pacific	N. Jefferson Jct. -Albany	29,700 Land only	29,700

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Amount of Settlement
L-2560	Gloria Scott Buffington	State of Oregon	Curry	Inverse condemnation of land.	$ 5,962 plus 1,500	$ 3,500

(For additional details concerning condemnation cases and other cases settled, see Chief Counsel's letters dated October 25 and 30, 1957, in General Files).

FOOTNOTE: In discussing the settlement with George A. Rahoutis, on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway, the Chief Counsel advised that the Bureau of Public Roads will cooperate only on the basis of $22,500, the amount of the low appraisal, whereas he is recommending payment of $26,000, which is $2750 less than the high appraisal. The Engineer pointed out that if the settlement is approved the State stands to lose the difference between $22,500 and $26,000, whereas if the case is tried in court the Bureau of Public Roads will participate in whatever amount the court awards. He suggested that it would be advisable to take the matter to court. The Right-of-Way Engineer stated that Mr. Mathias of the Bureau of Public Roads indicated to him that the Bureau will not participate in an amount over $22,500. It was his feeling that if the case is tried in court the verdict will be at least $26,000. Mr. C. G. Polk, Division Engineer of the Bureau of Public Roads who was present, remarked that he would ask his Portland Office to make another appraisal of the property. The Commission asked him to do so and instructed the Engineer to report the results thereof. The Commission approved the settlement of $26,000 with Mr. Rahoutis, provided that the Bureau of Public Roads will participate in that amount.

A similar instance was discussed in the case of Stone in which a right-of-way agent inadvertently took an option for $47,345 whereas the state had offered $42,000. The Chief Counsel stated that he originally recommended rejection of this offer but now wishes to recommend its acceptance. The Commission approved the settlement at $47,345.

In compliance with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel submitted offers for acquisition of real property, which offers are to be tendered to the property owners prior to the institution of condemnation proceedings, as follows:

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25403 - Church Extension Plan, et al. 0.13 acre for right of way purposes. Offer of $3,730.00 approved by Mr. McIver October 3, 1957.

R-25415 - John W. Schmalz, et ux. 1.32 acres for right of way purposes. Offer of $9,115.00 approved by Mr. McIver October 30, 1957.

R-25416 - Bill N. Lenz, et ux. 2.26 acres for right of way purposes. Offer of $2,410.00 approved by Mr. McIver October 3, 1957.

R-25425 - Marilyn Sullivan, et vir. 0.2 acre for right of way purposes. Offer of $3,500.00 approved by Mr. McIver September 30,1957.

R-25430 - John P. Schmitz, et ux. 0.41 acre for right of way purposes. Offer of $750.00 approved by Mr. McIver September 30, 1957.

R-25438 - S. A. Mollner, et al. 0.19 acre for right of way purposes. Offer of $185.00 approved by Mr. McIver October 7, 1957.

R-25441 - Alvin Eri, et al. 0.7 acre for right of way purposes. Offer of $1,000.00 approved by Mr. McIver October 2, 1957.

R-25537 - Mary O. Murphy, et al. 3.8 acre for right of way purposes. Offer of $14,550.00 approved by Mr. McIver October 8, 1957.

R-25687 - Orval F. Morrison, et ux. 2.31 acres for right of way purposes. Offer of $2,176.00 approved by Mr. McIver September 24, 1957.

R-25706 - Jay B. Edmunds. 0.13 acre for right of way purposes. Offer of $100.00 approved by Mr. McIver September 30, 1957.

R-26685 - Ernest J. Perasso, et ux. 0.07 acre for right of way purposes. Offer of $350.00 approved by Mr. McIver October 3, 1957.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-22513 - E. C. Urbigkeit, et ux. 2.36 acres for right of way purposes. Offer of $43,210.00 approved by Mr. McIver October 7,1957.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) Continued

R-22526 - Almas J. Overby, et ux. 5,336 square feet for right of way purposes. Offer of $4,450.00 approved by Mr. McIver October 8, 1957.

R-22778 - John H. Janusch. 5,000 square feet for right of way purposes. Offer of $300.00 approved by Mr. McIver September 24, 1957.

R-22890 - Ravena T. Spurrier. 5,000 square feet for right of way purposes. Offer of $15,000.00 approved by Mr. McIver September 24, 1957.

R-22892 - Louie Foo, et ux. 5,000 square feet for right of way purposes. Offer of $775.00 approved by Mr. McIver October 10, 1957.

R-22908 - Hawkin J. Johnson, et ux. 3,667 square feet for right of way purposes. Offer of $5,750.00 approved by Mr. McIver September 24, 1957.

R-23684 - William Henry Curl, et al. 3,680 square feet for right or way purposes. Offer of $4,250.00 approved by Mr. McIver October 9, 1957.

R-23715 - Emma B. Lochridge, et vir. 8,600 square feet for right of way purposes. Offer of $4,500.00 approved by Mr. McIver October 8, 1957.

R-24608 - Millen F. Kneeland, et al. 5,000 square feet for right of way purposes. Offer of $12,500.00 approved by Mr. McIver September 24, 1957.

R-24638 - Leonard L. Haynes, et ux. 5,000 square feet for right of way purposes. Offer of $9,000.00 approved by Mr. McIver September 24, 1957.

R-24639 - Walter T. Sherman, et ux. 5,000 square feet for right of way purposes. Offer of $11,500.00 approved by Mr. McIver September 24, 1957.

R-24923 - John F. Kerrigan, et al. 76.7 square feet for right of way purposes. Offer of $10.00 approved by Mr. McIver October 9, 1957.

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East)

R-25312 - C. A. Huntington, et ux. 8.15 acres for right of way purposes. Offer of $9,400.00 approved by Mr. McIver October 8, 1957.

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) Continued

R-25317 - Charles A. Bonnett, Jr., et al. 9.2 acres for right of way purposes. Offer of $14,350.00 approved by Mr. McIver October 3, 1957.

R-25378 - John Glaser, et al. 1.25 acres for right of way purposes. Offer of $250.00 approved by Mr. McIver October 9, 1957.

R-25490 - Royce C. Holloway, et al. 24.79 acres for right of way and 13.22 for a material source. Offer of $15,450.00 approved by Mr. McIver October 10, 1957.

Pleasant Hill-Creswell Section of the Springfield Creswell Highway

R-26804 - Vernon Chitwood, et ux. 5.04 acres for right of way purposes and 0.69 acre for channel change easement. Offer of $3,150 approved by Mr. McIver October 3, 1957.

Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East

R-26871 - Morehouse Holding Company. 1,797 square feet for right of way purposes and 3,690 square feet for a slope easement. Offer of $15,717.50 approved by Mr. McIver September 26, 1957.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23949 - Sadie F. Lee. 1.00 acre for right of way purposes. Offer of $4,154.00 approved by Mr. Reynolds October 10, 1957.

Beaverton-Hillsdale Highway

R-23471 - Helen C. Tatum, et al. 2,164 square feet for right of way purposes. Offer of $1,000.00 approved by Mr. McIver October 3, 1957.

The Commission approved the offers as reported.

The Commission accepted a report submitted by the Chief Counsel concerning matters that have been before the Public Utilities Commissioner, summarized as follows:

PUX 183: Replacement of county road overcrossing of the tracks and right of way of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, near Lime in Baker County. The applicant requested that the proceeding be discontinued until the final location of the Old Oregon Trail has been determined. The request was granted.

PUX 197: Glover Overcrossing of the Old Oregon Trail, Union County. Subsequent to issuance of the original order, Union Pacific

Railroad Company raised its rails approximately 9 inches, and it was necessary to apply for a revised authorization, which was issued by the Public Utilities Commissioner on October 22, 1957.

PUX 214: Application of the City of Medford for authority to construct a crossing at grade with tracks of Southern Pacific Company on Eighth Street, and for revision of location of signals on Main Street. The Public Utilities Commissioner assessed all costs against the City and required Southern Pacific Company to maintain the signals.

PUX 233: Application of Southern Pacific Company for authority to construct two yard tracks at grade across Maxwell Road and Oak or Bushnell Road in Lane County. These are county roads in which the Highway Commission has no interest.

PUX 238: Sidewalk crossing of the tracks of Union Pacific Railroad Company in the city of Hermiston in Umatilla County: The Public Utilities Commissioner has no jurisdiction outside of the railroad right of way so the part of the project concerning a pedestrian walk on the route of the highway through the city was not made a part of the order.

PUX 245: Second Geer Branch Overcrossing of the tracks and right of way of Southern Pacific Company on the Salem By-pass Section of the Pacific Highway in Marion County. The Railroad Company is to be reimbursed for its cost in connection with the structure as permissible under Federal regulations.

PUX 246: Second Mainline Crossing of the tracks and right of way of Southern Pacific Company. The Railroad Company is to be reimbursed for its cost in connection with this project, as permissible under Federal regulations.

PUX 247: Application of City of Springfield to establish a pedestrian crossing at grade for the tracks and right of way of Southern Pacific Company at "M" Street. This is purely a municipal matter and no objections were made to the issuance of such order or orders as might be proper.

(For additional details see the Chief Counsel's letter, dated October 24, 1957, in the General Files).

The Chief Counsel requested authority to spend approximately $4,500 for re-arrangement of offices and the library in the Legal Division in the State Highway Building in Salem. He explained that it is proposed to re-arrange the offices on the first floor to provide better working conditions for the attorneys and stenographers, and to move the law library to the basement. He presented a copy of the plans outlining the proposed revisions. The Commission approved the changes as presented.

An oral report was presented by the Chief Counsel concerning certain cases pending in court. The Stumbo case, he stated, is scheduled to be tried the second week in January, and steps have been taken to dismiss

and refile the Paul Martin case. The Douglas Community Hospital Case is still in the negotiation stage. The Commission accepted the report.

The Chief Counsel submitted a report which the Commission accepted on the case of S. P. Matheny v. State. Mr. Matheny alleges that because of construction of the R. H. Baldock Freeway, drainage of his land which abuts the freeway on the connecting leg that extends to Hubbard, was so altered as to cause rainwater to back up and flow over his land during the rainy season of the year, damaging his property to the extent of $10,000. He also demands an additional $10,000 for general damages. The Chief Counsel stated that from a factual standpoint there is no basis for the action and that it would be defended vigorously.

Consideration was given to a claim submitted by the Department of Interior, Bureau of Land Management, in the amount of $109.95 for a tree which was removed from the Siuslaw Highway at M.P. 49.17 during the winter of 1956-1957. The Chief Counsel pointed out that the tree was felled on highway right of way within national forest lands and had been cut up and used for firewood. After some discussion as to the equity of the claim, the Commission approved payment of $109.95.

Attention was given to the proposed annexation into the city of Salem of land owned by the State Highway Department. The Chief Counsel stated that the property is located along the Salem By-pass Section of the Pacific Highway and the matter had been checked with the Engineer who raised no objections to the annexation. Upon his favorable recommendation, the Commission approved the annexation.

The Chief Counsel stated that a deed had been received from Clatsop County transferring ownership from the County to the State of a short section of county road that extends from the Oregon Coast Highway to the beach at Hug Point. This transaction, he recalled, was considered earlier in the meeting and had been authorized by the Commission. The Commission accepted the deed and authorized the payment of $10.00 to the County as consideration.

The Commission discussed the matter of reimbursing Margot Foster Bensel in the amount of $75.00 for attorney's fees expended by her in obtaining a guardian's deed to right of way conveyed to the State on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway. The Assistant Counsel explained that the property was owned by two minor children and to comply with the option it was necessary to go to the Guardian Court and secure a deed, which required employment of an attorney who charged her $194.05 for his services. Mr. Enfield, former Chief Counsel, he continued, wrote Mrs. Bensel stating that he would recommend that the Commission contribute $75.00 toward her attorney's costs. The Commission approved the payment of $75.00 as recommended.

The Engineer reported that under authority previously granted him, he has awarded contracts referred to him by the Commission to award when certain conditions had been satisfied. These conditions have been met and the following contracts have been awarded:

List of contracts on following page

(1) Grading and paving the Hancock St. -Multnomah St. and Stephens St. Section on Pacific Highway East (northbound), on Grand and Union Avenues in Portland, Multnomah County. Bids received August 30, 1957. Contract awarded October 10, 1957 to Cascade Construction Company, Portland, low bidder.

(2) Grading, oiling, placing materials in stockpile and construction of reinforced concrete box culvert and a 60 ft. concrete bridge on Cloverdale-Coast Fork Bridge Section of Springfield-Creswell Secondary Highway, Lane County. Bids received August 30, 1957. Contract awarded October 11, 1957 to F. H. McEwan, Eugene, low bidder.

(3) Grading and paving of Sandy-Alder Creek Section of Mt. Hood Highway, Clackamas County. Bids received September 12, 1957. Contract awarded October 25, 1957 to Rogers Construction Company and Rogers Construction Inc., Portland, low bidder.

(4) Grading and oiling and construction of reinforced concrete structure on Eckman Slough Section of Alsea Highway, Lincoln County. Bids received September 12, 1957. Contract awarded October 25, 1957 to Pacific Concrete Company and Parker & Fuhrman Company, Portland, low bidder.

The Commission confirmed the awards of contracts as reported.

Reclassification from Group II to Group I status was reported by the Engineer on a section of the Cline Falls Secondary Highway from its junction with the McKenzie Highway to its junction with the McKenzie-Bend Highway, effective September 30, 1957. Test runs, he stated, were conducted on September 24, 1957, and it was found that 60 foot equipment can operate over the section without encroaching upon the opposing traffic lane. The Commission confirmed the Engineer's action.

A report was submitted by the Engineer and accepted by the Commission in which he recommended that all projects for which bids were received in the Salem office on October 3, 1957 be awarded to the low bidder in each case.

The Commission gave attention to a general highway department budget submitted by the Engineer covering the operation of the Department during the calendar year 1958. The Commissioners made inquiry concerning several items in the budget which the Engineer explained. After discussion and careful consideration, the Commission approved the budget for the year 1958 involving a total expenditure of $87,589,000.00.

(For details, see the original copy of the budget in the Commission office in Salem)

October 31, 1957

The Commission considered a report submitted by the Engineer concerning requests from the Coquille and Coos County Chambers of Commerce and the Port of Coos Bay for reconstruction of a portion of the Powers Secondary Highway to accommodate truck-trailer combinations with an overall length of 60 feet. An investigation was made, the Engineer stated, and it was found that it would cost approximately $35,000.00 to perform widening at 23 curves between M.P. 5.98 and M.P. 17.07, which improvements would not be eligible for federal aid. It was his recommendation that improvement of this road be held in abeyance until such time as reconstruction can be undertaken to bring it up to acceptable standards as a federal aid project. The Commission deferred action pending appearance of a delegation on the following day. (The delegation was advised that no major work can be done at this time but comprehensive improvements are planned within the next two to four years. The Commission will do all it can with the monies available but can make no promises now).

The Engineer reported that Mr. E. A. Collier, Maintenance Engineer, will retire November 1, 1957 and that he has appointed Mr. I. A. Delrance, who has been with the Department for 35 years, the last 10 years as Assistant Maintenance Engineer, to replace Mr. Collier. He also mentioned additional appointments as follows: Mr. Edward F. Chidsey, who has been with the Department for 38 years and is presently acting as Assistant Right of Way Engineer, has been selected as Assistant Maintenance Engineer to succeed Mr. DeFrance. Mr. Walter T. Wright, former Chief Locating Engineer, has been selected to replace Mr. Chidsey as Assistant Right of Way Engineer, and Mr. J. A. Rowland has been appointed to succeed Mr. Wright as Chief Locating Engineer. He asked the Commission to concur in these appointments. The Commission approved his action.

Construction of Roosevelt Drive as part of US 101 in Seaside was discussed. The Engineer recalled that this matter has been under consideration for several years and that it had been planned as a 4-lane facility at a cost of $652,000, including right of way. He pointed out that the improvement would have to be financed with primary money so could not be undertaken in the immediate future without seriously delaying other badly needed projects. He suggested as a solution of the problem, if acceptable to the City, construction of a 2-lane facility at an estimated total cost of $240,000. It was his feeling that the 2-lane facility would relieve congested conditions in Seaside for several years and that the eventual solution will be construction of a by-pass around the City. He requested authority to discuss the proposed plan with Seaside city officials. Commissioner Chessman expressed his feeling that the plan will satisfy the people of Seaside. The Commission thereupon granted the authority requested by the Engineer and instructed him to report the results thereof.

The Engineer submitted a report concerning requests presented by a delegation from Oceanlake on September 13, 1957, as follows:

1. Installation of traffic signal on US 101 at Raymond Street: He recommended that this request be denied because investigation reveals that the volume of traffic that enters 101 from Raymond Street does not

justify the expense.

2. Widening along the easterly side of US 101 south from "D" River in the Town of Delake: He recommended approval of the widening work of the City will construct curbs and provide necessary drainage facilities which are estimated to cost $2450.

3. Widening US 101 to 4-lanes through the Wecoma Beach area: He recommended that this improvement be denied for immediate undertaking because of lack of funds to finance it, and that it be considered sometine in the future when funds are available.

4. Widening on the westerly side of US 101 opposite the Wecoma Beach postoffice: He recommended that no action be taken on this request because investigation reveals that the highway now is wide enough at this point to accommodate traffic and that the problem appears to be one of parking, which can be handled by the local police authorities.

The Commission approved the Engineer's recommendation with respect to each of these requests.

Consideration was given to a written report presented by the Engineer concerning a request from the Director of the Department of Finance and Administration and the Department of Motor Vehicles that the Highway Department finance construction of a building on state owned property located near the State Highway Shops in Salem at an estimated cost of $550,000, such expense to be amortized by rentals charged the Department of Motor Vehicles. The Engineer stated that subsequent to receipt of this request, information was received from which it appears that the Capitol Planning Commission wants the building placed in the Capitol Mall and that they are thinking about financing it with funds from another state agency. If it is to be built in the Capitol area, he said, State Highway funds should not be used, but if it is finally decided to build at the Highway Shop location, then the matter should be discussed further. He pointed out that in the past few weeks, efforts have been made by those most interested to borrow money from the State Retirement Board. He recommended no action at this time. The Commission accepted his recommendation.

In connection with the discussion of this matter the Engineer stated that the Motor Vehicle Division is confronted with another problem which involves renewal of leases on field offices formerly under the direction of the Secretary of State. He mentioned particularly the office on N. E. Oregon Street in Portland, rented for the past ten years from the Lloyd Corporation at the rate of $19,600 a year. It appears that the present lease expires on December 16, 1957 and that the Motor Vehicle Division has been advised that beginning January 1, 1958, the rental rate will be $27,000 a year on a one-year basis only. This rate would be approximately 22½¢ per month per square foot and in addition, maintenance of the building has to be provided by the lessee. He compared this with the rental on the State Highway Building in Salem, where the total charge is 15¢ per square foot per month,

5¢ of which is for operation and maintenance. He explained that a number of these buildings were constructed about the same time on a 10-year lease basis which will soon expire. The Director of the Motor Vehicle Division, he stated, is concerned in that he wishes to save as much money as possible in the operation of his Department and the Highway Department is also concerned because the building rentals are paid with highway funds. It has been suggested, he said, that the Crystal Laundry building on Sandy Boulevard between 21st and 22nd Avenues might serve the purpose so he is going to investigate the possibilities of said building.

Commissioner McIver suggested that the investigation should cover additional locations and the type of building that might be constructed or purchased for use by the Highway Department later. It was his feeling that it is not good to move these offices from one location to another too often, but it would be well to look into the matter of establishing State-owned offices throughout the state. The Engineer pointed out that the cost of collecting fees for motor vehicle license plates is approximately 20% of the gross amount, whereas collection of the weight and mileage tax runs about 4% of the gross. The Commission instructed the Engineer to make a state-wide study of the building situation and present a report at the next meeting.

A report was presented by the Engineer concerning the use of portland cement in construction of pavements on State highways. He advised that it is almost impossible to present a true maintenance cost of our old pavements because when they require resurfacing with a thickness of 3/4" or more, such work has been considered as betterment chargeable to capital outlay rather than to maintenance. He reviewed briefly the history of portland cement pavement construction in Oregon and gave figures to show the cost of such type of pavement as compared with asphaltic cement pavement. He pointed out that the initial cost to construct a one-lane portland cement pavement is about $7000 per mile more than to build an asphaltic concrete pavement. An asphaltic pavement four lanes, he said, now costs about $90,000 per mile as compared with $118,000 for the portland cement type. He also said that information received from other states indicated that the combined cost to construct and maintain portland cement concrete and asphalt concrete pavement over a period of 20 years is approximately the same. He exhibited a number of posters which had been furnished by the Portland Cement Concrete people pointing out the advantages of portland cement. It was his opinion that it would be advantageous to the State of Oregon were portland cement concrete pavement constructed on the freeways in the City of Portland primarily because very little maintenance is required for the first 10 or 15 years and it is desirable to reduce surface maintenance operations to a minimum on the heavily travelled highway sections. He recommended that portland cement concrete be used on portions of the highways in the Willamette and Rogue River Valleys where soil conditions are not the best. Specifically, he recommended that portland cement concrete be used on the approximate 10-mile section of the Pacific Highway between North Jefferson Junction and Albany where the existing two-lane highway is portland cement concrete. Construction of the additional two-lane section with portland cement, he said, will

afford an excellent comparison as to durability and maintenance of the older type of concrete pavement as compared with modern design. Summarizing his presentation the Engineer recommended construction of a portland cement concrete pavement on the R. H. Baldock Freeway extension from Tigard into Portland and on the new parallel facility on the Pacific Highway between North Jefferson Junction and Albany. The Commission unanimously approved construction of portland cement concrete pavement on both of these sections as recommended and authorized the Engineer to prepare his plans accordingly.

At this time the State Parks Travel Advisory Committee reappeared before the Commission in company with the State Parks Superintendent, who informed the Commission that Mr. William Tugman had been elected Chairman and Mr. George Henderson had been elected Vice Chairman. Mr. Tugman commented that the Committee would like to have Mr. Armstrong and his staff prepare an outline of Park needs for consideration by the Committee at a meeting in Portland in the near future. The Commission complimented the Committee on the selection of its officers.

The Commission considered items of unfinished business appearing on the Secretary's Summary dated October 1, 1957, as follows:

1. Request of Heppner-Morrow Chamber of Commerce that a State park be developed on Route 207 at confluence of Chapin and Rock Creeks approximately 25 miles south of Heppner: The Parks Superintendent stated that his investigation is not yet complete. The item is to remain on the list of unfinished business.

2. Request of the Department of Motor Vehicles and the State Police that the Highway Department finance construction of a building near the State Highway Shops in Salem: The Engineer submitted a report on this matter earlier in the day. Action was deferred pending further developments.

3. Proposal that State Parks personnel wear uniforms: The Parks Superintendent submitted a report on this subject earlier in the day and the item was ordered deleted from the list of unfinished business.

4. Request of Oceanlake delegation for installation of a traffic signal on US 101 at Raymond Street; widening along the easterly side of US 101, southerly from D River in the Town of Delake; widening US 101 to 4 lanes through the Wecoma Beach area; and widening on the westerly side of US 101 opposite the Wecoma Beach postoffice: This item was ordered deleted from the list of unfinished business as the Engineer had presented a report earlier in the day.

5. Request of Seaside City Council that construction of Roosevelt Drive Route for US 101 in Seaside be expedited: Earlier in the session, the Engineer reported on this subject. He suggested at that time construction of a 2-lane facility on Roosevelt Drive and the Commission authorized him to discuss such a project with the Seaside City Council and to report the outcome. The item is to remain on the list of unfinished business.

6. Request from Coquille and Coos County Chambers of Commerce and the Port of Coos Bay for improvement of the Myrtle Point-Powers Highway to accommodate 60-foot truck and trailer combinations. The Commission deferred action pending appearance of a delegation the following day. (The Commission ordered this item deleted from the list following the delegation's presentation. The Commission denied the request based on a report submitted by the Engineer on the previous day).

The Commission gave attention to a request submitted by the City of Lakeview for the resurfacing and widening of a six-block section of US395 between Third and Ninth Streets in Lakeview. The Deputy Engineer recalled that a delegation came before the Commission on March 1, 1957 and was advised at that time that consideration would be given the project in the 1958 construction budget if funds were available and if the City would contribute 25 per cent of the cost involved. The City, he continued, has now agreed to contribute 25 per cent of the cost up to a limit of $21,000, the total cost of the project being estimated at $70,000. Upon his favorable recommendation the Commission approved the project for 1958 undertaking.

The Commission approved increases in project authorizations on the following state highway contracts:

1. Contract No. 4901, for the West Unit, Shogren-Rowena Section of the Columbia River Highway, increased by $18,000 because of the necessity of providing flatter cut slopes to insure stability.

2. Contract No. 4894, for repainting two steel bridges in Coos County increased by $1,400 because of extra engineering costs.

3. Contract No. 4560, on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, increased $48,000 because of additional drainage work, general excavation, an increased amount of Class B asphaltic concrete, and an overrun in engineering as the job was not completed on time.

4. Contract No. 4885, for construction of the Mohawk River Bridge on the Eugene-Marcola County Road in Lane County, increased in the amount of $12,000 because of additional work to take care of unfavorable foundation conditions.

The State Highway Engineer at this time commented that a check had been received from the Idaho Power Company in connection with their agreement for reconstructing highways in the vicinity of Brownlee Dam on the Snake River.

The Commission discussed with the Engineer bids received at the bid opening held in the Highway Commission Office in Salem on October 3, 1957, and those received at this morning's session. At 4:00 p. m. Commissioner McIver announced awards of contracts as follows:

Awards of contracts on following page.

BIDS RECEIVED IN SALEM ON OCTOBER 3, 1957

"Fort Stevens State Park Facilities, near Astoria on Oregon Coast Highway, near Astoria in Clatsop County. The Commission awarded the contract to the low bidder, Pantovich Construction Company, Salem, at $38,370.50.

"Construct Tide Creek Bridge, north of St. Helens on Columbia River Highway in Columbia County. The Commission awarded the contract to the low bidder, Inland Construction Company, Milwaukie, at $65,590.

"Grading on the Beaver Lookout-Bullards Bridge Section of the Oregon Coast Highway, near Bandon, in Coos County. The Commission elects to accept the low bid of C. R. O'Neil, Myrtle Creek, in the sum of $906,819, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Clear Lake Drainage Improvement Project, near Reedsport in Douglas County. The Commission awarded the contract to the low bidder Hattan & Bingham, North Bend, at $9,437.78.

"Grading on the Windy Gap Section of the Galice County Road, near Grants Pass, in Josephine County. The Commission awarded the contract to the low bidder, F. L. Somers, Medford, at $142,875.00.

"Install highway illumination at SPRR Undercrossing, Olsen Road Intersection and Old Wilson River Highway Intersection near Tillamook on the Wilson River Highway in Tillamook County. The Commission awarded the contract to the low bidder, Trowbridge Electric Company, Roseburg, at $8,750.

"Paving on Emigrant Hill-Deadmans Pass Section of the Old Oregon Trail Highway, near Pendleton, in Umatilla County. The Commission awarded the contract to the low bidder, Rogers Construction Company, Portland, at $478,520.00.

BIDS RECEIVED AT 9:00 A.M., OCTOBER 31, 1957

"Construct a concrete State Police Office Building at Milwaukie, on S. E. McLoughlin Boulevard, in Clackamas County. The Commission awarded the contract to the low bidder, Lorentz Bruun Company, Portland, at $51,727.00.

"Construct overnight camping areas and roadways in Sunset Bay State Park, near North Bend, in Coos County. The Commission awarded the contract to the low bidder, Sig Andersson, North Bend, at $48,817.00.

"Construct additional park facilities at Tumalo State Park, west of Bend on the old Sisters-Bend Highway, in Deschutes County. The Commission awarded the contract to the low bidder, Fred J. Stubbert, Springfield,

at $19,832.40.

"Anlauf slide correction project on the Pacific Highway, south of Cottage Grove, in Douglas County. The Commission awarded the contract to the low bidder, Silver Falls Trucking & Construction Company, Silverton, at $12,680.00.

"Paving on Jumpoff Joe-Louse Creek Section of the Pacific Highway, north of Grants Pass, in Josephine County. The Commission awarded the contract to the low bidder, Central Paving Company, Independence, at $717,798.00.

"Change channel and construct one span bridge of precast concrete sections on treated pile trestle on the Thomas Creek Bridge Section of Klamath Falls-Lakeview Highway, west of Lakeview, in Lake County. The Commission elects to accept the low bid of Inter City Sand & Gravel Company, Inc., Eugene, in the sum of $17,462.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary agreements are signed.

"Construct facilities at Honeyman Park, south of Florence, on Oregon Coast Highway in Lane County. The Commission awarded the contract to the low bidder, Fred J. Stubbert, Springfield, at $39,450.95.

"Overnight camp expansion project at Honeyman State Park, south of Florence on the Oregon Coast Highway, in Lane County. The Commission awarded the contract to the low bidder, Berry Creek Construction Company, Florence, at $18,712.50.

"Grading and construction of two reinforced concrete deck-girder bridges over Knowles Creek on the East Unit, Knowles Creek Section of the Mapleton-Richardson County Road, east of Mapleton, in Lane County. The Commission elects to accept the low bid of Durbin Brothers, Eugene, at $368,264.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $194,000 is deposited by the County.

"Grading, paving, and construction of two reinforced concrete structures on the Baker County Line-Olds Ferry Section of the Old Oregon Trail and Olds Ferry-Ontario Highway, south of Huntington, in Malheur County. The Commission awarded the contract to the low bidder, Rogers Construction, Inc., Portland, at $1,192,223.50.

"Widening of the Pacific Highway Overcrossings of Silverton Branch and Main Line SPRR of the Salem By-pass Section, in Marion County. The Commission elects to accept the low bid of Tom Lillebo Construction Company, Reedsport, in the amount of $93,442.80, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading on the West Unit, Sundial-Rooster Rock Section of the Columbia River Highway, east of Portland, in Multnomah County. The Commission

elects to accept the low bid of R. A. Heintz Construction Company, Portland, in the sum of $531,217.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading on the East Unit, Sundial-Rooster Rock Section of the Columbia River Highway, east of Portland, in Multnomah County. The Commission elects to accept the low bid of S. W. Groesbeck, Eugene, in the sum of $689,445.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, oiling and construction of one reinforced concrete bridge on the Moro Junction-Monkland Section of the Monkland County Road, near Moro, in Sherman County. The Commission elects to accept the low bid of Greene & Buick, Inc., Salem, in the sum of $96,328.25, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Sherman County is received and the sum of $21,760.00 is deposited by the County.

Requests were considered from the County Courts of Lake, Polk and Harney Counties for additions to the Federal-Aid (county road) Secondary Highway System. The Engineer reported that all of these projects have been examined and he recommended that the following additions be approved:

Harney and Lake Counties: 32.3 miles in Lake County and 2.5 miles in Harney County, as an extension of FAS 699 from the Oregon-Nevada State Line in Harney County, northwesterly through Harney and Lake Counties to existing FAS 699, approximately 2.2 miles south of Adel.

Polk County: FAS 744, 16.6 miles extending from a county road junction south of Ballston, southeasterly to FAS 116 (Salem-Dayton Highway), north of Salem. The Commission approved the additions as recommended.

The Commission also gave attention to requests from the County Courts of Lincoln, Malheur, Polk, and Lake Counties for approval of additional 1958-59 federal-aid county road secondary projects, as well as the cancellation of two bridge projects approved previously in Lake County, and the transfer of these funds to the Fort Rock Road Project. The Engineer recommended that the Lake County request be approved as follows:

Lake County: Projects approved February 28, 1957.

FAS 699	- Adel-Warner Lake Junction Section	$15,000
FAS 414	- Fort Rock Road Section	45,000

Lake County: Projects approved February 28, 1957 Continued

FAS 807 - Adel Junction-Plush Section	$ 54,000
TOTAL	$114,000

He also said that the County has now requested that the projects on FAS 699 and 807 be cancelled, and that the funds be transferred to the Fort Rock Road Section of FAS 414; also that the Fort Rock Road project be revised to include grading and base material as well as the oil mat wearing surface. He also recommended that the other County requests for FAS projects be approved as follows:

Malheur County:

FAS 515 - Vale Unit of Vale-Grand Avenue Section, 1.1 miles $ 70,000. Grade, drain, base material, and 0.11 oil mat wearing surface.

Polk County:

FAS 744 - Bethel-Zena Section, 4 miles, $61,000. Grade, drain, and construct stone base.

Lincoln County:

FAS 150 - Logsden (Siletz River) Bridge, $93,000, 7.6 miles east of Siletz. Construct bridge.

The Commission approved the requests as recommended.

Attention was given to a letter request submitted by the Twickenham Women's Club, Fossil Oregon, for improvements to the Service Creek-Mitchell Secondary Highway, particularly on Mitchell Grade. The Engineer reported that the section of highway referred to is in about the same condition as the balance of the 25 miles between Service Creek and Mitchell and that to widen the four or five curves mentioned by the Women's Club will cost approximately $7,500. He pointed out that following the Mitchell flood repairs made to this highway resulted in considerable improvement over its former condition. In view of the light volume of traffic, which averages only 60 vehicles daily, and the lack of funds, he recommended that the request be denied. The Commission approved the request.

A request was considered from the Superintendent of School District No. 2-CJ, Port Orford, for construction of a sidewalk on the westerly side of the Crystal Creek Bridge and the widening of the westerly side of US 101 from the Crystal Creek Bridge to the Sixes Store, north of Port Orford. The Engineer reported that the request was investigated and that, among other things, the investigation disclosed that the school bus unloads three students in front of the Sixes Store and then proceeds across Crystal Creek Bridge where it stops on the highway to unload six students. School authorities, he said, feel that if a sidewalk were constructed the bus could pick up and discharge all children in front of the Sixes Store. The cost to construct

a sidewalk on the bridge plus a footpath on the remaining section of highway he estimated would be $2,600. The warrant of need for such construction is 0.189 compared with the standard warrant of 1.00 necessary for favorable recommendation. In view of this priority in connection with the favorable accident record and the relatively light volume of traffic, he recommended that the request be denied. The Commission approved his recommendation.

The Commission gave attention to a request from the City of Monmouth for a cooperative project on the Monmouth-Independence Highway from US99W to the easterly city limits, a distance of about four blocks, involving reconstruction of curbs and widening to a width of 44 feet between curbs. The Engineer recalled that this improvement was requested several years ago and that in August 1957, the Commission approved consideration in an early construction program. He added that the City has now agreed to remove 40 trees, existing sidewalks and curbs, and to construct new concrete walks and curbs, estimated to cost $7,428, which is slightly more than 25 per cent of the cost applicable to the City estimated at $29,000. The total cost of the project, he continued, is estimated at $36,000, of which $7,000 is for repaving the existing highway and should not be charged to the City. He recommended that the project be approved as outlined and that an agreement be prepared between the City and the Highway Commission. The Commission accepted his recommendation.

The Commission considered and upon the favorable recommendation of the Engineer granted the following extensions of time within which to complete state highway contracts. Reimbursements for engineering expense and other extra expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. Arthur Simonsen & Company, Contract No. 4802, for stone base and oiling on the Iowa School-LaGrande Section of the Mt. Glen Road, in Union County, requested a ten-day increase in work days from 109 to 119. Approved as requested.

2. A. H. Saxton & Son, Contract No. 4567, for grading and construction of the Service Creek Bridge over the John Day River on the Service Creek-Mitchell Secondary Highway in Wheeler County, requested an extension of time from July 31, 1957 to September 30, 1957. Approved as requested, with the provision that engineering costs be assessed after March 1, 1957.

3. Tom Lillebo, Contract No. 4741, for grading, paving and construction of the Luckiamute River Bridge on the Independence-Albany County Road in Polk County, requested an extension of time from July 30, 1957 to August 30, 1957. Approved as requested.

4. Parker-Schram Company, Contract No. 4498, for paving the Cottage Grove-Divide Unit, Goshen Divide Section of the Pacific Highway in Lane County, requested an extension of time from September 30, 1956 to August 30, 1957. Approved as requested.

5. T. W. Thomas, Contract No. 4504, for guardrail on the Goshen-Divide Section of the Pacific Highway in Lane County, requested an extension of time from October 31, 1956 to August 31, 1957. Approved as requested.

6. Arthur Simonsen & Company, Contract No. 4673, for pavement sealing and rock production on the La Grande-North Powder Section of the Old Oregon Trail Highway in Union and Baker Counties, requested an extension of time from August 31, 1956 to September 25, 1957. Approved as requested.

7. Russell Olson Construction Company, Inc., Contract No. 4983, for paving Popular and West Broadway Streets in the city of Milton-Freewater in Umatilla County, requested a 20-day increase in work days from 50 to 70. Approved as requested.

8. Fred H. Slate Company and E. C. Hall Company, Contract No. 4776, for grading and paving on the Josephine County Line-Rogue River Road Section of the Pacific Highway in Jackson County, requested a 5-day increase in work days from 150 to 155. Approved as requested.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's Office.

The Engineer reported that contract Nos. 4567, 4586, 4658, 4741, 4776, 4811, 4820, 4827, 4838, 4878, 4884, 4886, 4917, 4922, 4923, 4935, 4941, 4959, 4977, 4985, 5001, 5003, 5005, 5017, 5021, and 5037 for highway construction have been completed in accordance with the requirements of the contract or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that requests have been received and investigations conducted for reduced speed zones on several sections of State highways. The action that is recommended in each of the following instances, he explained, is in accord with standard procedure and has been made with the welfare of the travelling public in mind as well as others who use the highways.

1. Silver Creek Falls Highway No. 163, 40 M.P.H. between the east city limits of Salem at M.P. 1.13 and a point 50 feet east of Airport Road at M.P. 1.45, in order to carry to a logical conclusion a speed zone established by the Speed Control Board within the City of Salem. See

EXHIBIT "F-1".

2. Cascade Highway No. 160, rescind action of November 8, 1956 and establish speed zone of 35 M.P.H. between a point 100 feet north of the road to Mulino Sash and Door Company at M.P. 24.14 and a point 0.11 miles south of Passmore Road at M.P. 25.82 except that between a point 300 feet north of the road to Canby and a point 300 feet south of Passmore Road, the indicated speed shall be 20 M.P.H. during the hours of school crossings as provided by law. See EXHIBIT "F-2".

3. Clackamas Highway No. 171, 25 M.P.H. for eastbound traffic from the westerly east city limits of Milwaukie at M.P. 0.95 to the easterly east city limits of Milwaukie at M.P. 1.14. Forty-five miles per hour from M.P. 1.14 to the Cascade Highway, No. 160, at 82nd Avenue, except that between a point 700 feet northwesterly of Webster Road and a point 500 feet easterly of Webster Road the indicated speed shall be 20 M.P.H. during the hours of school crossings as provided by law. See EXHIBIT "F-3".

4. Oregon-Washington Highway No. 8, 45 M.P.H. between the east city limits of Pendleton at M.P. 0.06 and a point 0.20 mile north of Riverside Avenue at M.P. 0.53. See EXHIBIT "F-4".

5. Albany-Corvallis Highway No. 31, 50 M.P.H. between a point 200 feet west of Scenic Drive at M.P. 8.50 and the north city limits of Albany at M.P. 10.46. See EXHIBIT "F-5".

6. Tualatin Valley Highway No. 29, 45 M.P.H. westbound on Northwest and Northeast First Street and connections between the east end of the couplet at M.P. 15.99 and the east city limits of Cornelius at M.P. 16.14.

45 M.P.H. between the west city limits of Cornelius at M.P. 17.22 and West Baseline Street at M.P. 17.51.

40 M.P.H. eastbound on West and East Baseline Street between the east end of the couplet at M.P. 15.99E and the east city limits of Cornelius at M.P. 16.07E.

45 M.P.H. between the west city limits of Cornelius at M.P. 17.22E and Martin Road at M.P. 17.88. See EXHIBIT "F-6".

7. Beaverton-Tualatin Valley Highway No. 141; speed zones established March 28, 1957, to be rescinded and the following speed zones established:

35 M.P.H. between the south city limits of Beaverton at M.P. 0.78 and a point 0.11 mile south of the south city limits of Beaverton at M.P. 0.89.

45 M.P.H. between M.P. 0.89 and a point 0.23 mile west of ORE 210 at M.P. 2.56.

October 31, 1957

40 M.P.H. between M.P. 2.56 and a point 0.07 mile east of ORE 210 at M.P. 2.86.

45 M.P.H. between M.P. 2.86 and a point 200 feet north of Washington Avenue at M.P. 3.67.

40 M.P.H. between M.P. 3.67 and the Pacific Highway West at M.P. 4.92 except that between a point 0.11 mile north of Locust Street and a point 500 feet south of Locust Street, the indicated speed shall be 20 M.P.H. during the hours of school crossings as provided by law. See EXHIBIT "F-7".

The Commission approved the reduced speed zones by adopting the attached resolutions relative thereto marked EXHIBIT "F-1" through EXHIBIT "F-7" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In connection with the reduced speed zones on the Beaverton-Tualatin Highway, the Engineer also recommended that shoulder parking be prohibited on both sides of the Beaverton-Tualatin Highway between a point 100 feet west of the Scholls Highway at M.P. 2.77 and a point 200 feet east of the Scholls Highway at M.P. 2.83 on the north side and M.P. 2.81 on the south side, and that a loading zone be established on the south side of the Beaverton-Tualatin Highway between a point 200 feet and a point 300 feet east of the Scholls Highway. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-8", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that in accord with agreements previously entered into with several Counties, four sections of State highways have been reconstructed and opened to public travel. The agreements provide that when the new highway sections are opened to the travelling public, that the Counties will take over certain portions of the old highways. These conditions have now been fulfilled, he continued, and to complete the transactions, he recommended that the Commission adopt resolutions formally abandoning the following State highway sections:

1. Hopewell Section of the Bellevue-Hopewell Secondary Highway in Yamhill County. See EXHIBIT "D-1".

2. Deep Canyon Section of the McKenzie Highway in Deschutes County. See EXHIBIT "D-2".

3. Millicoma BridgeSection of the Coos River Secondary Highway in Coos County In this instance, Unit A, which is eliminated as a part of the Coos River Highway, passes to and vests in the owner or owners of the abutting property. See EXHIBIT "D-3".

4. Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County. See EXHIBIT "D-4".

The Commission approved the Engineer's recommendation by adopting the Abandonment Resolutions attached hereto marked EXHIBITS "D-1" through "D-4" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Based on the favorable recommendations of the Engineer, the Commission approved out-of-State travel for the following State Highway personnel:

William C. Hill, Soils Engineer, to assist the State of Washington concerning a large slide in Snoqualmie Pass. All costs are to be paid by the State of Washington. (Confirmation)

W. C. Williams, State Highway Engineer, or Forrest Cooper, Deputy State Highway Engineer, and G. S. Paxson, Assistant State Highway Engineer, to attend annual meeting of the Highway Research Board in Washington, D.C., January 6 through January 10, 1958, at an estimated cost of $365.00 per person.

J. Al Head, Assistant Traffic Engineer, and Gordon W. Beecroft, Assistant Research Engineer, to attend this meeting of the Highway Research Board and present papers, their expenses to be paid by the Highway Research Board. Mr. Head also to attend a meeting of Technical Council of Institute of Traffic Engineers in Washington, D.C. on January 11, 1958, at an estimated cost of $14.00 for one day's expenses.

R. B. Sipprell, Director of Permits, to attend conference of the Permit Supervisors of Washington, Montana, Idaho, Oregon, and California, in Spokane, Washington, November 13 and 14, 1957, at an estimated cost of $70.00.

Carl W. Jordan, Director of Travel Information Division, to attend a meeting of the American Convention and Travel Institute in Santa Monica, California, December 5 to 8, 1957, at an estimated cost of $212.00

G. W. Harra, Engineer of Materials, and G. L. Decker, Resident Engineer, to attend the 15th Northwest Asphalt Forum in Seattle, Washington, October 29, 1957, at an estimated cost of $58.00 each. (Confirmation).

Ivan Merchant, Assistant Bridge Engineer, and D. S. Berger, Mechanical Engineer, to Olympia to confer with Washington State Highway Engineer on Interstate Bridge matters in Portland, October 10, 1957, at an estimated cost of $22.00. (Confirmation)

The Commission discussed with the Engineer a request from the Lincoln County Court that the State resume jurisdiction of a portion of the old section of US 101 about 1,700 feet long which was taken over by the County when the new highway was completed but which is now used principally as access to Beverly Beach State Park. The section at the northerly end is used almost entirely as an entrance to the Park and on this section there is an old timber bridge which is in need of replacement. He estimated

that it would cost about $7,000 to replace the bridge with a large culvert. As this section of road between Engineer's Stations 713 and 730 is used almost entirely as an access road to the Park, he recommended that the State take over this section for future maintenance. He advised that the County will then abandon the rest of the road as it serves no useful purpose. The Commission accepted his recommendation and ordered the matter covered by appropriate written agreement with the County.

Attention was given to a request from the Yamhill County Court that the State transfer to the County a parcel of property to the East of the Butteville-Springbrook County Road at its junction with US 99W. The Engineer explained that when US 99W north of Newberg was reconstructed about 20 years ago it was necessary to acquire a small piece of property to enable the raising of the grade of the county road. The purchase was made and the title has remained in the name of the State. The County Court has requested that the property be conveyed to the County so as to remove any question as to the County's authority over this particular parcel. The Commission approved the transfer.

The Engineer reported that on July 1, 1957 a spark from an electric grinder operated by a state paving crew started a grass fire at M.P. 386.40 on the Old Oregon Trail, about four miles south of Huntington. The fire spread onto the property of Lewis Gay, resulting in damages to his fence posts and the burning of three acres of grass. Mr. Gay has submitted a claim for the damage in the amount of $24.35, which the Engineer recommended be paid. The Commission approved the payment on condition that Mr. Gay will sign a complete release.

Consideration was given to a request from the City of Eugene that the State consent to annexation within the City of a portion of US99 lying to the east of the present city boundary. The Engineer commented that the State law requires the consent of all property owners to avoid holding an election. The annexation, he said, does not change the status of the highway in any way and he recommended that the Commission give its approval. The Commission approved the annexation and later signed a "Consent to Annexation" form.

The Commission discussed with the Engineer a resolution submitted by the City of Vancouver, Washington, urging that the Portland-Vancouver Interstate Bridge on US99 be operated as a toll-free bridge and that the costs to improve navigation on the Columbia River and to improve the existing Pacific Highway be paid for out of funds provided by Congress for the Interstate Highway System. The Engineer stated that there is nothing that can be done at this time unless the States of Oregon and Washington elect to pay $15,000,000 out of their own funds. He recalled that two similar requests were made in the past which had been turned down by the U.S. Bureau of Public Roads. He also pointed out that if Congress decides to reimburse the States for portions of the Interstate System that have been financed with state funds, the construction of the new bridge and reconstruction of the old bridge across the Columbia River at Portland would be included. It was his opinion that the new bridge will be open for traffic the latter part of 1960 and that there is nothing that the States can do about the matter at

this time. Commissioner McIver remarked that he would be in favor of removing tolls from the bridges if Congress would provide additional money to pay construction costs. It was his feeling that a letter or resolution should be prepared, pointing out action that has been taken by the Commission concerning the financing of these bridges, what future action is possible, and what will have to be done in order to affect removal of the tolls. It was his thought that a statement to this effect would be helpful to those agencies who are urging the Commission to make the bridges toll free. The letter or resolution should also include a statement that the Commission is in favor of toll-free bridges if Congress will provide additional Interstate funds to make this possible. The Commission accepted this suggestion, and thereupon adopted the attached resolution relative thereto marked "Exhibit G" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer stated that public hearings have been requested by the City of Grants Pass and the City of Rogue River concerning relocation of the Pacific Highway and the Redwood Highway as they affect these cities. The Commission authorized the Engineer to set a date and make other necessary arrangements to conduct the hearings sometime in December. The members of the Commission indicated that if at all possible they would attend the hearings. (The Engineer later set December 18, 1957, as the date for the hearings in both places.)

The Commission considered a request from the Idaho Power Company for waiver of an item in an agreement between the State and the Idaho Power Company, dated May 16, 1957. The Engineer stated that the agreement referred to requires the Power Company to bear its proportionate cost, on a depreciated basis, of a power-line extension constructed by the California-Pacific Utilities Company in December, 1952, at a cost to the State of $1,701. Payment to the California-Pacific Utilities Company, the Engineer continued, was in lieu of monthly payments over a five-year period for amortizing the cost of the extension. However, the five-year period has expired and under reciprocal privileges extended to the Commission by other utilities wherein the latter have amortized by means of monthly payments the cost of power-line extensions serving their remote-controlled radio stations, it was his opinion that the State should provide like treatment for the Idaho Power Company. The Commission approved and later in the session signed the waiver form as recommended.

Amendment of an agreement with the Idaho Power Company providing for payment of the Company's share of the cost to reconstruct state highways necessitated by construction of the Brownlee Dam in the Snake River was also considered. The Engineer pointed out that the original agreement provided that the Power Company shall make a lump sum payment to the State in the amount of $816,375.94. The proposed amendment provides that the Power Company will pay to the State the sum of $200,000 by October 31, 1957; $200,000 by January 1, 1958; $200,000 by March 1, 1958; and $216,375.94 by May 1, 1958. The proposed installment payments, he stated, will not be detrimental to the State and he recommended that the agreement be amended to provide for the four partial payments provided the Company will furnish a bond guaranteeing the payments. The Commission

approved the amendment as recommended.

A request was discussed from the Prineville-Crook County Chamber of Commerce for permission to install an informational sign within the highway right-of-way at the junction of US 26 and US 97, two miles south of Madras. The Engineer pointed out that the 1957 Legislature passed legislation to permit signs on highway property giving information about scenic, historical, resort, or recreational areas, or community enterprises of a non-commercial nature provided that such signs are approved by the Highway Commission before installation. The proposed sign, he continued, would publicize industries and recreational facilities, etc., in the Prineville area. The only feature of the sign that he objected to was the wording: "Shortest and Most Scenic All-weather Route East via Boise." He suggested that the following wording be substituted therefore: "All-weather Short Scenic Route East via Boise." He stated that he is not opposed to the installation of such signs provided they do not conflict with official highway signs or with maintenance of the highway and do not restrict sight distance. The Commission approved the installation of the sign subject to the change in wording as recommended by the Engineer.

The Commission discussed with the Engineer proposed revisions to mandatory regulations contained in PUC Form 170 (7-56). The Engineer commented that the Public Utilities Commissioner has requested that certain portions of the form be revised, principally that the section concerning binder chains be reworded to comply with the statutes covering such features. The revised regulations, he said, have been checked with the State Industrial Accident Commission to be certain there is no conflict with the logging safety code, and it appears that the revised regulations, as proposed, will now be in agreement with the State Industrial Accident Commission logging safety code, and will also satisfy the needs of the Public Utilities Commissioner. Upon his favorable recommendation, the Commission approved the revisions. (For details see copy of the revisions, as approved, in General Files).

The Engineer called to the Commission's attention a letter dated October 24, 1957 directed to the Commission by W. W. Stiffler, Assistant State Highway Engineer, advising of his resignation effective December 31, 1957. Mr. Stiffler stated that he is past retirement age and that he feels that he had worked long enough. Chairman Reynolds remarked that although the Commission regrets exceedingly that it is going to lose Mr. Stiffler from the staff, it appreciates his desire to retire and spend time doing other things. He extended to Mr. Stiffler best wishes and happiness in this new phase of his life and stated that the resignation would be accepted with regrets.

The Commission approved the Secretary's Report on papers signed by him on behalf of the Commission during the period September 9 through October 25, 1957.

The Commission confirmed the next meeting date for December 5 and 6, 1957, in the Imperial Hotel in Portland and set a tentative date for the following regular meeting on January 16 and 17, 1958. The Secretary

was instructed to make the usual arrangements to hold these meetings in the Imperial Hotel, Portland.

The Commission gave attention to a number of letters concerning the effect of the new Pacific Highway on restaurant and motel business in the town of Winston. The Engineer stated that in response to their letters, an investigation had been made and it is his recommendation that the old route through Winston be designated "US99 - Business Route" and that authority be granted to place signs at the interchange south of Roseburg and at the interchange at the Booth Ranch Bridge, the one at the south entrance directing traffic to the freeway and carrying the words "US99 Freeway - Portland-Roseburg", and a sign at the north entrance with the words "US 99 Freeway - Medford-Grants Pass", and signs on the legs leading to Winston reading "US 99 Business Route - Coos Bay-Winston." He estimated that it would cost approximately $1500.00 to furnish and erect the signs. The Commission approved the recommendation unanimously.

The Commission discussed the request of the Tillamook delegation, presented earlier in the session, for revisions in the access requirements for certain roads that connect with the new section of the Wilson River Highway just east of the city of Tillamook. As a result of the discussion the Commission, upon recommendation of the Engineer, approved access to the highway from Schild Road on the south of the highway, where heretofore access was limited from the north, and from Maxwell Road at Randall Corner on the south where access heretofore had been allowed only from the north. This matter is to be covered by written agreement between the County and the State.

The Engineer recommended and the Commission approved payment of annual dues in the American Association of State Highway Officials in the amount of $1,519.50 and annual dues in the Western Association of Highway Officials in the amount of $50.00.

The Commission discussed briefly a letter dated October 28, 1957, received from G. Y. Chester, Malheur County Judge, concerning construction of a bridge across the Owyhee River and maintenance of the access road to Owyhee Reservoir. The Commission accepted the letter and ordered that it be inserted in the Commission records for future reference. (The letter follows)

Vale, Oregon
October 28, 1957

State of Oregon
State Highway Department
Salem, Oregon

Attn: Mr. H.B. Glaisyer, Secretary

Gentlemen:

Letter continues on following page

"The Malheur County Court wishes to advise that its intentions are to construct the bridge across the Owyhee River, employing a span from the old Nyssa bridge for this purpose, during the coming winter months.

The Court also intends to maintain the road to the Owyhee Lake as far as it is economically possible to do so."

Very truly yours,

(Signed) G. Y. Chester

G. Y. Chester
Malheur County Judge

cc C.H. Armstrong

The meeting adjourned at 5:00 p.m. to reconvene on the following day at 9:00 a.m.

Portland, Oregon
November 1, 1957

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m., in the Queens Room of the Imperial Hotel. The following people were present:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission discussed and approved the minutes of its special meeting held in Salem on August 29, 1957 and the minutes of its meeting held in Portland on October 1, 1957 for the sale of highway bonds. Approval of the minutes of the regular meeting held on September 12 and 13, 1957 was deferred until the December meeting, except that the Commission did approve that portion of the minutes of said meeting which pertains to the sale of highway bonds.

A telegram was read aloud by Chairman Reynolds from a committee representing the "Housewives of 42", an organization of women in the Coquille-Myrtle Point area, urging improvement of Highway 42 (Coos Bay-Roseburg Highway) between Coquille and Roseburg. The Commission expressed regrets that it could not do what the Committee requested.

The Commission discussed with the Engineer a proposed one-year construction program, dated October 11, 1957, for the expenditure of 1960 funds which will be available for right of way and construction beginning July, 1958. The Engineer explained the program, project by project, and answered questions submitted by the Commission. In the discussion of the projects in Division No. 1, the Commission gave particular attention to the proposed new route for the Pacific Highway through Portland, known as the "Eastside Freeway", and to the route known as the "Foothills Route". The Engineer estimated that the Eastside Freeway will cost approximately $45,000,000 and it is hoped that it can be constructed by 1961. If tentative plans are carried out the Foothills Route can be constructed at an estimated cost of $75,000,000 in the five-year period following.

In discussion of projects in Division No. 2, Commissioner McIver suggested that it would be advisable to acquire right of way now for a proposed cutoff southwesterly from Dayton to a connection with the Salmon River Highway that would bypass McMinnville. It was his thought that the matter should be checked into before the proposed route is built up with houses and otherwise developed. The Engineer was instructed to investigate the feasibility of immediate acquisition of necessary right of way and submit a report.

With respect to the projects in Division No. 4, the Engineer suggested that a portion of the reserve of $280,000 be allocated for improvement of The Dalles-California Highway in the city of Bend. He mentioned that the City has been requesting this project for several years and has agreed to pay 25 per cent of the cost. The Commission approved an allocation of $150,000 for work referred to as the South Third Street project on The Dalles-California Highway in the city of Bend. This action reduced the reserve on primary highways in Division No. 4 to $130,000.

In connection with proposed projects in Division No. 5, the Commission instructed that an allocation of $200,000 be made for continuation of work on the Lostine Section of the Wallowa Lake Highway. The amount of $200,000 required for this project is to be taken from the amount of $750,000 shown on the program for the Service Creek-Burton Canyon Section of the John Day Highway, thus reducing the allocation for that project to the sum of $550,000.

The Commission also ordered an allocation of $250,000 from reserve funds for improvement of the Weston Mountain Section of the Weston-Elgin Secondary Highway and that the reserve fund for secondary highways in Division 5 be reduced in the same amount.

The entire program as revised was thereupon adopted by the Commission by unanimous vote. The program follows:

A delegation representing the Coquille Chamber of Commerce appeared before the Commission concerning improvement of Highway 42 between Coquille and Roseburg and improvement of the Powers Secondary Highway. The following people composed the group:

Yvonne Remaly and Stanley Hogate, Chamber of Commerce, Coquille; Austin Dodge, Chamber of Commerce, Myrtle Point; R. S. Oslund, Land & Tax Agent, Goergia-Pacific Corporation, Portland; and James Daugherty, President, Southern Douglas County Highway Association, Winston. Mrs. Remaly, who acted as spokesman, introduced the other members of the delegation and submitted petitions in favor of these improvements. Mr. Dodge recalled that about ten years ago improvement of Highway 42 had been considered a high priority project but the highway has been neglected since that time. He pointed out that an electrical power plant is being constructed on the South Coquille River which will involve the hauling of considerable materials, and that the Powers Secondary Highway is qualified only to handle vehicles with an over-all length of 40 feet. Mr. Daugherty stated that improvement of Highway 42 is their first priority project and he asked the Commission to authorize a survey of Highway 42 to determine the cost to improve it. The Engineer advised that a location survey has been completed between Rink Creek and Coquille but that a reconnaissance survey only has been made east of that section. Mr. Daugherty offered their services to the Commission in settling the "Stumbo" case. Chairman Reynolds expressed appreciation for the offer. Mr. Hogate urged improvement of Highway 42 to allow operation of 60-foot vehicles as an aid to the economy of the area. Mr. Dodge then inquired as to what action the Commission had taken on a request considered at this meeting for improvement of the Powers Secondary Highway. Chairman Reynolds replied that the request for curve widening had been denied until such time as the roadway can be reconstructed to standard specifications. It was the feeling of the Commission, he said, that widening the curves as requested would not provide a satisfactory solution. The Engineer pointed out that expenditures in the next three years on the Powers Secondary Highway are contemplated in the amount of approximately $300,000 and that work could possibly be started in 1959. Mr. Dodge re-emphasized the point that very little improvement has been made on Highway 42 and that early construction is necessary. Chairman Reynolds thanked the delegation for its presentation and pointed out that the Commission has requests from people in all sections of the State for improvements to highways in their localities, and that the Commission will do all it can with the funds available, but can make no definite promise now concerning construction on Highway 42.

Mr. E. W. Poland, Shedd, and Mr. John Miller, Halsey, Directors of the School Board in School District 552-C in Linn County, came before the Commission concerning a hazardous situation that exists on the Halsey-Sweet Home Secondary Highway between Halsey and Brownsville. Mr. Poland stated that the School District plans to construct a new high school about $1\frac{1}{2}$ miles east of Halsey to accommodate about 300 pupils and that it will be necessary for a large number of the students to cross the main line of the Southern Pacific Railroad in order to get to and from the school. He inquired if construction of an overhead crossing could be provided. Mr.

Miller mentioned that construction of an overcrossing would be an incentive for more tourist traffic to use the highway. He also mentioned that six passenger trains and about 20 freight trains pass through each day. Chairman Reynolds informed them that an investigation would be made to determine if construction of an overcrossing is feasible.

A delegation consisting of the Douglas County Court and members of Highway No. 225 Road Committee appeared before the Commission concerning completion of the Elkton-Sutherlin Secondary Highway. The following people were present: William Tugman, Chairman, 225 Road Committee; L. J. Gerhard and Tom Lillebo, Members of 225 Road Committee, all of Reedsport; V. T. Jackson, Douglas County Judge; Frank Ashley and Huron Clough, County Commissioners; Elmer Metgger, Member, 225 Road Committee; all of Roseburg; and H. G. Sprague, Member, 225 Road Committee and Chamber of Commerce, Sutherlin. Mr. Tugman acted as spokesman and introduced the other members of the delegation. He asked that the remaining 12-mile section of the Elkton-Sutherlin Highway be reconstructed at an early date to facilitate hauling of products from the valley to Tidewater and also as a tourist link. Judge Jackson concurred in the statement of Mr. Tugman and added that the group is also interested in construction of a highway from The Dalles-California Highway, westerly to the coast through the Umpqua National Forest along the North Umpqua River route. However, the first objective of the group is completion of the Elkton-Sutherlin Secondary Highway to reduce the marketing cost of valley lumber and other products. Mr. Clough emphasized the importance of completion of the secondary highway in the economic development of the area. Mr. Ashley said that completion of this route had been contemplated for many years and would be of great benefit to industry. Mr. Metgger affirmed this position. Mr. Tugman stated that as a long-range objective the group would like to see completion of the Umpqua Highway, the Elkton-Sutherlin Highway, and the North Umpqua River Highway as one highway, and completion of the section on the Elkton-Sutherlin Secondary would be a step forward in this plan. The Engineer remarked that a large amount of federal money has been expended in construction of the North Umpqua Highway and it would be difficult to increase the rate of expenditure. Chairman Reynolds commented that the Commission is considering an allocation of approximately $600,000 of 1960 funds for construction of the Elkton-Sutherlin Secondary Highway but the Commission has not yet decided the location, whether to continue on the northerly or the southerly end. The County Court, he stated, will be consulted in this matter. Judge Jackson stated that the County Court is open minded as to where the improvement starts. He also said that the people of Douglas County are approximately 100% in favor of this road. Mr. Tugman stated that they will be satisfied with the Commission's judgment in the matter. Chairman Reynolds also pointed out that there is a strong demand for improvement of Highway 42 between Coquille and Roseburg as an outlet to the ocean, and that there have been several opinions expressed as to which route might be the best. Mr. Tugman observed that later on it is planned to ask the Commission to designate as one highway all of the roads which now follow roughly along the Umpqua River, including the North Umpqua Highway, the Elkton-Sutherlin Secondary, and the Umpqua Highway.

The Umatilla County Court and two other interested persons came before the Commission concerning an extension to the Helix-Vansycle County Road and an exchange of highways between the State and the County. The following people were present: E. R. Cook, County Judge; F. B. Hayes and Roscoe Kelley, County Commissioners, all of Pendleton; S. E. Broigoitti, Farmer, Helix; and James Kuhns, Farmer, Weston. Judge Cook introduced the members of the delegation and pointed out that county authorities in the State of Washington have indicated that they are ready to construct their portion of the Vansycle Road extension when Oregon is ready. Considerable pressure, he stated, is being exerted from the tri-city area in Washington. Mr. Kuhns pointed out that construction of this road would facilitate access to the winter recreational area in the Blue Mountains and would greatly shorten the haul in transporting pulp wood from Oregon to the mill at Attalia on McNary Reservoir. It was his thought that construction of this road would provide more gain to Oregon than would be lost in transfer of business to the State of Washington. Mr. Broigoitti emphasized the value of the Vansycle Road in hauling timber products and felt that it would be a better route than the existing US395 route and would be less costly to construct and maintain. Judge Cook brought into the discussion an exchange of roads with the State. He said that the county will take over the old highway between Reith Junction and Stanfield Junction if the State will take the Mission county road extending from US30 to a connection with Highway 11. He also mentioned a parcel of 4.95 acres of land which the County owns north of Milton, and stated that the County would like to sell this property to the State. With reference to the Vansycle Road, he pointed out that traffic between Adams and Milton during pea harvest is extremely heavy and construction of the Vansycle Road would relieve this greatly. He also mentioned the new interstate route designated recently from the Seattle area near Ellensburg southeast to Pendleton. The County, he stated, is concerned in getting this traffic routed over the Umatilla toll bridge as it has invested a large amount in construction of the bridge and has purchased the Patterson Ferry. The Engineer replied that designation of this new interstate route came as a surprise to both the Oregon and the Washington authorities and he does not know details of the routing other than that it would start in Washington at or near Prosser and extend southeasterly to a connection with US30. Concerning the 4.95-acre parcel of land mentioned by Judge Cook the Engineer stated that the Highway Department does not need it for highway purposes. The adjacent section of highway, he said, is not controlled as to access so there would be no good reason to purchase it for such purpose. In regard to the Vansycle Road, the Engineer gave as his understanding that the County wants the road placed on the Federal Aid Secondary (County road) System. He mentioned two routes have been considered, one costing $730,000 and the other $645,000. Judge Cook replied that the County would like to have the road placed on the county federal-aid secondary system. Chairman Reynolds concluded the discussion by stating that the Commission will place the Vansycle Road on the Federal Aid Secondary (County road) System if the County will make formal request for such designation, and that the Commission will then authorize a survey of the road. Concerning the proposed exchange of roads (Mission North for Reith-Echo Secondary) he said that the Commission will give the matter study. He also said that the Commission is not

interested in acquiring the 4.95 acre tract mentioned by Judge Cook and that the County Court will be kept informed regarding the proposal to place the Ellensburg-Pendleton Road on the Interstate System. (See ahead for additional entry re proposed exchange of roads.) (Commissioner McIver was excused for the remainder of the session.)

A delegation representing the Willamina Chamber of Commerce came before the Commission concerning direct access from Willamina to the new section of the Salmon River Highway, now nearing completion. The following people from Willamina were present: Allen C. Louden, Chamber of Commerce; Dr. Otis Barr, President, Chamber of Commerce; Lloyd W. Anderson, City Councilman; R. E. Renne, Judge, Yamhill County Court; Charles Teagarden, Commissioner, Yamhill County; and L. W. Franklin, Road Engineer of Polk County. Mr. Louden headed the group. He gave as his understanding that completion of the new section of the Salmon River Highway by-passing Sheridan and Willamina is expected in about two weeks and at that time the only access Willamina will have will be via the old crooked sections of the Salmon River Highway which, besides curves, contains two dangerous railroad crossings. He asked for access to the new highway. Chairman Reynolds said that the Commission has no solution at the present time as there are no funds available for the improvement. It was his opinion that the existing access, although it does contain many curves, would not be nearly so dangerous when a large percentage of the traffic is removed by using the new highway section. Mr. Louden remarked that if the old road is not good for tourists, it is not good for the people of Willamina and that their business is being hurt. Judge Renne called attention to the large amount of timber which lies to the west of Willamina and when hauled to market will have to be taken out over the old highway. Dr. Barr called attention to the industrial development in Willamina. It was his feeling that the town is entitled to a more adequate type of access. Chairman Reynolds stated that the Commission is appreciative of their situation and will keep their promise to give the request further consideration when the Salmon River Highway construction is completed, which he estimated would be in about two years.

A group representing the US Highway 20 Association was present and urged the Commission to improve the section of US20 between Lebanon and Sodaville, a distance of about 2.5 miles. The following people formed the group: Kurt Kiesow, Chairman, US 20 Association, Toledo; Fred Spores, Vice President, US20 Association, Lebanon; James Howes, Secretary US20 Association; W. E. Wilkison, Member, US20 Association; Robert Budrow, Member, US20 Association; Eban Alborn, President, Newport Chamber of Commerce, all of Newport; Mike Miller, Lincoln County Commissioner, Siletz; and Mrs. Dale Hollingsworth, Member, US20 Association, Eugene. Mr. Kiesow, who acted as spokesman, introduced the members of the delegation and expressed appreciation for improvements authorized on US20, particularly the Pioneer Mountain Section, near Toledo. Mr. Spores recalled that in 1954 a delegation had made a statement of priority on various sections of US20, listing the Pioneer Mountain improvement as No. 1, improvement of the Corvallis-Philomath Section as the No. 2 project, and improvement of the section between Lebanon and Sodaville as the No. 3 project. Action, he continued, has been

taken on the Pioneer Mountain and Corvallis-Philomath Sections, and the Lebanon-Sodaville project is now the delegation's No. 1 project. He pointed out that traffic on US20 in the vicinity of Lebanon presently is approximately 9,000 vehicles daily. He asked the Commission to authorize an economic study and a reconnaissance survey of the project. Chairman Reynolds commented that it is planned to construct the Pioneer Mountain Section in 1958, and that the Lebanon-Sodaville Section will be considered in formulating future construction programs. (Later in the day the Commission instructed the Engineer to investigate the cost and feasibility of the improvement between Lebanon and Sodaville and to submit a report).

The meeting recessed at 12:10 p.m. and reconvened at 1:00 p.m. in the same room, with the same persons present and participating, except Commissioner McIver who was excused.

The Commission resumed discussion of the one-year construction program which had been considered earlier in the day. The Commission confirmed approval of the program with the changes previously outlined. For details see copy of the program entered earlier in these Minutes and the office copy thereof dated October 11, 1957, with changes ordered by the Commission, in the general files in the Salem office.

The matter of exchange of roads with Umatilla County was also mentioned briefly. The Engineer stated that the proposed exchange appeared to have considerable merit. The Commission authorized him to conduct negotiations with the County Court for the exchange on the basis of the County assuming jurisdiction over the Stanfield-Pendleton Secondary Highway between Reith Junction and Stanfield Junction and the state adding to and constructing as a secondary highway the county road which extends northerly from US30, at Mission, to a connection with ORE11 northeasterly from Pendleton.

Attention was given to a letter from County Judge Lloyd Rea, Baker County, concerning fatal accidents that have occurred on US30 south and east of Baker and urging early reconstruction of the highway at this location. The Commission instructed the Engineer to inform Judge Rea that $535,000 has been allocated for construction on this highway section in 1958 and that it is planned to include additional funds in future programs.

The proposed interstate route between Ellensburg, Washington, and Pendleton was again discussed. The Engineer stated that the Washington Highway Commission has taken action to approve the route and he inquired as to what action he should take. The Commission deferred action in this matter pending further study. The Engineer was instructed to discuss the matter with Mr. B. D. Tallamy, Federal Highway Administration, during the AASHO conference in Chicago later in the month and to take action as may be necessary to secure designation as an interstate highway of that section of US 30 that extends from Portland to Astoria.

The Engineer stated that Douglas County officials have asked permission to use the area beneath the Winchester overcrossing over the railroad and river on the Pacific Highway as a part of a county park which adjoins the right-of-way. He said that use of the area will not be detrimental to the State and he recommended that the county be allowed to use it under the terms of an agreement which has been prepared. The Commission accepted his recommendation.

The Engineer also reported that a test run had been conducted, using truck and full trailer combination 60 feet overall in length, on the Warrenton Highway from its junction with Ft. Stevens Secondary Highway to its junction with US101, a distance of approximately 1.55 miles, and it was found that such equipment can negotiate this highway section without encroaching upon the opposite traffic lane. Under authority previously granted him, the section was reclassified from a Group III to a Group 1 highway effective October 29, 1957. The Commission confirmed his action.

In connection with construction of the Walter Dammasch Hospital near Wilsonville, the Engineer reported that the Board of Control had requested that the State Highway Department perform the engineering on the construction of roads into and around the hospital. Due to an error in reading the plans prepared by the architect, the road grade was excavated about 16 inches too low. The material had to be replaced at a cost of approximately $8,800. As a compromise measure, it was finally agreed that the State Highway Department would stand one-half the cost resulting from the error, amounting to $4,425.96, which is to be deducted from the final bill for engineering services rendered the hospital. The Engineer explained how the error occurred and recommended approval of the settlement. The Commission approved the settlement as recommended by the Engineer

Orville M. Thompson, legal advisor to the Governor, the Engineer stated, has requested that an investigation be made concerning a grade crossing near Halsey on the Halsey-Sweet Home Highway. He stated that an overcrossing at this point would require a long approach and would have to pass over both the railroad and the Pacific Highway. It was his opinion that the project would cost nearly one-quarter of a million dollars. The Commission instructed the Engineer to make an investigation and submit a report at the next meeting.

The Commission ordered that the Wallowa County Court and the Enterprise Chamber of Commerce be informed of the action that was taken by the Commission at this meeting programming funds for improvement of the Lostine Section of the Wallowa Highway.

The matter of increases in salaries to the State police was discussed. The Auditor stated that the State police budget did not contain sufficient funds to take care of the increases approved by the Legislature at its regular 1957 session. The Engineer pointed out that the deficit in the police budget amounts to about $40,000. The Highway Department normally contributes about 60% of the cost of maintaining the State police organization and he recommended that the Commission approve transfer of 60% of the deficit ($26,000) to the State police. The Commission approved the transfer

The Engineer reported that an agreement has been received from the Bureau of Public Roads placing the Dolph-Boyer Cutoff between the Salmon River and Three Rivers Highways on the Forest Highway System. He recalled that the matter had been before the Commission some months previously and had been approved. The Commission approved and signed the agreement. The matter of the Commission approving small authorizations for out of State travel was presented by the Engineer. It was his thought that the Commission should definitely approve trips to conventions or trips of major distance or cost. However, he suggested in order to save telephone expense and to relieve the Commission of bother, that trips costing $100.00 or less be approved by the Engineer and placed on the agenda for confirmation by the Commission at the next following meeting. The Commission approved such procedure.

The Commission had under discussion the request of the Chief Counsel, presented on the previous day, for authority to condemn certain parcels of real property that are needed as right of way for state highway improvements or for other highway purposes. After carefully considering the proposed condemnations and in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission approved the condemnations by adopting the attached resolutions relative thereto marked EXHIBITS "E-1" through "E-16", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The amount of the offer to be made prior to filing the complaint in the condemnation of the Paul R. Martin, et ux., property on the Columbia River Highway near Troutdale in Multnomah County was also discussed by the Commission. The Chief Counsel recommended negotiations with the owners on the basis of offering the sum of $47,800 for all of the property that is required from them. As a result of the discussion, the Commission unanimously adopted the recommendation and authorized an offer in such amount.

The Chief Counsel presented a proposed settlement with Mr. Perasso (L2762, L2783) for two parcels of property on the Mt. Hood Highway east of Sandy. He said that an offer was made in the sum of $200 for one parcel and $350 for the second parcel, a total of $550, and that the owner has agreed to accept the sum of $800 as settlement in full. It was his opinion that taking the matter to court would not be financially feasible and he recommended that the settlement be approved in the amount of $800. The Commission accepted his recommendation.

A proposed settlement with Blue Mountain Mills on the John Day Highway in the city of John Day was discussed. The Chief Counsel recalled that the matter had been confirmed previously and damages had been sought from them because of water from their property which was damaging the highway roadbed. In negotiations which followed, Blue Mountain Mills offered to pay the sum of $1,000, whereas the State had demanded the sum of $2,700. The Mills have now offered a compromise settlement of $1,750 and he recommended that it be accepted as the Mills have agreed to take

measures to prevent waters from their property from encroaching upon the State right-of-way. The Commission instructed him to negotiate a settlement on the terms as outlined.

The Commission also approved an agreement previously authorized with James and Irene Burrell regarding construction of a weir in connection with irrigation waters from Mill Creek to the Burrell property on the Salem By-Pass Section of the Pacific Highway. Negotiations, the Chief Counsel stated, were undertaken about a year and a half ago and the Burrells have just now signed the agreement. The Commission approved the agreement.

Abandonment of the case of State of Oregon vs. National Industrial Products Corporation concerning an automobile accident involving highway equipment which was damaged, requiring repairs that cost $106.50 was recommended by the Chief Counsel. He explained that as investigation in the case developed, it was found that the State driver was apparently as negligent as the driver for the Products Corporation and under Oregon law if there is contributory negligence, recovery cannot be made for damages.. The Commission approved abandonment of the claim, File L2722.

The Engineer brought up the matter of appointing a successor to Mr. W. W. Stiffler, Assistant Highway Engineer, whose resignation effective December 31, 1957, was accepted by the Commission earlier in the session. The Commission instructed the Engineer to submit names and data on possible successors for consideration by the Commission at the next meeting on December 5 and 6.

Chairman Reynolds inquired about the status of the Medford By-pass route of the Pacific Highway, particularly as to the City's action. The Engineer reported that the City still has the agreement relating to street crossings, closure of streets, etc., which they have not yet signed. The City, he continued, is requesting additional provisions in the agreement and negotiations are continuing.

Commissioner Reynolds inquired about the results of a test run with a 54-ft. truck and semi-trailer equipment over the Wallowa Lake Highway and the Enterprise-Lewiston Highway between LaGrande and Lewiston, Idaho. The Engineer stated that there are two places where the equipment could not negotiate without encroaching on the opposite traffic lane, one being at the Rhinehart Overcrossing which he felt could be corrected with minor shoulder widening, and the other one being the Minam underpass which is only 17 feet wide. Commissioner Reynolds commented that several firms are interested in using 55-ft. truck and semi-trailer equipment particularly for hauling wood chips from the LaGrande area to Enterprise and to Lewiston. The Chief Counsel pointed out that the Commission would be liable for suit if an action was taken which jeopardized the safety of others. The Engineer offered the suggestion that those interested in hauling might employ flagmen at Minam underpass so that two large vehicles would not be in the narrow structure at the same time, or an electrical signal might be installed to accomplish the same purpose. The Engineer was instructed to determine how much hauling is contemplated

on this road using 55-ft. truck and semi-trailer combinations, and the feasibility of installing an electrical warning signal or some other system at the Minam underpass.

Chairman Reynolds brought up the matter of allowing additional commercial access to property owned by Inland Radio Company adjoining US30 just south of LaGrande. He recalled that the matter had been considered by the Commission previously and denied. He said the access had been discussed with the former owner who sold the property with the understanding that additional access might be allowed. He read aloud a suggested letter for the Commission's signature which read in part as follows: "That the Commission is willing to release some of its restrictions with respect to the use of this access but desire to hold this matter in abeyance until such time as you furnish the Commission a copy of your proposed plans for development of your property. An estimate as to when you plan to start and complete the construction project mentioned in your letter and the number, width, location, and type of construction proposed for the approaches to the Old Oregon Trail Highway". The Engineer remarked that he is concerned in the matter because the former owner, Mrs. Marshall Cornett, on three different occasions had been refused similar access which if granted would increase the value of the property, and were the Commission to grant access now it would hardly be treating Mrs. Cornett fairly. He expressed his feeling that the additional hazard caused by the access would not be too great and he offered no particular objection to granting it if Mrs. Cornett is satisfied. Chairman Reynolds said that he would discuss the matter with Mrs. Cornett. The Commission approved the letter as prepared and gave it to the Secretary to sign and mail when instructed to do so by the Chairman.

Commissioner Chessman stated that people had remarked to him about the absence of signs on the Sunset Highway west of Portland as to how to get to the R. H. Baldock Freeway. The Engineer stated that he is quite certain the matter can be corrected by the installation of directional signs near Beaverton and other points between Beaverton and Portland.

The Commission discussed the request presented by the U.S. Highway 20 Association earlier in the session for improvement of the Lebanon-Sodaville Junction Section of the Santiam Highway in Linn County, 21 miles in length The Engineer was instructed to investigate the project and report the probable cost involved, it being the thought of the Commission that it might be able to finance it within the next ten years.

The Commission signed the following agreements and other papers:

"Indentures of Access" on the following properties:

a. Mathis-Holstad property on Valley Junction-Sheridan Section of Salmon River Highway, Yamhill County.

b. Marcus property on Beaverton-Forest Grove Section of Tualatin Valley Highway, Washington County.

"Indentures of Access" (Cont.)

c. Weaver property on Glendale Junction-Wolf Creek Section of Pacific Highway, Josephine County.

d. Weaver property on Glendale-Wolf Creek Section of Pacific Highway, Josephine County.

e. Moon property on Willowdale-Lyle Gap Unit of Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

"Bargain and Sale Deed" to Weyerhaeuser Timber Company old right of way on Millicoma Bridge Unit of Coos River Highway, Coos County.

"Bargain and Sale Deed" to deed to Mr. Brooks 0.15 acre of excess property situate on Hunter Creek-Cape Sebastian Unit of Oregon Coast Highway, Curry County, for Mr. Brooks' interests in a road easement across State right of way, which contains 0.3 acre.

"Grant of Access" to Mr. and Mrs. F. W. Triska to correct an error in the conveyance to the State of property situate on South Unit Forest Boundary-Burns Section of John Day-Burns Highway, Harney County.

"Relinquishment of Title" of a small piece of right of way lying to the east of the Butteville-Springbrook County Road at its connection with US99W because it is used as a county road. Engineer recommends approval at no cost.

"Consent to Annexation" of a portion of US99 right of way lying to the east of the present city boundary. Engineer recommends approval.

"Waiver" of the agreement with Idaho Power Company which required the Company to bear its proportionate cost, on a depreciated basis, of a powerline extension constructed by the California-Pacific Utilities Company, Baker, in December 1952, at a cost to the State of $1,701.

"Amended Agreement" with the Idaho Power Company providing for the payment of the Company's share of the cost to reconstruct state highways necessitated by the Brownlee Dam construction.

"Bargain and Sale Deed" conveying to Crown Zellerbach Corporation a one inch strip of land immediately above high water mark of the Willamette River between 9th and 15th Streets in Oregon City.

"Lease and Sale Agreement" with City of Albany for a parcel of land on the North Jefferson Junction-Albany Section of the Pacific Highway East in Linn County.

"Agreement" with Sherman County covering the Moro Junction-Monkland Section of FAS 665.

November 1, 1957

"Bargain and Sale Deed" to Ramsay Signs Inc. for a parcel of land on the Willamette River-42nd Avenue Section of the T. H. Banfield Expressway in Multnomah County. (Authorized October 1, 1957)

"Bargain and Sale Deed" to Ted W. Buskirk for a parcel of land on the Goshen-Divide Section of the Pacific Highway in Lane County. (Authorized October 1, 1957)

"Throughway Agreement" with Multnomah County and State Highway Commission relative to restricting the construction of county roads intersecting the Sun Dial Road-Rooster Rock Section of the Columbia River Highway.

"Amended Agreement" between the State Highway Commission, Multnomah County and the City of Portland covering the modification of agreement entered into January 25, 1949 relative to the vacation of a portion of Sun Dial Road.

"Lease and Sale of Road Materials Agreement" with Robert C. Nelson covering property on the Unity Junction-Hill Gulch Section of the Baker-Unity Highway in Baker County.

"Agreement" with Douglas County covering the use of certain real property near Winchester Bridge, owned by Highway Commission, for park purposes.

"Agreement" with U.S. Government covering the renewal of an agreement entered into on December 17, 1956 whereby State leases to Government certain property known as Shore Acres Park, in Coos County.

"Lease Agreement" with Stan Daniels and Cloyed Beam covering the property at the Astoria Ferry Terminal in Clatsop County.

"Agreement" with James H. and Irene A. Burrell covering the construction and maintenance of a dam and irrigation ditch to carry water from the point of diversion on Mill Stream to their respective lands.

"Covenant Not To Sue" entered into by Elmer C. Jordan in connection with timber trespass in Section 1, Township 40 South, Range 14 West, Curry County.

There being no further business to conduct, the meeting was declared adjourned by Chairman Reynolds at 2:15 p.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

November 1, 1957

EXHIBITS "A" through "G"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

October 31 and November 1, 1957

EXHIBIT "A"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25573 Ray, Robert H. et al (Grothaus)
Right of Way, Stas. 243-245
Option expires March 4, 1958

0.63 acre	$500.00	
Severance damage	800.00	
Amount to be paid owners - chrg to Right of Way		$1,300.00

As per agreement, Grantors allowed to install 1" water pipe, if necessary, in right of way.

THINGS TO BE DONE BY THE STATE

Construct 15' wide surfaced approach at access location: 244+00, N., residential

Access controlled -

29086

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

20055 Meirig, Minnie (Grothaus)
Right of Way, Stas. 0+50-13+50
Option expires March 19, 1958
.883 acre $ 800.00
Damages 1,600.00
Amount to be paid owner - chrg to Right of Way $2,400.00

THINGS TO BE DONE BY THE STATE

Surface an approach to r/w line 15' in width at 8+75.
Access: 8+75 and 10+85, 25', N., agricultural, timber and residential; 2+20, 40', and 3+82, 25', N., unrestricted.
Specimen cedar at 7+40 not to be destroyed unless in interest of public safety, or necessary for construction.
Foster and Kleiser Co. billboard at 10+70, N., not to remain later than November 30, 1957.

Access controlled -

26983 Meinig, Milton A. and Frances Tonn (Grothaus)
Right of Way, Stas. 8-15
Option expires March 18, 1958
56 acre $350.00
Damages 750.00
Amount to be paid owners - chrg to Right of Way $1,100.00

THINGS TO BE DONE BY THE STATE

Construct surfaced 25' approach at 12+62.
Access: 9+85 and 12+62, 50' wide, S., unrestricted.

Access controlled -

25566 Anderson, Olrik T. and Alice M. CORRECTION REPORT (Grothaus)
Right of Way, Stas. 233-237
Option expires March 4, 1958
0.2 acre at $1,000 per acre $200.00
3.4 MBF timber 80.00
Amount to be paid owners - chrg to Right of Way $280.00

THINGS TO BE DONE BY THE STATE

Surface 16' approach to r/w line at access location: 234+90. S., unrestricted.
This supersedes and cancels previous approval of September 12-13, 1957 for agricultural, timber, motel, trailer and public park activities and residential.

Access controlled -

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27272 Bailey, James Richard and Margaret B. (Grothaus)
Right of Way, 11030 S.W. 55th Ave., Sta. 388
Option expires March 29, 1958

11,170 sq. ft.	$ 1,965.00	
House	14,400.00	
Garage	2,800.00	
Playhouse	350.00	
Amount to be paid owners - chrg to Right of Way		$19,515.00

Grantors to vacate 45 days after notice.

Entire taking -

22768 Peterson, Juanita A. (Scott)
Right of Way, 7222 S.W. Brier Pl., Sta. 203
Option expires April 10, 1958

1,530 sq. ft.	$ 430.00	
Apple tree	200.00	
Loss of access and encroachment damage	3,750.00	
Amount to be paid owner - chrg to Right of Way		$4,380.00

Complete restriction of access -

SYLVAN SECTION - SUNSET HIGHWAY

14999 Ellis, Henry D. (Mayhew)
Timber on Easement
Letter of acceptance September 20, 1957

50% of valuation of timber	$55.00	
Amount to be paid owner - chrg to Right of Way		$55.00

WASHINGTON COUNTY LINE, HILLSDALE SECTION - BEAVERTON-HILLSDALE HIGHWAY

27278 Raymond, Oscar (Scott)
Adjustment for loss of access, Sta. 85
Letter signed October 7, 1957

Elimination of driveway access to Beaverton-Hillsdale Highway	$1,000	
Amount to be paid owner - chrg to Right of Way		$1,000

Complete restriction of access -

FOREST GROVE-CORNELIUS UNIT, FOREST GROVE-HILLSBORO SECTION - TUALATIN VALLEY HIGHWAY

26522 Stevens, Alta E. (Black)
Right of Way, Sta. 228
Option expires March 19, 1958

FOREST GROVE-CORNELIUS UNIT, FOREST GROVE-HILLSBORO SECTION - TUALATIN VALLEY HIGHWAY

26522 Stevens, Alta E. (Cont.)

871 sq. ft.	$100.00	
Lawn, trees and shrubs	130.00	
Severance damage	670.00	
Amount to be paid owner - chrg to Right of Way		$900.00

Access: 228+75 (Do not construct), S., residential and
228+15 (Present driveway), S., residential and agricultural.

Access controlled -

26518 Haskin, Ralph E. and Kathleen B. (Black)
Right of Way, Stas. 217-219
Option expires April 8, 1958

0.21 acre	$420.00	
Amount to be paid owners - chrg to Right of Way		$420.00

THINGS TO BE DONE BY THE STATE

Construct asphalt surfaced approach at Sta. 217+70, 40' wide at r/w line.
Access: 217+70, 40' wide, N., unrestricted.

Access controlled -

26521 Grand Lodge A. F. & A. M. of Oregon (Smith)
Right of Way, Stas. 226-236
Option expires March 6, 1958

31,800 sq. ft. at $0.225+ per sq. ft.	$7,160.00	
Driveway, curbs and sidewalks	2,895.00	
Loss of shrubs and pond	290.00	
Amount to be paid owner - chrg to Right of Way		$10,345.00

Grantor may remove shrubs, trees, masonry and plaques; repair or remodel pond; reconstruct stopping station and access to same reserved. Grantor to have work completed 90 days after notice of acceptance.
Access: 226+70, 231+05 and 235+60, N., unrestricted.

Access controlled -

26526 Hamilton, W. E. and Anne (Black)
Right of Way, Stas. 236-238
Option expires April 7, 1958

6,534 sq. ft. at $0.155- per sq. ft.	$1,010.00	
Damage	200.00	
Amount to be paid owners - chrg to Right of Way		$1,210.00

THINGS TO BE DONE BY THE STATE

FOREST GROVE-CORNELIUS UNIT, FOREST GROVE-HILLSBORO SECTION - TUALATIN VALLEY HIGHWAY

26526 Hamilton, W. E. and Anne (Cont)

Construct and pave two approaches 25' wide at r/w line.
Access: 236+60 and 237+40, S., unrestricted.

Access controlled -

GOBLE-ST. HELENS SECTION - COLUMBIA RIVER HIGHWAY

26401 Smith, Thomas T. (Grant)
Right of Way, Sta. 322
Option expires March 18, 1958
0.07 acre $100.00
Amount to be paid owner - chrg to Right of Way $100.00

Complete restriction of access -

10834 Dalton, Floyd and Doris E. (Grant)
Right of Way, Stas. 277-311
Option expires March 23, 1958
0.79 acre $150.00
Amount to be paid owners - chrg to Right of Way $150.00

Access: Stas. 307+00 and 310+00, W., to be built by Grantors at some future date, unrestricted.

Access controlled -

26429 Investment Management Corporation (Smith)

20.0 acres at $450 per acre	9,000.00	
Removing hay from r/w	580.00	
Damages: 49 trees at $10/, 16 trees at $20/, loss of value to 64.74 acres at $150/ acre, feed lots, and misc. damages	14,773.40	
Amount to be paid owners - chrg to Right of Way		$34,125.00

HUNTINGTON SOUTH JUNCTION - OLDS FERRY SECTION - OLD OREGON TRAIL HIGHWAY

26583 Hopkins, Orin et al (Cont.)

Grantors to remove hay stacks from r/w 30 days before construction starts, and to rent the land not affected by construction until needed. May salvage fencing.

THINGS TO BE DONE BY THE STATE

Provide E. and W. frontage roads and a 60" conduit under hwy. and frontage roads at 81+70. Protect and re-establish irr. and drainage system where disturbed. Pipe waste water under hwy. where practical. Re-establish and maintain fences on r/w, needed for construction, with woven wire and steel post fence. Install cattle guard on County Road from Lockett and Tacke ranches where road crosses r/w

Approx. cost	$ 400.00
Provide underpass 10' x 10' approx 83+00.	
Approx. cost	$10,000.00
Provide stock underpass approx. 41+00, 8' x 8'	
Approx. cost	$ 6,400.00

E. frontage road not to obstruct or interfere with present road at 82+00.

Complete restriction of access -

DIVIDE-RICE HILL SECTION - PACIFIC HIGHWAY

27275 Coons, Glen and Josephine G. (Allen)
Right of Way and Slide Area Easement, Stas. 418-422
Option expires April 16, 1958

.89 acre	$100.00	
5.68 acres, temporary easement for waste material	100.00	
Amount to be paid owners - chrg to Right of Way		$200.00

THINGS TO BE DONE BY THE STATE

Leave passable roadway across easement area.

Complete restriction of access -

LINN COUNTY LINE-JUDKINS POINT UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25191 Berg, Elsie et al (Morgan)
Right of Way, Stas. 63-87
Option expires April 16, 1958

7 acres at $225 per acre	$1,575.00
0.34 acre at $100 per acre	34.00
Reconstructing 1,200' of irrigation ditch	600.00

LINN COUNTY LINE-JUDKINS POINT UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25191 Berg, Elsie et al (Cont.)

Amount to be paid owners - chrg to Right of Way $2,209.00

THINGS TO BE DONE BY THE STATE

Install pipe at 86+50 for Grantors' irrigation system and concrete check box easterly and opp. 86+10. Water to be maintained at present ground level at check box. Fence right of way with 47" high woven wire fence.

Complete restriction of access -

WHALEHEAD CREEK-BROOKINGS UNIT; MYERS CREEK-BROOKINGS SECTION - OREGON COAST HIGHWAY

26919 Gardner, Alvilda (Riley)
Right of Way and Temp. Ease for rd. appr., Stas.
Option expires April 7, 1958./1367-1370, 1402-1417
13.05 acres at $500 per acre $6,525.00
Plus temp. ease. for const. pvt. rd.
appr., 0.31 A. Gratis
Amount to be paid owner - chrg to Right of Way $6,525.00

THINGS TO BE DONE BY THE STATE

Reconnect road approx. 1415+00 and reconstruct road approx. 1402+50.
Access: 1415+00, E., residential and 1368+42.46, W., and 1402+50, E., residential and production and transportation of mineral products.

Access controlled -

GOBLE-ST. HELENS SECTION - COLUMBIA RIVER HIGHWAY

26410 Bishop, Robert C. et al (Rohde)
Right of Way, Stas. 98-111
Warranty Deed signed October 25, 1957
5.29 acres, 0.62 acre constr. ease., house, trees and improvements $12,382.00
Amount to be paid owners - chrg to Right of Way $12,382.00

THINGS TO BE DONE BY THE STATE

Raise level of existing road to 3' above grade that will protect two existing culverts.
Access: 102+30, W., and 107+00, E., unrestricted.

Access controlled -

Offer of $12,382.00 approved 9-12-57

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

24639 Sherman, Walter T. and Alice M. (Rohde)
Right of Way, 7404 S.W. Brier Place, Sta. 207
Warranty Deed signed October 8, 1957

5,000 sq. ft.	$ 2,500.00	
House	10,000.00	
Amount to be paid owners - chrg to Right of Way		$12,500.00
State to assume 1957-58 taxes. Estimate		250.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$12,750.00

Grantors to vacate 10 days after acceptance.

Entire taking -

22892 Foo, Louie (Rohde)
Right of Way, N.E. corner of S.W. 1st and Calif., Sta. 193

5,000 sq. ft. (2,125 sq. ft. Excess)	$775.00	
Amount to be paid owner - chrg to Right of Way		$775.00
State to assume 1957-58 taxes. Estimate		20.00
GRAND TOTAL (Estimate) chrg to Right of Way		$795.00

Entire taking -

Confirmation of phone approval offer of October 10, 1957.

COLUMBIA SLOUGH-INTERSTATE BRIDGE SECTION - PACIFIC HIGHWAY

26992 Appleman, Lloyd E. and Mary H. (Grothaus)
Easement for drainage pipe
Easement signed October 22, 1957

Drainage pipe easement, 1,800 sq. ft.	$10.00	
Amount to be paid owners - chrg to Right of Way		$10.00

26991 Grant, Westley (Grothaus)
Easement for drainage pipe
Easement signed October 18, 1957

Drainage pipe easement, 336 sq. ft.	$10.00	
Amount to be paid owner - chrg to Right of Way		$10.00

26990 Pacific First Federal Savings and Loan Association (Grothaus)
Easement for drainage pipe
Easement signed October 22, 1957

Drainage pipe easement, 300 sq. ft.	$10.00	
Amount to be paid owner - chrg to Right of Way		$10.00

SILETZ BAY-MINER CREEK SECTION - OREGON COAST HIGHWAY

4246 Kafoury, Paul and Virginia (Henry)
Right of Way, Stas. 627-630
Option expires April 22, 1958

0.38 acre	$50.00	
Amount to be paid owners - chrg to Right of Way		$50.00

Complete restriction of access -

ALBANY-LANE CO. LINE UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25457 Cooper, Cuthbert C. and Alice H. (Henry)
Right of Way, Stas. 1588-1612
Option expires April 22, 1958

15.87 acres at $250- per acre	$3,967.00	
Barn	250.00	
Damages	6,383.00	
Amount to be paid owners - chrg to Right of Way		$10,600.00

THINGS TO BE DONE BY THE STATE

Fence Right of Way.

Complete restriction of access -

LINN CO. LINE-JUDKINS PT. UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

22565 Winn, Thomas and Leola E. (Allen)
Right of Way, Stas. 352-367
Option expires April 13, 1958

10.06 acres at $500- per acre	$5,000.00	
Severance Damage	1,950.00	
Amount to be paid owners - chrg to Right of Way		$6,950.00

THINGS TO BE DONE BY THE STATE

State to allow grantor to pass through or under drainage structure to be constructed near Sta. 356, but assumes no liability for passability. Grantor may harvest crop until 9-30-58. Construct oiled roadway over R/W from E. end of Parcel 2 to county road No. 975.

Complete restriction of access -

HUNTINGTON SOUTH JUNCTION-OLDS FERRY SECTION - OLD OREGON TRAIL HIGHWAY

26586 Ownes, Burton D. et al (Brainerd)
Right of Way, Stas. 110-124
Option expires April 8, 1958

10.5 acres at $400 per acre	$ 4,200.00
House, 1,235 sq.ft. at $11 per sq. ft.	13,585.00
Concrete fruit cellar, 120 sq.ft. at $2.50/sq.ft.	300.00
284 ft. dom. well at $3 per ft.	852.00
Dom. well housing, pump and system	200.00
Allow. for moving 50 tons hay at $4 per ton	200.00
Allow. for re-est. 88' irr. well, pump, dam and pole settings	800.00
Butane tank, 500 gal.	100.00

HUNTINGTON SOUTH JUNCTION-OLDS FERRY SECTION - OLD OREGON TRAIL HIGHWAY

EXHIBIT "B"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Unit 5 of the T. H. Banfield Expressway described as follows:

A parcel of land lying in the East half of Section 28, Township 1 North, Range 2 East, W.M., Multnomah County, Oregon, and being a portion of that property described in those certain deeds to State of Oregon by and through its State Highway Commission, recorded in Book 1460, Page 542 and Book 1484, Page 30 of Multnomah County Records of Deeds; the said parcel being described as follows:

Beginning at the Southeast corner of said State of Oregon property, said corner being on the Westerly line of the Northeast 102nd Avenue; thence Northerly along the Westerly line of Northeast 102nd Avenue, a distance of 75.5 feet to the Northeast corner of said property as recorded in Book 1460, Page 542: thence Northwesterly at right angles to the center line of the T. H. Banfield Expressway, a distance of 50 feet, more or less, to a line which is parallel to and 110 feet Southeasterly of said Expressway center line; thence Southwesterly parallel to and 110 feet Southeasterly of said Expressway center line a distance of 110 feet, more or less, to the Southerly line of said property; thence Easterly along said Southerly line 90 feet, more or less, to the place of beginning, containing 0.14 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes:

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property

EXHIBIT "B" (Cont.)

and the right of way of the T. H. Banfield Expressway. Access will be by way of 102nd Avenue.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 54 be entered in the minutes and records of the Commission as of the 31st day of October, 1957.

EXHIBIT "C"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance.

"Contract No. 4567, with A. H. Saxton and Son for constructing the Service Creek Bridge on the Service Creek-Mitchell Highway in Wheeler County, completed September 30, 1957.

"Contract No. 4586, with Birkemeier Construction Company for constructing the North Dayton Overcrossing and Lafayette Road Undercrossing on the Three Mile Lane Highway in Yamhill County, completed September 30, 1957.

"Contract No. 4658, with Warren Northwest, Inc., for grading and paving on the Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County, completed August 15, 1957.

"Contract No. 4741, with Tom Lillebo for constructing the Luckiamute River Bridge on the Independence-Albany Highway in Polk County, completed August 30, 1957.

"Contract No. 4776, with Fred H. Slate Co., Oreg. Ltd., and E. C. Hall Co for grading and paving on the Josephine Co., Line-Rogue River Road Section of the Pacific Highway in Jackson County, completed October 3, 1957.

"Contract No. 4811, with F. L. Somers for grading and paving on the River Banks Farm Section of the Rogue River Loop Highway in Josephine County, completed September 13, 1957.

"Contract No. 4820, with Lee Hoffman for constructing the Yamhill River (Lafayette) Bridge on the Lafayette-South Road in Yamhill County, completed October 9, 1957.

"Contract No. 4827, with Ausland Construction Company for constructing the Weaver Road Structure on the Pacific Highway in Douglas County, completed October 18, 1957.

"Contract No. 4838, with J. C. Compton Co. for grading and paving on the Ashland Undercrossing-Helman St. (Ashland) Section of the Pacific Highway in Jackson County, completed August 24, 1957.

"Contract No. 4878, with C. P. Patterson for constructing the Beaver Creek Bridge and South Fork Bridge on the Paulina Highway in Crook County, completed October 7, 1957.

EXHIBIT "C" (Cont.)

"Contract No. 4884, with Vernie Jarl for grading and oiling on the Cayuse-Thornhollow Section of the Adams-Cayuse Road in Umatilla County, completed August 12, 1957.

"Contract No. 4886, with C. J. Eldon, Contractor, for grading on the Short Creek-Oceanside Section of the Cape Meares Loop Road in Tillamook County, completed September 20, 1957.

"Contract No. 4917, with Quinn Bros. and Robbins, Inc. for grading and oiling on the E. Unit, Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County, completed September 28, 1957.

"Contract No. 4922, with Warren Northwest, Inc. for grading and paving on the Humbug Summit-Elsie Section of the Sunset Highway in Clatsop County, completed September 30, 1957.

"Contract No. 4923, with Warren Northwest, Inc., for grading and paving on the East Unit, Quartz Creek-Rock Creek Section of the Sunset Highway in Clatsop County, completed October 5, 1957.

"Contract No. 4935, with D. F. McKenzie for grading and stone base on the West Unit, Airlie-Suver Section of the Burns Corner-Suver Road in Polk County, completed October 18, 1957.

"Contract No. 4941, with E. H. Itschner Co. for furnishing crushed material in stockpiles on the Elgin-Union Section of the Wallowa Lake and Cove Highways, in Union County, completed October 17, 1957.

"Contract No. 4959, with C. A. Lantz for constructing the Sign Department office building at the Salem Shops in Marion County, completed October 23, 1957.

"Contract No. 4977, with Warren Northwest, Inc. for grading and paving on the Four Corners-Geer Station Section of the Geer Station Road in Marion County, completed October 25, 1957.

"Contract No. 4985, with Chain Link Fence Corporation and Chicago Fence & Equipment Co. for construction metal median barrier on the Barbur Boulevard-Tualatin River Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Washington, Clackamas and Multnomah Counties, completed October 9, 1957.

"Contract No. 5001, with the Central Heating Co., Oreg. Ltd., for oiling on nine Deschutes County Roads, completed October 1, 1957.

"Contract No. 5003, with Sig Andersson for grading and oiling on the Glasgow Road Section of the Glasgow Road in Coos County, completed October 17, 1957.

EXHIBIT "C" (Cont.)

"Contract No. 5005, with Warren Northwest, Inc., for grading and paving on the Gates Truck Scale Site Section of the North Santiam Highway in Marion County, completed October 8, 1957.

"Contract No. 5017, with H. J. & H. W. Miller for grading and paving on the Nyssa Bridge Section of the Old Oregon Trail Highway in Malheur County, completed October 12, 1957.

"Contract No. 5021, with Interstate Paving Co. for grading and paving on the Prairie City (Bridge Street) City Street Section in Grant County, completed October 17, 1957.

"Contract No. 5037, with McNutt & Sons, Inc., for overnight camp expansion in Tumalo State Park in Deschutes County, completed October 15, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 67 shall be entered in the minutes and records of the Commission as of the 31st day of October, 1957.

EXHIBIT "D-1"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the relocated Hopewell Section of the Bellevue-Hopewell Highway No. 153 located in Yamhill County, the westerly terminus of which is at Highway Engineer's Survey Station 0+00 and the easterly terminus of which is at Highway Engineer's Survey Station 15+00 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Yamhill County and the State Highway Commission entered into an agreement on the 22nd day of March, 1957, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A", and

WHEREAS, said agreement provided that Unit "A" would be eliminated to County by State, as part of the Bellevue-Hopewell Highway by formal resolution; and that Unit "A" would be maintained thereafter by County as part of the county road system as long as needed for the service of persons living thereon, or communities served thereby; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said realignment;

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right of way which by reason of the relocation of the Hopewell Section of the Bellevue-Hopewell Highway is no longer needed as part of the new right of way, is identified as Unit "A" and described as follows:

Unit "A":

Most of the land situated within the right of way boundaries of the Bellevue-Hopewell Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 3+00 of said highway as relocated in the northeast quarter of the northeast quarter (NE 1/4-NE 1/4), Section 31, Township 5 South, Range 3 West, W.M.; thence southerly and easterly via said highway as formerly routed to the southerly right of way line opposite Highway

Engineer's Survey Station 12+35 of said highway as relocated in the northwest quarter of the northwest quarter (NW 1/4-NW 1/4), Section 32, Township 5 South, Range 3 West, W. M.

2. Pursuant to the agreement entered into with Yamhill County on the 22nd day of March, 1957, Unit "A", indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is hereby duly eliminated as part of the Bellevue-Hopewell Highway and the state highway system; and all right, title and interest which State has in the right of way of Unit "A" herein described, pass to and vest in said Yamhill county. *

3. The right of way of the former and of the relocated Hopewell Section of the Bellevue-Hopewell Highway, together with the real property acquired by State for roadway right of way and other public purposes, as indicated on Exhibit "A" attached hereto, shall be retained and held by State. *

4. This Abandonment and Retention Resolution, No. 326, be entered in the minutes and records of the Oregon State Highway Commission as of the 31 day of October, 1957, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Yamhill County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem said resolution being File No. 326, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

Exhibit "D-2"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway, or any section thereof, and by reason of said relocation or realignment there is eliminated from the original route of the highway a section thereof, the eliminated section shall:

(a) If needed for the service of persons living thereon or for a community served thereby, be maintained by the Commission at State expense, or by the County, or by the State and County on such terms and conditions as may be agreed upon;

(b) If the abandoned sections are merely part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners, unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the McKenzie Highway, State Primary Highway No. 15, known as the Deep Canyon Section, in Deschutes County, the westerly terminus of which is at Highway Engineer's Centerline Survey Station 0+00, and the easterly terminus of which is at Highway Engineer's Centerline Survey Station 192+50 on the said relocated highway, and said relocated section of the highway has now been completed and is open for public travel; and

WHEREAS, due to the relocation of the aforesaid sections, certain portions of the former right of way are no longer needed for right of way purposes and may be eliminated as sections of the said relocated McKenzie Highway, which sections are designated as units "A", "B", "C" and "D"; and

WHEREAS, units "A", "B", "C" and "D" are not needed for the persons living thereon or the communities served thereby; and

WHEREAS, in the judgment of the Commission said units "A", "B", "C" and "D" are not needed nor are they valuable for any public use; and

WHEREAS, in the judgment of the Commission, certain other sections of the right of way of the former and of the relocated Deep Canyon Section of the McKenzie Highway, State Primary Highway No. 15, together with real property acquired by State for roadway and other public purposes, are needed and are valuable for public use, and that title should remain in the

public. The sections in which title is retained by State are shown colored in green on the map attached hereto, marked "Exhibit A", and by this reference made a part hereof.

NOW, THEREFORE, be it and it hereby is resolved by this Commission:

1. That by reason of the relocation of the Deep Canyon Section of the McKenzie Highway, State Primary Highway No. 15, in Deschutes County, Oregon, certain sections of the former right of way of the former Deep Canyon Section of the said McKenzie Highway are no longer needed by the State of Oregon and are no longer required for the part of the said new right of way of the said relocated McKenzie Highway, State Primary Highway No. 15, which said sections are identified as units "A", "B", "C" and "D", and are described as follows:

Unit "A"
All the land situated within the right of way boundaries of the McKenzie Highway as formerly routed, beginning on the northerly right of way line opposite Highway Engineer's Centerline Survey Station 8+30 of said highway as relocated in the northwest quarter of the northeast quarter (NW¼ NE¼), Section 19, Township 15 South, Range 11 East, W. M.; thence easterly and southeasterly via said highway as formerly routed to the northerly right of way line, opposite Highway Engineer's Centerline Survey Station 22+40 of said highway as formerly routed in the northeast quarter of the northeast quarter (NE¼ NE¼), Section 19, Township 15 South, Range 11 East, W. M.

Unit "B"
All the land situated within the right of way boundaries of the McKenzie Highway as formerly routed, beginning on the southerly right of way line opposite Highway Engineer's Centerline Survey Station 62+00 of said highway as formerly routed in the southeast quarter of the southwest quarter (SE¼ SW¼), Section 3, Township 15 South, Range 11 East, W. M.; thence easterly via said highway as formerly routed to the southerly right of way line opposite Highway Engineer's Centerline Survey Station 90+60 of said highway as relocated in the southeast quarter of the southeast quarter (SE¼ SE¼), Section 3, Township 15 South, Range 11 East, W. M.

UNIT "C"
All the land situated within the right of way boundaries of the McKenzie Highway as formerly routed beginning at the northerly right of way line opposite Highway

EXHIBIT "D-2" (Cont)

Engineer's Centerline Survey Station 95+50 of said highway as relocated in the northwest quarter of the southwest quarter (NW¼ SW¼) of Section 2, Township 15 South, Range 11 East, W.M.; thence easterly via said highway as relocated to the northerly right of way line opposite Highway Engineer's Centerline Survey Station 101+50 of the relocated highway in the northwest quarter of the southwest quarter (NW¼ SW¼), Section 2, Township 15 South, Range 11 East, W.M.

Unit "D"

All the land situated within the former right of way boundaries of the McKenzie Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Centerline Survey Station 105+00 of said highway as relocated in the southwest quarter of the southwest quarter (SW¼ SW¼), Section 2, Township 15 South, Range 11 East, W.M.; thence easterly via said highway as formerly routed to the southerly right of way line opposite Highway Engineer's Centerline Survey Station 166+70 of said highway as formerly routed in the southeast quarter of the southwest quarter (SE¼ SW¼), Section 1, Township 15 South, Range 11 East, W.M.

2. That units "A", "B", "C" and "D", as heretofore described, and as shown colored in brown on the attached sheet, marked "Exhibit A", are hereby eliminated as part of the McKenzie Highway, State Primary Highway No. 15 and the state highway system, and that all right, title and interest which the State has in units "A", "B", "C" and "D" hereby passes to and vests in the owner or owners of the abutting property. *

3. That title shall remain in State to the right of way of the former and of the said relocated section of the McKenzie Highway, State Primary Highway No. 15, known as the Deep Canyon Section, in Deschutes County, Oregon, together with the real property acquired by State for roadway, right of way and other public use as shown colored in green on Exhibit A attached hereto. *

4. That this resolution be entered in full in the minutes and records of this Commission as Resolution No. 340, this 31 day of October, 1957, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Deschutes County.

EXHIBIT "D-3"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway, or any section thereof, by reason of said relocation or realignment there is eliminated from the original route of the highway a section thereof, the eliminated section shall:

a. If needed for the sevices of persons living thereon or for communities served thereby, be maintained by the Commission at state expense, or by the county, or by the state and county, on such terms and conditions as may be agreed upon;

b. If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners, unless, in the judgment of the Commission said sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the Coos River Highway, State Secondary Highway No. 241, known as Millicoma Bridge Section, in Coos County, the southerly terminus of which is at Highway Engineer's Centerline Survey Station 8+50 and the northerly terminus of which is at Highway Engineer's Centerline Survey Station 22+63 on the said relocated highway, and said relocated section of highway has now been completed and is open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated as a section of the said original Coos River Highway, and which said section is herein referred to as Unit "A"; and

WHEREAS, Unit "A" as hereinafter referred to is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Unit "A" is not needed for the service of persons living thereon or for communities served thereby; and

WHEREAS, in the judgment of the Commission, said Unit "A" is not needed nor is it valuable for any public use; and

WHEREAS, in the judgment of the Commission, certain other sections of the right of way of the former and of the relocated Millicoma Bridge Section of the Coos River Highway, State Secondary Highway No 241, together with the real property acquired by the State for roadway and other public uses, are needed and are valuable for public use, and that title should

EXHIBIT "D-3" (Cont)

remain in the public. The sections in which title is to be retained by the State are as indicated on the map attached hereto, marked "Exhibit A", and by this reference made a part hereof.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. That by reason of the relocation of the Millicoma Bridge Section of the Coos River Highway, State Secondary Highway No. 241, in Coos County, Oregon, a section of the former right of way of the former Millicoma Bridge Section of the Coos River Highway is no longer needed by the State of Oregon and is no longer required for a part of said new right of way of the said relocated Coos River Highway, which said section is identified as Unit "A" and is described as follows:

Unit "A"
All the land situated within the right of way boundaries of the Coos River Highway as formerly routed, beginning on the westerly right of way line opposite Highway Engineer's Centerline Survey Station 13+85 of said highway as relocated in Lot 13, Section 8, Township 25 South, Range 11 West, W.M.; thence northwesterly and northerly via said highway as formerly routed to the westerly right of way line, opposite Highway Engineer's Centerline Survey Station 19+65 of said highway as relocated in the southeast quarter of the southwest quarter ($SE\frac{1}{4}$ - $SW\frac{1}{4}$), Section 5, Township 25 South, Range 11 West, W.M.

2. That Unit "A", as heretofore described, and as indicated on the attached map, marked "Exhibit A" is hereby eliminated as part of the Coos River Highway, State Secondary Highway No. 241, and the state highway system, and that all the right, title and interest which the State has in Unit "A" passes to and vests in the owner or owners of the abutting property.

3. That title shall remain in the State to the right of way of the former and of the said relocated section of the Coos River Highway, State Secondary Highway No. 241, known as the Millicoma Bridge Section, in Coos County, together with the real property acquired by State for roadway, right of way, and other public uses, as indicated on the map attached hereto and marked "Exhibit A".

4. That this resolution be entered in full in the minutes and records of this Commission as Resolution No. 339, this 31 day of October, 1957, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Coos County, Oregon.

EXHIBIT "D-3" (Cont)

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 339, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29122

EXHIBIT "D-4"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate that section of the Wilson River Primary Highway No. 37 known as the Tillamook-Donaldson Creek Section, the westerly terminus of which is at Highway Engineer's Survey Station 0+00 and the easterly terminus of which is at Highway Engineer's Survey Station 231+50 on the relocated highway; and,

WHEREAS, as a consequence of the relocation of said section of highway a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and,

WHEREAS, Tillamook County and the State Highway Commission entered into an agreement on the date of March 1, 1956, relating to the disposition to be made of the eliminated portion, therein and hereinafter referred to as Unit "A"; and,

WHEREAS, the said agreement provided that after the relocation was completed and open to public travel Unit "A" would be abandoned as part of the Wilson River Highway to Tillamook County by the State Highway Commission to be maintained thereafter by said County as part of the county road system; and,

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Tillamook-Donaldson Creek Section of the Wilson River Highway, together with other real property acquired by the State for roadway right of way and other public purposes, are needed and are valuable for right of way purposes and public use; and,

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of that portion of the former right of way of said highway referred to herein as Unit "A", as well as the property affected by reason of the said relocation; and,

WHEREAS, that section of the Wilson River Primary Highway No. 37 located in Tillamook County and known as the Tillamook-Donaldson Creek Section, the westerly terminus of which is at Highway Engineer's Survey Station 0+00 and the easterly terminus of which is at Highway Engineer's Survey Station 231+50 on the relocated highway, has been completed and opened to public travel;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

EXHIBIT "D-4" (Cont)

1. The portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified as Unit "A" as shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof, is more particularly described as follows: *

Unit "A"

All the land situated within the right of way boundaries of the Wilson River Highway as formerly routed beginning at the intersection of said highway as formerly routed and the easterly city limits of the City of Tillamook; thence easterly via said former highway to the southerly right of way line opposite Highway Engineer's Survey Station 223+70 of said highway as relocated on the East-West center line of the southwest quarter of Section 23, Township 1 South, Range 9 West, W. M.

2. That pursuant to the aforesaid agreement entered into with Tillamook County on the 1st day of March, 1956, Unit "A" is hereby duly abandoned as part of the Wilson River Highway and the State highway system, and all right, title and interest which the State had in the right of way of Unit "A" herein described is hereby vested in the said Tillamook County effective October 31, 1957.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway. It also includes some parts or areas of the old right of way not now incorporated with the boundaries of the right of way proper. In connection with area colored in green, it is the judgment and finding of the Commission that all of the said area is, and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all the land or areas shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. This Abandonment and Retention Resolution, No. 315, be entered in the minutes and records of the Oregon State Highway Commission as of the 31st day of October, 1957, and the Secretary is hereby directed to mail a duly certified copy hereof to the Tillamook County Court. *

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 315, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29124

EXHIBIT "E-1"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference

EXHIBIT "E-1" (Cont)

hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 876.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem being Resolution No. 876, under the heading "Real Property Condemnation Resolutions, and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29126

EXHIBIT "E-2"

Minutes of October 31 amd November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreements, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State

EXHIBIT "E-2" (Cont)

are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real

EXHIBIT "E-2" (Cont)

property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 877.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 877, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-3"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Portland-Bonneville Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "E-3" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Portland-Bonneville Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway, including the Sundial-Troutdale traffic interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the widening, improvement and maintenance of said Portland-Bonneville Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 878.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 878, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29132

EXHIBIT "E-4"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not

EXHIBIT "E-4" (Cont)

immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of

EXHIBIT "E-4" (Cont)

real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 879.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 879, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-5"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "E-5" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked "Exhibit A". *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-5" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 880.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 880, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29138

EXHIBIT "E-6"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road, or street, quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and

WHEREAS, said Commission is authorized to take fee simple title to said real property

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "E-6" (Cont)

2. That the highway facilities for which the said parcel of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 881.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 881, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29140

EXHIBIT "E-7"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous or undesirable points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, reconstruct, improve and maintain the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be relocated, constructed, reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, reconstructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and

EXHIBIT "E-7" (Cont)

that access to and from the said highway should be controlled; and

WHEREAS, the State Highway Commission did find, declare and resolve on March 2, 1956, that there was needed and required for right of way purposes for the construction, reconstruction, improvement and maintenance of the Columbia River Highway as a throughway the parcels hereinafter described as Parcel No. 1 and Parcel No. 2; and

WHEREAS, said resolution of March 2, 1956, was supplemented by resolution dated June 4, 1956, and amended by resolutions dated March 28, 1957, May 16, 1957 and September 12, 1957.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that said resolution of March 2, 1956, and resolutions supplementary and amendatory thereto are further supplemented and amended as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required for right of way purposes for the construction, reconstruction, improvement and maintenance of the Columbia River Highway as a throughway, including its use for the construction, reconstruction, improvement and maintenance of frontage roads and a traffic interchange, which traffic interchange, with a connecting road to be constructed by the State Highway Commission, will connect the said Columbia River Highway and the Crown Point Secondary Highway, the following described real property, to wit:

File No. R-24183
Owners: Paul Martin and Verla Martin

Parcel No. 1:

A parcel of land lying in Lot 1 of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being 686 feet West and 191.52 North 0° 07' East from the Southeast corner of said Lot 1; thence North 84° 17' West parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway, 228.9 feet to a point opposite Station 521+50 on said relocated highway center line; thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 65.4 feet to the West line of said Martin tract; thence South along said West line 110 feet to the point of beginning.

EXHIBIT "E-7" (Cont)

The parcel of land to which this description applies contains 0.22 acre.

Parcel No. 2:

A parcel of land lying in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Northeast quarter (NE¼) of the Northeast quarter (NE¼) thence North 40° 40' East 153.5 feet; thence North 3.72 feet to the Southeast corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being the true point of beginning of the parcel herein described; thence South 84° 17' East parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway 535.1 feet to a point opposite Station 537+00 on said relocated highway center line; thence North 62° 28' 55" West 538.52 feet to a point opposite and 400 feet northerly from Engineer's centerline Station 532+00; thence North 84° 17' West parallel to and 400 feet northerly from said relocated highway center line 55.1 feet to the East line of said Martin tract; thence South along said East line 201 feet to the point of beginning.

The parcel of land to which this description applies contains 1.4 acres.

2. That it is necessary to acquire and remove all of that certain farm structure located partially upon the real property hereinabove described as Parcel No. 2 and partially upon the owners' remaining real property approximately opposite Highway Engineer's centerline Station 534+00 and northerly of the said Columbia River Highway, and in connection therewith, it is necessary to acquire a right of entry to go upon the owners' remaining real property contiguous to the real property hereinabove described as Parcel No. 2 for the purpose of removing, dismantling or otherwise disposing of said structure.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the Columbia River Highway and all real property of the owners easterly of the Sandy River in Section 25, Township 1 North, Range 3 East, Willamette Meridian, and Sections 29 and 30, Township 1 North, Range 4 East, Willamette Meridian, Multnomah County, Oregon, abutting on the said Columbia River Highway remaining after the appropriation of the above-described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, the following:

EXHIBIT "E-7" (Cont)

Rights of access to a frontage road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the northerly side of the main-traveled way thereof between approximately Engineer's Station 531+50 and Engineer's Station 537+00 at all places thereon easterly of Engineer's Station 532+00.

Rights of access to a connection road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway between the existing underpass under said Columbia River Highway at approximately Highway Engineer's centerline Station 521+25 and the Crown Point Secondary Highway at any place thereon southerly of Highway Engineer's centerline Station 27+60.

4. The State Highway Commission does hereby find and declare that there is needed and required for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system, the following described real property, to wit:

File No. R-26577
Owners: Paul Martin and Verla Martin

Parcel No. 3:

A parcel of land lying in Lot 1 of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being that portion of said Lot 1 lying northerly of the following described line:

Beginning at a point opposite and 200 feet northerly of Station 511+00 on the center line of the Columbia River Highway, said point being 1016 feet South and 639.9 feet West of the North quarter corner of said Section 25, thence South 84° 17' East parallel to said center line 1050 feet to a point opposite Station 521+50 on said center line, thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 707.11 feet to a point opposite and 400 feet northerly of Station 530+00 on said center line: thence South 84° 17' East parallel to and 400 feet northerly of said center line 40 feet, more or less, to the East line of Lot 1 of said Section 25

Parcel No. 4:

That portion of Government Lot 6, Section 24, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, which is South of the westerly extension of the South line of Government Lot 7 in said Section.

EXHIBIT "E-7" (Cont)

5. That the construction, reconstruction, improvement and maintenance of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

6. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

7. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

8 That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No 882.

EXHIBIT "E-8"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Olds Ferry-Ontario Secondary Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Olds Ferry-Ontario Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the widening, improvement and maintenance of said Olds Ferry-Ontario Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and

EXHIBIT "E-8" (Cont)

is being taking is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 883.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 883, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-9"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provision and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "E-9" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway including the Green Springs Highway Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 884.

---

*FOOTNOTE

The name of the property owner and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 884, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29150

EXHIBIT "E-10"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Finn Rock-Elk Creek Section of the McKenzie Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Finn Rock-Elk Creek Section of the McKenzie Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "E-10" (Cont)

2. That it is necessary that there shall be, and there shall be where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said existing and relocated McKenzie Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Finn Rock-Elk Creek Section of the said McKenzie Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 885.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 885, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29152

EXHIBIT "E-11"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper, and,

EXHIBIT "E-11" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A:, no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Pendleton-Deadman's Pass Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-11" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 886.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 886, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-12"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS the State Highway Commission on the 8th day of August, 1957, by resolution declared the necessity for the acquisition of real property owned by John W. Shaw, et al., File No. L-2851, situated in Polk County, Oregon, for right of way purposes for the relocation, construction, improvement and maintenance of the Valley Junction-Sheridan Section of the Salmon River Highway, including the Wallace Bridge Interchange; and

WHEREAS, the said State Highway Commission has never intended to control access between the Wallace Bridge Interchange and the owners' remaining real property at the point hereinafter set forth, and the construction plans for the construction and maintenance of said Wallace Bridge Interchange so indicated; and

WHEREAS, said resolution of August 8, 1957, does not clearly express the said intent of the Commission and the Commission desires to clarify its records so that said intent will be so expressed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the access provisions of that certain resolution made and entered in full in the minutes and records of the Commission on the 8th day of August, 1957, be and the same hereby is amended by adding to the accesses reserved unto the owners, their heirs and assigns for service of their remaining land, the following:

> A right of access to the "Ma" line of the said Wallace Bridge Interchange, said right of access to be of a width of 20 feet and said right of access to be at the westerly termination of said "Ma" line at Station "Ma" 9+40.45 P.T.

2. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 887.

29156

EXHIBIT "E-13"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road, or street, quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "E-13" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 888.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 888, under the heading, "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29158

EXHIBIT "E-14"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access; deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "E-14" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-14" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 889.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 889, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-15"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreements, donation, or by the exercise of the power of eminent domain fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "E-15" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcelsof real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "E-15" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 890.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 890, under the heading "Real Property Comdemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29164

EXHIBIT "E-16"

Minutes of October 31 and November 1, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "E-16" (Cont)

2. That the widening, improvement and maintenance of the said Washington County Line-Hillsdale Section of the said Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of November, 1957, as Condemnation Resolution No. 937.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 937, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29166

EXHIBIT "F-1"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Silver Creek Falls Secondary Highway

Highway number 163 Route number ORE 214

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
1.13 (east city limits of Salem)	1.45 (50 feet east of Airport Road)	40

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "F-1" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 256 be entered in the minutes and records of the Commission as of the 31st day of October, 1957.

29168

EXHIBIT "F-2"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Cascade Secondary Highway

Highway number 160 Route number State 211

Location of Termini		Established Speed

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Resolution No. 236 approved November 8, 1956.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 257 be entered in the minutes and records of the Commission as of the 31st day of October, 1957.

EXHIBIT "F-3"

Minutes of October 31 and November 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following:

Name of Highway: Clackamas Secondary Highway

RESOLUTION

WHEREAS, the Beaverton-Tualatin Secondary Highway No. 141 is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway in the vicinity of a tavern and grocery store at the junction of the Beaverton-Tualatin and Scholls Highways; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by reason of restricting sight distance; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on said highway at said location:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Beaverton-Tualatin Highway, between a point 100 feet west of the Scholls Highway, M.P. 2.77, and a point 200 feet east of the Scholls Highway, M.P. 2.83, on the north side, and 100 feet east of the Scholls Highway, M.P. 2.81, on the south side, creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles at said location on said Beaverton-Tualatin Highway 141 should be prohibited except that permission is granted for establishment of a loading zone on the south side of said highway between a point 200 feet and a point 300 feet east of the Scholls Highway (M.P. 2.81 to M.P. 2.83).

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT "F-8" (Cont)

6. That this "No Parking" Resolution No. 170 be entered in the minutes and records of the State Highway Commission as of the 31st day of October, 1957.

EXHIBIT "G"

Minutes of October 31 November 1, 1957

RESOLUTION

WHEREAS, the Oregon Legislature in 1953 and 1955, and the Washington Legislature in 1953, authorized the sale of bonds to finance an additional bridge between Portland, Oregon and Vancouver, Washington; and

WHEREAS, an agreement was entered into on August 9, 1954, between the Oregon State Highway Commission, the Washington State Highway Commission, and the Washington Toll Bridge Authority, said agreement detailing the obligations of the parties as to the construction and financing of said bridge; and

WHEREAS, pursuant to said agreement, the Washington Toll Bridge Authority on March 27, 1956, sold bonds in the amount of $9,300,000 face value; and

WHEREAS, pursuant to said agreement, the Oregon State Highway Commission on March 27, 1956, awarded the contract for the construction of said bridge (said contract not including, however, the work for the entire project); and

WHEREAS, within three months of the awarding of the aforesaid contract, the Federal Highway and Highway Revenue Acts of 1956 were signed into law by the President of the United States; and

WHEREAS, the aforesaid congressional acts generally provided for heavy Federal contributions to the several states for future construction of highways and highway facilities which are designated as part of the National System of Interstate and Defense Highways; and

WHEREAS, the aforesaid Federal acts did not provide for Federal contributions to the states for highway construction which had already been undertaken or completed at the time the said acts became law, except that said acts declared an intent and policy to "equitably reimburse those states for any portion of a highway which is on the Interstate System, whether toll or free, the construction of which has been completed subsequent to August 2, 1947, or which is either in actual use or under construction by contract, for completion, awarded not later than June 30, 1957, and such highway meets the standards required by this title for the Interstate System"; and

WHEREAS, said acts directed the Secretary of Commerce to study and collect all facts relevant to the problem and to report said facts to the Federal Congress not later than January 12, 1958; and

EXHIBIT "G" (Cont)

WHEREAS, said acts "declared the policy and intent of the Congress to provide funds necessary to make such reimbursements to the States as may be determined"; and

WHEREAS, the said Portland-Vancouver bridge will be and is an integral portion of the Interstate Highway System; and

WHEREAS, a toll bridge charge will be imposed at the time of the completion of the Portland-Vancouver Interstate Bridge System unless early action is taken by the Congress to provide for Federal financial participation in the cost of said bridge project; and

WHEREAS, it is the opinion of the Oregon State Highway Commission that the said Portland-Vancouver Interstate Bridge System should be operated as a toll free facility;

NOW, THEREFORE, BE IT RESOLVED:

1. That the said Highway Commission strongly favors Federal action toward the end that the Portland-Vancouver Interstate Bridge System be, and continue to be, operated as a toll free facility.

2. That the said Commission does recommend and does respectfully petition the Congress of the United States and the Secretary of Commerce to take steps necessary to the passage of legislation which would allow the Portland-Vancouver Interstate Bridge System to be, and to continue to be, operated as a toll free facility.

3. That copies of this resolution be forwarded to the Secretary of Commerce of the United States and to the members of the Congressional delegations of Washington and Oregon.

4. That this be entered in full in the minutes and records of the Commission this 31st day of October, 1957, as Miscellaneous Resolution No. 209.

Portland, Oregon
December 5, 1957

The Oregon State Highway Commission met in regular session at 9:00 a. m. in the Queens Room of the Imperial Hotel. Present were:

Charles H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
R. L. Porter, Right-of-Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Prior to opening of bids for highway construction, Chairman Reynolds expressed to the contractors and others assembled, best wishes for a Merry Christmas and a happy and prosperous New Year. He added that Mr. Ben R. Chandler, former Chairman of the Commission, had asked him to express his good wishes to the contractors, members of the Highway Department, and others.

Bids as follows were then opened and readaloud by the Secretary, who stated that the Commission would announce awards of contracts at 4:30 p. m. in the same room:

The Parks Superintendent reported on the following parks matters:

Request of Mr. and Mrs. J. L. Campbell for renewal of their concession lease at Silver Falls State Park: The Parks Superintendent stated that the Campbells have been operating the Lodge for the past several years and their services to sell food, souvenirs, etc., have been satisfactory. Income for the current year, he added, will be slightly in excess of $600. The Commission approved his recommendation that the lease be extended for one year beginning January 1, 1958.

Proposed names for State Park areas at Devils Lake near the Oregon Coast Highway in Lincoln County: The history of the Park was reviewed briefly by the Parks Superintendent, who pointed out that the City of Delake donated approximately 20 acres on the north and west side of Devils Lake for an overnight camping area, and that the State is purchasing an approximate 70-acre area on the south and east side of the lake for day or picnic use. The name of the Lake he said, is well established and it was his thought that the park area should be named "Devils Lake State Park". He also recommended that the overnight camping area be named "Devils Lake Overnight Camping Area" and that the day use area be named "Devils Lake Day Use Area." He presented a map showing the location of the park and the two areas mentioned. The Commission approved the names as recommended.

29191

Request of Legislative Committee to install a bronze marker on the right-of-way of the Oregon Coast Highway at Neah-Kah-Nie Mountain in Tillamook County in honor of Ex-Governor Oswald West: The Parks Superintendent explained that the Legislative Committee has been authorized to provide a plaque in honor of Ex-Governor West who was instrumental in setting aside the Oregon beaches as publicly owned recreational areas as well as public highways. A number of sites were considered and the Committee finally decided on a widened place on the highway at Neah-Kah-Nie Mountain. He presented the following wording approved by the Committee and recommended that the plaque be placed as recommended by the Committee:

IF SIGHT OF SAND AND SKY AND SEA
HAS GIVEN RESPITE FROM YOUR DAILY CARES

THEN PAUSE TO THANK OSWALD WEST
FORMER GOVERNOR OF OREGON (1911-1915)

BY HIS FORESIGHT
NEARLY 400 MILES OF THE OCEAN SHORE
WAS SET ASIDE FOR PUBLIC USE
FROM THE COLUMBIA RIVER ON THE NORTH
TO THE CALIFORNIA BORDER ON THE SOUTH

THIS MARKER IS ERECTED AND DEDICATED
BY THE GRATEFUL CITIZENS OF OREGON
TO COMMEMORATE
THIS OUTSTANDING ACHIEVEMENT
IN THE CONSERVATION OF NATURAL RESOURCES

The Commission approved the plaque, the location thereof, and the wording as recommended.

Proposed purchase of 30 acres of land on the Redwood Highway in Josephine County from the U. S. Bureau of Land Management: The Parks Superintendent explained that an area of 70 acres south and west of Cave Junction has been under lease for 20 years but the lease will soon expire. Thirty acres of this land he said, is public domain property and the remainder is O & C land. The 40 acres of O & C land cannot now be leased or purchased but the 30 acres of public domain land in Sec. 18 can be acquired under the Recreation Act which requires payment of approximately 30% of the appraised value of the land plus the full value of any timber on it. The value of the land for park purposes, he stated, is the early season wild flowers and the evergreen trees on the property. Although no specific figure can be given, it was his opinion that the value of the land would be nominal and that the cost of acquiring the timber would not be great. The

Commission approved his recommendation that the 30-acre tract of public domain land be acquired at this time.

Request of Bonneville Power Administration for a supplementary easement agreement to maintain power line guy anchors in Cove State Park, Jefferson County: The Parks Superintendent explained that the Power Administration has an easement for a power line across a portion of the Park but now finds it necessary to secure three small additional areas for the placing of guy-lines and anchors. The use of additional Park property, he said, will not be detrimental to the Park and he recommended that the easement agreement be granted. The Commission accepted his recommendation.

Request of C. H. Young and S. O. Newhouse for a change in location of access from their property across Cape Sebastian State Park in Curry County to the existing Oregon Coast Highway: An easement previously granted, the Parks Superintendent stated, has now been determined to be in the wrong location and cannot be used. He recommended that the access be changed to provide access at Engineer's Station 413+56.0. The Commission approved the revised location.

Out-of-State travel for the Assistant Parks Superintendent and the Parks Superintendent: The Commission authorized the Assistant Parks Superintendent to attend a meeting of the Columbia Basin Inter-Agency Subcommittee on Recreation at Missoula, Montana, on December 10, 1957, at an estimated cost of $80. The Commission also authorized the Parks Superintendent to attend a meeting of the Board Of Directors of the National Conference on State Parks in Washington, D. C., during January 23 and 24, 1958, at an estimated cost of $315.00.

Proposed uniforms for Parks employees: The Parks Superintendent stated that in compliance with previous instructions from the Commission, further study has been given to the matter of providing uniform clothing for certain Parks personnel. He presented two samples of cloth, one of wool and one of cotton, being of a light and dark gray, and also a design for a shoulder patch to be worn on coats and shirts. He pointed out that in the specifications for the uniforms the principal consideration had been given to the color of cloth, and the matching shirts, hats, ties, and shoes. It was his thought that this would give employees some choice in clothing which could be purchased at most stores and still provide uniformity He recalled that when the matter of uniforms was discussed previously, it was with the thought that the State would pay $15 for the first year for cotton uniforms and $25 per year when wool uniforms are required. Also, that the State would pay for the shoulder patch which he estimated would cost about 30 cents per patch. The Commission accepted and approved the Parks Superintendent's report, including specifications and the design for the shoulder patch with the understanding that changes could be made if necessary. (For details concerning the cloth samples, specifications, and the draft of the shoulder patch, see the Parks Superintendent's letter dated December 2 in the General Files.)

In discussing the design of the shoulder patch, some thought was given

to including reference to the Highway Department in the wording on the patch, however, no action was taken. It was also suggested that wording be placed on signs at park entrances to indicate that the parks are operated by the State Highway Commission. The Parks Superintendent was instructed to study this suggestion.

Proposed vacation of nine streets in the Townsite of Harborton adjacent to South Beach State Park in Lincoln County: The Parks Superintendent stated that the vacation of these streets would not be harmful to the State Park but rather would be an advantage. He recommended approval of the "notice of application to vacate" and the petition directed to the Lincoln County Court on the same matter. The Commission approved the vacation of the streets as recommended.

The Parks Superintendent brought up for discussion a request from Mr. Jack Flaucher, who operates the concession in the Depoe Bay Park building for permission to close the building during the months of January, February, and March, except on weekends. He pointed out that gross income in January, 1957, was $369.00, in February $298.00, and in March $496.00 and that most of the visitors came on weekends. From these amounts it would be necessary to deduct the cost of materials sold, labor and other expenses which undoubtedly would result in a considerable deficit. It was his thought that if the building is closed there will probably be some criticism from the public and if closure is approved it should be on a trial basis. The Chief Counsel pointed out that under the terms of the contract for operation of the concession, the building cannot be closed without modifying the contract or entering into a new one. Commissioner McIver inquired if much opposition to closing is anticipated from the people of Depoe Bay. The Parks Superintendent replied that most private businesses are closed in Depoe Bay during the winter months but there might be some local objections. Commissioner McIver then observed that to him it appeared reasonable to permit the closing of the building during the winter months if such action can be taken legally. Action on this matter was deferred pending Mr. Flaucher's appearance on the following day.

(When Mr. Flaucher appeared before the Commission he was requested to contact the Chief Counsel concerning modification of the existing contract to allow closure of the building in January, February, and March, except on Saturdays, Sundays, and holidays. See additional entry ahead.)

The Parks Superintendent mentioned a letter that he has prepared to the State Water Resources Board, dated December 4, 1957, relative to recreational use and possibilities in the McKenzie River Basin. The Commission deferred action on the matter until the following day for study. (The letter was approved by the Commission on the following day.)

The Engineer announced that the Bureau of Public Roads and the U. S. Forest Service officials have requested a conference at 1:30 p.m. on the following day to discuss the programming for new Forest Highway Funds. The Commission approved such conference at the time stated. (See ahead for program.)

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked Exhibit "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options presented, the Right of Way Engineer called attention to a proposed settlement with Mohawk Carpet Company, on Harbor Drive at the foot of Montgomery Street in Portland. One appraisal is for $168,750 and the other $200,000. The proposed settlement is for $192,000. He pointed out that the proposed settlement is in excess of the amount that it appears the U.S. Bureau of Public Roads will participate in. He recommended the proposed settlement but he requested authority for the Chief Counsel to condemn the property if a settlement cannot be reached which will meet the approval of the Bureau of Public Roads. Commissioner McIver expressed concern that there might be criticism of the Highway Commission if a settlement was approved for an amount larger than would be approved by the Bureau of Public Roads. Mr. C G. Polk, Division Engineer for the Bureau of Public Roads who was present objected to the wide variation in appraised amounts and suggested that another appraisal be made. Chairman Reynolds observed that the prime objective should be securing the property for the lowest reasonable figure, even though participated in by the Federal Government to the extent of 90 per cent. Upon the suggestion of Commissioner McIver, the Commission authorized settlement for $192,000 as recommended by the Right of Way Engineer provided the settlement is approved by the Bureau of Public Roads; otherwise, the property is to be acquired by condemnation. The Right of Way Engineer was instructed to secure another appraisal of the property.

The Right of Way Engineer also brought up for discussion the option taken from the Jackson County Federal Savings and Loan Association, File No. 27036, for right of way that is needed for the Columbus Avenue-Riverside Avenue (Medford) Section of the Medford-Provolt Highway. He asked that this item be deleted from the list of options and that he be authorized to re-negotiate this settlement because it appears that "special benefits" was not taken into account in the previous negotiations and if such benefits do exist they will have quite a bearing on the amount of the settlement. He also requested authority for the Chief Counsel to condemn the property if it is found that such special benefits do exist and the re-negotiations prove unsuccessful. The Commission approved the request and authorized condemnation of the property if that appears necessary. The Commission also approved settlement of this case on the basis of the option already obtained if it is found that no special benefits accrue to the property.

The meeting recessed at 12:00 noon and reconvened at 1.30 p.m in the same room, with the same persons present and participating.

A report was presented by the Right of Way Engineer showing the Property Manager's monthly statement covering miscellaneous properties sold in the amount of $4,296.30 and changes in status of rental properties showing terminations and new rentals for the period from October 17, 1957 to November 25, 1957. Rental receipts for the month of October, 1957, were reported in the amount of $11,437.36. The Commission accepted the report.

(For details concerning miscellaneous sales and property rentals, see the Right of Way Engineer's letter, dated November 26, 1957, in the General Files.)

Authority was requested by the Right of Way Engineer to offer at public sale certain parcels of property which are no longer required for highway purposes, as follows:

1. Glatt property, File No. 20359, on the Willamette River-Gervais Section of the Pacific Highway in Marion County - 4.7 acres, at a minimum price of $705.00, with no access to the Freeway.

2. McCall property, File No. 22361, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County - 9.21 acres for a minimum price of $6,500, with the provision that if a cash sale cannot be made, a down payment of $650.00 shall be accepted, the balance to be payable at the rate of $75.00 per month with interest at the rate of 5½ percent, the contract to run for a period of ten years. (See Exhibit B-1).

3. Dunlop property, File No. 17449, on the Rowena-The Dalles Section of the Columbia River Highway in Wasco County - 0.3 acre, opposite Station 2198+00, for a minimum price of $3,500 and without access to the Columbia River Highway except by frontage road. See Exhibit B-2).

The Commission authorized sale of the properties as reported and thereupon adopted the attached resolutions relative thereto, marked Exhibit "B-1" and Exhibit "B-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein

Changes in points of access at three locations were presented by the Right of Way Engineer. He explained that in each instance no additional access is being granted but a change in location is recommended for the safety of the traveling public and the convenience of the land owners. The Commission approved the following indentures of access to accomplish these changes, as follows:

1 Haggard-Alcorn property, File No. 25506, on the Gold Beach-Hunter Creek Unit of the Oregon Coast Highway in Curry County.

2. Bolter-Wood property, File No. 21848, on the Sherman Junction-Willowdale Section of The Dalles-California Highway in Jefferson County.

3. Lively property, File No. 16478, on the Mehama-Mill City Section of the North Santiam Highway in Marion County.

Attention was given by the Commission to a claim submitted by Bonneville Power Administration in the amount of $2,891.55 for additional cost to move its facilities on the Chenoweth Creek-The Dalles Section of the Upper Columbia River Highway in Wasco County. The Right of Way Engineer stated that the cost to move the Bonneville facilities in connection with highway construction was higher than originally estimated and

the additional amount represents costs over and above the amount previously deposited by the Highway Department for this purpose. The Commission approved the payment.

Consideration was given to a claim submitted by Douglas Electric Cooperative, Inc., in the amount of $559.27 for relocating its poles on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County. The Right of Way Engineer advised that the claim is a legitimate one and he recommended that it be paid. The Commission approved the payment.

Consideration was given to the granting of an easement to the Portland General Electric Company to maintain a pole line over highway property on the Salem By-pass Section of the Pacific Highway. The Right of Way Engineer explained that the power line crosses excess highway property that is for sale, and that the consideration involved is $1.00. The Commission approved the easement.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

HARBOR DRIVE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY (formerly Portland-Salem Expressway)

R-19388 - Daniel F. Creary
Right of Way (Multnomah County)
34,472 square feet

R-27110 - S. B. Gustaff
Right of Way (Multnomah County)
8,260 square feet

R-27266 - A. H. Edwards and Louise Edwards
Right of Way (Multnomah County)
4,188 square feet

R-27267 - Mike Karaman and Eva Karaman
Right of Way (Multnomah County)
13,500 square feet

R-27269 - Harold Collins and Julia Collins
Right of Way (Multnomah County)
4,000 square feet

R-27310 - Marialice Malarkey, Jane Ann Costello and Ellen Costello
Right of Way (Multnomah County)
7,600 square feet

R-27344 - Albert R. Carocci and June M. Carocci
Right of Way (Multnomah County)
1,165 square feet

R-27345 - Edmond H. Verdurmen and Elodie M. Verdurmen
Right of Way (Multnomah County)
275 square feet

R-27435 - Howard J. DeVeny
Easement for Storm Sewer (Multnomah County)
112 square feet

HAY CANYON-JOHN DAY RIVER SECTION OF THE WASCO HEPPNER HIGHWAY

R-26842 - William H. Ragsdale and Lida H. Ragsdale
Sherman County
Parcel No. 1: 4.56 acres for Right of Way
Parcel No. 2: 1.86 acres for Right of Way

R-26843 - Hansine C. Hansen
Right of Way (Sherman County)
3.32 acres

R-26971 - Eunice L. Henkle
Sherman County
Parcel No. 1: 5.7 acres for Right of Way
Parcel No. 2: 5.8 acres for Material Source

R-27446 - Moro Grain Growers Association
Right of Way (Sherman County)
0.1 acre

SANDY-FOREST BOUNDARY SECTION OF THE MT. HOOD HIGHWAY

R-27366 - E. W. Morlan and Evelyn Morlan
Right of Way (Clackamas County)
3.6 acres

MAIN STREET-8th STREET SECTION OF THE MEDFORD-PROVOLT HIGHWAY

R-27027 - John P. Hartsook and Lydia Jane Hartsook
Right of Way (Jackson County)
50 square feet

R-27028 - LaVetta A. Gibson
Right of Way (Jackson County)
112 square feet

R-27032 - County of Jackson
Right of Way (Jackson County)
0.03 acre

R-27034 - Myron Root and Company, Inc.
Jackson County
Parcel No. 1: 0.25 acre for Right of Way
Parcel No. 2: 900 square feet

FOREST GROVE-HILLSBORO SECTION OF THE TUALATIN VALLEY HIGHWAY

R-26534 - P. A. Thompson and Onolia F. Thompson
Washington County
Parcel No. 1: 0.23 acre for Right of Way
Parcel No. 2: 0.01 acre for Excess Taking
Amended resolution to eliminate access control language

ALBANY-JUDKINS POINT SECTION OF THE PACIFIC HIGHWAY (formerly Pacific Highway East)

R-25458 - W. C. Cooper and Sadie J. Cooper
Right of Way (Linn County)
0.7 acre
Amended resolution to include permit of entry

R-25486 - Earl W. Kennel and Bernice Kennel
Right of Way (Linn County)
17.83 acres

R-25488 - Percy Heyerly and Mildred Heyerly
Linn County
Parcel No. 1: 21.3 acres (net) for Right of Way
Parcel No. 2: 3.0 acres (net) for Right of Way

R-25602 - Pierce Jenks and Elida Jenks
Linn County
Parcel No. 1: 18.32 acres for Right of Way
Parcel No. 2: 110.7 acres for Material Source

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

L-2704 (R-20205) - Byrthae M. Bennett
Right of Way (Lane County)
7,360 square feet
Amended resolution to increase area of taking

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

R-20481 - Derwinna Kimball Bauch
Right of Way (Lane County)
805 square feet

R-20560 - H. A. Sunday and Margaret P. Sunday
Right of Way (Lane County)
1,152 square feet

R-27443 - Joseph R. Kalisky and Gladys J. Kalisky
Right of Way (Lane County)
6,128 square feet

R-27494 - O. D. Rhoads and Floyd Rhoads
Right of Way (Lane County)
1,800 square feet

MYERS CREEK-BROOKINGS SECTION OF THE OREGON COAST HIGHWAY

R-26914 - William H. Brady
Right of Way (Curry County)
19.5 acres

December 5, 1957

MYERS CREEK-BROOKINGS SECTION OF THE OREGON COAST HIGHWAY

R-26915 - Maude Mosier Longacre
Right of Way (Curry County)
10.0 acres

R-26916 - Lloyd D. Mosier, Sr.
Curry County
Parcel No. 1: 2.2 acres for Right of Way
Parcel No. 2: 0.03 acre for Excess Taking
Parcel No. 3: 0.2 acre for Drainage Ditch Easement

R-26917 - Verloise Upp
Curry County
Parcel No. 1: 2.0 acres for Right of Way
Parcel No. 2: 0.46 acre for Excess Taking

R-26919 - Alvilda H. Gardner
Curry County
Parcel No. 1: 3.15 acres for Right of Way
Parcel No. 2: 1.6 acres for Right of Way
Parcel No. 3: 7.18 acres for Right of Way
Parcel No. 4: 1.8 acres for Right of Way
Parcel No. 5: 0.31 acre for a permanent easement for an approach road

R-26921 - E. B. Salmon and Edith R. Salmon
Curry County
Parcel No. 1: 6.05 acres for Right of Way
Parcel No. 2: 0.4 acre for Excess Taking

R-26922 - L. H. Strid and Alma M. Strid
Right of Way (Curry County)
1.26 acres

R-26923 - Charles V. Ames and C. L. Fallert
Curry County
Parcel No. 1: 3.92 acres for Right of Way
Parcel No. 2: 1.2 acres for Excess Taking

R-27263 - Consolidated Borax, Inc.
Curry County
Parcel No. 1: 26.5 acres for Right of Way
Parcel No. 2: 13.66 acres for Material Source
Parcel No. 3: 8.23 acres for Easement for a Channel Change
Parcel No. 4: 1.72 acres for an Easement for a Waste Area

R-26933 - Gunnar Hedberg and Elmer Hedberg
Right of Way (Curry County)
1.2 acres

December 5, 1957

SAMUEL H. BOARDMAN STATE PARK (Curry County)

R-27263 - Consolidated Borax, Inc.
Park Purposes (Curry County)
12.0 acres

DAVIS SLOUGH-BANDON SECTION OF THE OREGON COAST HIGHWAY

R-27262 - David R. Philpott and Alfred E. Maneely, et al.
Coos County
Parcel No. 1: 9.2 acres for Right of Way
Parcel No. 2: 10.7 acres for a Material Source
Amended resolution to change access control language

R-26097 - David R. Philpott and Ruth J. Philpott
Coos County
Parcel No. 1: 15.1 acres for Right of Way
Parcel No. 2: 0.15 acre for an Easement for Approach Road
Amended resolution to change access control language

HARBOR DRIVE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY (formerly Portland-Salem Expressway)

L-2689 (R-20998) - George A. Edwards and Alice Ruth Edwards, et al.
Resolution to rescind taking. Property no longer deemed necessary.

JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HIGHWAY

L-2719 (R-20120) - Martin E. Hill and Edna R. Hill, et al.
Resolution to rescind taking. Property no longer deemed necessary.

GRAND AVENUE-UNION AVENUE ONE-WAY COUPLET SECTION OF THE PACIFIC HIGHWAY EAST

L-2871 (R-26871) - Morehouse Holding Company
Multnomah County
Parcel No. 1: 1,797 square feet for Right of Way
Parcel No. 2: 767 square feet for an Easement
Amended resolution designating use of Parcel No. 2 and reducing the area of the taking of Parcel No. 2.

PORTLAND-BONNEVILLE SECTION OF THE COLUMBIA RIVER HIGHWAY

R-26555 - Beatrice A. Maxwell
Right of Way (Multnomah County)
0.56 acre
Amended resolution to change access control language

WILLOWDALE-LYLE GAP UNIT, WILLOWDALE-MADRAS SECTION OF THE DALLES-CALIFORNIA HIGHWAY

L-2744 (R-25853) - J. Lester Horigan, Alma F. Horigan and Henry W. Lever
Right of way (Jefferson County)
44.72 acres (net)
Amended resolution to change access control language

TILLAMOOK-DONALDSON CREEK SECTION OF THE WILSON RIVER HIGHWAY

R-27495 - Joseph Donaldson
Right of Way (Tillamook County)
0.05 acre

PLEASANT HILL-CRESSWELL SECTION OF THE SPRINGFIELD-CRESWELL HIGHWAY

L-2876 (R-26804) - Vernon Chitwood and Hedwig Martha Chitwood
(Lane County)
Parcel No. 1: 5.04 acres (net) for Right of Way
Parcel No. 2: 0.69 acre for a Channel Change Easement
Amended resolution to change access control language

HARBOR DRIVE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY

R-27448 - Costello Heirs
Right of Way (Multnomah County)
5,000 square feet

R-27517 - Nick A. Notos and Bertha A. Notos
Right of Way (Multnomah County)
365 square feet

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After carefully considering the proposed condemnations and in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission approved the condemnations by adopting the attached resolutions relative thereto marked Exhibits "K-1" through "K-19", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

In discussing the condemnations the Chief Counsel pointed out that of the 90 condemnations requested 53 are located along the R. H. Baldock Freeway in the Portland area, and he felt that it would be

necessary to take a large number of them to court because of failure to agree with the owners on amounts to be paid. He also pointed out that more condemnations are anticipated because of the necessity of collaborating with the U. S. Bureau of Public Roads in acquisition of right of way. Chairman Reynolds stated that the Commission wishes to keep the number of condemnations at a minimum and inquired if all efforts at negotiations are being made. The Chief Counsel replied in the affirmative.

The Chief Counsel presented and the Commission accepted a report of one condemnation case that was tried during the period of November 1, 1957 to December 5, 1957, in which the details are summarized as follows:

REPORT OF CONDEMNATION CASE TRIED - JANUARY 1 TO DECEMBER 5, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Anderson, et al R-24791	Lane	Oregon Coast	Florence Douglas County Line	$345.00	Default	Judgment Default $345.00

(For additional details, see Chief Counsel's letter regarding condemnation case tried, dated November 29, 1957, in the General Files).

The Chief Counsel also presented and the Commission accepted a report of cases that have been settled out of court since the last Commission meeting, details of which are summarized below:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Mollner S. A. and Bernice G. R-25438	Clackamas	Mt. Hood	Sandy-Forest Boundary	$185.00	$400.00
Dustan, et al R-25132	Lane	McKenzie	Finn Rock-Elk Creek	$600.00	$900.00
Schofield, et al R-23102	Klamath	The Dalles-California	Klamath Falls West Side Bypass	$425 00	$600.00

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Verdict or Judgment
L-2715	State Highway Comm.	Blue Mountain Mills Co.	Grant	Damages to highway by water leaking from defendant's reservoir	$2,700.00	$1,375.00
R-21199	State Highway Comm.	Gourley, et al	Douglas	Specific performance of option	$100.00	$162.50
L-2742	State Highway Comm.	Favell-Utley Realty Co., et al	Lake	Suit for injunction and damages	(Easement and $1000 payment received and case dismissed previously approved 9-12-57)	

(For additional details see the Chief Counsel's letter regarding report of cases settled, dated November 29, 1957, in the General Files).

In conformity with a resolution adopted by the Commission December 20, 1951, the Chief Counsel presented offers that were tendered for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Portland-Bonneville Section of the Columbia River Highway

R-26555 - Beatrice A. Keeler, et al. 0.56 acre for right of way purposes. Offer of $750.00 approved by Mr. McIver, November 22, 1957.

R-27005 - Alvin Kinney, et ux. 1.35 acres for material source. Offer of $800.00 approved by Mr. McIver, November 12, 1957.

R-27012 - Jean P. Roberts, et al. 0.25 acre for material source. Offer of $100.00 approved by Mr. McIver, November 27, 1957.

R-27155 - George E. Barkdoll, et al. 4.2 acres for right of way purposes. Offer of $3,500.00 approved by Mr. McIver, November 13, 1957.

R-27157 - John E. Erickson, et al. 6.01 acres for right of way purposes. Offer of $6,500.00 approved by Mr. McIver, November 18, 1957.

R-27158 - Russell C. Wilson, et al. 3.44 acres for right of way and acquisition of easement interest. Offer of $5,600.00, approved by Mr. McIver, November 21. 1957.

R-27159 - M. A. Cerruti, et al. 2.9 acres for right of way purposes. Offer of $5,500.00 approved by Mr. McIver, November 21, 1957.

Portland-Bonneville Section of the Columbia River Highway (Cont.)

R-27160 - Charles Richard Knarr, et al. 1.6 acres for right of way purposes. Offer of $1,600.00 approved by Mr. McIver, November 15, 1957.

R-27161 - William Wallace Spence, et al. 0.44 acre for right of way purposes. Offer of $440.00 approved by Mr. McIver, November 21, 1957.

R-27162 - Chas. L. Abbott. 2.4 acres for right of way purposes. Offer of $5,400.00 approved by Mr. McIver, November 26, 1957.

R-27163 - Theodore J. Schulte, et al. 0.25 acre for right of way purposes. Offer of $450.00 approved by Mr. McIver, November 27, 1957.

R-27175 - Frank H. Reed, et ux. Acquisition of easement interest Offer of $12,200.00 approved by Mr. McIver, November 14, 1957.

Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-26515 - Archdiocese of Portland in Oregon. 0.33 acre for right of way purposes. Offer of $2,600.00 approved by Mr. McIver, November 27, 1957.

R-26516 - Ray H. Franck, et al. 0.17 acre for right of way purposes. Offer of $4,600.00 approved by Mr. McIver, November 13, 1957.

R-26517 - Vergil D. Brannock, et ux. 0.20 acre for right of way purposes. Offer of $4,600.00 approved by Mr. McIver, November 4, 1957.

R-26519 - Margaret Young and Benjamin Yantti. 0.58 acre for right of way purposes. Offer of $6,100.00 approved by Mr. McIver, November 27, 1957.

R-26525 - Grace E. Priest, et al. 0.13 acre for right of way purposes. Offer of $5,060.00 approved by Mr. McIver, November 18, 1957.

R-26534 - Lucile Davidge, et al. 0.23 acre for right of way purposes and 0.01 acre for excess taking. Offer of $1,700.00 approved by Mr. McIver, November 27, 1957.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-22520 - Laura A. Moore, et al. 6,200 square feet for right of way purposes. Offer of $450.00 approved by Mr. McIver, November 14, 1957.

R-23681 - Theodore F. Wauters, et ux. 31,750 square feet for right of way purposes. Offer of $9,680.00 approved by Mr. McIver, November 20, 1957.

R-26479 - Eldon O. Urbigkeit. 6,425 square feet for right of way purposes. Offer of $710.00 approved by Mr. McIver, November 21, 1957.

R-26998 - James O. Chappell, et ux. 150 square feet for right of way purposes. Offer of $300.00 approved by Mr. McIver, November 12, 1957.

Klamath Falls-Green Springs Highway Junction Section of The Dalles-California Highway

R-26792 - Hazel N. Gass. 2.38 acres for right of way purposes. Offer of $40,000 approved by Mr. Reynolds, November 12, 1957.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26098 - E. R. Stillwell, et al. 8.1 acres for right of way purposes and 4.4 acres for Excess Taking. Offer of $625.00 approved by Mr. McIver, November 14, 1957.

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East)

R-25458 - W. C. Cooper, et ux. 0.7 acre for right of way purposes. Offer of $4,845.00 approved by Mr. McIver, November 8, 1957.

Portland-Bonneville Section of the Columbia River Highway

R-26348 - Troutdale Farms, Inc. 4.6 acres for material source, $690.00

R-27496 - Troutdale Farms, Inc. 16.4 acres for material source, $2,460.00

The Commission accepted a report submitted by the Chief Counsel concerning matters that have been before the Public Utilities Commissioner in which the State has been made a party, summarized as follows:

PUX 232: South Sixth Street Crossing Signals at intersections with the tracks of Southern Pacific Company in the city of Corvallis. The only crossing in which the Highway Commission has any interest is Western Avenue or "A" Street. The order denied the application as to three of the city streets and ordered further studies with reference to the crossing at Western Avenue or "A" Street, which is the route of the Corvallis-Newport Highway.

PUX 234: Southern Pacific Train Speeds within the limits of the city of Medford. It was ordered that train speeds at Main Street and 8th Street be fixed at a maximum of 15 miles per hour.

PUX 240: Overcrossings of the Tallman Branch of Southern Pacific Company in Linn County. This matter arose upon application of the State Highway Commission for construction of two overcrossing structures on the revised location of the Pacific Highway. The order authorized construction in accordance with the petition.

PUX 241: Crossings of the Woodburn-Springfield Branch of the Southern Pacific Company in Linn County. This matter arose upon application

of the Highway Commission for construction of two overcrossing structures on the revised location of the Pacific Highway. The order authorized construction in accordance with the petition.

PUX 242: Crossings of the Woodburn-Springfield Branch of Southern Pacific Company in Lane County. This matter arose upon application of the Highway Commission for construction of two overcrossing structures on the revised location of the Pacific Highway. The order authorized construction of the structures in accordance with the petition.

PUX 248: County Road Grade Crossing of the tracks of Southern Pacific Company near Oakland in Douglas County. This matter arose upon the application of Douglas County and the order authorizes construction of the grade crossing.

PUX 249: McKinley Street Grade Crossing by tracks of Southern Pacific Company in Eugene. This matter arose upon application of Southern Pacific Company and the order authorizes construction in accordance with the petition.

A report was submitted by the Chief Counsel concerning a compromised claim against Richard Devereux, CAO-57-7. The Chief Counsel reported that on December 20, 1956, Mr. Devereux damaged a curb and right-of-way fence at M. P. 232.5 on the Oregon Coast Highway, in the amount of $256.84. The Oregon Automobile Insurance Company, insurer of Mr. Devereux, denied the claim. It appears that in the event of a trial there would be a conflict of testimony as to where signs and flagmen were located, and in view of the difficulty of proof of liability and the expense of the trial, he recommended approval of a compromise settlement in the sum of $128.42. The Commission approved settlement as recommended.

A written report on abandonment of claims was presented by the Chief Counsel. He pointed out that it had been deemed expedient to abandon the claims because in some instances the defendants either had left the State or could not be located, and because of lack of witnesses and insufficient evidence to properly prosecute the cases. With the exception of State Motors case all of them involve relatively minor amounts. In the State Motors case it appears that the license number reported as belonging to State Motors had been stolen a few days prior to the accident. He recommended that the following claims be abandoned:

1. CAO-57-197: State Motors, 517 E. 4th, Olympia - $600.00
2. CAO-57-158: Benjamin T. Chacon, King Avenue, Route 1 Ontario - $10.00
3. CAO-57-182: E. G. Huston, Portland - $29.29
4. CAO-57-202: Wallace W. Hockema, 105 Tripp Street, Medford - $239.14
5. CAO-57-9: Lewis O. Petrie - $95.49

6. CAO-57-48: Lyle M. Modin, Newport - $50.25

7. CAO-57-88: Leslie Moug - $7.43

8. CAO-57-152: June Kinsey, 660 E Street, Salem - $49.80

The Commission approved abandonment of the claims as reported. (For additional details, see the Chief Counsel's letter regarding abandoned claims, dated November 25, 1957, in the General Files).

The Chief Counsel requested authority to dismiss court action against Oscar W. Francis. Jr. He explained that the institution of suit was based upon a collision with Johnson Creek Bridge at the intersection of 82nd and S. E. Harney Street in Portland, causing damages in the amount of $399.16. Complaint was filed on October 15, 1956, and numerous attempts have been made to serve the defendant, with no results, and it appears that the defendant has left the State. Chairman Reynolds inquired if all possible reasonable means had been used to locate the defendant. The Chief Counsel replied that diligent efforts had been made, without success. He also remarked that his office had been successful in collecting approximately $40,000 in claims filed against others. The Commission approved dismissal of the case against Mr. Francis without prejudices and without costs, however, ordered the case revived if Mr. Francis returns to the state.

Attention was given by the Commission to a report from the Chief Counsel concerning a suit filed by Alderman Trucking Company against the State Highway Commission and several of its employees. The Chief Counsel explained that the case was filed in the Marion County Circuit Court on November 19, 1957. The Alderman Trucking Company alleges that defendants placed a truck crosswise of the eastbound lane on Highway 222, without flagmen. The Chief Counsel advised that Mr. L. V. Nuttman, an attorney on his staff, made a personal investigation of the accident and it was his feeling that the State has a very good case. Chairman Reynolds stated that the Commission wants to be sure that the State is not at fault for the sake of good public relations. The Commission accepted the report.

Consideration was given to a claim submitted by J. C. Anderson for damages to his service station property at 37th and N. E. Sandy Boulevard in Portland. The Chief Counsel explained that the State in acquiring a portion of the property by condemnation also purchased a leasehold interest in the remaining property for use as a detour to the Banfield Expressway. While the detour was in use considerable damage was done to Mr. Anderson's gas pump, toilet building and service station building. Mr. Anderson, he added, originally made claim for the sum or $2,200 to restore the premises. Following an investigation and after further consultation with Mr. Anderson he agreed to accept the sum of $800 in payment in full for all of the damage that occurred, and he also agreed to furnish a release from future claims. The Chief Counsel pointed out that there was no disputing that damage had been done, and that the State had been unable to obtain facts which would constitute a clear defense to the claim. He recommended that the compromise settlement be approved. The Commission approved the settlement as recommended.

The Chief Counsel requested authority to dismiss three pending condemnation cases, one of which is the case against Byrthae M. Bennett, et al., File L-2704, on the Judkins Point-Goshen Section of the Pacific Highway, in connection with which it has been determined that all of the defendant's property should be acquired rather than a part of it as stipulated in the original condemnation proceedings. He recommended that the pending condemnation case be dismissed and that an attempt be made to negotiate for the entire property, and if such negotiations fail, that a new condemnation complaint be filed. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked Exhibit "K-7" which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Another case is that against George A. Edwards, File L-2689, for property on Harbor Drive-Barber Boulevard Section of the Portland-Salem Expressway. In this case it has been determined, because of changes in construction plans, that the property is not required. The Chief Counsel recommended in view thereof, that the condemnation case be dismissed. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked Exhibit "K-12", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The third case is that against Martin E. Hill, File L-2719, for property on the Judkins Point-Goshen Section of the Pacific Highway. The Chief Counsel explained that it is not necessary to acquire the property due to a change in drainage plans. He recommended, therefore, that the condemnation case be dismissed. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked Exhibit "K-13", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission approved the Chief Counsel's request for authority to institute legal proceedings to collect damage claims as follows:

CAO 57-50, Horace B. Whetstone, for damage to the bulkhead protecting the southwest gate on the west approach to the Steel Bridge on the Pacific Highway West, in the amount of $106.62.

CAO 57-41, Charles F. Thiele, for damage to state highway equipment No. 56-214 on the McKenzie Highway, six miles east of Springfield, in the amount of $122.08.

Both of these cases, the Chief Counsel added, have been personally investigated by Mr. L. V. Nuttman, a member of his staff, who advises that they are legitimate claims against the defendants.

An oral report was rendered by the Chief Counsel on three pending cases against the state. The Coos Bay Oyster Cooperative, he stated, has filed another suit against the state. The court, he said, has approved the State's demurrer so that individual suits will now have to be instituted.

Concerning the Mitchell flood cases, he stated that a proposed settlement had been received from the plaintiffs attorney but in view of the publicity on the two cases which are now underway or soon will be underway, it was his thought that no action should be taken on the proposed settlement until these other two cases have been settled. The Commission approved his suggestion.

The third case, he said, is that known as the "Stumbo Case" concerning property valued by the square inch on the Pacific Highway in Douglas County which case is to be tried in January, 1958.

The Engineer reported that under authority previously granted him by the Commission, he has awarded contracts referred to him to award when certain conditions have been satisfied. These conditions, he said, have been met and the following contracts have been awarded:

(1) Widening overcrossings of Silverton Branch and Main Line SPRR on the Salem By-pass Section of Pacific Highway, Marion County. Bids received October 31, 1957. Contract awarded November 7, 1957, to Tom Lillebo Construction Company, Reedsport, low bidder.

(2) Grading and construction of two reinforced concrete deck-girder bridges over Knowles Creek on East Unit, Knowles Creek Section of Mapleton-Richardson County Road, Lane County. Bids received October 31, 1957. Contract awarded November 7, 1957, to Durbin Brothers, Eugene, low bidder.

(3) Channel Change and construction of a span bridge of precast concrete sections on treated pile trestle on Thomas Creek Bridge Section of Klamath Falls-Lakeview Highway, Lake County. Bids received October 31, 1957. Contract awarded November 8, 1957, to Inter City Sand & Gravel Company, Inc., Eugene, low bidder.

(4) Grading and oiling and construction of one reinforced concrete bridge on Moro Junction-Monkland Section of Monkland County Road, Sherman County. Bids received October 31, 1957. Contract awarded November 8, 1957, to Greene & Buick, Inc., Salem, low bidder.

(5) Grading on Beaver Lookout-Bullards Bridge Section of Oregon Coast Highway, Coos County. Bids received October 3, 1957, and accepted October 31, 1957. Contract awarded November 15, 1957, to C. R. O'Neil, Myrtle Creek, low bidder.

The Commission confirmed the award of contracts as reported.

The Engineer requested confirmation of his action in placing a

25-mile speed zone on Barbur Boulevard from M.P. 4.90 to M.P. 5.30, and a 20-mile-per-hour speed zone from M. P. 6.08 to M. P. 6.50 in the City of Portland. In constructing the Baldock Freeway, he explained, interchange structures are being erected at Capitol Highway and S. W. 19th Avenue to carry traffic under Barbur Boulevard. These projects require detours and it is advisable that speed on Barbur Boulevard be reduced until the structures are complete and traffic can move normally. The Commission confirmed his action.

A tabulation was presented by the Engineer showing the high bids received in Salem on November 25 for the sale of used equipment and scrap materials located at Salem, Klamath Falls, and Coquille. He pointed out that all bids were rejected on five items where the bids were considered too low but that all other items were sold to the high bidder in each instance as shown on the tabulation. The total amount of high bids, he added, was $22,178.27, whereas the estimated value of the material was $18,248.50. The Commission approved the sales as presented.

The Engineer presented a written resume of a public hearing that was held in Klamath Falls on October 17, 1957, concerning the proposed West Side Klamath Falls By-pass route for US 97. He reported that there were approximately 75 persons in attendance at the meeting, of whom about 15 opposed the proposed by-pass and about 60 favored it. Those favoring the project were mainly the more prominent people of Klamath Falls, including the present and past mayors, city councilmen, chief of police, and a number of business property owners. Those opposing the by-pass were mainly people who reside or own property in the vicinity of the by-pass, and their main concern was on three items: noise, possible hazards, and possibility of depreciation of their property values. It was his opinion that sentiment at the hearing was preponderantly in favor of constructing the by-pass as it is now planned and he therefore recommended that the Commission confirm the action taken on January 18, 1955, adopting the survey for this project (Survey Resolution #113) and approve for immediate construction the West Side By-pass route southerly from the northerly junction with existing US 97 near the north corporate limits of Klamath Falls to the intersection with Main Street at Link River in Klamath Falls. The Commission accepted the report and the Engineer's recommendation. (For further details concerning the hearing, see the resume mentioned by the Engineer and the court reporter's verbatim transcript in the General Files in Salem.)

A written resume was also presented by the Engineer concerning a public hearing that was held in Brookings on October 23, 1957, concerning the proposed relocation of the Oregon Coast Highway between Gold Beach and Brookings. He pointed out that the hearing in Brookings was conducted by the Deputy State Highway Engineer, Mr. Forrest Cooper, and that only nine people, other than highway personnel, were present. None of those present objected to the proposed relocation and their main purpose in attending the hearing appeared to be the securing of information relative to access to the highway, how their individual properties might be affected, and other personal matters. Inasmuch as there was no opposition to the proposed relocation, he recommended that the Commission approve the

survey on the Myers Creek-Brookings Section, which extends from a point a short distance north of Pistol River to Brookings. The Commission accepted the report on the hearing and thereupon approved the survey of the Myers Creek-Brookings Section of the Oregon Coast Highway by adopting the attached resolution thereto marked Exhibit "O" which resolution by this reference is made a part hereof with like effect as though extended in full herein (For further details concerning the Brookings hearing, see transcript in the General Files in Salem. The hearing was recorded on a dictaphone recording machine and later transcribed.)

The Commission considered an agreement with Lane County whereby the County agrees to furnish the state without charge, 10,000 cubic yards of rock from a mutually acceptable source in exchange for property owned by the state adjacent to the Willamette River a short distance down stream from the Springfield bridge on the McKenzie Highway. The Engineer pointed out that the Willamalane Park and Recreation District is very desirous of securing the property for park purposes. He stated that the State will suffer no loss in the exchange of properties and he recommended that the agreement be approved. The Commission approved the agreement by adopting the attached resolution relative thereto marked Exhibit "H" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A report was presented by the Engineer concerning items of unfinished business appearing on the Secretary's Summary dated November 1, 1957, summarized as follows:

1. Request of Heppner-Morrow Chamber of Commerce that a state park be developed on Route 207 at confluence of Chapin and Rock Creeks approximately 25 miles south of Heppner: The Parks Superintendent stated that his investigation of this matter is not yet complete. The Commission ordered the item retained on the list of unfinished business.

2. Request of the Department of Motor Vehicles and the State Police that the Highway Department finance construction of buildings near the State Highway Shops in Salem: The Engineer reported that there has been a change in thinking by those who desire to construct the building and it now appears that housing for the Department of Motor Vehicles is desired within the limits of the Capitol Mall in Salem. There still remains the possibility that the request for construction of a State Police Building near the Salem Shops may be repeated but he recommended that the item be deleted from the list of unfinished business and that it be considered as new business should it again arise. The Commission ordered the item removed from the list of unfinished business.

3. Request of Seaside City Council that construction of Roosevelt Drive as a route for US101 in Seaside be expedited: The Engineer reported that Commissioner Chessman and he contacted Seaside City officials concerning construction of a 2-lane facility on Roosevelt Drive. The City officials, he said were pleased with the proposal and have passed the necessary ordinance pertaining to its construction. City officials, he continued, did not feel that a hearing would be necessary, but under the law it is necessary that notice be given. Funds for construction of the project are available in reserves for Division No. 2. It was his opinion that 1960 federal funds might be available by July, 1958, but there is a possibility

that such funds may not be available until December, 1958. He recommended that the route be approved although the survey is not yet complete. Commissioner Chessman moved that the Roosevelt Drive route be approved for 2-lane construction in 1958, using reserve monies available. Commissioner McIver seconded the motion and it was declared unanimous by Chairman Reynolds. The Secretary was instructed to inform the City of the Commission's plan for this project in conformity with legal requirements.

4. Request of Jack Flaucher to close the Depoe Bay concession building during the winter months except on weekends: Action on this item was deferred until Mr. Flaucher's appearance before the Commission on the following day. The item was ordered deleted from the list of unfinished business. (See additional entry ahead).

5. Offer of Mr. A. West Johnson, Eugene, to deed 140 acres of land at Hug Point for State park purposes subject to certain conditions: The Parks Superintendent advised that his report on this matter is not yet ready. The item was ordered retained on the list of unfinished business.

6. Renewal of rental agreements for use of privately owned buildings by the Department of Motor Vehicles throughout the State: The Engineer stated that as previously instructed, he had made a study of all these offices in the State pertaining to cost of construction, maintenance, and other pertinent matters. He pointed out that the State is paying an average of 18 cents to 20 cents per square foot per month for rental of these buildings which comes out of the highway fund. He called attention to the building which had been constructed by the State in Eugene, in which the rental is 11.8 cents per square foot per month and which rate will amortize the cost of the building in 20 years. It was his opinion that on the 40 buildings which are used by the Department of Motor Vehicles it would be possible through State construction and ownership, to save $2,000 per month in rentals and at the same time amortize the cost of the buildings in 20 years. He pointed out that the existing leases for use of these buildings begin to expire in 1960. The Commission took no action on the matter at this time. The item was ordered deleted from the list of unfinished business.

7. Statement of action taken and the policy of the Commission regarding operation of the new Interstate Bridge between Portland and Vancouver, Washington, as a toll-free facility: The Commission confirmed the resolution that was adopted at the previous meeting and ordered the item removed from the list of unfinished business.

8. US 99W By-pass route south of McMinnville: The Engineer exhibited a map showing the proposed route and pointed out the sections already constructed, sections proposed for construction, and the section on which right-of-way is yet to be acquired. The question at this time, he stated, is whether or not the right-of-way should be acquired now. He felt that the matter could be approached from two angles; one would be to make a survey, program the work, acquire the right-of-way and construct as a federal project within 5 years. The alternative would be to perform the work, including the acquisition of right-of-way, with State funds whenever such monies are available. Commissioner McIver called attention to the extremely

heavy traffic on US 99W during the summer months which frequently exceeds 15,000 vehicles per day on weekends. It was his feeling that the right-of-way should be acquired now as a step to relieve traffic congestion in McMinnville and while the land is still undeveloped. After some further discussion, the Commission authorized the Engineer to make a survey of the route, purchase right-of-way when the survey has been approved, with the plan of starting actual construction within five years as a Federal Aid project. The Commission also ordered that notification of the plan be given to the City to satisfy the legal requirements. This item is to be deleted from the list of unfinished business.

9. Request of School District No. 552C, Linn County, for construction of a grade separation structure at the crossing of the Southern Pacific Railroad tracks on the Halsey-Sweet Home Secondary Highway between Halsey and Bonneville: The Engineer reported that his report on this subject is not yet complete but the investigation indicates that the structure may be unwarranted. The item is to remain on the list of unfinished business pending a report at the next meeting.

10. Proposed exchange of roads with Umatilla County: The Engineer stated that an agreement has been consummated with Umatilla County providing for the exchange of roads as authorized at the last Commission meeting. The agreement provides that Umatilla County shall take over and maintain as a county road the Stanfield-Pendleton Highway No. 337 from its junction with US30 near Stanfield easterly to a junction with US30 in Pendleton. In exchange the state is to take over as a state secondary highway the North and South Mission Roads, to be known as Umatilla-Mission Secondary Highway No. 331, extending southerly from a junction with the Oregon-Washington Highway northeast of Pendleton through the town of Mission to a junction with US30 south and east of Pendleton, The Commission approved the agreement and to facilitate the exchange of highways adopted two resolutions relative thereto marked Exhibits "D-1" and "D-2" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

11. Proposed Interstate highway extending from a junction with US 10 at Ellensburg, Washington, to a junction with US30 at Pendleton, Oregon: The Engineer stated that an inquiry has been received from the U. S. Bureau of Public Roads as to when the Oregon Highway Commission might take action on approval of this route. He suggested that action on this matter be deferred until more information has been secured on the subject. Chairman Reynolds stated that in talking with Mr. Tallamy in Chicago recently, it appeared that there is no reason to hurry the matter. As a result of the discussion that followed the Commission instructed the Engineer to make a thorough economic study of the project and to render a report at the next meeting on the effect of the proposed highway on the State of Oregon. In the discussion of this matter Commissioner Chessman inquired if use of the Umatilla Bridge across the Columbia River had been discussed as a crossing for the proposed highway. The Engineer replied that Mr. Tallamy is of the opinion that the bridge can be used as a temporary part of the highway for a considerable number of years. He also remarked that federal officials had requested the State of Oregon to furnish a schedule of proposed construction

on the Interstate System. It was his thought that if the States propose not to construct the Ellensburg to Pendleton highway for 10 or 15 years, the possibility exists that it may not be placed on the Interstate System. Chairman Reynolds commented that Mr. Tallamy also pointed out that in approving interstate highways, it was not intended to hurt the economy of any section of the country. It was his feeling that construction of the proposed highway would be several years in the future, possibly 10 years or more. This item is to remain on the list of unfinished business.

12. Designation as a Group 1 Highway of the highway between LaGrande, Oregon, and Lewiston, Idaho: The Engineer stated that his report on this subject is not yet complete but will be presented at the next Commission meeting. The item is to remain on the list of unfinished business.

13. Request of U. S. Highway 20 Association for improvement of the Santiam Highway between Lebanon and Sodaville: Investigation in this matter, the Engineer stated, is not yet complete, but a report will be presented at the next meeting. The item is to remain on the list of unfinished business.

The Engineer reported that he has given careful consideration to the appointment of a successor to Mr. W. W. Stiffler, Assistant State Highway Engineer whose resignation becomes effective January 1, 1958, and in his estimation there are three Engineers in the Highway Department who are well qualified and capable of filling this position viz: P. M. Stephenson, Bridge Engineer; Tom Edwards, Construction Engineer; and R. L. Porter, Right of Way Engineer. He recommended the appointment of P. M. Stephenson. After discussion motion was made by Commissioner McIver that Mr. Stephenson be appointed as Assistant State Highway Engineer to succeed Mr. Stiffler, effective January 1, 1958. Commissioner Chessman seconded the motion and it was declared unanimous by Chairman Reynolds. The Commission thereupon unanimously adopted a resolution appointing Mr. Stephenson as Assistant State Highway Engineer, which resolution marked Exhibit "I", is attached hereto and by this reference is made a part hereof, with like effect as though extended in full herein. Mr Stephenson was called into the session and advised of his appointment. He responded with a few appropriate words of thanks.

Consideration was given by the Commission to a request from the City of Stanfield for construction of a sidewalk on Stage Gulch Bridge on the Umatilla-Stanfield Highway within the City. The Engineer reported that a traffic engineering investigation revealed a low volume of vehicular traffic on the bridge as well as the low pedestrian volume. He recommended that the request be denied. The Commission accepted his recommendation.

The Commission gave attention to a resolution adopted by the Salem City Council requesting aid in widening State Street between 12th Street and the east city limits of Salem. The Engineer pointed out that State Street is the designated route of the Silver Creek Falls and North Santiam Highways. The average daily traffic on this street at 17th Street, he said, is 12,000 vehicles and at the east city limits the volume is 9,000 vehicles. At peak

hours, 8:00 a.m. and 5:00 p.m., traffic congestion is very bad and the present two-lane street is totally inadequate. He recalled that the widening had been the subject of numerous conferences during the past four or five years but until now the City has not had funds to cooperate; however, the City now states by its resolution that it will pay 25 per cent of the total cost, which he estimated at $100,000, which means that the City would contribute $25,000 as its share and the State would pay $75,000. He recommended approval of the project on such basis, the State's share to be paid with funds from the urban reserve in Division 2 in the one-year program adopted October 31, 1957. The Commission approved the project as recommended.

The Commission discussed with the Engineer letters from the Coos County Court and others, requesting improvement of the Coos Bay-Roseburg Highway between Rink Creek and the junction with US99 near Roseburg. The Engineer recited briefly a summary of expenditures made in Coos County during the past five years and exhibited a map showing statewide expenditures of highway funds by divisions. He pointed out that no substantial amount of funds is available for development of the Coos Bay-Roseburg Highway until 1959 at the earliest unless money is diverted from the Oregon Coast Highway. The matter was discussed at considerable length from various standpoints but the Commission decided to take no action until listening to the delegation from Coos County that was scheduled to appear before the Commission on the following day.

(The delegation was informed that the Commission recognizes the need for improvement of the Coos Bay-Roseburg Highway but has no funds available to finance the work in 1958. However, a careful review will be made as to funds that may be available in 1959 or later.) (See additional entry ahead).

Consideration was given to an offer from the Deschutes County Court for a cooperative project to improve a 0.6 mile section of a county road near Lapine. This road, the Engineer explained, extends easterly from the town of Lapine and is known as the old Shevlin Road. The State Highway Department uses the road in hauling cinders from Finley Butte to a stock-pile site near Lapine for winter sanding purposes. Considerable complaint has been raised by residents along the road because of the dust nuisance, and the County has proposed to prepare the base, install culverts and construct an oil-mat surface, estimated to cost $2,688.00 provided the State will bear 50 per cent of the cost of the oil mat which would be about $1,344.00. In view of the considerable use made of the road by State Highway Department equipment, he recommended that the State cooperate on the basis offered by the County. The Commission approved the project as presented.

The Commission discussed a program for the 1958 special city allotment funds amounting to $250,000. The Engineer presented a list of projects with his recommendation. He explained the manner in which allocations are determined, pointing out that all projects recommended meet legal requirements as to excessive wear caused by increases in population in the area or heavy and unusual industrial traffic. He advised that sixty-

three applications were received but only fifteen were approved. A considerable number of the rejected applications, he continued, were projects for outright improvement of city streets rather than to take care of unusual traffic or population. In instances where priorities between towns appeared equal, preference was given to the town or city not having had a previous project. He recommended and the Commission approved the following city projects:

Application Number	City	Division	1958 FUND Estimated Cost State	Total	City
2	Gladstone	I	$ 20,000	$ 24,900	$ 4,900
4	Powers	III	18,500	18,500	---
12	Ontario	V	20,000	29,900	9,900
15	Hermiston	V	20,000	23,950	3,950
18	Heppner	V	20,000	21,600	1,600
21	Willamina	II	10,600	10,600	---
26	Union	V	16,200	16,200	---
32	Sheridan	II	20,000	20,000	---
34	Coquille	III	16,800	16,800	---
37	Carlton	I	15,800	17,800	2,000
38	Condon	V	15,300	15,300	---
43	Haines	V	16,000	16,000	---
54	Athena	V	20,000	21,500	1,500
55	Monmouth	II	20,000	21,600	1,600
57	Chiloquin	IV	15,800	15,800	---
15	Recommended for Approval.....		$265,000	$ 290,450	$ 25,450
	Estimated Transfer from 1957 Fund		10,000		
	Estimated Total 1958 Fund.....		$275,000		

NOTE: After actual costs have been determined, all State costs in excess of $250,000 will be transferred to the 1959 fund. (For details of the respective projects see copy of approved program in General Files)

A request from the City of Silverton was considered for installation of a flashing beacon at the intersection of Main and Water Streets in Silverton. Water Street, the Engineer commented, is the route of the Silver Creek Falls State Secondary Highway. Investigation disclosed that difficulty is being experienced at this intersection in that some drivers from Water Street fail to stop before entering. It was his belief that conditions could be improved by the installation of a flashing beacon that would flash red on all four approaches. The installation cost he estimated at $600 and he recommended approval of the installation with the cost to be borne entirely by the State provided the City of Silverton will maintain the beacon and pay for electrical energy used in its operation. The Commission approved the project on such basis.

The Commission gave attention to a request from the City of Salem for installation of traffic signals at six street intersections in Salem. Investigation indicates, the Engineer stated, that signals are warranted at the six intersections, two of which invclve a state highway; one being at Chemeketa and 12th Street and the other at Court and 12th Street. The other four are entirely on city streets. He recommended that the signals be installed in accord with previously established policy, by which the State and the City share equally in the cost of installing signals at the two intersections on the state highway, (12th Street), and the City to pay the entire cost of signals at the other four intersections. He estimated the State's share at $5,440 and the City's share at $27,200. The Commission approved the signal installations as recommended. The arrangement is to be covered by an appropriate agreement with the City and with the understanding that the City shall maintain all of the signals and provide electrical energy to operate them at no expense to the State.

The Commission considered the installation of an interconnected progressive signal system on the Tualatin Valley Highway in the City of Forest Grove. The Engineer reported that in development of the one-way couplet on Pacific Avenue and 19th Avenue it has been considered advisable to install such interconnected signal system including the following intersections:

Pacific Avenue and Hawthorne Street

Pacific Avenue and Elm Street

Pacific Avenue and Cedar Street

Pacific Avenue and College Way

19th Avenue and Main Street

19th Avenue and Cedar Street

19th Avenue and Elm Street

19th Avenue and Hawthorne Street

19th Avenue and "B" Street (flashing beacon)

He estimated the total cost of the project at $36,000 and advised that the City has agreed to pay one-half the expense. The Commission approved the project which is to be covered by an appropriate agreement to include provision that the City shall assume the costs to maintain the signals and to furnish electrical energy to operate them at no cost to the State.

A request from the City of Eugene for installation of traffic signals on the Pacific Highway couplet (6th Street and 7th Street) at Lincoln Street was considered by the Commission. A traffic engineering investigation, the Engineer stated, indicates that the signals are warranted. He therefore recommended that the State enter into a cooperative agreement with the City

of Eugene under which the City agrees to pay one-half the estimated cost of $8,000 for installation of the signals, and also agrees to maintain the signals and furnish electrical energy for their operation. The Commission approved the installation on such basis.

Attention was given to an agreement with the U. S. Bureau of Public Roads concerning a map to be used jointly by the Bureau and the State for a study of possible future highway revisions between Otis Junction and the Siletz River on the Oregon Coast Highway. The Engineer stated that the map has been completed at a cost slightly in excess of $2,000, and he recommended that the cost be shared equally by the Bureau of Public Roads and the State Highway Department. The Commission approved the agreement.

The Commission discussed a request from the Tigard Chamber of Commerce for improvement of two sections of the Beaverton-Wilsonville Secondary Highway to eliminate hazards. The first of these sections, the Engineer stated, extends from US99W in Tigard southerly a distance of approximately 1,400 feet to Hunziker Road. The other section, approximately 1,200 feet in length, is in the vicinity of Bonita Road, about a mile south of Tigard. Both sections are badly in need of improvement as the roadway is only 18 feet wide and has narrow shoulders and poor vertical alignment. He recommended that these two units be contracted in 1958 at an estimated cost of $80,000 if funds are available to finance them. The Commission approved the project as presented. (See also delegation on December 6, 1957).

The Commission considered and upon recommendation of the Engineer granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. C. R. O'Neil, Contract No. 4845, for grading on the Myrtle Creek-Missouri Bottom Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time of 25 workdays. The Commission approved an extension of 19 workdays.

2. Valley Construction Company, Contract No. 4885, for Mohawk River Bridge construction on the Eugene-Marcola Highway in Lane County, requested an extension of time of 53 workdays. Approved as requested.

3. Inland Construction Company, Contract No. 4640, for grading and paving the Rooster Rock Park Interchange Section of the Columbia River Highway in Multnomah County, requested an extension of time from September 30, 1956 to October 3, 1957. Approved as requested.

4. Fred H. Slate Company, Oregon Ltd., and E. C. Hall Company, Contract No. 4657, for construction of two undercrossing structures, grading and paving on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County, requested an extension of time from August 15, 1957 to October 31, 1957. Approved as requested.

5. Rochat Electric, Contract No. 4952, for traffic signals and highway illumination at Tigard on the Pacific Highway West in Washington County, requested an extension of time of 18 workdays. Approved as requested.

6. Tom Lillebo, Contract No. 4652, for Yaquina River Bridge construction on the Toledo-Elk City Highway in Lincoln County, requested an extension of time October 31, 1957 to July 15, 1958. Approved as requested.

7. Greene & Buick, Inc., Contract No. 4720, for grading and oiling the Siletz-Camp 12 Section of the Siletz Highway in Lincoln County, requested an extension of time from September 15, 1956 to October 25, 1957. Approved as requested.

8. Gibbons & Reed Company, Contract No. 4587, for grading the Knowles Creek-Turner Creek Tunnel Section of the Mapleton-Richardson County Road in Lane County, requested an extension of time from July 31, 1957 to November 30, 1957. Approved to November 8, 1957, the actual completion date.

9. Parker-Schram Company, Contract No. 4032, for structure, grading and paving on the Barbur Boulevard Junction Unit of West Portland-Hubbard (Portland-Salem Expressway) in Multnomah County, requested an extension of time from August 31, 1954 to November 30, 1955. Approved as requested.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's Office.

The Engineer reported that contract Nos. 4032, 4504, 4536, 4587, 4657, 4673, 4701, 4720, 4762, 4766, 4808, 4810, 4823, 4835, 4851, 4854, 4864, 4890, 4916, 4920, 4951, 4955, 4963, 4970, 4974, 4976, 4990, 4994, 5008, 5010, 5014, 5035, 5036, 5039, for highway construction have been completed according to the requirements of the contracts or modifications hereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that a hazardous condition exists on the Pacific Highway south of Roseburg at the northerly end of the Roberts Mountain Section, where there is a 1.74 mile section of two-lane pavement, adjoined at either end by four-lane sections. This condition, he said, has created a bad accident pattern, and he recommended that the section be widened to four lanes at an estimated cost of $450,000. The Commission approved the

project for construction in 1958.

The Engineer presented plans of certain cities and towns for expenditure of State Tax Street Fund allocations which accrued to them during 1956 and the first six-month period of 1957 and recommended approval of the same. The Commission approved the plans as presented and thereupon adopted the attached resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given by the Commission to a request from the Principal of Mari-Linn School, Lyons, Oregon, that the existing 25 miles per hour speed zone on the Mehama-Mill City Highway in the community of Lyons be extended past their school. The Engineer stated that an investigation had been made and from the facts disclosed it is his recommendation that a 45 mile-per-hour speed zone be established on the Mill City-Mehama Highway between the south end of the North Santiam River Bridge, at M.P. 0.24, and a point of 0.11 mile north of the junction of the Albany-Lyons Highway No. 211, at M. P. 1.08, except that between a point of 0.12 mile north of the Mari-Linn School, and a point 0.13 mile south of the Mari-Linn School, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission accepted his recommendation by adoption of the attached resolution relative thereto marked Exhibit "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Also considered was a request from George Alexander of Salem for an investigation of traffic hazards on the Scholls Highway between Raleigh Hills and Progress. An investigation was made by the Traffic Engineer, the Engineer stated, and based on the conditions that were found it is his recommendation that a 45 miles-per-hour speed zone be established on the Scholls Secondary Highway, No. 143, between Progress, at M.P. 9.60, and Raleigh Hills, at M.P. 12.40, except that the indicated speed shall be 20 miles per hour during the hours of school crossings at the following locations: (1) between a point 50 feet north of S. W. Eagle Lane and a point 0.13 mile south of Denny Road; (2) between a point 150 feet east of Laurelwood Drive and a point 0.11 mile east of Montclair Street. The Commission approved his recommendation by adopting the attached resolution relative thereto marked Exhibit "J-2" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Engineer advised that the investigation disclosed that a hazardous situation was created by reason of the fact that patrons of the Portland Golf Club park their cars on the highway shoulders near the mid-point of the section concerned. This condition, he said, restricts sight distance for vehicles entering the highway from the golf club and restricts the maneuvering room of vehicles traveling on the highway. As the golf club has provided ample off-street parking space, he recommended that shoulder parking be prohibited on the Scholls Secondary Highway No. 143 in the vicinity of the Portland Golf Club between a point 0.15 mile north of S. W. 86th Avenue, at M.P. 11.41, and the

junction with the old Scholls Ferry Road, at M.P. 11.57. The Commission approved the recommendation by adopting the attached resolution relative thereto marked Exhibit "J-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the Department of State Police through Sergeant John C. Williams of the Astoria office, has called to his attention the need to correct traffic difficulties at the junction of the Oregon Coast and Sunset Highways at Cannon Beach Junction. This matter, he stated, was investigated by the Traffic Engineer and from the facts disclosed it is his recommendation that a 45 miles per-hour speed zone be established on the Oregon Coast Highway between a point 0.24 miles northerly from the Sunset Highway, at M.P. 24.72, and the Sunset Highway Junction at M.P. 24.96. The Commission approved such speed zone designation by adopting the attached resolution relative thereto marked Exhibit "J-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also recommended the establishment of a 45 miles-per-hour speed zone on the Sunset Highway from its junction with the Oregon Coast Highway at M.P. 0.00 to a point 0.10 mile southerly from the junction at M. P. 0.10. The Commission approved such speed zone restriction by adopting the attached resolution relative thereto marked Exhibit "J-5" , which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In the course of the investigation in this area, the Engineer stated, it was found that there is a considerable amount of shoulder parking of vehicles in the vicinity of a large restaurant located at the highway intersection. The restaurant, he said, has provided off-street parking for approximately 50 vehicles and in view thereof he recommended that shoulder parking in the vicinity of the restaurant be prohibited on both sides of the Oregon Coast Highway between M.P. 24.74 and M.P. 24.90. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked Exhibit "J-6" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a petition from property owners of South Beach on the Oregon Coast Highway south of Newport requesting a 35 miles-per-hour speed zone on the Oregon Coast Highway through the townsite of South Beach. The Engineer reported that a traffic engineering investigation had been made and it was found that the lack of roadside culture, the good width of pavement and shoulders, the not unusual traffic volume and the relatively low accident rate does not warrant the establishment of a reduced speed zone at this location. He recommended in view of the findings that the request be denied. He did, however, recommend that the road to South Beach be bracketed with crossroad symbol signs as the road leads to the South Beach postoffice and at certain times is quite extensively traveled. The Commission approved his recommendations.

The Commission considered a request from Dr. Girard C. Baker of the Evergreen Veterinary Hospital in Portland, for remedial action on

traffic difficulties caused by parking of vehicles on the shoulders of the Pacific Highway in the vicinity of his hospital which is located on the west side of the highway north of Jennings Lodge. The traffic engineering investigation which was conducted, the Engineer stated, disclosed that restaurant patrons park their cars on the easterly shoulder of the highway, obstructing the driveways to Dr. Baker's establishment and to the drive-in restaurant. Such parking also makes entering the highway hazardous because of restriction of sight distance. In view of these facts, he recommended that shoulder parking be prohibited on both sides of Pacific Highway East between M.P. 9.20 and M.P. 9.33. The Commission approved such no parking zone by adopting the attached resolution relative thereto marked Exhibit "L-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also called to the Commission's attention difficulties encountered by existing and potential shoulder parking of vehicles on the new section of the Mt. Hood Highway which bypasses Government Camp. He pointed out that there is no roadside culture on the bypass section and it is desired to keep all parking off the bypass and to concentrate it in the Government Camp area. He therefore recommended that shoulder parking be prohibited on both sides of the new Mt. Hood Highway Section between a point 100 feet east of the westerly connection to Government Camp, at M.P. 53.08, and a point 150 west of the easterly connection to Government Camp, at M.P. 54.29. Chairman Reynolds inquired if there is room on the old highway parking area in Government Camp for the vehicles. The Engineer replied in the affirmative, stating that some of the parking area provided is some distance from the recreation area so people have been parking on the new highway which is closer. The Commission approved his recommendation by adopting the attached resolution relative thereto marked Exhibit "L-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that negotiations recently were conducted with abutting property owners in the community of Rufus on the Columbia River Highway relative to the installation of concrete curbs to control the parking of vehicles on the highway at this location. Construction of the curbs, he said, was recently completed at the expense of the abutting property owners. As a part of the over-all project, he said, it was anticipated that it would be necessary to prohibit parking between the curbs so large trucks and other equipment would not park on the highway shoulders adjacent to the access points thereby restricting sight distance. He recommended that shoulder parking be prohibited on both sides of the Columbia River Highway between M. P. 108.17 and M.P. 108.28. The Chief Counsel commented that a delegation is scheduled to appear before the Commission on the following day concerning this matter. The Commission took no action at this time pending the appearance of the delegation. (Following the appearance of the delegation, the Commission instructed the Engineer to contact the people who are concerned and submit a further report.) (See additional entry ahead:)

Upon the Engineer's favorable recommendation the Commission approved out-of-state travel for the following Highway personnel: R. B. Sip-

prell, Director of Permits, to attend a meeting of the Washington Joint Legislative Fact Finding Committee in Seattle on November 18, 1957, at an estimated cost of $39.30 (confirmation only); Carl Jordan, Director of Travel Information Division, to attend annual meeting of the Board of Directors of the Pacific Northwest Travel Association in Missoula, Montana, during January 18 and 19, 1958, at an estimated cost of $95.00; R. B. Sipprell, Director of Permits, to go to Phoenix, Arizona, February 3 to 9, 1958, to assist Hon. Al Flegel, Chairman of the Legislative Highway Interim Committee in his study of the Arizona law, methods, and procedures concerning gasoline sold for off-highway use at an estimated cost of $350.00; W. C. Williams, State Highway Engineer, to attend meeting of A.A.S.H.O. Transport Subcommittee in Chicago on January 30, 1958, at an estimated cost of $300.00.

Receipt of an assessment in the amount of $1776.75 against State property in the city of Woodburn was reported by the Engineer. He advised that the highway department maintenance headquarters are located on Blaine Street and that the City proposes to grade, surface, and install concrete curbs on this street. The type of improvement proposed, the Engineer stated, will enhance the value of the State property and the assessment has been made on the same basis as on private property abutting Blaine Street. He recommended payment of the assessment. The Commission approved the payment as recommended.

Consideration was given to a claim submitted by Paul N. Gibson of Siletz, in the amount of $500.00, for alleged damage to his blueberry field due to highway crews brush spraying operation on the right of way in June, 1956. The Engineer stated that a thorough investigation was made by agronomists of the Highway Department and specialists of the Department of Agriculture and of Oregon State College whose reports disclosed no apparent damage or loss of crop; moreover, there is no proof that any permanent injury occurred or that Mr. Gibson suffered a monetary loss. He remarked that some apprehension existed during 1956 that damage might be apparent in 1957 but the 1957 crop was larger than the 1956 crop. In view of this evidence he recommended that the claim be denied. The Commission accepted his recommendation.

Attention was given to a claim submitted by Oregon Automobile Insurance Company in behalf of Donald M. Green for paint damage to Mr. Green's automobile in the amount of $24.00 allegedly resulting from the State's operations in painting the Coquille Bridge. The Engineer reported that a careful investigation was made of this matter and that it was determined that no painting had been performed on the Coquille Bridge within three weeks from the date on which the damage was claimed to have occurred. Upon his adverse recommendation, the Commission denied the claim.

The Engineer reported that on August 12, 1957, a State paving crew was laying asphalt concrete patches on 9th Street in Klamath Falls near Pine Street Smoke from the hot asphalt was carried by a gust of wind speckling with asphalt several cars which were parked in Stone's Signal Service Station. The Maintenance Superintendent and the Paving

Plant Foreman identified nine cars as being damaged. Arrangements were made with Stone's Service Station to clean the cars for $15.00 per car. Five cars were cleaned and claims have been made. No claim has been filed to date for cars owned by E. M. Bubb and by Dr. Merle H. Swanson, which cars were also cleaned by Stone's Service Station. The Engineer recommended that payment be made at $15.00 per car for cleaning the five cars on which claims have been presented, and that authority be granted to pay at the same rate other claims for cars which were involved in the same incident. The Commission approved the recommendation.

The Commission considered a statement submitted by John W. Shuler in the amount of $6,000 for services rendered the Commission in connection with the sale of $20,600,000 Oregon Highway Bonds on October 1, 1957. The Engineer pointed out that Mr. Snuler's fee for this bond sale is at the rate of 30 cents per thousand whereas on previous sales he had charged 40 cents per thousand. The Commission approved the payment of $6,000 to Mr. Shuler.

Attention was given to an agreement with Southern Pacific Company granting to the State permission to install two pipes to carry water under the Southern Pacific railroad tracks in Klamath Falls. The pipes, the Engineer explained, are being installed to provide water for irrigating landscape project which is under contract as a part of the South Sixth Street project in Klamath Falls. The Commission approved the agreement.

The Commission considered a proposed installation of a receiving unit on the State Highway Department's teletypewriter circuit G-443 at the Salem Weather Bureau Station so that the Weather Bureau can transmit road reports and weather conditions direct to the public by means of radio, newspapers and television. The Engineer advised that in 1955 a request was made by newspaper and radio interests for this service but at that time the Highway Department did not have a teletypewriter system. The expense of a receiving unit on the Highway Department's circuit installed at the Airport Station would consist of an installation charge of $15.00 plus a monthly service charge of $40.50. He recommended that the installation be made on the basis that it would be in operation for a minimum of six months during each year. The Commission approved the installation, with the understanding that it could be operated on a year-round basis, if necessary, or for as many months during the year as the service is usable.

A letter was discussed from Mr. Gordon Wilson, City Attorney for John Day, Oregon, in behalf of the City Council, requesting that a portion of a highway department material storage site be conveyed to the City for use as a city street. The Engineer stated that the City wishes to acquire a 60-foot strip at the southerly end of the State's property for the purpose of opening up a street extending westerly from US395 across Canyon Creek to Humbolt Street. The City, he said, is willing to level and prepare an area suitable for storage of crushed rock equal to the area required by the City and further agrees to move the material now stock piled on the area that the City desires. The entire tract of 20 acres, he continued, was acquired 20 years ago for only $350.00 and he recommended that the strip

desired by the City be deeded to it without cost. The Commission accepted his recommendation.

The Commission approved the Secretary's written report on papers signed by him in behalf of the Commission during the period of October 28 through November 29, 1957.

January 16 and 17, 1958 was set by the Commission as the date for its next regular meeting to be held in the Imperial Hotel in Portland. February 27 and 28, 1958 was set as a tentative date for the next following meeting. The Commission also authorized the Engineer to open bids for highway projects in the Highway Commission Office in Salem about three weeks following the January meeting.

The Commission discussed with the Engineer a letter from the South Tillamook Coast Road Committee calling attention to hazard that is created by people fishing from the bridge over the Little Nestucca River on US101 south of Cloverdale. The Engineer stated that although there is a hazard involved two attempts were made during the 1957 Legislative Session to secure legislation that would prohibit fishing from any highway bridge but in both instances the measures had failed. It was his opinion that inasmuch as the Legislature specifically refused to prohibit fishing from bridges, the Commission would not have authority to do so. The Commission ordered that the South Tillamook Coast Road Committee be advised that the Commission does not have legal authority to do what it asks in view of the Legislature's action.

The Engineer presented a resolution covering a one-block extension of the Three Mile Lane Secondary Highway in the city of McMinnville. He explained that upon completion of the one-way couplet section for US99W in the city it is necessary to extend the intersecting secondary highway one block in order to connect with the couplet. The Commission approved the extension by adopting the attached resolution relative thereto, marked Exhibit "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also presented an abandonment resolution covering a portion of the old Siletz Secondary Highway which has been replaced by the Siletz-Camp 12 Section. The new highway section, he said, has been opened to public travel and the resolution is to formally transfer the old section of highway to the jurisdiction of Lincoln County, as provided in a previously approved agreement. The Commission adopted the attached resolution relative thereto, marked Exhibit "G", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that a request has been received from the city of Grants Pass for a public hearing in Grants Pass concerning the traffic interchange that is proposed at the junction of the Redwood Highway with the present Pacific Highway near Grants Pass. He recalled that a hearing has already been scheduled in Grants Pass on December 18, 1957, relating to the relocation of the Pacific Highway that will by pass the city, and he suggested that the hearing concerning the interchange be held at the

same time.

The Commission adopted the suggestion unanimously and authorized the Engineer to conduct the hearing in the event it is not possible for the members of the Commission to be present.

The Commission discussed with the Engineer a proposed highway construction program for forest highways for year 1958. The Engineer called attention to a proposed program which he had sent to the Commission previously, pointing out that the Bureau of Public Roads had subsequently suggested a number of changes. He explained in detail the changes suggested which are to be discussed with representatives of the U. S. Forest Service and the Bureau of Public Roads at 1:30 p.m. on the following day. (See ahead for program adopted at the conference).

The advisability of purchasing a film entitled "I'll Take the High Road", as prepared by the American Road Builders Association, was discussed. The Engineer commented that the film is available on a purchase or loan basis from the Association who showed it at the recent AASHO Convention in Chicago. He inquired if the Commission wishes to purchase a copy of the film which, he said, will cost $200.00. Commissioner McIver remarked that he had seen the film and that, in his opinion, it would be a very good presentation at certain types of hearings as a sobering influence in the use of highways. The Commission took no action on the matter.

The problems to be presented by delegations scheduled to appear on the following day were discussed with the Engineer who outlined briefly the nature of the matters to be presented. Action on such matters was deferred pending the appearance of the delegations.

The Commission considered two resolutions adopted by the Port of Umatilla Commission, both dated December 4, 1957, in one of which the Commission is urged to approve the routing of the proposed Interstate Highway from Ellensburg, Washington to Pendleton, Oregon, over the Umatilla Bridge across the Columbia River. In the other resolution the Port of Umatilla Commission expresses its preference to the Juniper Canyon Route rather than the Vansycle Canyon Route for a new highway connecting the states of Oregon and Washington as it was felt that the Vansycle Route would divert products out of Umatilla County and the State of Oregon. Both resolutions were discussed briefly but no action was taken on them.

A letter dated December 4, 1957, and a resolution adopted by the Oregon School Board Association were presented and discussed. The resolution urges the Highway Commission "to use every means available to provide safe school crossings at convenient locations to facilitate the crossing of these highways and railroad tracks by children and school buses in proceeding to and from school." The Commission instructed the Secretary to reply to the letter and resolution, advising that the Commission within the limits of funds available is attempting and has been attempting for many years to carry out the ideas suggested in the resolution.

Disposition of the Howard Cooper Building, located on the T. H. Banfield Expressway, near 60th Street in Portland, was discussed. The Engineer recalled that it was necessary to acquire a portion of the property in connection with construction of the Expressway and that in the negotiations for purchase the owners insisted that the state purchase their entire holding, which was done at a cost of $500,000. Construction was completed and the remaining property was then rented back to the Howard Cooper Company at $1,600 per month under terms of a six months revocable lease until they had time to relocate their business. The State Motor Vehicle Division's lease for their office in Portland, for approximately 10,000 square feet, requires that they pay $2,100 per month. The Motor Vehicle Division, he continued, is faced with expiration of its existing lease and a considerable increase in rent cost. It appears that the Howard Cooper Building is ideally suited to their requirements. He pointed out that the Motor Vehicle Division would require only about one-third of the space available in the Howard Cooper Building, and on the basis of the rental they are now required to pay, they would pay the cost of the building in approximately 20 years. It was his opinion that the State should retain possession of the Howard Cooper Building. Chairman Reynolds inquired if the building and its location fits the needs of the Motor Vehicle Division. The Engineer replied that the location and type of building is ideally suited. The matter was discussed at some length but action was deferred until the following day to give Chairman Reynolds opportunity to discuss the situation with Governor Holmes by telephone.

(Chairman Reynolds discussed the matter with Governor Holmes by telephone on the following morning and as a result thereof the Engineer was instructed to order the Howard Cooper Company to vacate the premises at once so that it can be used by State agencies.)

The Chief Counsel advised that, in the vacation of a portion of N. E. 91st Avenue and N. E. Wasco Street, the City of Portland transferred to the State a parcel of property to permit the moving of the Union Pacific Railroad tracks. To replace this property, he said, the City now requests that the State deed to the City a 25-foot strip of property now required for highway construction along 92nd Avenue and Wasco Street connection to 91st Avenue. The Commission approved the transfer and thereupon adopted the attached resolution relative thereto, marked Exhibit "M", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission discussed with the Engineer bids received at the morning session and at 4:30 p. m. Commissioner McIver announced awards of contracts as follows:

"Grading and oiling the Wingville Section of the Wingville Lane Road in Baker County. The Commission elects to accept the bid of Arthur Simonsen & Company, Baker, in the sum of $93,736.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Baker County is received and the sum of $21,100.00 is deposited by the County.

"Milwaukie Maintenance Building at 9200 S. E. McLoughlin Boulevard north of Milwaukie, in Clackamas County. The Commission awarded the contract to Lorentz Bruun Company, Portland, at $43,152.00.

"Construct bridge, highway connections, stone base and shoulders, and asphaltic paving on the Alder Creek Bridge Section of Mt. Hood Loop Highway in Clackamas County. The Commission awarded the contract to Rogers Construction Company, Portland, at $120,336.00.

"Necanicum Rock Production Project on three highways in Clatsop County. The Commission awarded the contract to C. C. Meisel at $29,880.00

"Grading the Cape Ferrelo-Brookings Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the bid of Peter Kiewit Sons' Company, Medford, in the sum of $1,056,025.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Weaver Overcrossing of SPRR near Myrtle Creek on Pacific Highway in Douglas County. The Commission awarded the contract to Sig Andersson, North Bend, at $77,741.00.

"Grading and oiling the Dompier Creek Section of the Forest Boundary-Tiller Road in Douglas County. The Commission elects to accept the bid of Earl L. McNutt Company, Eugene, in the sum of $146,440.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $33,200.00 is deposited by the County.

"Grading, stone base and oiling the John Day River-Hay Creek Section of the Wasco-Heppner Highway in Gilliam County The Commission awarded the contract to Rogers Construction Company, Portland, at $417,487.00.

"Grading and paving Elm Street-Front Street in Medford in Jackson County. The Commission elects to accept the bid of M. C. Lininger & Sons, Medford, in the sum of $106,850.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received and the sum of $56,800 00 is deposited by the City of Medford.

"Traffic Signal Installation on Pacific Highway at Siskiyou Boulevard and Wightman in Ashland, Jackson County. The Commission elects to accept the bid of Steeck Electric Company, Medford, in the sum of $7,119.00 and directs the State Highway Engineer to award the contract to said bidder as soon as a deposit of $3,000.00 is received from the State Board of Higher Education.

"Grading Lowell Street-21st Avenue Unit, Harbor Drive-Washington County Line Section of the Pacific Highway (R. H. Baldock Freeway) in Portland, in Multnomah County. The Commission elects to accept the bid of Kuckenberg Construction Company, Portland, in the sum of $1,142,973.50 and

directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Install illumination on Columbia River Highway (Banfield Expressway) in Portland at Grand Avenue, N. E. 33rd Avenue, and N. E. 39th Avenue, in Multnomah County. The Commission awarded the contract to W. R. Grasle Company, Portland, at $10,470.00.

"Sundial-Rooster Rock structures on the Columbia River Highway at Sundial, Troutdale and Jordan traffic interchanges in Multnomah County. The Commission elects to accept the bid of Inland Construction Company, Milwaukie, in the sum of $127,684.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling the Hay Canyon-John Day River Section of the Wasco-Heppner Highway in Sherman County. The Commission elects to accept the bid of Earl L. McNutt Company, Eugene, in the sum of $292,886.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Hebo-Dolph-Neskowin Rock Production Project on the Oregon Coast, Three Rivers and Little Nestucca Highway in Tillamook County. The Commission awarded the contract to Burch Gravel Company, Sheridan, at $31,750.00.

"Hermiston Rock Production Project on three highways near Hermiston, in Umatilla County. The Commission awarded the contract to Cartwright Construction Company, Durkee, at $36,362.00.

"Install traffic signals on Beaverton-Hillsdale Highway at Hall Street and Broadway Avenue in Beaverton, in Washington County. The Commission awarded the contract to Trowbridge Electric Company, Roseburg, at $3,490.00.

"Grading, paving and shoulder oiling on the Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway, in Washington County. The Commission elects to accept the bid of Warren Northwest, Inc., in the sum of $260,759.60 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The meeting adjourned at 4:45 p.m., to reconvene on the following day at 9:00 a.m.

Portland, Oregon
December 6, 1957

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Charles H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
R. L. Porter, Right-of-Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Parks Superintendent called attention to a letter which he had prepared, addressed to the State Water Resources Board concerning the State's point of view on water resources of the Upper McKenzie River Basin. This matter, he recalled, had been discussed briefly on the previous day. The letter pointed out that the recreational resources of the Upper McKenzie River Basin contribute materially to the economic livelihood of the surrounding region. It was his opinion that sufficient stream flow during the summer is vital from a recreational viewpoint as well as an important segment of the economy of this region. A public hearing was held recently by the Water Resources Board concerning a coordinated program for the use and control of water resources in the Upper McKenzie River Basin, aimed at conserving water and determining present and future needs for water. The Commission authorized the Parks Superintendent to submit the letter to the Water Resources Board over his own signature. (For additional details see the Parks Superintendent's letter, dated December 4, 1957, in the General Files).

Mr. M. D. Van Valkenburgh, Attorney, The Dalles, representing a Dr. Logh and a Mr. Loren Miller, owner and lessee respectively, of the John Day Cafe and Cocktail Lounge in Rufus was present and objected to curbing which is to be installed in front of this property. He exhibited a map of the property and pointed out that if the curbs are installed as outlined, eastbound traffic would be discouraged from patronizing the cafe. He called attention to similar business establishments in the town of Biggs, five miles to the west, who have not been required to install curbs. He felt that the business in Rufus, being at a competitive disadvantage, would suffer economically because of the curb installation. He estimated that construction of the curbing would cost $300.00 or more. Chairman Reynolds stated that one of the Highway Engineers would contact him in the near future and that a report will be made to the Commission by the Engineer.

Mr. W. J. Kvarsten, Director of the Mid-Willamette Valley Planning Council, and Mr. Walter Wirth, Superintendent of the Salem City Parks, were present concerning acquisition of 1.4 acres of State-owned land adjacent to the Salem By-pass Section of US99 to be used for Park purposes. Mr. Kvarsten stated that the matter has been given careful consideration and he asked that the property be deeded to Marion County, to be used for Park purposes. The Salem Parks Advisory Board, he said, has recommended that an attempt be made to acquire the land, and the Marion County Court has agreed to accept the land if deeded to the County. He exhibited a map showing the location of the area under discussion. Mr. Wirth pointed out that the land lies in a rapidly growing residential area not presently served by park facilities; further, that the land is well suited for playground and day use facilities and being outside of the present city limits, it was considered advisable to turn the property over to Marion County. However, the City Parks Commission has recommended that the area be made a part of the City Parks system when it is annexed to the City. Mr. Wirth also stated that nearby residents are much in favor of the park development as they fear commercial development if the property is sold to private parties. Chairman Reynolds pointed out that the property has value and that the Commission is faced with the problem of giving away property that was purchased with gas tax money. Also, experience has shown that difficulties may develop as to who is to maintain the area for park purposes. It was suggested by Commissioner McIver that the property might be sold to the City or to the County at cost, thus recovering the gas tax funds invested in it. The delegation was advised by Chairman Reynolds that the matter would be given careful consideration and that an answer could probably be given at the January Commission meeting. The Engineer was instructed to study the matter and render a report at that time.

Mr. H. P. Vermilye of the Tigard Chamber of Commerce, and Mr. Charles Stearns, Chairman of the Roads Committee of the Tigard Chamber of Commerce, came before the Commission concerning improvement of the Beaverton-Wilsonville Secondary Highway between Tigard and Hunziker Road and a section south of Tigard near Bonita Road. Mr. Vermilye pointed out that these two highway sections are very narrow, being somewhat less than 18 feet in width with practically no shoulders, thereby causing considerable hazard to the traveling public and to school busses. Mr. Stearns emphasized the need for improvement for the safety of school children transported over the road in school busses. Chairman Reynolds advised that the Commission considered this request on the preceding day and had approved both projects for construction in 1958.

A delegation from Harney County was present regarding plans for improvement on several highway sections in Harney County. The following people were present: Hon. C. W. Craddock, County Judge; M. O. Timms, Highway Committee; Lan Grover, Secretary of Chamber of Commerce; and Les Swarthout, Director, 395 Association, all of Burns. Judge Craddock introduced the members of the group and inquired if the State has any plans for extending the Paulina Secondary Highway east of Paulina to Suplee. Chairman Reynolds replied that the Paulina Secondary Highway now extends easterly from Prineville to Paulina and that the Commission has no plans to extend it further east which is under County control. The Engineer remarked

that the road east of Paulina is designated as a Federal Aid County Road Secondary Highway and that a construction project of approximately $127,000 has been authorized for it. Mr. Timms urged improvements to the Central Oregon Highway between Harper and Juntura, and to US395 from Silver Creek "Y" south to the Squaw Butte "turn off". The Chamber of Commerce, he continued, supports the Harney County Court in its request for improvement of the Burns-French Glen Section as their number one secondary project. The number one Primary project, he said, is improvement of the section between Harper and Juntura. The Engineer commented that approximately $1,500,000 is programmed for construction between Juntura and Vale Federal Oddie-Colton money, he said, amounts to only a small sum, nation wide, and Oregon's share is only $120,000 which will be spent on US 95 between McDermitt and Rome Junction. Mr. Timms stated that people in Burns would like to see more traffic diverted over US20 at its junction with US30, near the Idaho line. The Commission took no action.

A group of people representing the Siletz Highway Improvement Association was present and urged the Commission to straighten and construct an asphalt surface on a section of the Siletz Secondary Highway northerly from the end of the existing oil pavement at Siletz to the south end of the oiled section on the north end of the highway. The following people were present: D. M. Mitchell, Taft; Gus Ketola, Mr. and Mrs. Alvah Strome, Mrs. Frank Ketola, Mrs. C. J Villerup, Mildred Zahnle, Mary Toberer, Viola Duvall, and Mary Copeland, all of Kernville; Mr. and Mrs. Charles Parker, Mr. and Mrs. Edward Ketola, and Robert J. Neave, all of Siletz; Mrs. Jim Sutton of Cutler City; and Mr. and Mrs. Ed Parker of South Beach; all of the Siletz Highway Improvement Association. Mr. Mitchell, who acted as spokesman, urged straightening and paving of the crushed rock section to accommodate increased travel including a large number of winter fishermen. The Engineer explained that it will cost about $800,000 to complete the 10 mile gap to modern standards and although no funds are available in 1958, approximately $300,000 will be expended in 1959 and 1960 which will make a start on this project Mr. Mitchell then mentioned that several logs which had been deposited on the highway right-of-way by high water had been moved by State Maintenance forces onto private property and the owners of the property have requested that the logs be removed. Chairman Reynolds stated that the matter would be investigated and proper action taken.

Mr. Alfred O. Jaroff, owner of the Dorchester House at Oceanlake, and Mr. S. K. Tworoger, owner of Surf Tides Apartments at Oceanlake, came before the Commission as representatives of the Oregon Coast Ad Club concerning the signing of highways between Portland and the Lincoln County beaches. Mr. Jaroff stated that although a number of improvements have been made in the signing at highway junctions since they last appeared before the Commission on this matter, there still remain a number of intersections where the signing is partial to Tillamook and Tillamook County. He mentioned that at Grand Ronde there is no sign mentioning Oceanlake, that the signing south of McMinnville at the junction of US99W and ORE18 confuses motorists by lack of reference to the Lincoln beaches, and at the junction north of McMinnville, Tillamook is mentioned but not

the Lincoln beaches. In the City of McMinnville, signs indicate Tillamook but not the Lincoln County area. He also complained that signing within the City of Portland tends to direct traffic to the more northerly beaches. He requested that at points where traffic can go to either the Tillamook or Lincoln beaches, that equal signing be given, and also that signs be installed at Rickreall junction concerning Lincoln beach areas. He presented a folder showing pictures of the signs mentioned, and others, which he asked to be returned to him when they have served their purpose. Mr. Tworoger remarked that a tourist from the East who wanted to go to one of the Lincoln County Beaches got confused in Portland and was half way to Seaside before he became aware that he was on the wrong road. Chairman Reynolds remarked that the Commission does not intentionally discriminate among communities in signing highways and if errors have been made, they will be corrected. The Signing Department, he stated, will be requested to review the matter carefully and make corrections as may be necessary.

A delegation from Fossil, Spray, Mitchell and Prineville was present and asked the Commission to improve the Service Creek-Mitchell Secondary Highway. The following people formed the group: Arthur R. Robinson; W. H. Steiwer; Waldo Demoy, President of Fossil Community Club; O. E. Matthews, Wheeler County Judge; and M. E. Keys, Sheriff of Wheeler County, all of Fossil: R. W. Keys, stockman, Spray; W. L. Jackson, stockman, and C. M. Dollarhide, both of Mitchell; James B. Minturn, attorney; Ivan Chappell, Chamber of Commerce; and Kenneth B. Conroy, President of Crook County Chamber of Commerce, all of Prineville. Mr. Steiwer, who acted as spokesman, introduced the members of the delegation and urged improvement of the highway as a connecting and access road to the Bend area. Improvement on the John Day Highway now underway he felt would increase the amount of traffic on the Service Creek-Mitchell Highway, which if improved would be of considerable economic value to the County. The narrow, crooked road on Donnelly grade, he remarked, prohibits the use of the larger type of trucks and trailers, thereby increasing the cost of hauling livestock to market. It was his recollection that no improvement has been made on this road since it was taken over from Market Road status many years ago. Mr. Demoy observed that business and prosperity follow good roads and one is needed in this area. Mr. Keys criticised maintenance of the existing road, stating that it probably is in the worst condition that it has ever been. Mr. Conroy pointed out that a better highway would reduce costs in transporting livestock. Mr. Chappell reiterated this point of view. Mr. Jackson observed that it is difficult for ranchers in this area to compete with communities having good roads. It was Mr. Dollarhide's opinion that a considerable number of travellers on US26 at the junction near Mitchell would like to turn north but are prevented from doing so by the poor road. The element of poor competitive conditions for stock raisers was emphasized by Mr. Steiwer. Chairman Reynolds pointed out that many requests have been received for highway improvements within this general area and he mentioned improvement of the John Day Highway and the Wasco-Heppner Highway, on which highway bids were received for improvement the preceding day. Funds, he said, are not available to finance all of the work that has been requested and the Commission, he continued, has endeavored to improve

the roads in the priority order in which the people request them. He added that a check will be made relative to the maintenance of the existing road but no encouragement as to construction can be given at this time, although the project will not be forgotten. At Mr. Steiwer's request, he stated that the most recent construction program would be forwarded to him so that location of the projects and the amount of money to be expended could be more clearly determined.

Mr. Jack Flaucher, operator of the concession in the Depoe Bay State Park Building on the Oregon Coast Highway at Depoe Bay came before the Commission and renewed his request that he be allowed to close the concession building during the winter months except on weekends and holidays as approximately 90% of the visitors come on those days. He pointed out that sales during these months were very low during the preceding year and he advised that if he is allowed to close the building during the winter season it would help reduce the amount of his losses. Chairman Reynolds said that the matter was considered on the previous day and it was determined that if a change is made, it would be necessary to modify the existing contract. It was agreed among the Commission that closure during January and February except on Saturdays, Sundays and holidays would be agreeable. In reply to Chairman Reynold's inquiry as to when Mr. Flaucher wishes to close the building, Mr. Flaucher stated that it would be agreeable with him to close down after January 1, 1958. He was instructed by the Commission to contact the Chief Counsel concerning details of modified agreement with the understanding that the building could be closed under stipulated terms as of this present date if that can be done legally.

A delegation composed of approximately 150 women from Coos and Douglas Counties, known as "Housewives for 42", appeared before the Comission and urged improvement of the Coos Bay-Roseburg Highway, Oregon Route 42 between Rink Creek in Coos County and Winston in Douglas County. Mrs. Robert Powrie of Myrtle Point headed the group and acted as spokesman. She recalled that the group recently visited Governor Holmes concerning improvement of this highway and that the governor had referred the group to the State Highway Engineer who conducted a hearing in Salem lasting about two hours. It was her opinion that improvement of Highway 42 should have top priority in the highway program as very little major improvement has been performed on it in the last 30 years She pointed out that towns and cities are jealous of each other in highway matters and it appears necessary to concentrate on one project, attend Commission meetings and learn about highways. She called attention to a dress she was wearing, styled about 30 years ago and compared it to Highway 42. She introduced the following women: Mrs. Ralph Stuller, Coquille; Mrs. Carl Wimberly, Roseburg; Mrs. Waneva Johnson, Coos Bay; and Mrs. Reed Gurney, Myrtle Point.

Mrs. Ralph Stuller called attention to the large amount of forest products consisting of logs and manufactured articles which are transported over the highway as well as a considerable amount of dairy products, cattle and sheep. The lumbering industry, she said, involves the use of many large trucks which, on this narrow, crooked road are a hazard to

other traffic. She pointed out that because of the depressed lumber market as of this time, the high costs of hauling products over the road because of its condition have reduced profits to the mills to a very thin margin and the poor road places the entire area at an economic disadvantage.

Mrs. Gurney emphasized the safety angle, particularly in the transportation of children to and from school, and to and from school activities in which a school bus may meet as many as 40 log trucks. School bus drivers, she said, have commented on the increased danger, particularly in the last few years. This she attributed largely to the increased size and speed of the log trucks which use the highway. She referred to the road as "ridiculous" and completely inadequate.

Mrs. Lela Wimberly of Roseburg spoke on the recreation angle pointing out that many people in Roseburg and vicinity will not use Highway 42 to get to the beaches because of its unsafe condition, so many of them go to California or to more northern beaches. She also pointed out that a great number of high school athletic teams use the road in travelling to and from games, and the parents are always in fear of accidents in transit.

Mrs. Waneva Johnson of Coos Bay emphasized the need for a better road by pointing out that high school athletic teams in Coos Bay travel over the Umpqua Highway via Drain to reach the Roseburg area rather than use the dangerous Coos Bay-Roseburg Highway. Mrs. Powrie remarked that 35 years is a long time for people who use this highway to contribute gas tax funds without any material returns. Mrs. Brody presented a petition containing the names of 10,400 signers who demand improvement of the highway. Mrs. Powrie read aloud a telegram from the Coos County Court, wishing the delegation good luck in securing its project.

Chairman Reynolds, speaking in behalf of the Commission, stated that he would not present any arguments but would try to explain the Commission's position and the problems they face. He outlined the length of service put in by each of the Commissioners and pointed out that they serve without pay. All of the money for construction and maintenance of highways, he said, comes from the road users and equitable allocation over the State must be made of those funds. He asked the State Highway Engineer to explain to the delegation how the money is allocated to the various sections of the State.

The Engineer, using a map on the wall, pointed out the five highway divisions in the State. Division I is the Portland area and because of its heavy population, receives 25.17% of available construction revenues. Division II, which lies west of the Cascade Mountains and roughly in the central part of that area, receives 19.38%. Division III, which encompasses southwestern Oregon and includes the Coos Bay-Roseburg Highway, receives 21.38%. The Central Oregon Division east of the Cascades received 15.04% and Division V in far eastern Oregon receives 19.03%. Approximately $20,000,000 a year, he said, is available for highway construction on highways other than the Interstate system. The allocation for Division III of 21.38% would mean approximately $4,000,000 a year to be used in this

Division. During the past five years, expenditure of this money has been concentrated on US101, and the Legislature at the 1957 session authorized the issuance of $12,600,000 of highway bonds to finance construction of the section in Curry County. He pointed out that expenditures of about $1,000,000 had been made on the Siuslaw highway and about the same amount on the McKenzie Highway and that allocation of future monies within the Division will depend on the showing of need of the various highways. However, no funds are available for construction on the Coos Bay-Roseburg Highway during the year 1958 as all of the available money has been allocated. At the Chairman's suggestion, the Engineer remarked that there is very little construction going on in Division III other than on the Oregon Coast Highway in which bond monies are being used, and on the Pacific Highway, which is financed from Federal Interstate Highway funds. He explained that improvements between Scottsburg and Reedsport on the Siuslaw Highway are financed by Forest Highway funds administered by the Bureau of Public Roads, which money is not subject to Division allocation.

Chairman Reynolds observed that the Commission is responsible for development and maintenance of highways over the entire State and that it cannot arbitrarily authorize improvement in one community ahead of others as there are many areas which do not have good roads. He pointed out that there are nine highways in the State of Oregon that have a worse accident record than the Coos-Bay Roseburg Highway. He also pointed out that many of the highway engineers have worked on Oregon highways for nearly 40 years and are thoroughly familiar with highway conditions, including the conditions on Highway No. 42. The distribution of funds by Divisions, he stated, is based on a formula which takes into account mileage, population, and need. For a number of years there has been a strong demand for improvement of the Oregon Coast Highway and the Commission has proceeded with an orderly modernization program. The 1957 Legislature authorized the sale of $12,600,000 in bonds to improve the Oregon Coast Highway from Brookings to Gold Beach and the first contract was awarded yesterday. He called attention to the fact that the entire State will participate in repaying this $12,600,000 which is being expended in Division 3 but so far no complaints have been received from other areas. The Commission, he added, recognizes the need for improving Highway 42, but allocation of funds has to be made fairly and according to a formula, which over a period of years has proved fair and equitable. The Commission has to operate its affairs on a budget and lack of funds has prevented earlier improvement of Highway 42. He reiterated the point that the Commission recognizes the desirability of improving Highway 42 and that only lack of funds prevents immediate action. He commended the delegation on the interested displayed in the highway and on the well prepared brief that was submitted. He suggested that the ladies organization could be of assistance in obtaining more gas tax funds for highway improvement if they would support an increase in such tax. He stated that it is not possible to alter the present program and allocate any funds to Highway 42 during the year 1958. The Commissioners, he continued, are not elected by popular vote, have no political aspirations, and are not subject to pressure, their primary objective being to work for the benefit of the State as a whole. He concluded his remarks with the comment that the Commission would make an early inspection of Highway 42 to determine if it might be possible to allocate funds for

1959. He complimented Mrs. Powrie and the members of the delegation for a splendid job of organizing and wished each of them a Merry Christmas. He also expressed the hope that the organization would not disband and he stated that the ladies could be of great benefit to their communities and to Highway 42.

Mrs. Powrie stated that two years seems a long time to wait for improvements as requests had been made ten years ago, and she inquired if a meeting with the Highway Interim Committee might help. The Chairman replied that he thought that would be a good idea. Mrs. LaVern commented that a former highway interim committee one time indicated that Highway 42 had high priority and she wondered what had happened to that priority. Chairman Reynolds replied that several requests had been received to build a road straight across from Roseburg to Coos Bay and that other routes had been suggested because of alignment and saving in distance, however, Highway 42 will not be abandoned and will be improved as rapidly as funds will permit.

The meeting recessed at 12:25 P M. and reconvened at 1:30 p.m. in the same room with the same persons present and participating, with the exception of L. I. Lindas, Chief Counsel; R. L. Porter, Right-of-Way Engineer; George Rohde, Assistant Counsel, and C. H. Armstrong, Parks Superintendent who were excused.

The Commission conferred with representatives of the U. S. Forest Service and the U. S. Bureau of Public Roads the programming of Fiscal Year 1959 Forest Highway Funds, amounting to $4,193,716.90, and unprogramed balances from previous fiscal years totaling $109,643.00. Representing the Bureau of Public Roads were Messrs. B. M. French, Regional Engineer; R. N. Kellogg, Highway Engineer; Norman B. Wood, Federal Projects Engineer, and C. G. Polk, Division Engineer. Representing the U. S. Forest Service were Messrs. R. F. Grefe, Assistant Regional Forester, and V. M. Blackwell, Highway Engineer. The State Highway Engineer presented a list of suggested projects for the funds available. In the discussion that followed Chairman Reynolds inquired as to what action can be taken to place The Lake of the Woods Road in Jackson and Klamath Counties on the Forest Highway system. The Commission, he stated, has advised the two counties that the State has recommended to the Federal authorities that this road be added to the Forest Highway system but to date approval of and such designation has not been received. Mr. French stated that the road had been represented to him by a delegation as a replacement road to take care of traffic which now travels the Green Springs highway, and, if the road is to be considered as the main highway, in his estimation it should carry primary status rather than secondary. Also, the U. S. Government is reluctant to designate new Forest Highways unless a definite program of construction can be undertaken. He inquired if it would not be more desirable to improve the Green Springs highway rather than to build The Lake of the Woods Road. Mr. Williams, State Highway Engineer, replied that to improve the Green Springs highway would be the more costly project because of the more difficult alignment, grade and elevation. He pointed out that funds for devel-

opment of primary highways are limited and in his opinion it would be better to develop The Lake of the Woods Road as a secondary highway because it could be developed at a faster rate. Mr. Polk expressed the opinion that development of The Lake of the Woods road could better be accomplished as a secondary highway than as a primary. Mr. Grefe commented that a delegation which had appeared before him gave the impression that construction is to start immediately. He pointed out that construction of the highway will take several years with Forest Highway funds. He added that the Forest Service is reluctant to add new highways to the Forest Highway system unless the way is clear to construct them. Mr. Kellogg remarked that the Salmon River Cutoff between Dolph and Boyer has been approved but action on The Lake of the Woods Road has been deferred for further study. Mr. French then stated that the Bureau of Public Roads would not insist that the road be designated as a primary highway and he inquired, if it is approved as a Federal Aid Secondary, can a development program be agreed upon. The matter will be given further consideration, he said, and Bureau engineers will be sent to investigate it although a previous investigation indicated a very low priority. Chairman Reynolds inquired if an agreement is reached, can any statement be made as to programming funds for development. Mr. French replied that further consideration will be given to the matter and if it is decided to designate the road as a Forest Highway, programming for construction could start next year.

Next discussed with the Government officials was the program for Fiscal Year 1959 Forest Highway funds. As a result of careful consideration mutual agreement was reached to recommend to the Commissioner of Public Roads and the Chief, Forest Service, Washington, D. C., the following program for the funds available:

Fiscal year 1959 funds available for program	$4,193,716.00
Unprogrammed balance from previous years (lapsing)	109,643.00
Total available	$4,303,358.00

Project and Account No.	Route Name and Type of Work	Length (Miles)	Forest Highway Funds
NEW PROJECTS - CONSTRUCTION			
FH 3-A3 (L-3527-00)	Oregon Coast Highway Grading	2.88	650,000.00

		Total Program	$4,134,000.00
Forest Highway Funds (lapsing)			4,134,000.00
Forest Highway Funds - TOTAL			$4,134,000.00
Unprogrammed Balance			169,358.00

Mr. R J. Bettendorf, Manager, Port of Astoria, and Mr. Charles DeFoe, Manager, Astoria Chamber of Commerce, appeared before the Commission concerning the possible removal of dry dock facilities from the U. S. Naval Station at Tongue Point. Mr. DeFoe gave as his feeling that the Commission is interested in utilizing the dry dock for emergency repairs to the ferry "Chessman" and he suggested if that is the case that the Commission should so advise the Admiral of the Navy in Seattle who has charge of the facility. He also pointed out that shifting sands in the Columbia River channel on the route used by the ferry may require dredging because the channel is quite shallow and there are possibilities that the ferry will have to stop operating especially during periods of low tide. He suggested that it would

be advisable to discuss the matter with the Army Engineers. Mr. Stiffler, Assistant State Highway Engineer, advised that about 3000 feet of the channel is becoming shallow and during the past year the ferry struck bottom nine times. Mr. Defoe urged early action on the matter so action as may be necessary can be taken before spring when low tides could seriously handicap ferry operations. Chairman Reynolds concluded the discussion by thanking Mr. Defoe for calling both matters to the Commission's attention.

The Commission signed the following agreements, deeds etc:

"Indentures of Access" on the following properties:

a. Haggard-Alcorn property on Gold Beach-Hunter Creek Section of Oregon Coast Highway, Curry County.

b. Bolter-Wood property on Sherman Junction -Willowdale Section of The Dalles-California Highway, Jefferson County.

c. Lively property on Mehama-Mill City Section of North Santiam Highway, Marion County.

"Bargain and Sale Deed" and "Agreement" with Lane County whereby the County agrees to give to the State 10,000 cubic yards of rock from a mutually acceptable source in exchange for state property on the right bank of the Willamette River downstream from the Springfield Bridge for park purposes.

"Agreement" with Bureau of Public Roads covering cost to make a topographic map to be used jointly in connection with a study of the possible future road revisions between Otis Junction and the Siletz River on the Oregon Coast Highway.

"Agreement" with the Southern Pacific Company granting the State permission to install two pipes to convey water under the railroad tracks for irrigating the landscape project on South Sixth Street in Klamath Falls.

"Agreement" with the Portland General Electric Company for a power pole line over excess property on Salem By-Pass Section of Pacific Highway, Marion County.

"Agreement" with the city of Sweet Home covering the proposed installation of a flashing beacon at the intersection of the Santiam Highway and Holley Road in Sweet Home.

"Agreement" with the city of Ashland covering the traffic signal installation at Siskiyou Boulevard and Wightman Street in Ashland.

"Agreement" with the city of Forest Grove covering one-way couplet Forest Grove-Cornelius Unit Tualatin Valley Highway No. 29.

"Agreement" with Douglas County Court covering the Dompier Creek Section of FAS 801 in Douglas County.

"Agreement" with Baker County Court covering the Wingville Section of FAS 506 in Baker County.

"Notice of Application to Vacate" and Petition" re vacation of 9 streets in the townsite of Harborton, Lincoln County, adjacent to South Beach State Park.

"Agreement" with Umatilla County covering (exhange of roads) North and South Mission County Roads and Stanfield-Pendleton Highway No. 337.

"Bargain and Sale Deed" to City of Portland, deeding a 25 foot strip to the City in exchange for their vacating a portion of 91st Avenue and Wasco Street.

"Bargain and Sale Deed" to Alton J. Swett for a parcel of land on the Tillamook - Pleasant Valley Section of the Oregon Coast Highway in Tillamook County.

"Bargain and Sale Deed" to Isad R. Gelphman for a parcel of land on East Half ($E\frac{1}{2}$) of Section 28, Township 1 North, Range 2 East, W. M. Multnomah County on the T. H. Banfield Expressway.

"Finance Agreement" with Harney County, covering the Silvies River Bridge on the Silvies River County Road, FAS 459, in Harney County.

"Agreement" with City of Beaverton covering the installation of traffic signals at the intersection of Broadway and Hall Streets in Beaverton.

There being no further business to consider at this time the meeting was declared adjourned by Chairman Reynolds at 2:45 p. m.

State Highway Engineer

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

December 5 and 6, 1957

EXHIBIT "A"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

27309 Hopfield, Irene C. (Grothaus)
Right of Way, Stas. 456+55-457
Option expires May 8, 1958

0.34 acre	$377.00
Timber	23.00
Amount to be paid owner - chrg to Right of Way	$400.00

Entire taking -

27327 Wright, Emily Mae (Grothaus)
Right of Way, Stas. 455-456
Option expires May 11, 1958

0.23 acre	$277.00
Timber	23.00
Severance damage	100.00
Amount to be paid owner - chrg to Right of Way	$400.00

EXHIBIT "B-1"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Salem-Stout Creek Section of the North Santiam Highway described as follows:

> A parcel of land lying in Section 16, Township 9 South, Range 1 East, W.M., Marion County, Oregon, and being a portion of that property described in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 470, Page 494, of Marion County Records of Deeds; the said parcel being that portion of said property lying Northerly of a line which is parallel to and 140 feet Northerly of the center line of the North Santiam Highway as said highway has been relocated, which center line is described in said State of Oregon deed.
>
> The parcel of land to which this description applies contains 9.21 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $6,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273,060 Et. Seq. The convenyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the relocated North Santiam Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 55 be entered in the minutes and records of the Commission as of the 5th day of December, 1957.

EXHIBIT "B-2"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Rowena-The Dalles Section of the Columbia River Highway described as follows:

A parcel of land lying in Lot 4, Tract "B" Chenoweth Home Tracts situated in the Southeast quarter (SE $\frac{1}{4}$) of Section 29, Township 2 North, Range 13 East, W.M., Wasco County, Oregon, the said parcel being that protion of said Lot 4 lying Westerly of a line which is parallel to and 150 feet Westerly of the center line of the relocated Columbia River Highway which center line is described as follows:

Beginning at Engineer's center line Station 2182+52.6, said station being 899.4 feet North and 588.2 feet East of the Southeast corner of the Justin Chenoweth D. L. C. No. 37, Township 2 North, Range 13 East, W. M.; thence on a spiral curve to the left (the long chord of which bears South 18° 56' 30" West) 400 feet; thence on a 3819.72 foot radius curve left (the long chord of which bears South 0° 36' 30" West) 2177.8 feet to Engineer's center line Station 2208+30.4.

Said parcel being approximately 104 feet by 122 feet.

The parcel of land to which this description applies contains 0.3 acre, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the relocated Columbia River Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 56 be entered in the minutes and records of the Commission as of the 5th day of December, 1957.

December 5, 1957

EXHIBIT "C"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4032, with Parker-Schram Co., for structure, grading and paving on the Barbur Blvd. Jct. Unit, Barbur Blvd.-White School Section of the West Portland-Hubbard Highway (Portland-Salem Expressway) in Multnomah County, completed November 23, 1955.

"Contract No. 4504, with T. W. Thomas, for constructing guard rail and installing sight posts on the Goshen-Divide Section of the Pacific Highway in Lane County, completed August 24, 1957.

"Contract No. 4536, with Rogers Construction, Inc., for grading on the Meacham-Glover Section of the Old Oregon Trail Highway in Umatilla and Union Counties, completed July 31, 1957.

"Contract No. 4587, with Gibbons & Reed Co., for grading and tunnel excavation on the Knowles Creek-Turner Creek Tunnel Sec. of the Mapleton-Richardson County Road in Lane County, completed November 8, 1957.

"Contract No. 4657, with Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co., for structures, grading and paving on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County, completed October 29, 1957.

"Contract No. 4673, with Arthur Simonsen & Co., for pavement sealing and rock production on the La Grande-North Powder Section of the Old Oregon Trail Highway in Union and Baker Counties, completed September 25, 1957.

"Contract No. 4701, with P. S. Lord Mechanical Contractors for constructing Nehalem River (Vine Maple) Bridge on the Fishhawk Falls Highway in Clatsop County, completed November 14, 1957.

"Contract No. 4720, with Don Greene & Greene & Buick, Inc., for grading and oiling on the Siletz-Camp 12 Section of the Siletz Highway in Lincoln County, completed October 25, 1957.

"Contract No. 4762, with Funderburk Construction Corp. for grading and paving on the South Unit, Kellogg Bridge-Yellow Creek Section of the Elkton-Sutherlin Highway in Douglas County, completed September 25, 1957.

"Contract No 4766, with Sig Andersson, for grading and paving on the Monroe Ave.-16th St. (North Bend) Section of the Cape Arago Highway in Coos County, completed August 6, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4808, with Morse Bros. & Durbin Bros. for grading and oiling on the Walton-Noti Section of the Richardson-Eugene Highway in Lane County, completed October 11, 1957.

"Contract No. 4810, with C. E. Leseberg, for grading and paving on the Horseshoe Bend-Gwynn Undercrossing Unit of the Juntura-Vale Section of the Central Oregon Highway in Malheur County, completed August 22, 1957.

"Contract No. 4823, with S & D Construction Co., for constructing North Fork Scappoose Creek Bridge on the Pittsburg-Scappoose Highway in Columbia County, completed November 15, 1957.

"Contract No. 4835, with Perkins Bros., for grading and paving on the 17th St.-Cozine Cr. (Adams St., McMinnville) Section of the Pacific Highway West (Southbound) in Yamhill County, completed September 26, 1957.

"Contract No. 4851, with Roy L. Houck & Sons, for paving on the Sublimity Gun Club-Stout Creek Section of the North Santiam Highway in Marion County, completed November 9, 1957.

"Contract No. 4854, with Umatilla Ready-Mix Co., for furnishing crushed material in stockpile on the Pendleton-Hilgard Section of the Old Oregon Trail Highway in Umatilla and Union Counties, completed September 14, 1957.

"Contract No. 4864, with Calkins Crushing Co., for paving on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County, completed October 29, 1957.

"Contract No. 4890, with Rogers Construction Co., for grading and paving on the Halsey St.-Division St. Section of N.E. and S.E. 122nd Ave. in Multnomah County, completed October 24, 1957.

"Contract No. 4916, with E. A. Kruse, for grading and oiling on the E. Unit, Camp Creek-Paulina Section of the Paulina Highway in Crook County, completed October 22, 1957.

"Contract No. 4920, with Orlando C. Bennard, for constructing the Glover Overcrossing of the U.P.R.R. on the Old Oregon Trail Highway in Union County, completed November 7, 1957.

"Contract No. 4951, with McNutt & Sons, Inc. and Lee F. Philpott, for grading and oiling on the Shaniko-Antelope Section of the Shaniko-Fossil Highway in Wasco County, completed October 1, 1957.

"Contract No. 4955, with R. H. Jones, for constructing Hay Creek Bridge on The Dalles-California Highway in Jefferson County, completed November 4, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4963, with Leslie Harris, for grading and paving on the Cove (French & Hill Sts.) City Street Section in Union County, completed October 15, 1957.

"Contract No. 4970, with Hodges & Barger and Robert Kyle for constructing Rock Creek and Gate Creek Bridges on County Road FAS 311 in Wasco County, completed November 11, 1957.

"Contract No. 4974, with Harbert Bros., for grading and surfacing on the Alsea Jct.-Beaver Cr. School Section of the Alsea Highway-Greenberry Road in Benton County, completed September 27, 1957.

"Contract No. 4976, with M. C. Lininger & Sons, for grading and paving on the N. Grants Pass Interchange-Savage St. Section of the Pacific Highway in Josephine County, completed October 24, 1957.

"Contract No. 4990, with Knight Pearcy, for roadside improvement of the S. 6th St. (Klamath Falls) R.R. O'Xing Section of the Klamath Falls-Lakeview Highway in Klamath County, completed November 7, 1957.

"Contract No 4994, with Steeck Electric Co., for installing illumination on the Chenoweth Cr.-The Dalles Section of the Columbia River Highway in Wasco County, completed October 16, 1957.

"Contract No. 5008, with Rogers Construction Co., for grading and paving on the 102nd Ave.-122nd Ave. Section of N.E. Glisan St. in Multnomah County, completed October 22, 1957.

"Contract No. 5010, with A. E. FitzGerald for constructing Stinkingwater Mountain Sand Shed on the Central Oregon Highway in Harney County, completed November 5, 1957.

"Contract No. 5014, with J. C. Compton Co., for furnishing crushed material in stockpile on the S.P. U'Xing-Little Deschutes River Section of the Willamette Highway in Klamath and Lane Counties, completed October 1, 1957.

"Contract No. 5035, with Pacific Concrete Co., for constructing 21st, 28th, 33rd and 39th Ave. Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed November 21, 1957.

"Contract No. 5036, with Grimstad & Vanderveldt, for overnight camp expansion of Ft. Stevens State Park in Clatsop County, completed November 12, 1957.

"Contract No. 5039, with Gilbert Roberts, for constructing the Cascade Locks Sand Shed on the Columbia River Highway in Hood River County, completed November 19, 1957.

EXHIBIT "C" (Cont)

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 68 shall be entered in the minutes and records of the Commission as of the 5th day of December, 1957.

29272

EXHIBIT "D-1"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 366.290, the Commission may select, locate, establish, designate, improve and maintain out of the highway fund a system of secondary state highways and in furtherance of this purpose may enter into agreements with the county courts of the several counties, by which market roads or other county roads are selected, designated, and adopted as state secondary highways; and

WHEREAS, Umatilla County and the State Highway Commission entered into an agreement on the 6th day of December, 1957, relating to the selection, designation, and adoption of the North Mission and South Mission County Roads as shown colored in yellow on the sketch mat attached hereto, marked Exhibit "A", and by this reference made a part hereof; and

WHEREAS, said agreement provided that the State Highway Commission could adopt, select, and designate the said North Mission and South Mission County Roads as a part of the state secondary highway system to be known as the Umatilla Mission Highway, State Secondary Highway No. 331.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commissin as follows:

1. That the North Mission and South Mission County Roads as shown colored in yellow on the attached Exhibit "A" be and they hereby are adopted, selected, and designated as the Umatilla Mission Highway, State Secondary Highway No. 331, which said highway is described as follows:

> Beginning at a junction with the Oregon-Washington Highway No. 8 at mile point 4.42 of said Oregon-Washington Highway; thence southerly along the North and South Mission County Roads via Mission to a junction with the Old Oregon Trail Highway No. 6 at mile point 212.68 of said Old Oregon Trail Highway, a distance of 4.79 miles.

2. That this resolution be entered in the minutes and records of the Highway Commission this 6th day of December, 1957, as Secondary Highway Designation Resolution No. 43.

---

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 43, under the heading, "Secondary Highway Designation Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29273

EXHIBIT "D-2"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Stanfield-Pendleton Highway, State Secondary Highway No. 337, has previously been designated, as shown in red and blue on the attached sketch map, marked Exhibit "A", and by this reference made a part hereof and described as follows, to wit:

> Beginning at a junction with the Old Oregon Trail Highway No. 6 at mile point 187.91 of said Old Oregon Trail Highway; thence southeasterly to a junction with the Lexington-Echo Highway at mile point 35.74 of said Lexington-Echo Highway in the city of Echo; thence beginning again at a junction with the Lexington-Echo Highway at mile point 35.91 of said Lexington-Echo Highway in the city of Echo; thence continuing southeasterly and easterly to a junction with the Old Oregon Trail Highway No. 6 at mile point 207.68 of said Old Oregon Trail Highway in the city of Pendleton, a distance of 24.42 miles,

and

WHEREAS, under the provisions of ORS 366.290, the Commission may, with the written consent of the county court of the county in which a particular highway or part hereof is located, eliminate from the system of secondary highways any road or highway, or any part thereof, and the eliminated part shall then become a county road or highway, and the construction, repair, maintenance or improvement, and jurisdiction over said highway shall be exclusively under the county court of the county in which a highway or road is located; and

WHEREAS, the State Highway Commission and Umatilla County entered into an agreement on the 6th day of December, 1957, relating to the disposition of that portion of the hereinabove described Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown in red on the attached Exhibit "A"; and

WHEREAS, in the opinion of the Highway Commission, the interests of the State will be best served if that portion of the heretofore described Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown in red on the said attached Exhibit "A", be transferred to Umatilla County and all right, title and interest which State has in and to the right of way of said highway pass to and vest in Umatilla County; and

WHEREAS, under the terms of that agreement, State agreed to transfer to Umatilla County the heretofore described Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown colored in red on the attached Exhibit "A"; and

EXHIBIT "D-2" (Cont)

WHEREAS, under the provisions of ORS 366.290, the Commission may likewise make changes in the location of highways that have been previously designated and adopted by the Commission as in the judgment and discretion of the Commission will result in better alignment, more advantageous and economic highway operation and maintenance, or as will contribute to and afford a more serviceable system of state highways.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That pursuant to an agreement entered into with Umatilla County, Oregon, on the 6th day of December, 1957, that portion of the Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown colored in red on the attached Exhibit "A", is hereby duly eliminated as part of the Stanfield-Pendleton Highway, State Secondary Highway No. 337, and the state highway system, and that all right, title, and interest which the State has in such highway right of way does hereby pass to and vest in said Umatilla County.

2. That the portion of the said Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown colored in blue on the said attached Exhibit "A", does not pass to nor vest in Umatilla County, but the same shall be retained by State.

3. That that portion of the said Stanfield-Pendleton Highway, State Secondary Highway No. 337, as shown colored in blue on the attached Exhibit "A" and which is located in the city of Echo and title to which is retained by State, is hereby redesignated as a portion and part of the Lexington-Echo Secondary Highway, being State Secondary Highway No. 320, which said portion is described as follows:

> Beginning at the junction with the Lexington-Echo Highway at mile point 35.74 of the said Lexington-Echo Highway in the city of Echo; thence southerly via the Stanfield-Pendleton Highway along Thielson Street to a junction with the Lexington-Echo Highway at mile point 35.91 of said Lexington-Echo Highway in the city of Echo.

4. That this resolution be entered in the minutes and records of the Highway Commission this 5th day of December, 1957, as Abandonment and Retention Resolution No. 342.

---

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 342, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Funds Accrued First Half of 1956:	
Dayton	$ 2,100.00

Funds Accrued Second Half of 1956:	
Butte Falls	$ 1,304.31
Corvallis	64,494.83
Dayton	2,590.66
Dufur	1,815.94
North Powder	1,484.46
Yamhill	1,848.37

Funds Accrued First Half of 1957:	
Corvallis	$53,606.14
Dayton	1,970.39
North Powder	1,193.82
Monument	666.45
Seaside	11,260.19
Sumpter	376.69
Yamhill	1,448.81

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

EXHIBIT "E" (Cont)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 5th day of December, 1957.

29277

EXHIBIT "F"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated, and revised on July 23, 1941, and on September 23, 1954, a secondary state highway which is described as follows:

> Beginning at a junction with the Pacific Highway West at Third and Baker Streets in McMinnville, thence easterly to a junction with the Amity-Dayton Secondary Highway No. 155 at Mile Post 7.03 of said highway;

Which said highway upon its selection and designation as a secondary highway was thereafter identified on the records of the Highway Commission as the Three Mile Lane Highway, State Secondary Highway No. 152; and

WHEREAS, the Highway Commission has selected and designated Baker Street as the one-way northbound route of the Pacific Highway West and Adams Street as the one-way southbound route of the Pacific Highway West in the City of McMinnville; and

WHEREAS, pursuant to ORS 373.010, the Highway Commission deems it necessary and in the best interests of the traveling public that the westerly terminus of the Three Mile Lane Highway be altered and that said highway be extended from Third and Baker Streets westerly to Third and Adams Streets; and

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The following described portion of Third Street in the City of McMinnville shall be designated as an extension of the Three Mile Lane Highway, State Secondary Highway No. 152, to wit:

> Beginning at the intersection of the existing Three Mile Lane Highway and the one-way northbound route of the Pacific Highway West at Third and Baker Streets, thence westerly via Third Street to an intersection with the one-way southbound route of the Pacific Highway West at Baker and Adams Streets, as shown colored in red on the attached Exhibit "A" which by this reference is made a part hereof.

2. This resolution be entered in the minutes and records of the Highway Commission this 5th day of December, 1957, as Secondary Highway Resolution No. 42, and the Secretary is directed to file a duly certified copy thereof with the City Recorder of McMinnville, and the Secretary of State.

EXHIBIT "F" (Cont)

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 42, under the heading, "Secondary Highway Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29279

EXHIBIT "G"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the relocated Siletz-Camp Twelve Unit of the Siletz-Toledo Section of the Siletz Secondary State Highway No. 181 located in Lincoln County, the northerly terminus of which is at Highway Engineer's Survey Station 407+00 and the southerly terminus of which is at Highway Engineer's Survey Station 364+32.52 P.S.Ah. = 365+32.20 P.O.T.Bk. Equation on the said highway, has been completed and is now open to public travel; and

WHEREAS, due to the relocation of the aforesaid unit a portion of the former right of way is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Lincoln County, the City of Siletz and the State Highway Commission entered into an agreement on 11th of August, 1955, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned by the State Highway Commission to the County by a formal resolution, as part of the Siletz Secondary State Highway No. 181 in the state highway system, and that Unit "A", being within the city limits of Siletz, would be relinquished by the County to the City and maintained thereafter by the City as part of the city street system; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the Siletz-Toledo Section of the Siletz Secondary State Highway No. 181 together with other real property acquired by the state for roadway right of way and other public purposes, is needed and valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action to impress upon its records disposition made of the portion or unit of the former right of way of the said Siletz Secondary State Highway No. 181 referred to herein as Unit "A", as well as all of the property affected by reason of said realignment.

NOW, THEREFORE, based upon the power and authority vested in this Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that;

1. The portion of the former right of way, which by reason of the relocation of the Siletz-Camp Twelve Unit of the Siletz-Toledo Section of the Siletz Secondary State Highway No. 181 is no longer within the boundaries of the new right of way, is identified as Unit "A" and described as follows:

EXHIBIT "G" (Cont)

Unit "A"

All of the lands situated within the right of way boundaries of the Siletz Secondary State Highway No. 181 as located and commencing from the mean high-water mark on the northerly bank of the Siletz River in the City of Siletz, in the southwest quarter of the northwest quarter of the southwest quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$) in Section 9, Township 10 South, Range 10 West, W.M., and extending northeasterly along the highway route to the westerly right of way line of the relocated Siletz Secondary State Highway No. 181, which westerly right of way line is parallel to and 50 feet westerly of the center line of said relocated highway between Highway Engineer's Survey Station approximately 403+55 to 402+60 of said relocated highway in the south half of the north half (S $\frac{1}{2}$ N $\frac{1}{2}$) in Section 9, Township 10 South, Range 10 West, W.M., Lincoln County, Oregon and north of the Siletz River.

2. Pursuant to the agreement entered into with Lincoln County and the City of Siletz on the 11th day of August, 1955, Unit "A", indicated on the map attached hereto marked Exhibit "A" and by this reference made a part hereof, is hereby duly abandoned as part of the Siletz Secondary State Highway No. 181 and the state highway system, and all right, title, and interest which the state has in the right of way of Unit "A" herein described, passes to and vests in the said Lincoln County.

3. That portion of the right of way of the former highway and of the relocated Siletz-Camp Twelve Unit of the Siletz-Toledo Section of the Siletz Secondary State Highway No. 181 together with the real property acquired by the state for roadway right of way and other public purposes, as is indicated on Exhibit "A" attached hereto, shall be retained and held by the state.

4. The Abandonment and Retention Resolution No. 341 be entered in the minutes and records of the Oregon State Highway Commission as of the 5th day of December, 1957, and the secretary is ordered to mail a duly certified copy hereof to the County Court of Lincoln County and the City Recorder of the City of Siletz.

FOOTNOTE*

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 341, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29281

EXHIBIT "H"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State Highway Commission has acquired certain parcels of real property, hereinafter more fully described, adjacent to the Willamette River, in Lane County, Oregon, for road building materials; and

WHEREAS, the State Highway Commission has exhausted the supply of road building materials on said real property; and,

WHEREAS, Lane County, acting by and through its County Court, has expressed to the State Highway Commission, its desire to acquire title to said real property for park purposes, and has agreed to give to the State Highway Commission in exchange therefore, 10,000 yards of gravel; and,

WHEREAS, pursuant to ORS 271.330, the State Highway Commission is granted the express power to relinquish the title to any of its property not needed for public use to any political subdivision within the State, providing such property shall be used and continue to be used for a public purpose by such political subdivision in the State of Oregon; and,

WHEREAS, the State Highway Commission is of the opinion that the above mentioned real property is no longer needed for a public purpose by the Highway Department, and is, therefore, willing to transfer said property to Lane County for park purposes, in exchange for 10,000 yards of gravel from said County;

NOW, THEREFORE, BE IT RESOLVED that the hereinafter described real property now belonging to the State of Oregon, by and through its State Highway Commission, be conveyed by Bargain and Sale Deed, pursuant to the provisions of ORS 271.330, to Lane County, a political subdivision of the State of Oregon, to be used by said Grantee for park purposes only. Attached hereto, marked "Exhibit A" and by this reference made a part hereof, is map #1R-2-2543 showing said parcels of real property colored in red. The said real property is described as follows:

> A parcel of land lying in Sections 34 and 35, Township 17 South, Range 3 West, Willamette Meridian, Lane County, Oregon, and being that property described in those certain deeds to the State of Oregon, by and through its State Highway Commission, recorded on Reel 9-52D, Instrument No. 90970, in Book 436, Page 199, in Book 440, Page 630 and on Reel 14-53D, Instrument No. 99910 of Lane County Deed Records. The said parcel being described as follows:

EXHIBIT "H" (Cont)

All of the Fractional Blocks numbered 53 and 54 and Lots 4, 5, and 6 in Block 46 of the City of Springfield, Lane County, Oregon, according to the extended survey thereof, recorded as the map of Springfield in Volume 1, Page 1 of Lane County Deed Records, containing 62,500 square feet, more or less. Also the vacated portion of Water Street lying between Block 46 and Block 53 as vacated by that certain Springfield City Ordinance No. 312, containing 16,760 square feet. Also all right, title and interest to any accretions of the Willamette River fronting on said Blocks 53 and 54.

Block 52 of the City of Springfield according to the extended survey thereof platted and recorded as the map of Springfield in Volume 1, Page 1 of the Lane County Records of Deeds, containing approximately 66,000 square feet.

Also all right, title and interest to any accretions of the Willamette River fronting on said Block 52.

Fractional Lots 1, 2, 3, and 4 in Block 45 of the City of Springfield, Lane County, Oregon, according to the extended survey thereof platted and recorded as the map of Springfield in Volume 1, Page 1, of Lane County Deed Records, containing 46,000 square feet, more or less.

Also all right, title and interest to any accretions of the Willamette River fronting on said Block 45.

A tract of land lying in the Springfield Addition to the City of Springfield situated in Township 17 South, Range 3 West, Willamette Meridian, Lane County, Oregon. The said tract being described as follows:

Beginning at a point which bears North 89° 16' West, 163.5 feet from the intersection of the Northerly right of way line of the McKenzie Highway with the South line of the Thurman property, said intersection being North 70 feet and North 89° 46' West, 204.5 feet from the Northeast corner of Lot 4, Block 20 Springfield as platted and recorded at Page 1 of Volume 1, Lane County Deed Records; said beginning point also being the Southwest corner of that property described in that deed to Lewis J. Campbell recorded in Book 311, Page 496, Lane County Deed Records; thence North 95 feet; thence West to the East Bank of the Willamette River; thence Southerly along

EXHIBIT "H" (Cont)

the East bank of the Willamette River to a point which bears West from the point of beginning; thence East to the point of beginning, containing 0.5 acre, more or less.

BE IT FURTHER RESOLVED that this Resolution No. 210 be entered in the minutes and records of the Commission this 5th day of December, 1957, and that a certified copy thereof be forwarded to Lane County.

EXHIBIT "I"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 366.145, the State Highway Commission is authorized to appoint an Assistant State Highway Engineer who shall, after appointment, hold office during the pleasure of the Commission; and

WHEREAS, said law further provides that said Assistant State Highway Engineer shall receive an annual salary to be fixed by the Commission; and

WHEREAS, P. M. STEPHENSON is a registered Civil Engineer and has had many years experience in highway engineering and highway bridge engineering.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED, all members present, voting affirmatively as follows:

1. That it is the judgment and finding of this Commission, having duly considered and examined the qualifications of P. M. STEPHENSON, that P. M. STEPHENSON is a competent Civil Engineer and is well qualified by technical training as well as practical experience in highway engineering and highway bridge engineering, and by reason of said qualifications is a competent person to serve as Assistant State Highway Engineer.

2. That P. M. STEPHENSON be and he hereby is appointed, effective January 1, 1958, to the position of Assistant State Highway Engineer and shall perform such duties as may be assigned to him by the State Highway Engineer or by this Commission and shall, under the direction of or in the absence of the State Highway Engineer, have full authority to perform any duty required or permitted by law to be performed by the State Highway Engineer.

3. That the Assistant State Highway Engineer shall receive a starting annual salary of $11,880.00, payable in monthly installments of $990.00 per month, as approved by the Civil Service Commission and the Department of Finance and Administration for a Civil Engineer VII in the fourth step, and shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

4. That prior to entering into the discharge of his respective duties, the said P. M. STEPHENSON shall take and subscribe the usual official oath.

EXHIBIT "I" (Cont.)

5. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State, together with a sample of the signature of P. M. STEPHENSON as Assistant State Highway Engineer.

6. That this resolution be entered in the minutes and records of this Commission as of the 5th day of December, 1957.

EXHIBIT "J-1"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigations are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Mehama-Mill City Highway

Highway number 213 Route number ORE 226

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
0.24 (south end of the North Santiam River Bridge)	1.08 (a point 0.11 mi. north of the jct. of the Albany-Lyons Highway)	45

Except that between a point 0.12 mile north of the Mari-Linn School M.P. 0.69) and a point 0.13 mile south of the Mari-Linn School (M.P. 0.94) the indicated speed shall be 20 miles per hour during the hours of school

crossings as per the provisions of Subsection 1.a. of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 263 be entered in the minutes and records of the Commission as of the 5th day of December, 1957.

EXHIBIT "J-2"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483 104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Scholls Secondary Highway

Highway number 143 Route Number ORE 210

Location of Termini		Established Speed
M. P.	to M. P.	M.P.H.
9.60 (Progress)	12.40 (Raleigh Hills)	45

Except that in the following sections the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104:

10.14 (50 feet north of S.W. Eagle Lane)	10.44 (0.13 mi. south of Denny Road)	20

EXHIBIT "J-3"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Scholls Secondary Highway No. 143 is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway near the Portland Golf Club between Raleigh Hills and Progress;

and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by reason of restricting sight distance for vehicles entering the highway from the Golf Club, and also restricts the maneuvering of vehicles traveling on the highway; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Scholls Secondary Highway, between a point 0.15 mile north of S. W. 86th Avenue, (M.P. 11.41), and the junction with the old Scholls Ferry Road, (M.P. 11.57), creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles at said location on said Scholls Secondary Highway should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

EXHIBIT "J-3" (Cont.)

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 173 be entered in the minutes and records of the State Highway Commission as of the 5th day of December, 1957.

EXHIBIT "J-4"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 266 be entered in the minutes and records of the Commission as of the 5th day of December, 1957.

EXHIBIT "J-6"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Oregon Coast Highway No. 9 is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway near a restaurant north of the intersection of said highway with the Sunset Highway known as Cannon Beach Junction; and

WHEREAS, the parking of vehicles at said location creates a hazard to the traveling public by reason of restricting sight distance; and

WHEREAS, off-street parking has been provided by the restaurant's owner for approximately 50 vehicles; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Oregon Coast Highway between M.P. 24.74 (Eng. Sta. 171+00) north of Cannon Beach Junction and M.P. 24.90 (Eng. Sta. 179+50) immediately north of Cannon Beach Junction creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the said Oregon Coast Highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT "J-6" (Cont.)

6. That this "No Parking" Resolution No. 174 be entered in the minutes and records of the State Highway Commission as of the 5th day of December, 1957.

EXHIBIT "K-1"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintennance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, desi gnate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

29299

EXHIBIT "K-1" (Cont)

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said h ghway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken as necessary in the public interest, and the same has been planned,

EXHIBIT "K-1" (Cont)

designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 891.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 891, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location or of for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hay Canyon-John Day River Section of the Wasco-Heppner Highway, and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Hay Canyon-John Day River Section of the Wasco-Heppner Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set for therein in full.*

EXHIBIT "K-2" (Cont)

2. That the relocation, construction, improvement and maintenance of the said Hay Canyon-John Day River Section of the Wasco-Heppner Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 892.

---

*FOOTNOTE

The names of the property owner and the detailed description of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 892, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29303

EXHIBIT "K-3"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation or by the exercise of the power of eminent domain fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway, and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of

EXHIBIT "K-3" (Cont)

the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "K-3" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 893.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 893, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-4"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Main Street-8th Street Section of the Medford-Provolt Highway, and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Main Street-8th Street Section of the Medford-Provolt Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-4" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Medford-Provolt Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Main Street-8th Street Section of the said Medford-Provolt Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 894.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 894, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-5"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby

EXHIBIT "K-5" (Cont)

adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3 That the widening, construction, improvement and maintenance of the said Forest Grove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway and the Highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 895.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 895, under the heading "Real Property Condemnation Resolutions," and said descriptions, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-6"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes. the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads. frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention or hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air. view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-6" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-6" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 896.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 896, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29313

EXHIBIT "K-7"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to widen, improve, construct and maintain the Judkins Point-Goshen Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Hignway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

EXHIBIT "K-7" (Cont)

needed for the highway proper; and,

WHEREAS, for the purpose of widening, improving, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled as specified; and,

WHEREAS, on April 13, 1955, the State Highway Commission, through Condemnation Resolution No. 666, resolved that it was necessary to take a portion of certain property under the ownership of Byrthae M. Bennett and Willetta M. Bennett (file No. R-20205); but it is now found to be necessary to take a greater portion of said property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The aforesaid Condemnation Resolution No. 666, dated April 13, 1955, is rescinded insofar as, and only insofar as, it applies to the aforesaid property of Byrthae M. Bennett and Willetta M. Bennett (File No. R-20205), and this resolution is substituted in lieu thereof

2. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening,improvement, construction and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway as a throughway. certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

3. That it is necessary that there shall be, and there shall be where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

EXHIBIT "K-7" (Cont)

4. That the widening, improvement, construction and maintenance of the said Pacific Highway and the highway facilities for which the said parcel or property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 897.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 897, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-8"

Minutes of December 5 and 6, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to reconstruct, improve and maintain the Judkins Point-Goshen Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

EXHIBIT "K-8" (Cont)

needed for the highway proper; and

WHEREAS, for the purpose of reconstructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the reconstruction, improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the reconstruction improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire

EXHIBIT "K-8" (Cont)

title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 898.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 898, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29319

EXHIBIT "K-9"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-9" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare p omoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 899.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 899, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-10"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation or scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Samuel H. Boardman State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Samuel H. Boardman State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development and maintenance of the Samuel H. Boardman State Park fee simple title to certain parcels of real property. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "K-10" (Cont)

2. That the real property hereinafter described and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the real property hereinafter described is required and is being taken have been planned, designed, located, and will be constructed, developed and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 900.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 900, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-11"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute

EXHIBIT "K-11" (Cont)

to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 901.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem being Resolution No. 901, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29327

EXHIBIT "K-12"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, on November 8, 1956, the State Highway Commission, by resolution, declared the necessity of acquiring a parcel of land lying in the Southeast quarter (SE¼) of Section 30, Township 1 South, Range 1 East, Willamette Meridian, Multnomah County, Oregon, consisting of approximately 3,750 square feet, and in addition certain access rights to the Pacific Highway (formerly Portland-Salem Expressway), owned by George A. Edwards and Alice Ruth Edwards, et al, (File R-20998 L-2689), for the location, construction, improvement and maintenance of the Harbor Drive-Barbur Boulevard Section of the said Pacific Highway; and

WHEREAS, it has now been determined that the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) can be completed without the necessity of acquiring the said parcel of said access rights from the said George A. Edwards and Alice Ruth Edwards, et al; and

WHEREAS, present highway construction plans do not contemplate using the said parcel or said access rights at this time or in the immediate future, and

WHEREAS, pursuant to the said resolution of November 8, 1956, the Legal Department of the State Highway Commission filed a condemnation proceeding to acquire the said parcel and access rights of January 7, 1957, which said proceeding is still pending in the Circuit Court of Multnomah County, Oregon, and being Multnomah County Circuit Court Case No. 236847, and

WHEREAS, the State Highway Commission has not taken physical possession of the said parcel described in said resolution of November 8, 1956, and which parcel is also described in the said condemnation proceeding.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution adopted by this Commission on November 8, 1956, and identified as Condemnation Resolution No. 685, declaring the necessity of acquiring the real property described above, is hereby cancelled and revoked.

2. That the Chief Counsel for the State Highway Commission be and he hereby is authorized to move the Circuit Court of Multnomah County, Oregon for an order to dismiss, without prejudice, Multnomah County Circuit Court Case No. 236847, entitled State of Oregon, by and through its State Highway Commission, composed of Ben R. Chandler, Charles H. Reynolds and M. K. McIver, vs. George A. Edwards and Alice Ruth Edwards, et al.

EXHIBIT "K-12" (Cont)

3. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Resolution No. 902.

29329

EXHIBIT "K-13"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, on April 13, 1955, the State Highway Commission, by resolution, declared the necessity of acquiring a parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of Section 33, Township 17 South, Range 3 West, Willamette Meridian, Lane County, Oregon, consisting of approximately 1,600 square feet, and in addition certain access rights to the Pacific Highway, owned by Martin E. Hill and Edna R. Hill, et al, (File R-20120 L-2719), for the widening, improvement, construction and maintenance of the Judkins Point-Goshen Section of the said Pacific Highway; and

WHEREAS, it has now been determined that due to changes in the construction plans the project can be completed without the necessity of acquiring the said parcel and said access rights from the said Martin E. Hill and Edna R. Hill, et al; and

WHEREAS, present highway construction plans do not contemplate using the said parcel or said access rights at this time or in the immediate future; and

WHEREAS, pursuant to the said resolution of April 13, 1955, the Legal Department of the State Highway Commission filed a condemnation proceeding to acquire the said parcel and access rights on February 6, 1957, which said proceeding is still pending in the Circuit Court of Lane County, Oregon, and being Lane County Circuit Court Case No. 51222; and

WHEREAS, the State Highway Commission has not taken physical possession of the said parcel described in said resolution of April 13, 1955, and which parcel is also described in the said condemnation proceeding.

NOW, THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution adopted by this Commission on April 13, 1955, and identified as Condemnation Resolution No. 666, declaring the necessity of acquiring the real property described above, is hereby cancelled and revoked.

2. That the Chief Counsel for the State Highway Commission be and he hereby is authorized to move the Circuit Court of Lane County, Oregon for an order to dismiss, without prejudice, Lane County Circuit Court Case No. 51222, entitled State of Oregon, by and through its State Highway Commission, composed of Ben R. Chandler, Charles H. Reynolds and M. K. McIver, vs. Martin E. Hill and Edna R. Hill, et al.

3. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Resolution No. 903.

EXHIBIT "K-14"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "K-14" (Cont)

2. That the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 904.

---

*FOOTNOTE

The name of the property owner and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 904, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-15"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Portland-Bonneville Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-15" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Portland-Bonneville Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway, including the Sundial-Troutdale traffic interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of said Portland-Bonneville Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-15" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 905.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 905, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-16"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-16" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled, as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list, marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list, marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-16" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 906.

---

*FOOTNOTE

The name of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 906, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-17"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention or hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Tillamook-Donaldson Creek Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-17" (Cont)

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Wilson River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels or real property, or interest therein.

EXHIBIT "K-17" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 907.

---

*FOOTNOTE

EXHIBIT "K-18"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the Stateof Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of an state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pleasant Hill-Creswell Section of the Springfield-Creswell Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the Springfield-Creswell Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full."

EXHIBIT "K-18" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Springfield-Creswell Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the said Springfield-Creswell Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 5th day of December, 1957, as Condemnation Resolution No. 908.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 908, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-19"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites,stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providinga highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "K-19" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Bou Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination

such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 909, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-1"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Pacific Highway East is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway in the vicinity of the Evergreen Veterinary Hospital, Portland, north of Jennings Lodge, and that vehicles are also being parked on the easterly shoulder of said highway near a drive-in restaurant north of the Evergreen Veterinary Hospital; and

WHEREAS, the parking of vehicles at said locations creates a hazard to the traveling public by reason of restricting sight distance; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said locations;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Pacific Highway East between M.P. 9.20 (Engineer's Station 148+00) at Rothe Road, and M. P. 9.33 (Engineer's Station 141+00) 700 feet south of Rothe Road, creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles at said locations on said Pacific Highway East should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 171 be entered in the minutes and records of the State Highway Commission as of the 5th day of December, 1957.

December 5, 1957

29347

EXHIBIT "L-2"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Mt. Hood Highway No. 26 is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway (new section) in the vicinity of Government Camp; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public and hinders snow-removal activities; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Mt. Hood Highway, (new section) between a point 100 feet east of the westerly connection to Government Camp (M.P. 53.08, Engineer's Station 76+00), and a point 150 feet west of the easterly connection to Government Camp, (M.P. 54.29, Engineer's Station 18+00), creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles at said location on said Mt. Hood Highway should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 172 be entered in the minutes and records of the State Highway Commission as of the 5th day of December, 1957.

EXHIBIT "M"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 271.330, the State or any political subdivision thereof is granted express power to relinquish the title to any of its property not needed for public use to the United States Government or any other governmental body or political subdivision within the State, provided such property shall be used and continued to be used for public purpose by the United States Government, or such other governmental body or political subdivision in the State of Oregon; and

WHEREAS, the State Highway Commission is the owner of certain hereinafter described real property located in the City of Portland, County of Multnomah, State of Oregon which is no longer needed or required by the State of Oregon for highway purposes or any other public use; and

WHEREAS, the said hereinafter described property is needed by the City of Portland for a public use for city street purposes; and

WHEREAS, in the judgment of the State Highway Commission, the best interests of the State of Oregon and of the City of Portland, would be served by conveying the hereinafter described real property to the City of Portland.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. That the Commission does hereby find and declare that the hereinafter described real property is no longer needed by the State of Oregon for highway or any other public use and it would best serve the interests of the State of Oregon and the City of Portland if the hereinafter described real property be conveyed to the City of Portland. The said real property is described as follows to wit:

Parcel #1

A strip of land 25 feet in width lying Northerly of, parallel to, and adjacent to the O. W. R. & N. Company revised right of way line, said revised right of way line being 100 feet radially from, parallel to and Northerly from the O. W. R. & N. Company existing right of way line, the Westerly limits of said 25 foot strip being the Easterly line at N. E. 91st Avenue, and the Easterly limits being the Easterly line at Lot 13, Block 9, Rosewood Addition to the City of Portland; also

EXHIBIT "M" (Cont.)

the Northerly line of said 25 foot strip intersecting the Easterly line of N. E. 91st Avenue 84.05 feet from the Northwest corner of said Block 9 and intersecting the Easterly line of Lot 13 of said Block 9, 36.64 feet from the Northeast corner of said Lot 13, also all of Lot 12 of said Block 9 lying Northerly of the O. W. R. & N. Company revised right of way line as described above.

Parcel #2
All of Lots 11 and 12, Block 10 of said Rosewood Addition.

2. That the Commission shall sign and acknowledge a good and sufficient Bargain and Sale Deed conveying the above described real property to the City of Portland.

3. That this resolution be entered in full in the minutes and records of this Commission as Miscellaneous Resolution No. 212 this 5th day of December, 1957.

EXHIBIT "N"

Minutes of December 5 and 6, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Myers Creek-Brookings Section of the Oregon Coast Highway in Curry County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Myers Creek-Brookings Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 473+00, approximately two miles north of the town of Pistol River, and extending in a southerly direction to Highway Engineer's Station 1440+82.66 in Harris Beach State Park, immediately north of the town of Brookings, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1173, dated August, 1957, (Right-of-way Map Nos. 8B-6-16, 8B-6-17, 8B-6-18, 8B-6-19, 8B-6-20, 8B-6-21, dated August, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

EXHIBIT "N" (Cont)

4. That heretofore this Commission by resolution dated November 3, 1948, (and as modified by resolution adopted by the Commission February 17, 1953), designated the said Oregon Coast Highway as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above-mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 5th day of December, 1957, as Survey Resolution No. 155.

J. Bacaloff Company, Portland	339,130.90

The Commission approved the minutes of the meeting held on September 12 and 13, and on October 31 and November 1, 1957, but deferred until its next regular meeting approval of the minutes of the meeting held on December 5 and 6, 1957.

Mr Neal Butterfield, of the National Parks Service, was introduced by Mr Armstrong, State Parks Superintendent, who then presented the following reports on park matters:

1 Acquisition of 80 acres of land from the City of Portland, located near Dodson and known as McLaughlin Park: The Parks Superintendent reported that the City of Portland had passed an ordinance deeding this property to the State for a consideration of $10.00. The area, he stated, is

located a short distance south of the Columbia River Highway and includes an entrance road. The area is suitable for park development and during CCC days had been developed for such use; also, the acquisition fits in with the plans of the Columbia Gorge Commission. He recommended that the property be accepted and that the City be paid the sum of $10.00. The Commission accepted the property with thanks.

2. Request of Heppner Chamber of Commerce for development of a state park on Route 207 at the junction of Chapin and Rock Creeks about 25 miles south from Heppner: The area, the Parks Superintendent stated, has been investigated and it was found to be a very pleasant location. However, it appears that the use of the area other than by local residents would be very small. The highway on which it is located is not a through traveled road and use by tourists would be negligible. It was his feeling that if the property is developed the work should be performed by the local communities or the county. He recommended that it not be developed as a state park. The Commission approved his recommendation.

3. Offer of Mr. and Mrs. E. A. Reed, Myrtle Point, to deed to the State two acres of land a short distance south of Myrtle Point: The Parks Superintendent explained that the area is located on the Coquille River, a short distance south of Myrtle Point, and that it is presently used for swimming and fishing. It was his feeling that because of the location of the area its use would be mostly local so development should be undertaken by the community rather than the State. The Commission approved his recommendation that the offer be not accepted, and ordered that Mr. and Mrs. Reed be thanked for their generous offer.

4. Bids for grazing lease on 72 acres located between the railroad and the Columbia River Highway at Rooster Rock State Park: Two bids were submitted for this lease, the Parks Superintendent stated. Multnomah Falls Lodge and Gift Shop, Inc., submitted a bid in the amount of $505.50 per annum for a total of $2,527.50 for the five-year lease, which is to run from January 1, 1958 to January 1, 1963. Mr. Harry T. Kruckman, Latourell Falls, submitted a bid in which he offered to exchange for the lease privilege 11 acres of property owned by himself in the Columbia Gorge. Although Mr. Kruckman's bid was not in line with the proposal the Parks Superintendent stated that an appraisal was made on the value of the land which indicated that the land and the timber on it were worth $1,516.00. The Columbia Gorge Commission, he continued, is interested in acquiring the land owned by Mr. Kruckman but inasmuch as Mr. Kruckman's bid, based upon the appraised value of his land, is approximately $1,000 less than the high bid submitted by the Multnomah Falls Lodge and Gift Shop, Inc., he recommended that the lease be awarded to the high bidder, the Multnomah Falls Lodge and Gift Shop, Inc. Chairman Reynolds commented that although the Commission would like to cooperate, if possible, with the Columbia Gorge Commission it would not be to the advantage of the State to accept the bid submitted by Mr. Kruckman. The Commission awarded the lease as recommended by the Parks Superintendent.

5. Proposed plan for a concession building at Rooster Rock State Park: The Parks Superintendent presented three exterior plans and a floor

plan. He explained that the floor plan was designed for concession use and to accommodate the needs of the State Health Department and the Multnomah County Sheriff, both of whom have approved the floor plan. It was his opinion that Scheme 3 provides the most attractive exterior plan. Commissioner McIver inquired if the inside partitions could be moved readily if interior changes are desired at a later date. The Parks Superintendent replied that the interior walls will be constructed of wood and can be moved if necessary. He requested authority to advertise for bids for the concession privilege so that the successful bidder can be consulted concerning interior arrangements. He presented for Commission consideration a form of agreement under which the concessionaire is to operate. The Commission approved the agreement form but deferred action on the building plan until late in the session.

(On the following day the Commission approved the building plan as recommended, and authorized construction of the building in conformity therewith. The Commission also authorized the calling of bids for operation of the concession at this place.)

6. Proposed concession building at Fort Stevens State Park: The proposed building, the Parks Superintendent stated, is constructed around the present toilet facility on the east side of Coffenbury Lake. He presented a floor plan for a building which he estimated would cost approximately $7,000 The proposed plan, he continued, provides a shower facility and clothes-changing booths in addition to concession facilities and has been approved by the State Board of Health He recommended that the plan be approved and that authority be granted to call for bids as soon as details can be prepared. He also recommended that advertising for bids for the concession privileges be carried on at the same time and along the same lines as outlined for the Rooster Rock State Park concession lease. The Commission accepted his recommendations.

7 Proposed charges for the use of park facilities during 1958: The Parks Superintendent presented a schedule of rates which he stated is the same schedule as was in effect during 1957. Upon his favorable recommendation, the Commission approved the schedule of rates as presented by adoption of the attached resolution relative thereto, marked Exhibit "B", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

8. Request of Mr. and Mrs Lloyd C. Finley for renewal of their lease for a television antenna site in Boiler Bay State Park: The Parks Superintendent recalled that approximately a year ago the Finleys were granted a permit to construct the antenna on top of a butte in Boiler Bay State Park, a short distance north of Depoe Bay, and for the privilege had agreed to pay $100 annual rental They have now requested that the permit be renewed for a period of five years, beginning November 8, 1957 and expiring November 8, 1962. As the antenna is used for the benefit of the community, he recommended that the agreement be extended for five years at the same rental rate and with the usual provisions for cancellation if the permittee fails to live up to the terms of the agreement or if the property should be needed for public purposes. The Commission approved the extension

of the agreement as recommended.

9. Proposed agreement with the U. S. Reclamation Service concerning use of land on Owyhee Lake for state park purposes: The Parks Superintendent outlined briefly the provisions of the agreement which provides for use of 528 acres between Gordon Creek and Cherry Creek for a 50-year period. Under the proposed terms the State will have authority to construct and maintain park facilities, including roads and trails, and may issue permits for concessions, subject to federal regulations. He indicated, however, that some changes in the proposed agreement are desirable and he mentioned the personal injury and property damage provisions. Chairman Reynolds inquired as to plans that the Parks Superintendent has for development. He replied that a survey has been made and plans are being developed now and that a tentative figure of $20,000 has been set up for development. The Commission granted authority to continue negotiations with the Bureau of Reclamation for use of the necessary area.

10. Proposed agreement with Oregon State Board of Aeronautics covering construction of a flight strip at Nehalem Bay State Park: Leasing of this area for a flight strip was approved by the Commission several months ago, the Parks Superintendent recalled, and an agreement form has been prepared. He pointed out that the proposed agreement is effective for a period of 25 years and provides that the Bureau of Aeronautics will fence the area, will not construct any buildings unless approved by the Commission; and the other usual requirements. It was his opinion that the agreement protects the Highway Commission and will provide a necessary public service. He also mentioned that the flight strip location has been checked with the Highway Engineer who advises that it will not interfere with highway construction plans. Following his favorable recommendation, the Commission approved the agreement form subject to approval by the Engineer.

The Parks Superintendent reported that he had been advised that the Bennett property at Latourell Falls on the Columbia River Highway is to be sold by bid on January 30, 1958. The Columbia Gorge Commission, he said, wishes to acquire the property and has requested that the State place a bid for the same. Besides the scenic value of the property, he mentioned that it has a large building on it which would be of no value to the State. He suggested that the property be appraised and that a bid be submitted for the appraised value, which he felt would not be over $6,500. The Commission approved his suggestion, with the stipulation that he check with Commissioner McIver on the appraisal amount.

A progress report was presented by the Parks Superintendent concerning the status of acquisition of land for park purposes along the Oregon Coast Highway south of Yaquina Bay. He said that approximately 40 percent of a desired 315 acres has been acquired. Lincoln County has offered to the State 94 lots in this area and William J. Wineberg has offered to donate 140 lots which the Parks Superintendent recommended be accepted. He exhibited a map showing the land that has been acquired and parcels which should be acquired, some of which are tide lands. Commissioner McIver inquired if it might not be well to take necessary steps to acquire vital portions of the area to preclude possible purchase by

individuals, which would destroy the utility of the area for park purposes. The Commission accepted the lots from Lincoln County and from Mr. Wineberg and authorized the Parks Superintendent to proceed with negotiations to acquire other parcels of land. He was also instructed to send a letter of thanks to Mr. Wineberg for the donation of land in this area.

A report was submitted by the Parks Superintendent showing park receipts for the year 1957. He pointed out that receipts for the use of overnight facilities had exceeded the cost of operating these facilities by $40,656. The Commission accepted the report.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked Exhibit "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer asked the Commission to authorize the Chief Counsel to institute condemnation proceedings to acquire property that is needed from Gladys F. Hammel as right of way for the Newberg-Guerin Corner section of the Hillsboro-Silverton Highway No. 140, File #26333, not withstanding that agreement has been reached in the amount of $6500. The Right of Way Engineer explained that Mrs. Hammel is a County employee and condemnation proceedings will be necessary to legalize the amount to be paid her. In view of this explanation the Commission authorized the Chief Counsel to condemn the property

Commissioner McIver inquired as to progress that is being made in acquiring right of way for the Harbor Drive Section of the Baldock Freeway in Portland and for the Albany-Judkins Point Section of the Pacific Highway. The Right of Way Engineer outlined the status in each instance

The Right of Way Engineer brought up for discussion a proposed settlement with Oregon Pulp and Paper Company for property needed for Spencer Creek State Park State appraised value is $5300, their appraisal is near $12,000 They have agreed to accept $8000 He recommended that settlement be made for that amount and that the state build the necessary fence Action was deferred until the Parks Superintendent returned to the room The State Parks Superintendent stated that he favors the settlement as recommended However, the property should be fenced. The Commission approved the settlement

The Commission accepted a report submitted by the Right of Way Engineer showing miscellaneous property sales since the last Commission meeting and a rental report covering the period November 25, 1957 to January 1, 1958, showing new rentals and terminations. Also approved was the Property Manager's report showing receipts for the calendar year 1957, for rentals, sales of buildings, lands, and timber, totaling $428,404.04.

The Commission confirmed authority previously granted by telephone to the Right of Way Engineer to drill a new well on the Glines property located on the Louse Creek-Grants Pass Unit of the Pacific Highway in Josephine County. The Right of Way Engineer explained that the existing well had been damaged by highway construction.

Attention was given to the matter of reimbursing property owners for the cost of revenue stamps which they had been required by the Federal Government to place on deeds for property sold to the State. The Right of Way Engineer recommended that payments to property owners be made as follows: (a) Mrs. Carrie Phernetton, File No. 22484, for property on Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County, $7.15. (b) Mr. Tom Turner, File No. 23676, for property on the Harbor Drive-Barbur Boulevard section of the Pacific Highway in Multnomah County, $8.80. (c) Helen M. Williams, File No. 22906, for property on the Harbor Drive-Barbur Boulevard section of the Pacific Highway in Multnomah County, $6.05. (d) Lloyd Corporation, Ltd., File No. 18998, for property on the T. H. Banfield Expressway, Multnomah County, $13.20.

He explained further that on right-of-way options which had been closed during the last 18 months, the matter of stamp requirements had been made clear to the property owners and he recommended that no payments be made during that period. Commissioner McIver suggested and the Commission approved that the wording in the options be revised to clearly indicate that if stamps are required the State will pay the cost involved. The Commission approved payment of the amounts involved in the four transactions mentioned by the Right of Way Engineer and Commissioner McIver's suggestion.

At the request of the Right of Way Engineer, authority was granted by the Commission for one or more Right of Way employees to attend an appraisal course in Eugene January 20 to January 31, 1958, on the basis that each individual who attends shall pay whatever tuition is required and the state shall pay his salary and expenses. The Right of Way Engineer explained that this course is similar to one that was conducted last year and that the course is conducted jointly by the American Appraisal Institute and the University of Oregon.

The Right of Way Engineer presented three indentures of access which, he stated, provide for change in location of existing accesses and in which no additional points of access are provided. Upon his favorable recommendation, the Commission approved the following indentures of access:

a. Fahy property, File 26110, on the Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County.

b. Olsen property, File 18241, on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County.

c. LeCrone property, File 22348, on the Hillsboro-Forest Grove Section of the Tualatin Highway in Washington County.

Authority was requested by the Right of Way Engineer to offer at public sale the following parcels of right of way which are no longer required for highway purposes:

a 3.79 acres of the former Smith property on the Tigard-Newberg Section of the Pacific Highway West in Washington County, at a minimum price of $4,500.00. (SEE EXHIBIT "D-1")

b. 1 08 acres of the former Nielsen and Lock properties on the Salem By-pass Section of the Pacific Highway East in Marion County, at a minimum price of $3,250.00. (SEE EXHIBIT "D-2")

c 0 49 acre of the former Buckley property on the Provolt-Ruch Section of the Medford Provolt Highway in Jackson County for a minimum price of $200.00.

d. 0.04 acre of land of the former Siikanen property on 6th and 7th Streets Section of the Pacific Highway in Grants Pass, for a minimum price of $350.00.

e 0.21 acre of the former Gerber property on the Middle Grove-Central Howell Section of the Salem-Silverton Highway in Marion County, for a minimum price of $100.00

f. 4 08 acres of the former Heath property on the T. H. Banfield Expressway in Multnomah County, for a minimum price of $4,000.00. (SEE EXHIBIT "D-3")

g 5,673 square feet of the former Ervin and Hillman properties on the Willamette River-42nd Avenue Section of the T H. Banfield Expressway in Multnomah County for a minimum price of $7,000 00. (SEE EXHIBIT "D-4")

h Lots 25 through and including 32 in Block 16, Sutherlin, in Douglas County, for a minimum price of $2,500.00. (SEE EXHIBIT "D-5")

The Commission authorized public sale of these properties by adoption of the attached resolutions relative thereto, marked EXHIBIT "D-1" through EXHIBIT "D-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Authority was requested by the Right of Way Engineer to sell directly parcels of highway property which are no longer required for highway purposes, as follows

a 1 acre on the Southern Pacific Overcrossing-Lane County Line Section of the Pacific Highway in Linn County, to Mr. John G. Burkhart, for the sum of $350.00

b 0 8 acre on the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill County, to the Green Crest Memorial Park Association for the sum of $200.00.

c. 300 square feet of land consisting of the easterly 6 feet of Lot 2, Block 10, McClures Astoria, to Floyd H. Reith, Jr., for the sum of $200.00, located on the Oregon Coast Highway in Astoria.

d. 16 square feet on the Oregon Coast Highway in Block 50, Chicago Addition to the City of Florence, to Mr. Walter J. and Eleanore C. Brynd, for the sum of $5.00.

The Commission approved the sales as presented.

Conveyance of 0.2 acre of right-of-way to Coos County for the sum of $2,333.33, was recommended by the Right of Way Engineer. This property, he stated, is located at the end of McCullough Bridge over Coos Bay on the Oregon Coast Highway. He recalled that under terms of an agreement entered into with Coos County, the State was to acquire a portion and the County a portion, and the amount involved is the prorata portion of the total cost. The Commission approved the transfer of the property to the County for the amount as recommended.

The Commission considered payment of $1910.00 to the City of Portland, representing the cost to move and reestablish a house that was endangered because of a slide on the highlands interchange section of the Sunset Highway. The Right of Way Engineer explained that the City moved the house and has agreed to transfer to the State whatever additional right of way is necessary to go around the slide area. Upon his favorable recommendation, the Commission approved the payment.

The Commission considered and upon the favorable recommendation of the Right of Way Engineer, granted a 10-foot easement to Pacific Telephone and Telegraph Company on the Grass Valley-Kent project on US97 in Sherman County as replacement for an easement which the telephone company had previously quitclaimed to the State.

Consideration was given to compensating "Silver Spur Ranch" for the value of timber removed from its property on the Chapin Creek Section of the Heppner-Spray Highway in Morrow County. This project, the Right of Way Engineer explained, was performed under the direction of the U.S. Bureau of Public Roads. In acquiring the right-of-way, it was agreed that the "Silver Spur Ranch" would retain the timber on the property acquired from them for right-of-way purposes. It was also agreed that the contractor would stock pile it on the right of way. Due to a misunderstanding, the contractor for the Bureau of Public Roads cut, removed, and sold the timber. He estimated the value of the timber removed at $1,700.00, and recommended that the "Silver Spur Ranch" be paid that amount. The Commission approved the payment.

The meeting recessed at 12:00 noon and reconvened at 1:30 P.M. with the same persons present and participating.

Chairman Reynolds inquired as to progress that has been made in plans for construction of the Portland Airport Road. The Engineer replied that difficulties are being encountered with Union Pacific Railroad Company concerning the undercrossing of their tracks but he thought that bids could be received in May of this year and the project completed by November. Assistant Highway Engineer, P.M. Stephenson, pointed out that the engineering for the project is complete but negotiations are still underway with Union Pacific Railroad Company. The Right of Way Engineer estimated that it would take about six weeks time to acquire the necessary right of way. Commissioner McIver called attention to the detour which would be necessary in crossing the railroad tracks and that the public would resent any longer period than is absolutely necessary. He suggested that this angle be pointed out to the Railroad Company in the hope that an agreement can be reached at an earlier date so that bids could be received in April instead of May. He asked that the project be expedited. The Engineer commented that it will be necessary to take the highway under two existing highways as well as the Union Pacific railroad tracks, and the greater part of the project, which he estimated would cost approximately $1,130,000, is involved in the crossing of these other roadways and the railroad tracks.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following described properties that are needed as right of way in connection with the various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Sunset Highway

R-21835 - Harry Mittleman Contractor, Inc.
Right of Way (Washington County)
3.8 acres
Amended resolution to increase area of taking

R-26961 - Reul O. Wilkins and Nancy M. Wilkins
Right of Way (Washington County)
0.34 acre

R-26962 - James R. Woodmansee and Lorna H. Woodmansee
Right of Way (Washington County)
0.44 acre

R-26963 - Lester J. Wood and Ruth M. Wood
Washington County
Parcel No. 1: 0.17 acre for Right of Way
Parcel No. 2: 0.42 acre for Right of Way

R-26964 - L. T. Graham and Dorothy C. Graham
Right of Way (Washington County)
0.34 acre

R-26965 - Fred C. Shipps, Jr. and Dolores M. Shipps
Right of Way (Washington County)
0.14 acre

R-26966 - J. Richard Eimers and Emma C. Eimers
Right of Way (Washington County)
0.07 acre

R-26967 - Jan E. Bauer and Dorothy J. Bauer
Right of Way (Washington County)
0.09 acre

R-26968 - Hoyt Corporation
Right of Way (Washington County)
1,750 square feet

R-26959 - St. Andrews Lutheran Church
Right of Way (Washington County)
0.23 acre

Tunnel-Namorf Section of the Central Oregon Highway

R-25737 - Philip Coyne
Malheur County
Parcel No. 1: 15.9 acres (net) for Right of Way
Parcel No. 2: 0.65 acre (net) for Right of Way
Parcel No. 3: 0.92 acre (net) for Right of Way
Amended resolution to include right of entry

Portland-Bonneville Section of the Columbia River Highway

L-2903 (R-27162) - Charles L. Abbott, et al.
Right of Way (Multnomah County)
2.45 acres
Amended resolution to increase area of taking

L-2906 (R-27163 - Theodore J. Schulte, et al.
Right of Way (Multnomah County)
0.47 acre
Amended resolution to increase area of taking

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East

R-25487 - James O. Randolph and Wilma Randolph
Right of Way (Linn County)
1.32 acres

R-25671 - Madeline Jo Lynch, et al.
Right of Way (Linn County)
44.35 acres (net)

January 16, 1958

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East (Cont.)

R-25900 - Earl E. Lansing and Iretha H. Lansing
Right of Way (Linn County)
9.64 acres

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-20672 - Marilyn R. Marsh, Barbara Joan Marsh and Murray B. Marsh, Jr.
Right of Way (Multnomah County)
21,100 square feet

R-22898 - Loren Harry Russell and Carolyn Russell
Right of Way (Multnomah County)
4,866 square feet
Amended resolution to provide complete restriction of access

Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway

L-2556 (R-24413) - Charles Judson James, et al.
Right of Way (Washington County)
1.06 acres
Amended resolution to change location of access point

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26618 - John Longeteig and Donald Cantril
Right of Way (Coos County)
0.62 acre

Hilgard-LaGrande Section of the Old Oregon Trail Highway

R-27104 - Heirs at Law of Laura E. Braden
Right of Way (Union County)
1.06 acres

R-27107 - Leo G. Paulson and Loretta Paulson
Right of Way (Union County)
17.4 acres

Pioneer Summit Unit, Toledo-Eddyville Section of the Corvallis-Newport Highway

R-26235 - William Smouse and Ida Smouse
Right of Way (Lincoln County)
4.37 acres

Pioneer Summit Unit, Eddyville Section of the Corvallis-Newport Highway

R-26236 - C. P. Moore
Right of Way (Lincoln County)
9.77 acres (net)

R-26240 - Charles Parker and Ernie Parker
Right of Way (Lincoln County)
8.4 acres

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East)

R-25601 - Louis Grell
Right of Way (Linn County)
15.15 acres

Hilgard-LaGrande Section of the Old Oregon Trail Highway

R-27102 - Rudy G. Krosting and Louisa V. Krosting
Union County
Parcel No. 1: 57.0 acres for Right of Way
Parcel No. 2: 6.5 acres for Right of Way
Parcel No. 3: 0.6 acre for Right of Way

R-27440 - Paul N. Carman and Dennis H. Carman
Union County
Parcel No. 1: 0.08 acre for Right of Way
Parcel No. 2: 0.03 acre for Right of Way

R-27441 - James W. Gray and Sharlene Joyce Gray
Union County
Parcel No. 1: 0.04 acre for Right of Way
Parcel No. 2: 0.01 acre for Right of Way

R-27442 - James S. Walker and Alice H. Walker
Union County
Parcel No. 1: 0.01 acre for Right of Way
Parcel No. 2: 0.01 acre for Right of Way

R-27553 - Oregon-Washington Railroad and Navigation Company
Union County
Parcel No. 1: 0.09 acre for Slope Easement
Parcel No. 2: 0.06 acre for Slope Easement
Parcel No. 3: 0.28 acre for Slope Easement
Parcel No. 4: 0.08 acre for Slope Easement

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-24999 - A. C. Allen, et al.
Right of Way (Multnomah County)
3000 square feet
Amended Resolution to include right of entry

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

R-26333 - Gladys F. Hamel
Yamhill County
Parcel No. 1: 0.27 acre for Right of Way
Parcel No. 2: 0.42 acre for Excess Taking

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action on the Chief Counsel's request was deferred by the Commission pending study of the material submitted.

(Condemnation of the parcels as submitted was authorized on the following day. See minute entry ahead).

The Commission accepted a report submitted by the Chief Counsel concerning condemnation and other cases which were tried in court during the period of December 11, 1957 to January 10, 1958, summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
December 11, 1957 to January 10, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Snyder, et al R-21165	Multnomah	Portland Salem Expressway	Harbor Drive-Barbur Boulevard	$ 2,625	$ 6,500	$ 2,500
Eggers, et al	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 11,700	$ 21,000 (Day of trial)	$ 15,000
Schmalz, et ux R-25415	Clackamas	Mt. Hood	Sandy-Forest Boundary	$ 9,115	$ 12,500	$ 11,700
Martin, R-24183	Multnomah	Columbia River	Sundial Road Rooster Rock	$47,800	$105,000 (During trial)	$ 85,000

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2609	Ringstmeyer	State	Wheeler	Damage-Inverse Condemnation	$ 9,479.90	$ 5,258.00
L-2608	Shown	State	Wheeler	Damage Inverse Condemnation	$ 17,500.00 to 25,000.00	Continued
L-2734	State	Leopard	Linn	Damage by collision to scale house	$ 1,310.00	Verdict for Defendant

(For additional details concerning cases tried, see the Chief Counsel's letters dated December 9, 1957 and January 10, 1958, in General Files.)

The Chief Counsel also orally reported on the case of State of Oregon vs. Phoenix Sand and Gravel Company. He pointed out that the gravel company had sued the State, State had lost but a motion had been granted for a judgment notwithstanding the verdict. The gravel company can appeal if they wish.

Concerning the case involving the Peninsula Drainage District No. 2, he reported that the suit had been won in the Supreme Court by the City of Portland and the State of Oregon.

In the case of State vs. Kate Bailey, which had been won in the Supreme Court, he pointed out that the court had directed that right-of-way appraisers can take into account any special benefit which affects property by virtue of highway construction, wuch as use and value of land, improved outlet to markets, higher and better use of property frontage on a better road, and access where none previously existed. Special benefits, he stated, are to be offset only against damages to the remaining property. The Commission accepted the reports.

The Commission accepted a written report submitted by the Chief Counsel concerning cases which have been settled out of court, summarized as follows:

(Continued on next page)

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
James, et al. R-24413	Washington	Tualatin Valley	Forest Grove-Hillsboro	$ 8,410.00	$ 9,150.00
Brannock, et ux. R-26517	Washington	Tualatin Valley	Forest Grove-Hillsboro	$ 4,600.00	$ 6,000.00
Brenneman, et ux R-26449	Linn	Pacific East	N. Jefferson Jct.-Albany	$ 1,200.00	$ 2,500.00
Wauters, et ux. R-23681	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	$ 9,680.00 (for partial taking 31,750 sq. ft.)	$ 10,800.00 (Entire taking 47,500 sq. ft.)

(For additional details, see the Chief Counsel's letter of January 10, 1958, in the General Files.)

Offers for acquisition of real property, which offers are to be tendered to the property owners prior to the institution of condemnation proceedings, were submitted by the Chief Counsel in compliance with a resolution adopted by the Commission on December 20, 1951. The Commission confirmed the following offers:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway

R-22065 - Harry D. Suding. 7,800 square feet for right of way purposes and 9,350 square feet for right of purposes. Offer of $6,200.00 approved by Mr. McIver January 6, 1958.

R-22775 - James A. Thompson, et al. 21,250 square feet for right of way purposes. Offer of $9,500.00 approved by Mr. McIver January 6, 1958.

R-22891 - E. Earl McCracken. 5,250 square feet for right of way purposes. Offer of $6,125.00 approved by Mr. McIver December 19, 1957.

R-22898 - Loren Harry Russell, et al. 4,866 square feet for right of way purposes. Offer of $1,000.00 approved by Mr. McIver January 9, 1958.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway (Cont.)

R-22899 - George Kolias. 4,250 square feet for right of way purposes. Offer of $900.00 approved by Mr. McIver December 19, 1957.

R-24841 - Lars Haugen, et al. 3,780 square feet for right of way purposes. Offer of $20,650.00 approved by Mr. McIver January 7, 1958.

R-24848 - Lawrence R. Sefton, et ux. 10,200 square feet for right of way purposes. Offer of $7,820.00 approved by Mr. McIver January 7, 1958.

R-24990 - Don B. Card. 83,500 square feet for right of way purposes, 70,070 square feet for right of way purposes and 9,260 square feet for right of way purposes. Offer of $8,375.00 approved by Mr. McIver January 7, 1958.

R-24998 - Janos Istvan Flaschner, et ux. 7,863 square feet for right of way purposes and 1,487 square feet for excess taking. Offer of $4,850.00 approved by Mr. McIver January 9, 1958.

R-24999 - A. C. Allen, et al. 3,000 square feet for right of way purposes. Offer $4,950.00 approved by Mr. McIver January 9, 1958.

R-26725 - T. M. Thorsen, et ux. 7,600 square feet for right of way purposes. Offer of $800.00 approved by Mr. McIver January 6, 1958.

R-26994 - Samuel K. Azar et al. 4,000 square feet for right of way purposes. Offer of $1,200.00 approved by Mr. McIver December 23, 1957.

R-26996 - M. K. Allen, et ux. 187.5 square feet for right of way purposes. Offer of $10,000.00 approved by Mr. McIver January 8, 1958.

R-27037 - Addie H. DeJournette. 6,275 square feet for right of way purposes. Offer of $6,450.00 approved by Mr. McIver January 8, 1958.

R-27046 - Lois B. Hansen. 50 square feet for right of way purposes. Offer of $650.00 approved by Mr. McIver January 9, 1958.

R-27310 - T. M. Thorsen, et al. 7,600 square feet for right of way purposes. Offer of $1,520.00 approved by Mr. McIver January 9, 1958.

R-27344 - Albert C. Carocci, et al. 1,165 square feet for right of way purposes. Offer of $300.00 approved by Mr. McIver January 6, 1958.

R-27345 - Edmond H. Verdurmen, et al. 275 square feet for right of way purposes. Offer of $50.00 approved by Mr. McIver January 6, 1958.

R-27435 - Howard J. DeVeny, et ux, if married. 112 square feet for a storm sewer easement. Offer of $25.00 approved by Mr. McIver January 6, 1958.

Forest Grove-Hillsboro Section of the Tualatin Valley Highway

R-26523 - Dean H. Boyd, et ux. 0.11 acre for right of way purposes. Offer of $8,430.00 approved by Mr. McIver December 9, 1957.

R-26530 - Francetta Rustin, et al. 0.14 acre for right of way purposes. Offer of $1,070.00 approved by Mr. McIver January 6, 1958.

R-26535 - Harley Dames, et al. 0.29 acre for right of way purposes. Offer of $1,200.00 approved by Mr. McIver December 9, 1957.

R-26536 - Walter H. Haney, et ux. 0.65 acre for right of way purposes. Offer of $3,000.00 approved by Mr. McIver December 9, 1957.

R-27031 - Harris Oil Company, an Oregon corporation. 0.08 acre for right of way purposes. Offer of $440.00 approved by Mr. McIver December 9, 1957.

Meyers Creek-Brookings Section of the Oregon Coast Highway

R-26914 - William H. Brady. 19.5 acres for right of way purposes. Offer of $14,250.00 approved by Mr. Chessman January 9, 1958.

R-26915 - Maude Mosier Longacre. 10.0 acres for right of way purposes. Offer of $12,000.00 approved by Mr. Chessman January 9, 1958.

R-26916 - Lloyd D. Mosier, Sr., et ux. 2.2 acres for right of way purposes. 0.03 acre for excess taking and 0.2 acre for an easement. Offer of $1,440.00 approved by Mr. Chessman January 9, 1958.

R-26917 - Verloise Upp, et vir. 2.00 acres for right of way purposes and 0.46 acre for excess taking. Offer of $5,500.00 approved by Mr. Chessman January 9, 1958.

R-26963 - Gunnar Hedberg and Elmer Hedberg. 1.2 acres for right fo way purposes. Offer of $6,500.00 approved by Mr. Chessman January 9, 1958.

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway east)

R-25189 - Juanita Wilkins Crews, et ux. 31.4 acres for right of way purposes, 0.34 acre for right of purposes, 0.31 acre for an easement and 0.81 acre for a temporary easement. Offer of $7,500.00 approved by Mr. McIver December 9, 1957.

R-25486 - Earl W. Kennel, et al. 17.83 acres for right of way purposes. Offer of $12,000.00 approved by Mr. McIver December 23, 1957.

R-25488 - Percy Heyerly, et al. 21.3 acres for right of way purposes and 3.0 acres for right of way purposes. Offer of $24,915.00 approved by Mr. McIver January 8, 1958.

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway east (Cont.)

R-25602 - Pierce Jenks, et ux. 18.32 acres for right of way purposes and 110.7 acres for a material source. Offer of $36,230.00 approved by Mr. McIver December 26, 1957.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26097 - David R. Philpott, et ux. 15.1 acres for right of way purposes and 0.15 acre for a permanent easement. Offer of $1,535.00 approved by Mr. Chessman December 23, 1957.

R-27262 - Alfred E. Maneely, et al. 9.2 acres for right of way purposes and 10.7 acres for roadbuilding materials. Offer of $990.00 approved by Mr. Chessman December 23, 1957.

Main St.-8th St. Couplet Section of the Medford-Provolt Highway

R-27027 - John P. Hartsook, et al. 50 square feet for right of way purposes. Offer of $100.00 approved by Mr. Chessman January 9, 1958.

R-27034 - Myron Root & Company, Inc. 0.25 acre for right of way purposes and 900 square feet for right of way purposes. Offer of $37,500.00 approved by Mr. Chessman January 9, 1958.

Judkins Point-Goshen Section of the Pacific Highway

R-20205 - Byrthae M. Bennett, et al. 7,360 square feet for right of way purposes. Offer of $9,754.00 approved by Mr. McIver December 18, 1957.

Juntura-Vale Section of the Central Oregon Highway

R-25737 - Philip Coyne. 15.9 acres for right of way purposes. 0.65 acre for right of way purposes and 0.92 acre for right of way purposes. Offer of $5,006.00 approved by Mr. Reynolds December 13, 1957.

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-27366 - E. W. Morlan, et ux. 3.6 acres for right of way purposes. Offer of $2,800.00 approved by Mr. McIver January 8, 1958.

A report was submitted by the Chief Counsel concerning a claim against William J. Marti for damages to the Mill Creek Bridge at M.P. 35.23 on the Warm Springs Highway, incurred November 25, 1956. The original amount of the claim, he stated, was $1,199.82 but due to a point of law involved, which he felt the insurance company could successfully use, he

recommended approval of a compromise settlement in the sum of $883.87. The Commission approved the reduced settlement.

Abandonment of two claims against other parties was recommended by the Chief Counsel, as follows:

CAO-56-402, claim against Ralph S. Switzler in the amount of $69.66, for damage to a flashing signal at the Pelton Dam Access Road on the Warm Springs Highway, incurred November 21, 1956. No insurance company can be found against whom recovery might be sought and Mr. Switzler cannot be located. The Commission approved abandonment of the claim.

CAO-57-172, claim against Mrs. Joyce Kachel in the amount of $80.87 for damage to a guardrail on the Pacific Highway, eight miles south of Roseburg, incurred June 28, 1957. Mrs. Kachel was killed in the accident and left no estate or insurance covering property damage. The Commission approved abandonment of the claim.

A list of claims that have been filed against the State as follows were submitted by the Chief Counsel who recommended that they be paid:

CAS-1957, Gene McAdams, in the amount of $52.70, for paint accidentally sprayed on his car on August 22, 1957, on the Columbia River Highway at M.P. 110.

CAS-1957, Paul N. Morris, for accidental damage to his car by reason of its being sprayed with asphalt, in June 1957, in the city of Bend. Damage amounted to $24.00.

CAS-1957, Arnold Reinhart, for damage to his car because of its being sprayed with asphalt in Bend, in June 1957. Damage amounted to $24.00

CAS-1955, Cal-Pacific Utilities Company, for damage to their power line in the city of Union, on October 4, 1955, in removal of a tree alongside the highway. The Chief Counsel explained that removal of the tree was undertaken jointly by the City of Union and the State Highway maintenance crew. The total amount of the claim is $137.14, of which the Highway Commission is being asked to pay one-half, or $68.57.

CAS-1954, C. H. Thayer, for damage to his tractor tire in December 1954, because of right-of-way stakes driven in Mr. Thayer's cattle feed lot. A tire was destroyed which cost $151.74 to replace.

The Commission approved payment of all of the claims as presented.

The filing of complaints against the State by Doris Robinson, Archie Wilson, Ray Travnicek, Ellis Wilson, J. C. Travnicek, and Leonard Ross was reported by the Chief Counsel. These cases, he stated, involve the alleged deficiency of a certain culvert under the Santiam Highway near Little Creek, east of Lebanon The complaints allege that the Highway Commission

was negligent in placing the culvert under the highway it being too small to carry away the normal flow of water. They also claim negligence in raising the grade of the highway which caused the water to overflow onto the plaintiffs property. It was the opinion of the Chief Counsel that the damage was not the result of the State's construction but was caused by building construction performed by a third party. The Commission denied the claim and instructed the Chief Counsel to take the necessary steps to defend the State.

The Chief Counsel presented a quarterly report of property damage claims collected during the period October 1, 1957 through December, 1957. He pointed out that during the entire year 1957 an amount of $40,959.76 had been collected out of an amount claimed of $68,869.66, which compares with $38,072.55 collected in 1956 out of a total amount claimed of $77,944.84. The Commission accepted the report.

Approval of a correction deed conveying to Crown Zellerbach Corporation one inch of land certain and riparian rights above low water of the Willamette River at Oregon City was requested by the Chief Counsel. He advised that because of "hairsplitting" and purely technical objections, the title companies refuse to issue title insurance based upon the November 1, 1957 conveyance. As the Commission had previously approved transfer of the riparian rights, he recommended that the revised deed be approved. The Commission approved the revised deed.

Attention was given by the Commission to a proposed agreement with users of the Offenbacher-O'Brien irrigation ditch on the China Gulch-Copper Road Section of the Medford-Provolt Highway in Jackson County. The Chief Counsel stated that in reconstructing this section of highway it had been necessary to relocate the irrigation ditch within highway right of way between Engineer's Stations 92+50 and 100+00. Certain restrictions were placed in the ditch, such as culverts and flumes, and arrangements were required to maintain the ditch within the right of way. It was finally agreed that the ditch owners would give full release for relocating their ditch, provided the State would pay them $250 for their attorney's fee. The agreement has been signed by the ditch owners and he recommended that it be approved by the Commission. The Commission approved the agreement.

The Chief Counsel requested authority to file an injunction, if necessary, against Wilson Bump for installing two electrical cables, without permit, across the Kings Valley Secondary Highway at M.P. 18.603. He briefly reviewed the case, pointing out that Mr. Bump removed a pipe line which was authorized by permit and when reinstalling the pipe line he added the two electrical cables in the same ditch. Mr. Bump to date has refused to sign a permit although he recently indicated he would do so. Authority to file an injunction was granted by the Commission if he does not meet the requirements.

The Chief Counsel also reported that Woodrow W. Smith has been maintaining a sign on the right of way of the Hood River Secondary Highway, near M.P. 1.10 without authority. When requested to remove the sign, Mr.

Smith refused to do so and, with gun in hand, refused to permit anyone else to remove it. To avoid the possibility of bodily harm, the Chief Counsel recommended that legal action be taken against Mr. Smith so that disposition of his sign could be directed by court order. The Commission approved the recommendation.

Consideration was given by the Commission to a new form of pipe line permit and agreement. The Chief Counsel explained that because of a change in the law pertaining to permits, it has been deemed necessary to draft a new form of pipe line permit, and also a supplemental pipe line permit agreement which is to be used only in those instances where a utility company or other pipe line permittee is financially unable to relocate or remove his pipe line from the right of way. He presented a copy of the proposed permit forms and recommended that Miscellaneous Resolution No. 191 approving the present form, adopted by the Commission on April 26, 1956, be rescinded and that the new forms be approved. The Commission approved the revised pipe line permit and supplemental agreement by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. The Commission also ordered insurance to be furnished by permittee in amounts of $50,000 covering property damage and $100,000 - $200,000 for death or personal injury. A bond is also to be furnished by the permittee to guarantee complete and satisfactory repair and restoration of the highway facility after the installation of the pipe line. Such bond shall be in an amount that is approved by the State Highway Engineer.

The Chief Counsel reported on the case of the State of Oregon vs. Elmer Sohrweid, File 2866. He recommended that Mr. Sohrweid who is a Yamhill County employee be paid the sum of $5,500 for 16.38 acres of land on US99W north of Lafayette to be used as a source for roadbuilding materials. The Commission approved such payment.

Consideration was given to payment of a special street improvement assessment levied by the City of McMinnville against a small parcel of state highway property on the Adams Street-McMinnville Section of the Pacific Highway West. This assessment, the Chief Counsel stated, is in the amount of $168.14 and should be paid, as it is desired to sell the land against which the assessment has been made. The Commission approved payment of the assessment.

In the case of the State vs. Fred P. Rawson, L-2028, the Chief Counsel requested and the Commission authorized dismissal of a suit in equity to enjoin the defendant from trespassing upon and taking cinders from land held under lease from the federal government. He pointed out that this suit does not involve another suit with Mr. Rawson involving damages. The Commission authorized dismissal of the case.

The Commission considered a settlement presented by the Chief Counsel in which the Douglas Community Hospital offers to accept the sum $35,000 as payment in full of their litigation with the State. This amount, the Chief Counsel stated, is entirely too high and he recommended that the

offer be rejected. The Commission accepted his recommendation.

Proposed settlement of three cases involved in the Mitchell flood, as follows, was reported by the Chief Counsel:

	Their December 11 offer (exclusive of interest)	Recommended counter-offer (includes interest)
Gilbert Folston - L-2607	$ 14,814.85	$ 10,626.00
Ezra Blaylock - L-2610	15,138.51	10,664.00
J. B. Payne - L-2604	13,403.50	13,975.00

The Chief Counsel stated that the counter offers are in line with appraisals and he recommended that settlement be made as outlined above. The Commission approved the settlements.

The Chief Counsel also brought up a property settlement with J. Gerald Norman, File L-2690, concerning property on the Barbur Boulevard Section of US99 near the Pancake House in West Portland. The property, he said, was appraised by one person for $750.00 and by another for $4,000.00 and an option was secured in the amount of $2,700.00, which option was later rejected by the Commission. In the meantime, the owners of the property, believing that the option would be approved, sold the balance of their property. In subsequent negotiations, the owners of the property have agreed to accept $1,750.00, and he recommended that this amount be paid. The Commission approved the payment.

The Engineer reported that under authority previously granted him, he has awarded contracts referred to him by the Commission to award when certain conditions had been satisfied. These conditions have been met and the following contracts have been awarded:

(1) Grading and oiling on Wingville Section of Wingville Lane Road, Baker County. Bids received December 5, 1957. Contract awarded December 11, 1957 to Arthur Simonsen & Company, Baker, low bidder.

(2) Grading and oiling Dompier Creek Section of Forest Boundary-Tiller Road, Douglas County. Bids received December 5, 1957. Contract awarded December 11, 1957 to Earl L. McNutt, Eugene, low bidder.

(3) Grading on East Unit, Sundial-Rooster Rock Section of Columbia River Highway, Multnomah County. Bids received October 31, 1957. Contract awarded December 13, 1957 to Stewart W. Groesbeck, Eugene, low bidder.

(4) Grading West Unit, Sundial-Rooster Rock Section of Columbia River Highway, Multnomah County. Bids received October 31, 1957. Contract awarded December 20, 1957 to R. A. Heintz Construction Company, Portland, low bidder.

(5) Grading and oiling Hay Canyon-John Day River Section of Wasco-Heppner Highway, Sherman County. Bids received December 5, 1957. Contract awarded December 23, 1957 to Earl L. McNutt Company, Eugene, low bidder.

(6) Construction of Sundial-Rooster Rock Structures near Troutdale on Columbia River Highway, Multnomah County. Bids received December 5. 1957. Contract awarded December 23, 1957 to Inland Construction Company, Milwaukie, low bidder.

(7) Ashland Traffic Signal installation on Pacific Highway, Jackson County. Bids received December 5, 1957. Contract awarded January 2, 1958 to Steeck Electric Company, Medford, low bidder.

The Commission confirmed the awards as reported.

The Engineer recommended and the Commission confirmed removal as of December 4, 1957, of the 25 miles per hour construction speed zone that has been in effect on the Ross Island Bridge in Portland, since July 19, 1957. He recalled that the speed zone was ordered because of construction operations on the bridge which operations are now complete so the speed zone is no longer required.

The Engineer reported that as previously authorized by the Commission hearings had been held in the City of Grants Pass and in the City of Rogue River, a few miles east of Grants Pass, concerning the proposed relocation of the Pacific Highway which would by-pass the City of Grants Pass and affect the City of Rogue River. The hearing in Grants Pass, he stated, was held at 9:00 a.m. on December 18 in the Rogue Theater and was conducted by Commissioner M. K. McIver. City officials and several Grants Pass businessmen spoke in favor of the proposed relocation, including the proposed interchange at the junction with the Redwood Highway near Grants Pass. The only opposition to the by-pass route and the proposed interchange was voiced by a spokesman for business interests along the existing Pacific Highway east of Grants Pass on a section known as the Miracle Mile. Commissioner McIver pointed out that it was apparent at the meeting that not all of the property owners represented by the objecting spokesman were opposed to the proposed highway rerouting.

On the same day at 1:30 p.m. a hearing was held in the City Hall in the City of Rogue River concerning the proposed relocation of the Pacific Highway as it affects Rogue River. This meeting was also conducted by Commissioner McIver. The Engineer pointed out that only one person at the Rogue River meeting offered objections to the proposed route of the highway and he, at a later date, had advised the Engineer that the proposed relocation is the only route on which the highway could be feasibly located. Commissioner McIver observed that most of the testimony heard at the

Rogue River hearing expressed concern as to property which would be acquired, possible effect of the new highway on the Rogue River during high water and other details which could be determined at a later date.

In view of the apparent preponderance of public opinion in Grants Pass and Rogue River in favor of the proposed highway relocation, the Engineer recommended approval of the proposed route for the Pacific Highway, as planned, which route starts on the existing highway about one-half mile north of Grants Pass, by-passing the city of Grants Pass, and extends easterly and southerly along the northerly side of the Rogue River through the town of Rogue River to a point near Homestead, where it crosses to the south side of the river and continues to a connection with the existing highway at a place known as Rock Point near Gold Hill. He also recommended approval of the relocation survey for this highway revision and for the proposed interchange at the junction of the Redwood Highway and the existing Pacific Highway near Grants Pass. He commented that the proposed relocations have been given very careful engineering study in order to provide the most adequate highway for the minimum amount of funds commensurate with standards required on the Interstate Highway System.

After carefully considering the Engineer's reports on both hearings and the facts presented by him, the Commission upon motion by Commissioner McIver duly seconded by Commissioner Chessman, unanimously approved the route and the surveys as recommended by adopting the attached resolutions relative thereto, marked EXHIBITS "K-1" and "K-2" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

(For details of the hearings in Grants Pass and Rogue River see copy of the Court Reporter's transcript of each and a resume of the hearings as prepared by the Assistant Secretary in the General Files.)

A report was submitted by the Engineer concerning a request from Linn County School District No. 552C for elimination of a grade crossing immediately east of Halsey on the Halsey-Sweet Home Secondary Highway where the highway crosses the main line of the Southern Pacific Railroad at grade. An investigation was made, the Engineer stated, and it was found that the overcrossing would cost approximately $248,000. He further stated that there have been no reported accidents at this crossing since 1945, and since 1949 the crossing has been protected by a standard railroad crossing signal. Of 44 crossings equipped with similar signals, this one, he said, rates priority No. 32. As there are no funds immediately available to finance construction, and for other reasons he recommended that the project be deferred. The Commission accepted his recommendation.

Attention was given to a resolution submitted by the Oregon School Boards Association requesting that grade separations be constructed at all main line railroad crossings on state secondary highways that furnish access to freeways and to high schools and specifically mentioning the grade crossing at Halsey on the Halsey-Sweet Home Secondary. The Engineer advised that of 305 highway fatalities that occurred in 1956, only one was at a grade crossing. Of the 250 grade crossings in the State,

he said, the crossing at Halsey rates 117th in order of hazard. The Commission ordered that the Association be advised that funds are not available to undertake construction of all grade separations at this time, and that the Commission now, as in the past, is eliminating grade crossings as fast as funds are available and in order of hazard priority.

A request from Mr. O. H. Hinsdale, Reedsport, for permission to construct a railroad under the Coos Bay Bridge at Coos Bay was discussed. The Engineer recalled that the State in 1936 acquired by court procedure right of way across the tide flats on the south side of Coos Bay and under the Coos Bay Bridge which property was later sold to Weyerhaueser Timber Company and is now owned by Mr. Hinsdale. The court order gave the defendants the right to construct beneath the bridge a road and/or railroad with stipulations as to location and the amount of fill which may be placed beneath the bridge structure. He recommended that Mr. Hinsdale be allowed to construct a railroad within the limits prescribed by the court order and under terms of a supplemental agreement to be formulated. The Commission accepted his recommendation.

A report was presented by the Engineer concerning a request from the Oregon US Highway 20 Association for improvement of a 2.51 miles section of the Santiam Highway between Lebanon and Sodaville Junction. Improvement of this section to four lanes, he stated, will cost approximately $500,000. The accident rate on this section is well below the national average for this type of highway. It is apparent that at some future date the road will need to be four-laned, however, due to lack of funds, the Engineer recommended that the project be denied now but that it be kept in mind for a future program. His recommendation was accepted by the Commission.

Consideration was given to an exchange of properties at the old Price-Fuller Road near 82nd Avenue and King Road on the Cascade Secondary Highway. The County and the adjoining property owner, the Engineer stated, desire to vacate that portion of the old Price-Fuller Road which is outside of the present right of way. To avoid establishment of a service station or other business which would reestablish the dangerous intersection that previously existed, he recommended an exchange of properties which, he said, is agreeable to the County and the adjoining property owner, and which will prevent any through traffic from entering 82nd Avenue from the Price-Fuller Road. The Commission approved the exchange of properties as recommended.

The Engineer reported that the City of Medford has executed the agreement pertaining to construction of the Pacific Highway on the Hawthorne Park-Bear Creek Route, subject, however, to a supplementary agreement which the city prepared, covering an off ramp at Jackson Boulevard and a connection at the northerly limits of Medford near the Crater Lake Junction. He pointed out that the supplementary agreement provides that the off ramp at Jackson Boulevard is to be constructed or not constructed at the option of the City. The connection near the Crater Lake Junction involves a small extension of the off ramp across the railroad to comply with Bureau of Public Roads requirements. It was his opinion that both of the supplemental items desired by the City are in order and he recommended approval of

both the original and supplemental agreements. The Commission approved the agreements as recommended.

The Engineer presented a report concerning ways and means of allowing 55-foot and 58-foot semitrailer combinations to operate under permit on the Wallowa Lake and Enterprise-Flora Highways. The only remaining condition which presently precludes operation of these vehicles, the Engineer stated, is at the Minam railroad undercrossing on the Wallowa Lake Highway. Because of limited horizontal clearance and limited sight distance the only safe control is installation of fully actuated stop-and-go traffic signals which would allow one-way traffic through the undercrossing. An investigation at this location showed that approximately 50 vehicles in the 55-foot 58-foot pass through the undercrossing weekly. He recommended installation of the signals at an estimated cost of $5,000. The Commission approved the installation.

Consideration was given to a report submitted by the Engineer concerning a protest registered by M. D. VanVanderburgh against construction of a curb on US30 in front of the John Day Cafe in Rufus. The Engineer reviewed the matter pointing out that the residents in Rufus have asked for traffic control measures and an agreement has been reached whereby property owners would build curbs located by the Highway Department, with parking allowed back of the curbs. All of the parties concerned constructed the curbs except the owners of the John Day Cafe who have been advised that if they construct the curbs as the others have done they will be allowed to remove an island installed by State forces in front of the cafe. If they do not construct the curb the Engineer recommended that they not be allowed to remove the island. He also recommended that sight posts be installed at four-foot intervals to outline a portion of the proposed curb to stop dangerous traffic movement. He also recommended that vehicles be prohibited from parking on highway shoulders between curbs in the community of Rufus. The Commission approved his recommendations and thereupon adopted the attached resolution prohibiting the parking of vehicles on the highway shoulders, marked EXHIBIT "I", which resolution by this reference is made part hereof, with like effect as though extended in full herein.

Proposed improvement on the 10th Street route of US30 in the City of Baker was discussed. The Engineer reviewed the matter, outlining that in September, 1953, the City had requested the improvement, and in October, 1953, a delegation had tentatively agreed to cooperate in the amount of $24,000, which is the cost of installing the curbs. He recommended that a project estimated to cost $160,000 be performed, provided the City will cooperate to the extent of $24,000, and that the work be performed as soon as necessary federal-aid funds have been authorized, probably in 1959. The Commission approved the project on such basis.

The Engineer brought up for discussion the matter of cooperating with Multnomah County in construction and repair of roads leading to the Oregon Centennial site in North Portland. He exhibited a map on which was shown in green, a new roadway, and in brown, existing roadways that are to be repaired. The proposed roadways, he stated, will provide one-way

traffic into and out of the Centennial site and will cost about $102,000. He also said that Multnomah County has agreed to pay one-half the cost of the improvement, which should be performed in 1958. He recommended approval of the project on a 50-50 cooperative basis and requested authority to execute a form of agreement with the County and thereafter to conduct necessary surveys and to proceed with construction. The Commission granted authority as requested.

The Commission considered items of unfinished business as shown on the Secretary's summary dated December 6, 1957, as follows:

1. Request of Heppner-Morrow County Chamber of Commerce that a state park be developed on Route 207, approximately 25 miles south of Heppner: This matter had been considered earlier in a report by the Parks Superintendent and was ordered removed from the list of unfinished business.

2. Offer of Mr. A West Johnson, Eugene, to deed 140 acres of land at Hug Point for state park purposes: The Parks Superintendent stated that his report on this matter is not yet ready. The Commission ordered the item retained on the list of unfinished business.

3. Request of School District 552C, Linn County, for construction of a grade-separation structure at the SPRR crossing of the Halsey-Sweet Home Secondary Highway: Action was taken on this matter in connection with a report submitted by the Engineer earlier in the day, and the item was ordered deleted from the list of unfinished business.

4 Proposed Interstate Highway, Ellensburg to Pendleton: The Engineer reported that from what information he has received it appears that the route will cross the Columbia River near Boardman but a bridge will not be constructed for probably ten or fifteen years. In the meantime traffic will probably be routed temporarily over the Columbia River by the Umatilla Bridge. The State of Washington, he continued, to his knowledge has not made official request for designation of the route. He also said that a letter has been sent to Mr. B. D. Tallamy requesting reasons for placing the route on the Interstate System but his reply has not been received to date. The Commission ordered the item deleted from the list of unfinished business. It is to be considered new business if it again arises.

5 Designation as a Group I Highway of the highway between LaGrande and Lewiston: A report was submitted by the Engineer on this matter earlier in the session and the item was ordered deleted from the list of unfinished business.

6. Request for improvement of the Santiam Highway between Lebanon and Sodaville: This subject was covered in an earlier report rendered by the Engineer so the item was ordered deleted from the list of unfinished business

7 Protest of M. D. VanVanderburgh, The Dalles, against construction of a curb on US30 in front of the John Day Cafe in Rufus: This item was

ordered deleted from the list of unfinished business inasmuch as a report on the subject was rendered by the Engineer earlier in the session.

8. Request of Mid-Willamette Valley Planning Council of Salem that 1.4 acres of state owned land on the Salem By-pass Section of US99 be deeded to Marion County for park purposes: The Engineer stated that he received a letter from Marion County on the preceding day, stating that the County does not wish to acquire the property. He recommended that the property, which is not needed for highway use, be sold at public sale for not less than $3,861 which is the cost to the state. The Commission authorized the sale and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "D-6", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Attention was given to a request from Sister M. Marcia Ann, Principal of St. Ignatius School, 4320 S. E. Franklin Street, Portland 6, for traffic signals at the intersection of S. E. Powell Boulevard and S. E. 43rd Avenue in Portland. This request, the Engineer stated, was investigated jointly by Traffic Engineers of the State Highway Department and the City of Portland, and it was found that traffic and pedestrian conditions warrant the installation of a semi-actuated traffic signal which is estimated to cost $4,000. He recommended that the signal be installed, with the cost of installation to be shared equally by the State and the City, and the City to provide all maintenance and power for operation of the signal. The Commission approved the installation.

Authority was requested by the Engineer to spend $48,000 of federal-aid interstate funds for illumination of the Union, Denver and Swift Avenue interchange, south of the Interstate Bridge in Portland. He pointed out that illumination will be installed as a part of the Interstate Bridge project and it would not be desirable to have an illuminated section for several miles north of the interchange and then require traffic to negotiate the Union, Denver and Swift Avenue interchange without adequate illumination. The Commission approved the illumination project as outlined.

A request from W. W. Southwell, Klamath Falls, for installation of a traffic signal at the intersection of South 6th Street, ORE66, and Summers Lane, just east of Klamath Falls, was discussed. The Engineer advised that an investigation disclosed that approximately 100 children cross the highway at this point twice daily and the facts assembled disclosed further that installation of a traffic signal at this point is not justified. He recommended that the request be denied and in lieu thereof that an overhead school crossing sign with flashing yellow indication be installed at an estimated cost of $800, to be operated during hours when children are going to and from school provided that the local authorities will arrange for manual operation of the flasher unit by some one from the school. The Commission approved his recommendation.

The Commission gave attention to a request from Ernest F. Huber, Superintendent, Whitaker School District No. 17, 5135 N. E. Columbia Boulevard, Portland 13, for installation of a crosswalk flasher at the intersection of N. E. Portland Highway and N. E. 52nd Avenue, Portland. The Engineer reported that a traffic investigation which was conducted

disclosed that the installation of the flasher is not warranted. He pointed out that a reduced speed zone had been established in this section on October 11, 1951, but at the time of establishment, the school crossing exception of 20 miles per hour was not included. He recommended that the speed zone adopted October 11, 1951, be revised to include an indicated speed of 20 miles per hour during the hours of school crossings between M.P. 2.50 and M.P. 2.67. The Commission approved his recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "H-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from Robert Clute, City Manager of Oregon City, for a study of traffic hazards at the intersection of Washington Street, ORE213, and 12th Street in Oregon City. The Engineer reported that a traffic investigation which was conducted disclosed that this is a four-lane intersection on a grade, approximately halfway up the Washington Street hill. The intersection is in a 25 mile per hour speed zone and vehicles entering the intersection from 12th Street are required to stop. Traffic volumes are far below the minimum warrants for installation of traffic signals but because of the accident record and traffic on 12th Street he recommended that a flashing beacon be installed at an estimated cost of $600, to be paid by the State, with the City to maintain the beacon and pay for power consumption. The Commission approved the installation on such basis.

Increases in project authorizations were requested by the Engineer and approved by the Commission as follows:

1. $72,000 in connection with Contract No. 4998 for the S. W. 14th Avenue-Washington County Line project on the R. H. Baldock Freeway, because of unstable soil conditions and revisions of city water lines.

2. $16,800 in connection with Contract No. 4835 construction of the Adams Street one-way couplet project in McMinnville, for repair of county road over which surfacing materials were hauled, and additional cost to adjust public utilities.

The Commission discussed a letter from the City of Delake advising that the City does not have funds available to finance construction of curbs and to provide drain off in connection with the improvements of the Oregon Coast Highway southerly from "D" River in Delake as required by the state and requesting that the work be done at the sole cost of the state. The Engineer recalled that at a meeting on September 13, 1957, the Commission agreed to widen the highway if the City of Delake would construct curbs and provide proper drainage which is estimated to cost $2,450. He recommended as a matter of established policy, that the Commission reaffirm its previous position that if the City will install curbs and drainage the State will take care of the surfacing and paving. The Commission approved the recommendation and ordered that the City be so informed.

The Commission considered requests from South Tillamook Coast Road Committee, and others, for improvement of a 1.8 mile section of the

Little Nestucca Secondary Highway, extending easterly from US101 in Tillamook County. The Engineer stated that an investigation disclosed that application of an oil mat will cost between $33,000 and $37,000, and that such improvement would be only 18 feet wide, without shoulders, and would not be acceptable to the Bureau of Public Roads for federal participation. A 20-foot oil surface with four-foot gravel shoulders, he said, would cost approximately $100,000. The traffic on the road is quite light, he continued, and while it would be desirable to make the improvement funds are not now available to finance it. It was his recommendation that the interested parties be informed that the project will be considered at some future time when funds are available. The recommendation was accepted by the Commission.

Consideration was given to a request from the Oregon Coast Ad Club, Oceanlake, for construction of a climbing lane on US101 between Nelscott and Taft. The Engineer advised that the section involved consists of a half mile for southbound traffic, located south from Nelscott, and a half mile section northerly from Taft for northbound traffic. He estimated the cost of the project at $104,000 and recommended that the request be denied for the present because there are no funds presently available to finance the work. The Commission approved the recommendation.

The Engineer presented a map showing proposed realignment of the Richardson-Eugene Secondary Highway easterly from Richardson. The survey, he stated, has been completed on this unit and money for construction has been programmed from 1960 federal-aid allotments. Careful engineering attention, he stated, has been given to the proposed relocation to provide the best highway location commensurate with the cost. He recommended that the survey be approved. The Commission approved the survey by adopting the attached resolution relative thereto, marked EXHIBIT "K-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer brought up for discussion the matter of reconstructing the Trail and Elk Creek Bridges and a short section of road adjacent thereto on the Crater Lake Highway in Jackson County. He recalled that construction of this project was previously authorized and an amount of $550,000 was budgeted in the two year program but the project was deferred because of the proposed construction of Lewis Creek Dam, which would affect alignment of the highway in that vicinity. A reconnaissance investigation has been made and it now appears possible to construct the Trail Creek bridge and highway revision independent of any changes that might be made as a result of construction of the Lewis Creek Dam. He recommended in view thereof that construction be undertaken now on the Trail Creek Bridge and the portion of adjacent roadway unaffected by future dam construction at an estimated cost of $300,000 but that work be deferred on the Elk Creek Bridge pending clarification of the plans for the dam by the Bureau of Reclamation. He also requested permission to hold a public hearing in Trail regarding the project. The Commission approved the recommendation of the Engineer and authorized the hearing.

Attention was given to a letter from the Honorable Charles O. Porter, U.S. Congressman, concerning placing of a new highway on the

forest highway system between Selma and Gold Beach. The Engineer pointed out that under the present allocations for improvement of forest highway roads it would take approximately 20 years to improve existing forest highways; also, the State has been requested to improve Highway 42 and to construct a new highway between Brookings and O'Brien. He recommended that no action be taken to place the proposed highway on the forest highway system nor that any survey be made of the proposed route. After some discussion, Chairman Reynolds instructed that Congressman Porter be advised that the Commission cannot comply with his request for financial reasons and because of the urgency of completing improvements on existing highways.

The Commission discussed a petition from the Brookings Chamber of Commerce requesting that the State place on the State Highway System a highway route extending from Brookings to a connection with US199 in the vicinity of O'Brien. The Engineer pointed out that there have been numerous requests to construct routes from the coast to US99 and he mentioned a new road from Coos Bay to Roseburg, improvement of the Coos Bay-Roseburg Highway and the request of Congressman Porter for a road from Selma to Gold Beach. He recommended that the request be denied and that no survey be made as construction cannot be undertaken in the foreseeable future. The Commission accepted his recommendation.

A request was considered from Umatilla County Judge D. R. Cook that the State perform snowploughing and sanding operations on the section of the former Stanfield-Pendleton Highway between Stanfield Junction and the City of Echo. The Engineer stated that on December 5, 1957, the Stanfield-Pendleton Highway was returned to Umatilla County as a County road except a 0.17 mile section in the City of Echo. He further stated that maintenance crews frequently pass over the section in traveling to and from their operations on the Lexington-Echo Highway so it would not be out of their way to perform the work requested by Judge Cook. Upon his favorable recommendation, the Commission approved the request with the understanding that the County is to reimburse the State for the cost of the work which is estimated at $500 annually.

The Engineer reported that funds have been made available to the cities and towns of Oregon from their proportionate share of gas tax monies received during the last half of 1957. The allotments to the cities and towns, he stated, have been determined according to law and he recommended that the funds be allocated. The Commission approved the allocation by adopting the attached resolution relative thereto, marked "EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission upon the recommendation of the Engineer took action as noted on the following requests of contractors for extensions of time within which to complete State Highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. A. H. Saxton and Son, Contract No. 4807, for grading and paving the East Unit, Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County, requested an extension of time of 8 workdays from 109 to 117. Approved as requested.

2. Cartwright Construction Company, Contract No. 4996, for grading and surfacing S. W. 2nd Avenue-S. City Limits Section of the John Day-Burns Highway in the City of John Day, Grant County, requested an increase of 5 workdays, from 60 to 65 days. The request was denied. The contract is not yet complete.

3. Birkemeier Construction Company, Contract No. 4735, for structures, grading and surfacing on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from June 30 to November 27, 1957. Approved as requested. A letter from the Bureau of Public Roads concurring therein was presented.

4. Roy L. Houck & Sons, Contract No. 4575, for grading and oiling on the East Unit, McMinnville Airport-Dayton Junction Section of Three Mile Lane Highway in Yamhill County, requested an extension of time from September 30, 1956 to December 4, 1957. Approved as requested.

5. Tom Lillebo, Contract No. 4615, for construction of South 6th Street Overcrossing of Klamath Falls-Lakeview Highway in Klamath Falls, Klamath County, requested an extension of time from August 31 to October 30, 1957. Approved as requested. A letter from the Bureau of Public Roads concurring therein was presented.

The Engineer reported that Contract Nos. 4615, 4622, 4735, 4807, 4826, 4829, 4885, 4901, 4930, 4937, 4940, 4972, 4980, 4993, 5007, 5011, 5012, 5028, 5033, and 5061 for highway construction have been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Requests from Gilliam, Linn and Washington Counties were considered for additions to the Federal Aid County Road Secondary System, totaling 36.4 miles. These proposed additions, the Engineer stated, have been examined and it has been determined that they meet the requirements for the FAS system. It was his recommendation that the following additions be approved:

FAS 716, 8 miles; FAS 717, 8.6 miles; Gilliam County. Proposed FAS 716 extends from the John Day Highway south of Arlington easterly to a county road junction. Proposed 717 extends from a junction with proposed FAS 716 near Eightmile Canyon southerly and easterly to a county

road junction.

FAS 770, 15.2 miles, Linn County. From a junction with FAS 576 south of Albany southerly to FAS 569, northwest of Brownsville.

FAS 837, 4.6 miles, Washington County. From a junction with FAS 624 southeasterly to a junction with the Tualatin Valley Highway. The Commission approved the additions.

The Engineer presented proposals from Benton, Gilliam, Linn, Washington, and Harney Counties for FAS projects on county roads. These proposals, he said, meet the requirements for County FAS projects and he recommended that they be approved as follows:

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fund
Benton	206	Alsea Junction-Beaver Creek School Section, 4.63 miles. S. & O.	$ 51,000	'59
Gilliam	441	Lonerock Creek Bridge, Structure only		
	716	Eightmile Canyon Bridge, Structure only	$ 50,000	'59
	717	Eightmile Canyon Bridge, Structure only		
Harney	450	N. Unit, Burns-Wright Point Section (State Highway). NOTE: This is a state highway project for which Harney County has agreed to release $80,000 of Federal funds. As Federal funds represent 60% of county's total fund allocation, available total funds are being reduced by $133,000.	$ 133,000	'59
Linn	214	Bates Park (South Fork Santiam River Bridge, Structure only.	$ 100,000	'59
	770	Albany Canal-Lebanon Junction Section, 4 miles. Paving.	85,000	'59
		Subtotal, Linn County.....	$ 185,000	
Washington	581	Fanno Creek Bridge, Structure only.	$ 10,000	'59
	631	Tualatin River Overflow Bridge Section. G. S. O. & Bridge	50,000	'59
	837	Gales Creek Bridge, Structure only.	60,000	'59
		Subtotal, Washington County	$ 120,000	
		TOTAL ADDITIONAL 1959 FUNDS.....	$539,000	

SUMMARY, FISCAL YEARS 1958 & 1959 FUNDS*

January 16, 1958

Available Funds*	$ 8,033,000
Previously Approved**	6,270,000
Unprogrammed Balance**	$ 1,763,000
Proposed Projects 1/2/58	539,000
Unprogrammed Balance	$ 1,224,000

* Includes additional fiscal year 1957 funds provided in Federal-aid Highway Act of 1956 and $33,000 (Washington County) carry-over from regular fiscal year 1957 funds.
** These are revised total from "Status, 1958 & 1959 County FAS Funds" tabulation dated 1/2/58.

The Commission approved the projects as recommended.

Based on investigations made by the Traffic Engineering Department the Engineer recommended the establishment of reduced speed zones and the rescinding of some existing speed zones in order to correlate with speed zones established within cities by the State Speed Control Board and to meet changing conditions in rural area as follows:

1. 50 miles per hour speed zone on the Pacific Highway between a point 400 feet north of Mace Road, M.P. 306.27, and the north city limits of Medford, M.P. 306.95. Speed Zone Resolution No. 73, adopted October 11, 1951, is to be rescinded. See EXHIBIT "H-2".

2. 40 miles per hour speed zone on The Dalles-California Highway in the community of Lapine between a point 0.16 mile south of First Street, M.P. 167.70, and Ninth Street, M.P. 168.41, except that between 0.04 mile north of Fourth Street and a point 0.04 mile south of Main Street, the indicated speed shall be 20 miles per hour during the hours of school crossings. Speed Zone Resolution No. 132, adopted January 21, 1954, is to be rescinded. See EXHIBIT "H-3".

3. 40 miles per hour speed zone on the north frontage road to the Columbia River Highway between its westerly terminus at the Columbia River Highway and the west city limits of The Dalles. Speed Zone Resolution No. 206, adopted August 11, 1955, is to be rescinded. See EXHIBIT "H-4".

4. Speed Zone Resolution No. 189 on the Mt. Hood Highway is to be amended by deleting the following:

> "Except between a point 300 feet west of S. E. 14th Avenue (M.P. 8.42) and a point 0.12 mile east of S. E. 145th Avenue (M.P. 8.63) the indicated speed shall be 20 miles per hour during the hours of school crossings,"

and insert

> "Except that between S.E. 145th Avenue (M.P. 8.30 and S. E. 148th Avenue (M.P. 8.46) the indicated speed shall be 20 miles per hour during the hours of school crossings."

See EXHIBIT "H-5".

5. 25 miles per hour speed zone on the westbound portion of the T. H. Banfield Freeway and a temporary ramp connection to N.E. 3rd Avenue between Engineer's Stations 16+50 and 30+00. See EXHIBIT "H-6". The Commission approved the reduced speed zones as recommended, by adopting the attached resolutions relative thereto, marked EXHIBIT "H-2", through EXHIBIT "H-6", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Upon the favorable recommendation of the Engineer, the Commission authorized out of State travel expenses for the following Highway personnel: G. W. Harra, Materials Engineer, to attend meeting of American Society for Testing Materials in St. Louis, Missouri, February 9 to 15, 1958, at an estimated cost of $330.00. L. E. George, Traffic Operations Engineer, to attend Street Lighting Institute at Hendersonville, North Carolina, conducted by General Electric Company, February 5 to 7, 1958, at an estimated cost of $389.50.

Authority was requested by the Engineer to set a date for a public hearing in the City of Corvallis concerning the proposed change in location of the Corvallis-Newport Highway within the City. The City Manager of Corvallis, he said, advises that requests for a hearing have been received. The Commission authorized the hearing and set Thursday, February 13, 1958, as the date for such hearing.

The Engineer also requested and the Commission granted authority to hold a hearing in the town of Aumsville concerning proposed relocation of the North Santiam Highway which will by-pass the town. The letter received from the City Recorder, he stated, does not indicate any opposition but people are concerned about access to the highway. (The date for this hearing was later set by the Engineer for Tuesday February 11, 1958.)

The Secretary reported for the record receipt of a letter from the City of Seaside stating that a public hearing on the matter of rerouting US101 through this city is not required.

The Engineer requested authority to install steam radiators in the coffee shop and the law library in the basement of the Highway Building in Salem. He explained that during the cold weather of the last few weeks, it has been evident that additional heating is necessary. The Commission approved the installation, which the Engineer estimated would cost $1200.

A request was considered from Douglas County that the State turn over to the county the old Fords Bridge over the South Umpqua River on

the old Pacific Highway. The Engineer reported that the new section of highway has been completed and that the bridge no longer is needed for highway traffic; also, that because of the narrow roadway width of the bridge, it is not practical to use it on any state highway. Cost of dismantling the bridge, in his opinion, would be more than could be secured in salvage sale. He therefore recommended that the bridge be turned over to Douglas County provided that the County will remove the bridge and clean up the site. The recommendation was approved by the Commission.

The Commission discussed briefly with the Engineer a letter from C. W. Enfield, General Counsel for the U.S. Bureau of Public Roads concerning toll charges on the Interstate bridges between Portland and Vancouver, Washington. Mr. Enfield's letter pointed out that before reimbursement can be made for cost of construction of the bridges the matter must be presented to Congress as required by law. The letter was ordered filed in the department records.

The Commission discussed the reappointment of Mr. C. H. Maison as Chief Auditor such matter having been overlooked when Mr. Maison's previous appointment expired on July 22, 1957. After due consideration the Commission reappointed Mr. Maison to this position for a four-year term beginning July 22, 1957. The attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer reported that a billing in the amount of $474.10 has been submitted by The Pacific Telephone and Telegraph Company representing the cost to repair telephone cables in conduit that were ruptured by a State Highway sign crew on August 5, 1957, while digging a hole for a steel post on Commercial Street near Seventh Street in Klamath Falls. Although it was known that the cable was located in the vicinity, there was no map in existence to indicate its exact location and as a result the accident occurred. Following his favorable recommendation, the Commission approved payment of the claim.

Attention was given to a letter from Marshall N. Dana as Chairman of the Recreational and Natural Resources Committee of the Portland Chamber of Commerce in which he urges relocation of the route of the Oregon Coast Highway across the property of Mr. W. N. Brady north of Brookings where it will least affect Mr. Brady's holdings. The Engineer advised that to construct the alternate route suggested by Mr. Dana and which apparently Mr. Brady prefers, will cost approximately $200,000 more than the adopted route, the contract for which will soon be awarded as a result of bids already received on December 5, 1957. He recommended that Mr. Dana's request be denied as being in the best interests of the motorists of Oregon who pay for highway improvements in this state. The Parks Superintendent stated that the Assistant Parks Superintendent who investigated the matter from the park standpoint is of the opinion that from the standpoint of public interest, the plans as they now exist are satisfactory. The Engineer's recommendation was accepted by the Commission. The Engineer was instructed to advise Mr. Dana the reasons for the Commission's action.

Abandonment of two old sections of state highways was recommended by the Engineer, who reported that in each instance construction of the new section has been completed and opened to public travel. The sections are to be abandoned in conformity with agreements previously executed with Umatilla and Crook Counties which are concerned. The Commission approved abandonment of both the highway sections, which are described as follows, by adoption of the attached resolutions relative thereto, Marked EXHIBIT "G-1" and EXHIBIT "G-2", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein:

1. Hinkle-Bucks Corner Section of the Hermiston Secondary Highway in Umatilla County.

2. East Unit. Camp Creek-Paulina Section of the Paulina Secondary Highway in Crook County.

Termination of Pole Permit No. 1753 by mutual consent with Pacific Telephone & Telegraph Company was discussed. The Engineer explained that this permit was issued March 21, 1950, to cover maintenance of the Company facilities on the Columbia River Bridge between Portland and Vancouver, which facilities were removed several years ago. He pointed out that the termination agreement has been signed by the State of Washington which is involved and he recommended that the agreement also be signed by the Commission to clear the records. The Commission approved termination of the permit.

A request from the City of Athena for vacation of a portion of Jefferson Street lying between First and Second Streets, in Athena, was presented by the Engineer who explained that the City wants to build a municipal garage on the property. The Engineer also reported that this portion of Jefferson Street has not been developed and that vacation of the street will not affect the use of the State's adjoining maintenance material storage site. According to law the vacated portion would revert to owners of abutting property. In this case, Mr. Charles Simpson, who owns property to the north, has agreed to quitclaim his portion of the street to the City. The Engineer recommended that the State deed its portion to the City. The recommendation was approved by the Commission.

The Commission considered a claim submitted by West Slope Water District for the cost to rearrange its facilities on the Sylvan Section of the Sunset Highway. The Engineer advised that in acquiring right of way for the Sylvan Section and for the State Highway maintenance headquarters at Sylvan it was necessary to rearrange facilities of the West Slope Water District, including the moving of its large storage tank and it was agreed that the Water District would be reimbursed for the actual cost of the necessary changes, including a new reservoir. Several months ago the District submitted a bill for $42,747.88. A careful review, including field investigations, determined that the proper amount of reimbursement should be $32,642.82, which amount the Water District has now agreed to accept. However, they have not given the state a complete release of responsibility but have excepted the most easterly 1400-foot section of their pipe line. The Engineer recommended that the Water District be paid the sum of

$32,642.82, provided they will give the State a complete release. Action was deferred pending contact with the Water District.

(On the following day the matter was again discussed. Release had not been obtained from the Water District and the Commission approved the Engineer's recommendation to pay them $32,642.82 if and when the District furnishes a complete release.)

The Commission approved the Secretary's report concerning papers that were signed by him on behalf of the Commission during the period of December 2, 1957 through January 10, 1958.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on Thursday and Friday, February 27 and 28, 1958, in the Queens Room of the Imperial Hotel in Portland. The Commission also authorized the opening of bids in the Highway Commission Office in Salem on February 6, 1958. The next following regular meeting date was set tentatively for April 10 and 11 in the Imperial Hotel in Portland, and an intermediate bid opening date in the Highway Commission Office in Salem was authorized on March 20. In connection with the bid opening date of March 20, the Engineer remarked that it is contemplated to open bids on that date for remodeling the present bridge across the Columbia River between Portland and Vancouver because the new bridge now under construction probably will be opened in July. If a satisfactory proposal is received for remodeling the old structure it will then be necessary to advertise the sale of bridge bonds to finance it.

The Commission gave attention to a proposed program of awarding service pins to career employees of the State Highway Department. The Engineer explained that under the proposed plan, awards of sterling silver pins will be made to employees who have completed ten years service and it is planned to give the same kind of pin to employees with fifteen years service. Employees with twenty and twenty-five years of service would receive 10 carat gold-filled lapel pins. Employees with thirty or more years of service at five-year intervals would receive 10 carat solid gold pins. He estimated the cost of installing the program at $1,800 and an annual cost of $430 to maintain it. The Personnel Director stated that many large corporations and governmental agencies use a similar system as an aid to good morale among employees, mentioning the New Mexico Highway Department which has an excellent program. Commissioner McIver stated that he felt that the idea is a good one and he moved that the program be put into effect. Commissioner Chessman seconded the motion and it was declared unanimous by Chairman Reynolds.

The Commission considered and upon favorable recommendation of the Engineer approved an agreement with Southern Pacific Company concerning a grade crossing of Southern Pacific Company tracks on the 8th Street portion of the one-way couplet of the Medford-Provolt Highway in the city of Medford.

Attention was given to a claim submitted by Mrs. Joseph A. Wilson, Payette, Idaho, in the amount of $40.00 for damage to her automobile

resulting from an accident on the Snake River Bridge at Ontario. The Engineer reported that a bridge maintenance crew in repairing concrete curbs, left some curb forms in place overnight which protruded about 5 inches into the traveled roadway. Mrs. Wilson's car struck these forms while she was crossing the bridge. The bridge is very narrow and the impaired clearance along the curbs should have been outlined with Scotch-lite tape or other means. Payment of the claim in the amount of $40.00 was recommended by the Engineer and approved by the Commission

The Commission discussed with the Engineer problems to be presented by delegations scheduled to appear before the Commission on the following day. Action thereon was deferred pending appearance of the delegations.

Construction of the proposed East Bank freeway route for the Pacific Highway through the City of Portland was brought up by the Engineer. He advised that the City of Portland, the U. S. Bureau of Public Roads, and the State are very near in accord on matters pertaining to the proposed route, and he expressed the hope that at the next Commission meeting arrangements could be made to schedule the necessary hearing so that right-of-way acquisition could be started next year. He outlined briefly costs on two alternate routes, one referred to as the high level line and the other as the low level line near the Willamette River. The low level line, he said, appears to be the most feasible route and is estimated to cost $27,117,000 for construction and right of way between the north end of Marquam Gulch Bridge and Oregon Street. The high level line between the same two points is estimated to cost $29,498,000 for construction and right of way. The total cost of the freeway project on the east side through the City of Portland he estimated would cost $83,000,000. In response to an inquiry by Chairman Reynolds he stated that he felt the east bank route could be constructed in about five years and that construction of the Stadium and Laurelhurst routes on the west side would follow. The Commission took no action at this time.

Chairman Reynolds inquired as to when the T. H. Banfield Expressway is to be opened to public travel. The Engineer replied that the section from Troutdale to Union Avenue, three blocks east of the Burnside Bridge, is scheduled to be opened at 10:00 a.m. on Friday, January 24, 1958, and that Portland civic organizations are preparing plans to dedicate the highway on that day.

The Commission discussed with the Engineer bids received at the morning session for highway construction and at 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED AT THE MORNING SESSION, JANUARY 16, 1958

Install traffic signals at "A" Avenue on Oswego Highway in Clackamas County. The Commission awarded the contract to the low bidder, Rochat Electric Company, Portland, at $7,326.64.

"Construct additional park facilities in Sunset Bay State Park on Cape Arago Secondary Highway in Coos County. The Commission awarded the contract to the low bidder, Baughman & Son, Coos Bay, at $42,160.58.

"Coquille Rock Production Project on the Oregon Coast and Coos Bay-Roseburg Highways in Coos County. The Commission awarded the contract to the low bidder, Woodward & Son & Barklow, Coquille, at $30,876.00.

"Burns-Princeton Rock Production Project on the Burns-Crane and Crane-Scotts Butte Highways in Harney County. The Commission awarded the contract to the low bidder, Hebener & Jenkins, Burns, at $34,600.00.

"Add new traffic signals at 9 intersections on Sixth and Seventh Streets and revise signals at 8 intersections on Sixth Street in Grants Pass in Josephine County. The Commission awarded the contract to the low bidder, Electric Corporation, Salem, at $38,890.00.

"Dairy-Bly Rock Production Project on the Klamath Falls-Lakeview Highway in Klamath County. The Commission awarded the contract to the low bidder, The Central Heating Company, Oregon Limited, Eugene, at $28,000.00.

"Oiling and rock production on the Rosa Creek-Adel Section of the Warner Highway in Lake County. The Commission awarded the contract to the low bidder, The Central Heating Company, Oregon Limited, Eugene, at $56,707.50.

"Grading and paving Third Street South, South City Limits (Lakeview) Section of the Fremont Highway in Lake County. The Commission elects to accept the low bid of Russell Olson Construction Company, Pendleton, in the sum of $53,010.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Lakeview is received and the sum of $14,950.00 is deposited by the City and the approval of the Bureau of Public Roads is received.

"Rock Production on the Hunter Hill-Clover Flat Road Section of the Fremont Highway in Lake County. The Commission awarded the contract to the low bidder, Roseburg Sand & Gravel Company, Roseburg, at $23,800.00.

"Rainrock-Blachly Rock Production Project on the Siuslaw Highway in Lane County. The Commission awarded the contract to the low bidder, Roseburg Sand & Gravel Company, Roseburg, at $46,511.00.

"Grading on the Pioneer Mountain Section of the Corvallis-Newport Highway in Lincoln County. The Commission elects to accept the low bid of Earl L. McNutt Company, Eugene, in the sum of $540,280.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading of additional park area and construction of additional park facilities at Beverly Beach State Park on the Oregon Coast Highway in Lincoln

County. The Commission awarded the contract to the low bidder, Zuber Brothers Contractors, Portland, at $67,761.30.

"Construct steel girder bridge with reinforced concrete approaches over Sandy River on Columbia River Highway near Troutdale in Multnomah County. The Commission awarded the contract to the low bidder, Pacific Concrete Company and Otis P. Jordan, Jr., Portland, at $293,337.30.

"Construct South Yamhill River Bridge and Wallace Bridge Overcrossing Structures on Salmon River Highway in Polk County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Inc., Eugene under Alternate B for $290,247.00.

"Grading and paving and construction of reinforced concrete bridge on the Perry-Oro Dell Section of the Old Oregon Trail Highway in Union County. The Commission elects to accept the low bid of Durbin Brothers, Eugene, in the sum of $1,117,802.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving and construction of prestressed beam concrete structure on the Murray Road Interchange Section of the Sunset Highway in Washington County. The Commission elects to accept the low bid of Porter W. Yett, Portland, in the sum of $267,835.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

Commissioner Chessman stated that he has received an inquiry from officials of the City of Cannon Beach regarding the possibilities of securing access to the Oregon Coast Highway (Roosevelt Avenue route) to accommodate the city sewage disposal plant located between the by-pass and the old highway. The City, he explained, would like to have access to the new highway route about three times weekly and has agreed to install a gate to prevent unauthorized use. The Engineer stated that on this particular section it would be necessary for the Commission to give a "Grant of Access" if the request is allowed. He also said that he would have the County and City Relations Engineer investigate the matter and would report the finding to the Commission. The Commission asked the Engineer to render his report at the next Commission meeting.

The Commission signed the following agreements and other papers:

1. "Indentures of Access" on the following properties:

   a. Fahy, et al., property on Davis Slough-Bandon Section of Oregon Coast Highway, Coos County.

b. Olsen property on Forest Boundary-Hauser Section of Oregon Coast Highway, Coos County.

c. LeCrone property on Hillsboro-Forest Grove Section of Tualatin Valley Highway, Washington County.

"Bargain and Sale Deed" conveying one acre of S. P. Overcrossing-Lane County Line Section of Pacific Highway, Linn County, to John G. Burkhart.

"Bargain and Sale Deed" conveying to Coos County 0.2 acre of right of way on Glasgow County Road Section of Oregon Coast Highway for consideration of $2,333.33. Under terms of agreement it is County's obligation to pay for this right of way.

"Right of Way Easement" granting to Pacific Telephone and Telegraph Company a 10 foot easement on Grass Valley-Kent Reconstruction Project, Sherman County, as a replacement for their easement which they quitclaimed to the State on December 4, 1957.

"Agreement" with users of Offenbacher-O'Brien irrigation ditch on China Gulch-Copper Road Section of Medford-Provolt Highway. (Stations 92+50 to 100+00.)

"Agreement" with City of Medford covering construction of US99 Freeway on the Hawthorne Park-Bear Creek Route. Supplemental "Agreement" pertaining to the off ramp at Jackson Boulevard and a connection at the northerly limits of Medford near Crater Lake Junction.

"Termination of Permit No. 1753" terminating by mutual consent Pole Permit No. 1753, issued to Pacific Telephone and Telegraph Company on March 21, 1950, to cover maintenance of the Company facilities on the Columbia River Bridge between Portland and Vancouver.

"Agreement" with the Southern Pacific Company covering grade crossing of the railroad tracks on the Elm Street-Front Street Project on Medford-Provolt Highway in Medford.

"Agreement" with Lincoln County covering the transfer of the old Oregon Coast Highway from Lincoln County to the state in the vicinity of Beverly Beach Park. (Authorized October 31, 1957)

"Agreement" with Multnomah County to relocate and construct the Harbor-Drive-Washington County Line Section of the Pacific Highway, Oregon Highway No. 1, as a throughway.

"Agreement" with the city of Grants Pass covering the proposed installation of signals on the one-way couplet in Grants Pass. (Authorized January 16, 1958)

"Agreement" with the city of Lakeview relocating a portion of the Fremont Highway, Oregon Primary Highway No. 19, located within the city limits of Lakeview. (Authorized October 31, 1957)

"Agreement" with Union County to construct the Perry-Oro Dell Section of the Old Oregon Trail State Highway No. 6 as a throughway. (Authorized August 16, 1956)

"Agreement" with Mr. J. L. Campbell to operate the Silver Falls Lodge for the year 1958. (Authorized December 5, 1957)

"Agreement" with the city of Monmouth to relocate and construct a portion of the Monmouth-Independence Highway located within the city limits of Monmouth. (Authorized October 31, 1957)

"Agreement" with Multnomah Falls Lodge and Gift Shop, Inc. for the leasing of grazing rights on state highway property in Rooster Rock State Park.

"Agreement" with City of Oswego covering traffic signal installation at intersection of State Street and "A" Avenue in Oswego. (Authorized October 1, 1957)

"Bargain and Sale Deed" with Green Crest Memorial Park Association covering deeding of 0.8 acre on Valley Junction-Sheridan Section of Salmon River Highway, Yamhill County.

"Agreement" with State Game Commission for the purpose of providing a public parking area and boat launching facility to permit public access to Shinglehouse Slough.

"Trust Agreement" with B.P.A. re compensation for adjusting a power line on Comstock-Anlauf Section of Pacific Highway in Douglas County.

"Indenture of Access" to the Ernest A. Smith property on the Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County.

"Land Lease Contract" with William T. Rains for a parcel of land on the Stout Creek-Salem Section of the North Santiam Highway in Marion County.

"Bargain and Sale Deed" to Floyd H. Reith, Jr., for a parcel of land in Lot 2, Block 10, McClures Astoria in City of Astoria, Clatsop County.

"Bargain and Sale Deed" to Walter J. Brynd for a parcel of land on the Florence-Glenada Section of Oregon Coast Highway in Lane County.

"Permit Agreement" with Lloyd C. Finley re renewal of their lease of an antenna site in Boiler Bay State Park, for a period of five years.

"Lease Agreement" with State Board of Aeronautics covering construction of a flight strip at Nehalem Bay State Park.

Minutes of September 12 and 13 and October 31 and November 1, 1957.

The meeting adjourned at 4:30 p.m., to be reconvened at 10:00 a.m. the following day.

January 16, 1958

Portland, Oregon
January 17, 1958

The meeting of the Oregon State Highway Commission reconvened at 10:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Charles H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Mr. James F. Johnson, Director of the State Department of Motor Vehicles was present. He thanked the Commission for the cooperation extended to his Department by the State Highway Engineer in numerous instances. He mentioned that he is interested in conserving highway funds and he pointed out briefly the great percentage of increase in rental rates which is being asked for the building that the Department of Motor Vehicles now occupies in Portland. Plans have been made, he continued, to move these offices into the building owned by the State, which is now occupied by the Howard Cooper Company at 58th Street and Glisan Street. He also called attention to 35 other Motor Vehicle Department field offices in addition to State Police and Public Utilities Commission offices which are frequently located in the same towns throughout Oregon. He asked the Commission for the privilege of renting space from the Highway Department when it constructs additions or new buildings in these towns. Many of the leases under which the Department of Motor Vehicles is operating, he said, are now held on a 30-day basis and he expressed the hope that cheaper rental rates might be available and thus conserve highway money. It was his opinion that there would be considerable advantage to the public as well as a monetary saving to the State if the PUC, State Police, Motor Vehicle Department, and the Highway Department offices could all be located under one roof. Concerning the Motor Vehicle offices in Salem, he pointed out that the present space is badly crowded and that the Secretary of State has aked the Department of Motor Vehicles to move out of the capitol building as soon as possible. Proposed rental rates in a privately owned building will cost the State $640,000 over a ten-year period to house the Salem Motor Vehicle office. He mentioned that a Salem citizen has offered to donate land on which to construct a state office building in Salem if arrangements can be made to finance the building. It was his thought that considerable money in rentals could be saved if a state-owned building were provided. Chairman Reynolds inquired if the proposed location for the Department of Motor Vehicles in the Howard Cooper Building is satisfactory. Mr. Johnson replied in the affirmative and pointed out that the building that they now occupy is in a highly congested area. He also

mentioned that there is considerable advantage in having the Department of Motor Vehicles and the State Police located near each other in Salem as they have occasion to use many of the same records and facilities. Commissioner McIver inquired if all buildings leased by the Department of Motor Vehicles outside of Salem are on a one-year lease basis. Mr. Johnson replied that six of them are on a 30-day basis and some of the owners would like to have the Department move out as they can get greater returns from other renters. Commissioner Chessman inquired if the legality of using State Highway funds for construction of office buildings to house other state departments has been checked. Chairman Reynolds replied in the affirmative. He also told Mr. Johnson that the Commission is glad to have his views on the subject and that the Commission will do whatever it can to help him.

Following Mr. Johnson's departure, the Commission instructed the Engineer to render a complete report on the building situation in Salem, covering all phases of the subject with the thought in mind that the matter will then be presented to the members of the Board of Control.

Morris Temple, Chairman, Traffic Committee, Pendleton Planning Commission; Leland M. Swanson, City Manager; and Gerald Ulett, City Engineer, all from the city of Pendleton were present, and asked the Commission (1) to reaffirm funds previously allocated to finance construction of the Emigrant Street Overpass in Pendleton and (2) to urge early construction of the new Interstate highway between Ellensburg, Washington, and Pendleton which has been proposed by the U.S. Bureau of Public Roads Mr. Temple reviewed the history of the Emigrant Overpass project, recalling that the cost of the project had mounted so high that it appeared impractical to build it, and that they had been told informally that the money would be used for another project in the city that would be of mutual interest to the city and the state; however, it now appears from newspaper accounts that the Commission is not going to build the by-pass route for some ten years. He asked the Commission to affirm the original arrangement for the record.

As to their second project, Mr. Temple recalled a suggestion offered by the City in August, 1957, that US395 north from the city of Pendleton to the Columbia River be abandoned and that the State exert its efforts to make a good highway connection in the general direction of Hermiston and Stanfield The recent announcement that the U.S. Bureau of Public Roads proposes to designate a new Interstate highway from Seattle to Pendleton via Ellensburg, he said, coincides with their suggestion and they want the Commission to know that they are heartily in favor of such highway and wish to urge the Commission to cooperate with the Bureau in the construction of the same because it will do a great deal to improve that section of the state. He reiterated their request for reaffirmation of the Commission's position with respect to the Emigrant Street grade separator project and will allocate funds for expenditure within the corporate limits of Pendleton to improve traffic conditions, and asked the Commission to agressively pursue studies with respect to the proposed new Interstate highway

Mr. Swanson stated that the City favors early construction of the US30 by-pass route around Pendleton which would permit the City to co-ordinate its community planning with Highway Department plans which is essential to the orderly growth and development of Pendleton and to the economy of eastern Oregon.

The Engineer pointed out on a map proposed by-pass routes and explained details of each. Mr. Temple stated that the City wants the middle interchange to be as near as possible to the center of the Pendleton business district. Chairman Reynolds remarked that tentative plans contemplated two interchanges, one at each side of the city. Mr. Swanson reiterated the City's desire for a third interchange and he again pointed out the importance of the City knowing what the Highway Department plans are so that the City can plan accordingly and zone the by-pass area to prevent development. The Engineer remarked that a third interchange would be a desirable feature if the Bureau of Public Roads will approve it. Chairman Reynolds stated that construction of the by-pass is probably ten years in the future and federal regulations will not allow acquisition of right of way on the interstate system more than five years in advance of construction. The Commission, he stated, cannot make any definite promises or commitments at this time. He commended the group for their advanced thinking in this matter. The matter of fairness to owners of property in the vicinity of the proposed by-pass was mentioned by Commissioner McIver who questioned the advisability of imposing restrictions on property to prevent development for a period of ten years or more with no commitment to buy the properties. It was his opinion that land owners will be hurt financially if they were prohibited from making developments. The Chief Counsel called attention to a point in law that restrictions of this nature must be reasonable in order to be valid. He doubted if property owners could be denied the right to build for all purposes although they probably could be restricted to certain uses. Chairman Reynolds again stated that the Commission can make no definite promises in the matter today because the project is too far in the future but the Commission and the Engineer will consider the points brought up at this meeting in the study of this project. The location of the by-pass route, he added, is not yet definitely known. Concerning the Emigrant Street Overpass, he stated that he is quite sure that the present Commission or any of those in the future will give fair consideration to the problem when the overpass is needed. As to the proposed Interstate highway, he said that the Commission has made no recommendation regarding it to date because it affects the state of Washington more than Oregon and the Washington officials have not yet completed their plans on the subject.

Mr. Eugene Marsh, attorney from McMinnville, came before the Commission regarding a settlement for highway right-of-way acquired from E. G. Calkins, et al., on the Neskowin-Salmon River Section of the Oregon Coast Highway. He pointed out that in 1956 the state tendered an offer of $5,710.00 to Calkins and Green Mountain Lumber Company who jointly owned the property. At a later date an individual settlement was made with Green Mountain Lumber Company in the amount of $2,000.00 and they were allowed to remove the timber, and a separate offer was then made to Mr. Calkins in the amount of $2,500.00 with the provision that he perform

necessary fencing. Mr. Calkins who had originally been offered $3,710.00, is now willing to accept the sum of $3,500.00, and perform the fencing, if necessary. He objected to the tactics employed in the settlement by which the individual owners were offered separate settlements without contacting the attorney representing them. He requested that he be furnished construction plans for this section, particularly in regard to cattle passes which his clients need because of their dairy business. The Chief Counsel stated that while he was not personally familiar with the case in the beginning, the records indicate that the settlement with Green Mountain Lumber Company was made before it was known that Mr. Marsh represented Calkins and Green Mountain Lumber Company. The Commission suggested that Mr. Marsh get together with the Chief Counsel to see if an agreeable settlement can be reached and then return with a recommendation.

Mr. Sam Hall, Brookings attorney, was present and proposed to the Commission an exchange of land between the State and the Port of Brookings to enable the Port to established a small boat basin near the mouth of the Chetco River. The State, he pointed out, owns an eight acre parcel of land at this place which the Port can use to advantage for its purposes and if the Port can get this property it will make available to the State in exchange therefore an area suitable as a source for gravel. He also mentioned that he had heard that a Mrs. Gardner had made application to purchase the State-owned bar. He asked that the bar be not transferred into private ownership but that it be transferred to the Port of Brookings in exchange for a like area as outlined. The Engineer commented that an investigation had been made of the Port's proposal and that the source of material offered by the Port appears to be acceptable. The Commission informed Mr. Hall that the transfer of properties would be made if the Port of Brookings can provide a satisfactory source of materials with adequate title and will allow the state to take materials from the area as may be required. Mr. Hall accepted this arrangement.

Mr Vernon Miller, Sherman County Judge; Mr. Luther Davis, Mayor of the town of Kent; Mr. Robie Roberson, Mayor of the town of Moro; Mr. Ben Fanning, President of the Okanagon Caribou Trail Association, representing the Central Oregon and Bend Chambers of Commerce; and Mr. Howard Milton of Redmond, representing the Central Oregon Chamber of Commerce composed a delegation which came before the Commission regarding the proposed bridge across the Columbia River at Maryhill, and other matters. Mr. Miller, who acted as spokesman, introduced the members of the group and inquired as to the Commission's plans for improvement of US97 between Grass Valley and Kent. The Engineer advised that this improvement is not in the present program and is at least two years in the future; moreover, there are no funds immediately available to finance it. Chairman Reynolds stated that the Commission is aware that the section does need improvement and that consideration will be given to it when funds are available. Mr. Miller then called attention to a traffic problem on US97 at the southwest edge of the town of Moro. It appears that people during the hours of darkness or fog have difficulty locating the intersection which leads to the new high school. He inquired if an island could be installed or some other improvement provided to prevent accidents. Chairman Reynolds informed him that an investigation would be made.

Mr. Miller stated that the principal reason for the delegation being present is to request help from the states of Oregon and Washington in reducing the cost to construct the proposed Biggs Rapids Bridge across the Columbia River. He said that they have to reduce the cost of this structure by about $1,500,000 in order to make the project feasible so it can be financed by a bond issue and it is their hope that the two states could help by financing the bridge approaches. He suggested that Oregon could helpby constructing the southerly approach to the bridge. Chairman Reynolds observed that it has not been the policy of the Commission to participate in the cost of the Columbia River toll bridges except to advance certain engineering charges which have been repaid and that is the thought and practice of the Commission at this time. The Engineer pointed out that at some time in the future the Columbia River Highway will have to be relocated, probably north of the railroad, and it will then be necessary to construct a traffic interchange at the intersection with the road leading to the bridge which would eliminate the approach, but such construction may not be required for 10 years. The interchange, when constructed, he said, will be near the end of the bridge and in his opinion would require practically no additional cost for the bridge approach. Mr. Roberson commented that Washington authorities have indicated that the State of Washington will construct the approach on the Washington side and it appears that the only thing that is holding up construction of the bridge is the lack of provision for construction of the bridge approach on the Oregon side. If a method can be found to handle this situation, it was his opinion that construction plans could proceed. A suggestion was made by the Engineer that the County explore the possibility of arranging a crossing of the railroad at grade as a temporary measure until the interchange is required. Chairman Reynolds concluded the discussion by stating that an investigation would be made as to what can be done and that they would be advised after the Engineer has made his report.

A delegation representing "Housewives for 42" urged the Commission to immediately modernize the Coos Bay-Roseburg Highway. The following women were present: Mrs. Paul Hammer, Mrs. Elden Brodie, Mrs. Harold Stemler, Mrs. C. E. Weed, Mrs. Al Wyld, Mrs. W. W. Gurney, Mrs. Ray Harris, Mrs. Effie K. Shindal, Mrs. Harry Earls, Mrs. B. F. Pillette, Mrs. Loraine Cribbens, Mrs. Maxene Bryant, Mrs. Gordon MacKerrow, Mrs. Arlo Duncan, Mrs. Arthur Henry, Mrs. Floyd Hall, Mrs. George Linn, Mrs. Reed Gurney, all of Myrtle Point; Mrs. Don Earle, North Bend; Mrs. Gareth Goddard and Mrs Kenneth Kraemer, both of Portland; Mrs. Enid Weist and Olive Barth, both of Camas Valley; Mrs. A. L. Erickson, Mrs. Pat McMurray and Mrs. Julius Ruble, all of Coquille; Mrs. John A. Fisher, Oregon City; Mrs. Laurence Barklow and Mrs. Wayne Woodward, both of Arago. Mrs. Paul Hammer, who acted as spokesman, pointed out that during the past few weeks, the Coquille area had been again isolated because Highway 42 was closed by high water and slides. Mrs. Brodie exhibited a number of colored slides showing the poor condition of the highway. Chairman Reynolds stated that he could only repeat the statement that he made to the ladies at the Commission meeting held on December 6, 1957, when their delegation was present, which statement was to the effect that it is not possible to alter the present highway program and allocate funds to Highway 42 in 1958

but future programs would be reviewed to determine if it would be possible to allocate funds in 1959. Careful consideration, he stated, will be given to the improvement of Highway 42 when the next construction program is formulated. He also pointed out that the Commission has received additional requests for highway construction in southwestern Oregon and he mentioned the following: request from Brookings for an east-west road between Brookings and O'Brien on the Redwood Highway, a proposed road extending from Gold Beach easterly to Selma on the same highway, and a new road extending easterly from Coos Bay to a connection with the Pacific Highway at Roseburg via the route of the old Coos Bay Wagon Road. The Commission, he continued, has no intention to abandon modernization and construction on Highway 42 and when funds are available, further improvement will be considered. Mrs. Brodie emphasized the need for improvement of Highway 42 before any new highways are constructed. In reply to an inquiry from Mrs. Gurney as to whether or not the Commission can state that improvement of Highway 42 is the most urgent project in the area, Chairman Reynolds replied that the Commission cannot so state but it is a very needed improvement. However, each locality has its own problems and each feels that its problems should have priority.

Mrs. Ruble inquired as to what action they could take to get improvements under way. Chairman Reynolds replied that the Commission cannot alter its existing program but consideration will be given to improvement of Highway 42 when the next construction program is formulated. Mrs. Ruble then inquired if money allocated for improvement for the south end of the Oregon Coast Highway could be diverted. Chairman Reynolds replied that it could not be diverted because the money for that improvement was obtained from the special bond issue that was authorized by the Legislature.

Commissioner McIver commented that the Highway Commission serves without compensation and its interest is to see that highway funds are distributed fairly and economically about the state. Many highways need improvement and it is difficult to not be able to perform all of the work needed. He recalled that the Oregon Coast area, several years ago, had presented a united front in urging improvement of the Oregon Coast Highway in Southern Oregon and considerable funds have been expended for its improvement. He mentioned that other communities are undoubtedly watching the outcome of the request of the "Housewives for 42" to see what success they have, and he predicted that if the Commission accedes because of pressure, to the wishes of this group it could mean only that many other groups would use the same tactics He again emphasized that every consideration will be given to improvement of Highway 42 when the next construction program is formulated, which the Engineer stated would probably be in September or October, 1958. Chairman Reynolds stated that the Commission would not deviate from committments they had made and that there was nothing further that the Commission could tell them. Mrs. Stemler remarked that according to newspaper accounts major improvements are contemplated in the City of Portland. She inquired why funds could not be secured from the same source to improve Highway 42. Chairman Reynolds replied that funds that are now being spent for improvements in Portland are interstate funds provided principally by the

Federal Government specifically for the improvement of the Pacific Highway and the Old Oregon Trail Highway. On other highways in the state regular Federal-Aid monies must be used. He thanked the delegation for its presentation.

Consideration was again given to a request made by the Chief Counsel on the previous day for authority to condemn certain parcels of real property that are needed as right-of-way for State Highway improvements or for other highway purposes. After carefully considering the proposed condemnations in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission authorized the condemnations by adopting the attached resolutions relative thereto marked EXHIBIT "L-1" through "L-13", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission also gave the Parks Superintendent authority to proceed with the calling of bids for construction of a concession building at Rooster Rock State Park, on US30 east of Portland as recommended by him.

The Commission again considered the claim submitted by the West Slope Water District, Portland, for reimbursement of expenditures made by the District in rearranging its facilities on the Sylvan Section of the Sunset Highway to accommodate a highway improvement amounting to $42,747.88. The Commission adopted the Engineer's recommendation with regard thereto presented on the previous day that the District be paid the sum of $32,642.82 if and when the District furnishes a complete release of its claim in writing.

Commissioner McIver brought up the matter of employing a firm of accounting experts to make suggestions on procedures of the Accounting Division. It was his opinion that there might be some advantage in having the same firm conduct the survey which performed a like service about ten years ago. The Commission instructed the Auditor to contact a reliable firm or two who perform this service, determine the time and cost of a survey and give the Commission his recommendation.

The Commission again discussed the matter presented by the Director of the Department of Motor Vehicles, urging the Highway Commission to provide office facilities for that Department in Salem and at other locations throughout the State. The Engineer stated that it appears that the State could save considerable money if state-owned buildings were used, and that the Board of Control had been requested to reserve 13 acres for building purposes near the State Highway Shops east of Salem. Commissioner McIver commented that there appeared to be very material savings to the State in the use of state-owned buildings, and also there would be an advantage to the public if the Motor Vehicle Department were located near the Shops in Salem where ample parking space is available. However, he warned that location of buildings for this purpose should be located carefully to provide the greatest efficiency for the State and the greatest amount of convenience for the public. He made a motion that an investi-

gation be made to determine the facts as to advantages and disadvantages of a state-owned building in Salem, needs of the Departments as well as the public, and to get a complete picture of the situation. The motion was seconded by Commissioner Chessman and was declared carried unanimously by Chairman Reynolds, who instructed the Engineer to render a report on the subject at the next meeting.

Deepening of the Columbia River channel between Astoria and Megler to provide depth necessary for ferry service between these two points was discussed. The Engineer reported that an investigation disclosed that it might take several years for the Army Engineers to get around to perform the work necessary for the ferry operation. He recommended that the Commission authorize action to secure deepening of the channel as soon as possible which he estimated will cost about $30,000. Commissioner Chessman commented that large numbers of people will be using the Astoria Ferry this spring during very low tides when clam digging is particularly good in Washington, and if the ferry is delayed by these low tides due to shallow river conditions, there will be considerable public clamor. The Commission authorized the Engineer to investigate the matter and submit a report at the next meeting.

There being no further business to consider, the meeting was declared adjourned at 12:40 P.M. by Chairman Reynolds.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

January 16 and 17, 1958

EXHIBIT "A"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27029 Claussen, Fred B. et al (Grothaus)
Right of Way, 0239 S.W. Hamilton, Sta. 129
Option expires June 29, 1958

425 sq. ft.	$100.00	
Improvements	200.00	
Encroachment damage	350.00	
Amount to be paid owners - chrg to Right of Way		$650.00

Oak tree on W. line of taking not to be disturbed, with understanding that if it should ever become a public hazard, State could take steps to eliminate same, and settlement for said oak tree to be negotiated at that time.

Complete restriction of access -

EXHIBIT "A" (Cont)

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27041 Schnavely, Mary E. et al (Scott)
R/W and Temp. Ease. for construction, 4606 S.W. Corbett Ave.
Option expires June 30, 1958 - Sta. 135

375 sq. ft. at $0.24 per sq. ft.	$ 90.00	
105 sq. ft. temp. easement	50.00	
Damage	110.00	
Amount to be paid owners - chrg to Right of Way		$250.00

Complete restriction of access -

EXHIBIT "D-1"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Tigard-Newberg Section of the Pacific Highway West described as follows:

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 21, Township 2 South, Range 1 West, W.M., Washington County, Oregon, and being a portion of that property described in that deed to the State of Oregon, recorded in Book 345, Page 632, of Washington County Records of Deeds:

Beginning at Engineer's center line Station 263+29.7, said Station being 233.02 feet North and 502.08 feet East of the NE Corner of said Section 21; thence S 51° 42' W 1827.2 feet to Station 281+56.9.

The said parcel being all that portion of said property lying Southeasterly of a line parallel to and 134 feet Southeasterly of the centerline of the Southbound lane of the Pacific Highway West, said Centerline being coincident with the existing Centerline of said highway. Access point to be left of Station 278.

The parcel of land to which this description applies contains 3.79 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,500, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 57 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

29444

EXHIBIT "D-2"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Salem By-pass Section of the Pacific Highway East described as follows:

A parcel of land lying in Lots 2 and 3, Cherry City Fruit Tracts, situated in Section 13, Township 7 South, Range 3 West, W.M., Marion County, Oregon, and being that property described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 503, Page 742, and a portion of that property described in that deed to the State of Oregon, by and through its State Highway Commission recorded in Book 444, Page 104 of Marion County Records of Deeds; the said parcel being described as follows:

Beginning at the Northwest corner of said Lot 2, said corner being the most Easterly Northeast corner of said Lot 3; thence West along the Northerly line of said Lot 3, a distance of 190 feet; thence Southeasterly 280 feet, more or less, to the West line of said Lot 2, at a point which is 210 feet South of the Northwest corner of said Lot 2; thence East parallel to the North line of said Lot 2, a distance of 125 feet, more or less, to a line which is parallel to and 130 feet West of the center line of the Salem By-pass Section of the Pacific Highway; thence North parallel to and 130 feet West of said center line 210 feet to the North line of said Lot 2; thence West along the North line of said Lot 2, a distance of 125 feet, more or less, to the point of beginning.

Grantor to retain a permanent easement over and across the Easterly 5 feet of said property.

The parcel of land to which this description applies contains 1.08 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,250.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "D-2" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 58 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "D-3"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Unit 5 of the T. H. Banfield Expressway described as follows:

A parcel of land situated in Section 28, Township 1 North, Range 3 East, W.M., Multnomah County, Oregon, and being a portion of that land described in that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 1476, Page 132 of Multnomah County Records of Deeds; the said parcel being described as follows:

Beginning at a stone monument marked with a cross cut in the top in the East line of Osborn Park Tracts that is North along the East line of the Jacob Zimmerman Donation Land Claim, 2,019.6 feet and North 89° 30' West at right angles from the claim line 980.1 feet from the southeast corner of the claim; then South along the East Line of Osborn Park Tract and parallel with the East line of the claim 690 feet, more or less, to a line which is parallel to and 100 feet northerly of the center line of the Banfield Expressway; thence easterly along said parallel line 252 feet, more or less, to the East line of said State of Oregon tract; thence North along said East line 715 feet, more or less, to the northeast corner; thence West along the North line 252 feet to the point of beginning.

The parcel of land to which this description applies contains 4.08 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the T. H. Banfield Expressway.

EXHIBIT "D-3" (Cont)

AND EE IT FURTHER RESOLVED that this Property Sale Resolution No. 59 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "D-4"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Willamette River-42nd Avenue Section of the T. H. Banfield Expressway described as follows:

A parcel of land lying in Lots 12 and 13, Block 31, Laurelhurst, within the corporate limits of the city of Portland, Multnomah County, Oregon, and the said parcel being described as follows:

Beginning at the southwest corner of said Lot 13; thence easterly along the southerly lines of said Lot 13 and 12 to a point which is 45 feet easterly of the southwest corner of said Lot 12; thence northerly in a straight line 75 feet more or less, to the East line of said Lot 13 at a point which is 38 feet southerly of the northeast corner of said Lot 13; thence northerly in a straight line 55 feet more or less, to the northerly line of said Lot 13 at a point which is 38 feet westerly of the northeast corner of said Lot 13; thence westerly along the northerly line of said Lot 13 a distance of 12 feet to the northwest corner of said Lot 13; thence southerly along the westerly line of said Lot 13 a distance of 100 feet to the point of beginning.

The parcel of land to which this description applies contains 5,673 square feet.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $7,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the T. H. Banfield Expressway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 60 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "D-5"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Sutherlin Section of the Pacific Highway described as follows:

All of Lots 25, 26, 27, 28, 29, 30, 31 and 32 of Block 16, of the Amended Plat of Plat "O" of the J. F. Luse Company, in the City of Sutherlin, Douglas County, Oregon.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the Salem By-Pass Section of the Pacific Highway described as follows:

A parcel of land lying in Lot 5, Cherry City Fruit Tracts, situated in Section 13, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being that tract of land described in that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 443, page 758 of Marion County Records of Deeds; the said parcel being described as follows:

That portion of said Lot 5 lying Westerly of that tract conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 434, page 220, Marion County Deed Records and lying southerly of that certain strip of land 60 feet in width extending from the West line of said property to the East line of said property, said strip of land being the easterly prolongation of Livingston Avenue, the center line of which would intersect the center line of the Salem By-Pass Section of the Pacific Highway approximately at Engineer's center line Station 139+22 of said highway center line.

The parcel of land to which this description applies contains 1.48 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,861.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 62 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "E"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 per cent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the Commission.

(2) Such account shall be spent each year by the Commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area of heavy and unusual industrial traffic.

(3) The Commission shall determine the distribution of the expenditures after considering applications made to it therefore from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the Commission, which shall certify the apportionment to the

EXHIBIT "E" (Cont)

Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefore payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period July 1 to December 31, inclusive, of the year 1957, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 4,523,216.24
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	19,266,958 67
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	6,481,510.03
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	222,968.77
	$30,494,653.71

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $3,049,465.37, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December 31, 1957, the sum of $2,924,465.37, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

EXHIBIT "F"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by Miscellaneous Resolution 191 adopted by the Commission on the 26th day of April, 1956, the Commission authorized the State Highway Engineer and any Assistant State Highway Engineer under his direction, to execute and issue upon the form of "Pipeline Permit" which was attached to said resolution and by reference made a part thereof, any and all necessary pipeline permits; and

WHEREAS, it has been found necessary to revise the form of "Pipeline Permit" covered by said resolution; and

WHEREAS, the State Highway Commission has general supervision and control over all matters pertaining to the operation and administration of state highways and has full power to carry out the provisions of and make such rules and regulations that are deemed necessary for the accomplishment of the purpose of the laws concerning state highways; and

WHEREAS, cases frequently arise wherein it is necessary and desirable for pipelines carrying water, gas and other substances to be installed along or across the right of way of state highways; and

WHEREAS, it is the judgment and opinion of the Commission that the economic welfare of the State will be promoted by permitting such pipelines to be installed along or across the right of way of state highways upon terms and conditions which will protect the interest of the State, the State Highway Department and members of the traveling public; and

WHEREAS, the Oregon Legislature under the provisions of ORS 374.307, to 374.320 authorizes the State Highway Commission to issue the type of permit hereinbefore referred to; and

WHEREAS, the Oregon Legislature, under the provisions of Chapter 635, Oregon Laws of 1957, has authorized the State Highway Commission to delegate to the State Highway Engineer authority to issue the type of permits hereinbefore referred to; and

WHEREAS it is the judgment and opinion of this Commission that it is desirable and in the best interests of the State and applicants who wish to install pipelines upon the right of way of state highways that a procedure be established whereby prompt and efficient action may be taken to eliminate the necessity of delaying such matters to a succeeding meeting of the Commission.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED:

EXHIBIT "F" (Cont)

1. That Miscellaneous Resolution No. 191, adopted by the Commission the 26th day of April, 1956, be and it hereby is rescinded.

2. That permits for the construction or installation and maintenance of pipelines upon the right of way of any state highway, for a period not exceeding twenty-five (25) years, may be issued for and on behalf of the Oregon State Highway Commission by the State Highway Engineer, or under his direction, by the Deputy or any Assistant State Highway Engineer, as hereinafter provided, upon the forms of "Pipeline Permit Agreement" and "Supplemental Pipeline Permit Agreement" which are marked "Exhibit A" and "Exhibit B", attached hereto and by this reference made a part hereof subject to the following:

3. Whenever application is made for permission to install a pipeline across or along the right of way of any state highway, the State Highway Engineer or his designated assistants or employees shall investigate the application and determine the manner, method and location for said installation which will result in the least possible interference with or injury to existing, or future highway improvements and hazard to the motoring public.

4. That when such manner, method and location of installation have been so determined, the same shall be set forth in paragraphs 16 through 22, of the said "Pipeline Permit Agreement" under the heading of "Provisions Relating to Location, Construction, Removal and Relocation" and the Engineer or designated assistant, may also include such other special provisions as may be deemed necessary for the proper installation of said pipeline and the protection of the highway and motoring public.

5. That the applicant for permission to install the pipelines shall be required to furnish evidence of liability and property damage insurance in compliance with paragraph 14 of the "Provisions Relating to Liability Insurance and Bond" as provided in the said "Pipeline Permit Agreement" and said insurance shall be in the amount of $ 50,000 for property damage resulting from any single occurrence and $ 100,000 for the death or injury or any person, subject to a limit of $ 200,000 for injuries or deaths resulting from any single occurrence, unless the applicant is a company or individual who is wholly or partially self insured, in which event the requirement that liability and property damage insurance be furnished may be waived by the Engineer executing and issuing the "Pipeline Permit Agreement", provided the company or individual also furnishes to such Engineer satisfactory evidence of their ability to respond to a claim or judgment for damages in the maximum amounts of the insurance which would otherwise be required. The requirement of posting insurance may also be waived by the Engineer when, in his judgment, the installation of the pipeline for which a permit is applied for, will be of sufficient distance from the main traveled portion of the highway right of way as to eliminate the need of such insurance because of lack of hazard.

EXHIBIT "F" (Cont)

6. That the applicant for permission to install the pipeline or lines shall be required to furnish a surety bond in compliance with paragraph 15 of the "Provisions Relating to Liability Insurance and Bond" of said permit form to assure faithful compliance of all of the terms, conditions and provisions of the "Pipeline Permit Agreement" relating to construction and installation of said pipeline, and to guarantee complete and satisfactory repair and restoration of the highway facility after the installation of the pipeline. Such bond shall be in an amount approved by the State Highway Engineer, sufficient to guarantee the complete and satisfactory repair of all damages to the highway facility caused by the construction and installation of the pipeline or lines.

7. That this resolution shall be entered in the minutes of the Commission this 16th day of January, 1958, as Miscellaneous Resolution No. 191a.

EXHIBIT "F" (Cont)

OREGON STATE HIGHWAY COMMISSION
PIPE LINE PERMIT AGREEMENT

Pipe Permit No. _____

WHEREAS, _____, hereinafter called Permittee, of _____, Oregon, has filed an application with the Oregon State Highway Engineer under the provisions of ORS 374.305 to 374.325 for permission to install a _____ _____ pipe line, for the transmission of _____ _____, upon the right of way of the _____ Highway in _____ County, Oregon between/at/near _____ and _____, and more particularly described as being between/at Mile Post NO. _____ _____(Highway Engineer's Station _____) and Mile Post NO. _____(Highway Engineer's Station _____), as shown on the map which is attached hereto, and by this reference made a part hereof; and

WHEREAS, the application has been fully considered by the Oregon State Highway Engineer, and it is the opinion and judgment of the said State Highway Engineer that the said application should be granted, and that a permit agreement as requested should be issued;

THEREFORE, the application of _____, Permittee, for permission to install the said pipe line along/across the right of way of the said highway at the aforementioned location hereby is approved and a permit agreement for such purpose hereby is granted to the said _____, Permittee, subject to and upon the following conditions, terms, requirements, and agreements and not otherwise:

GENERAL PROVISIONS

1. The word "Commission" as used herein shall mean the Oregon State Highway Commission.

EXHIBIT "A"

EXHIBIT "F" (Cont)

2. The word "Engineer" as used herein shall mean the State Highway Engineer or his duly authorized representative.

3. The words "pipe line" as used herein shall mean any and all pipe line or lines or other facilities authorized by this permit agreement.

4. The Permittee herein agrees to employ any and all methods in the construction of said pipe line which the Engineer may require in order to properly protect the highway from damage both during the construction of said pipe line and subsequent to its completion.

5. During the installation or construction of said pipe line, and during the repair, removal, or relocation of said pipe line, the Permittee shall at all times maintain such watchman or watchmen, barricades, and other safety devices as may be necessary to properly protect traffic upon said highway, and to warn and safeguard the public against injury or damage resulting from the operations of said Permittee in the construction and maintenance of said pipe line. The Permittee shall place and maintain lighted warning lights on all barricades and obstructions during the hours between sunset and sunrise

6. The Permittee shall indemnify and hold harmless the State, the State Highway Commission, the members thereof, and all officers, employees, or agents of the State or the State Highway Commission, against any and all damages, claims, demands, actions, causes of action, costs, and expenses of whatsoever nature which may result from any injury to or the death of any person, or from the loss of, or damage to, property of any kind or nature, including the highway and highway facilities or structures, property, or equipment used or owned by the State or the State Highway Department, and facilities such as wires, lines, poles, or pipe lines, which now or may hereafter occupy the right of way of said highway, when such injury, death, loss, or damage is due to the existence of said pipe line, or to the construction, installation, maintenance, repair, removal, relocation, operation, or use thereof, or to the contents therein or therefrom.

7. The Permittee shall so conduct his construction operations that there shall be no interference with or interruption of traffic upon and along the highway The Engineer may specify details in connection with the handling of traffic and such specifications shall be complied with by the Permittee.

8 The installation, construction, and maintenance of said pipe line is subject to the paramount control of the legislature over said highway and no right or privilege herein granted shall be deemed or construed to be beyond the reach or authority of the legislature to control said highway, and the Permittee in accepting this permit accepts it knowing that the rights and privileges granted herein may at any time be defeated and abrogated by legislative act

9 The said Permittee shall at all times keep said pipe line free from leaks and in a good state of repair, so that no damage or injury will

EXHIBIT "F" (Cont)

be done to the said highway.

10. The entire cost of installing said pipe line, including the cost of materials, trenching, laying, backfilling, supervision, and inspection, and any other expense whatsoever incident thereto, is to be paid by said Permittee. The Permittee shall, in addition, reimburse the Commission for any and all expenses that they may incur in connection with said installation. The reimbursement to the Commission shall be made by said Permittee within ten (10) days after receiving a statement therefore from the Engineer.

11. Any supervision or control exercised by the Engineer shall in no way relieve the Permittee of any duty or responsibility to the general public nor shall such supervision or control relieve said Permittee of any liability for loss, damage, or injury to persons or property sustained by reason of the installation, maintenance, or repair of said pipe line, or in the removal or relocation thereof as hereinafter provided, nor of the Permittee's liability for any damage to said highway.

12. If for any reason it becomes necessary in the judgment of the Commission or its Engineer to disconnect the said pipe line or any section thereof for the purpose of repairing the said highway, or any work or improvement thereon, or if the said highway is being damaged or injured by reason of the presence of said pipe line or the seepage of gas or any liquid therefrom, the Engineer may give the Permittee ten (10) days written notice to turn off the gas or liquid and should said Permittee fail and neglect to do so, then the Engineer may turn off the gas or liquid and disconnect said pipe line and by so doing neither the State, the Commission, its Engineer or other officer, agent, or employee shall be liable either personally or officially for any damage or injury sustained thereby, either by said Permittee, consumers, or patrons, or persons to whom the Permittee owes a responsibility or liability.

13. It is understood and agreed that the Commission, its Engineer, officers, agents, or employees shall not be held responsible or liable for injury or damage that may occur to said pipe line or any connection or connections thereto by reason of any construction or maintenance operations that may be carried on by or under the direction of either the said Commission or any duly authorized representative of said Commission, or by any person constructing or installing, maintaining, repairing, operating, or using any facility pursuant to a permit or permit agreement either heretofore or hereafter issued by the Commission or Engineer.

PROVISIONS RELATING TO LIABILITY INSURANCE AND BOND

14. Permittee shall obtain and carry, for the period of time required for the complete installation of said pipe line, including the repair and restoration of the highway facilities, a liability and property damage insurance policy or policies providing for coverage against any claim, demand, suit, or action

EXHIBIT "F" (Cont)

for property damage, personal injury, or death resulting from any activities of the Permittee, his officers, employees, agents, or contractors in connection with the construction or installation of said pipe line and the repair and restoration of the highway facilities, and said policy or policies, in addition, shall include as named insureds, the State of Oregon, the Commission, and members thereof, its officers, agents, and employees, except as to claims against the Permittee, for personal injury to any members of the Commission or its officers, agents, and employees, or damage to any of its or their property. Said insurance shall provide coverage in the following amounts: $_____ for property damage resulting from any single occurrence, and $_____ for the death or injury of any person, subject to a limit of $_____ for injuries or deaths resulting from any single occurrence. The said insurance policy or policies shall be in an insurance company duly authorized and licensed to do business in the State of Oregon. A copy of the policy or policies, or a certificate evidencing the same, shall be submitted to the Director of Permits, Oregon State Highway Department, Salem, Oregon, and approved by him before any work is commenced under this permit agreement.

15. In order to assure full and faithful compliance with all of the terms, conditions, and obligations of this permit agreement, the Permittee shall furnish for the period of time required for the complete installation of said pipe line, including the repair and restoration of the highway facilities, a bond in the sum of $_____, written by a surety company duly qualified and licensed to do business in the State of Oregon and in a form satisfactory to the Engineer. No work shall be commenced under this permit agreement until said bond has been submitted to and approved by the Director of Permits, Oregon State Highway Department, Salem, Oregon.

PROVISIONS RELATING TO LOCATION, CONSTRUCTION, REMOVAL, AND RELOCATION

16. The diameter of the pipe line to be installed shall not exceed _____( ) inches, and it shall be _____ pipe of a quality and condition satisfactory to the Engineer.

17. Trenching or tunneling nearer than four (4) feet from either edge of the surfaced portion of the highway or the cutting and digging up of the paved or macadamized portion of said highway will not be permitted unless special permission is first obtained from the Engineer. No trench shall be excavated with a top width in excess of eighteen (18) inches more than the outside diameter of the pipe to be installed, unless special permission is first obtained from the Engineer.

EXHIBIT "F" (Cont)

18. The backfilling of all trenches and tunnels must be accomplished immediately after the pipe line has been placed therein and must be well tamped and fully compacted so as to allow the least possible amount of subsequent settlement. All debris, refuse, and waste of all kinds which may have accumulated upon the highway right of way by reason of the operations of the Permittee must be removed immediately upon completion of said operations and the said highway right of way must be restored to at least as good condition as it was prior to such operations. All work in connection with the said pipe line construction must be done in a neat and workmanlike manner and under the general supervision of the Engineer whose decision shall be final with respect to any of the conditions, terms stipulations, and provisions of this permit agreement.

19. Where said pipe line is to be installed longitudinally along the highway, it shall be constructed on the _____ side of said highway right of way on a line parallel to and _____

( ) feet distant from the centerline thereof, the said centerline being, in general, the centerline of the said highway.

20. Where said pipe line crosses the highway, it shall be installed

on a line at an angle of _____ ( ) degrees to the centerline thereof, and at a depth to be specified by the Engineer.

21. Where said pipe line crosses under the surfaced portion of the highway, said pipe line shall either be driven or placed in a hold bored under the surfacing for that purpose, the diameter of which hole shall not exceed the outside diameter of the pipe to be placed therein, unless special permission is obtained from the Engineer to cut the improved surface.

22. At no point shall the top of the pipe line be less than _____

_____ ( ) inches below the grade of the highway or beneath the surface of the ground at that point, if the ground be lower than the grade of the highway.

23. If at any time, in the opinion of the Commission, or Engineer, the presence of said pipe line is detrimental to the public use and interest in said highway or to the proper repair, maintenance, or reconstruction of the same, or if, in order to better serve the public with an improved highway, it becomes necessary to reconstruct, widen, improve, or relocate the said highway across or along the right of way on which the Permittee has located a pipe line pursuant to this agreement, and it becomes necessary, in order to accomplish any of the above mentioned purposes, for the said pipe line to be removed or relocated, the Engineer shall give written notice to the Permittee to remove or relocate the said pipe line. In the event that the pipe line is to be relocated upon the right of way, the Engineer, in his written notice to the Permittee, shall designate the new location for said pipe line.

EXHIBIT "F" (Cont)

24. Permittee agrees that upon receiving the said written notice to remove or relocate the said pipe line that he will, within _____( ) days, make arrangements for the prompt removal or relocation of the said pipe line, at his sole cost, in accordance with the said written notice and instructions received from the Engineer, and Permittee agrees that before commencing any work to remove or relocate the said pipe line he will again comply with all of the provisions of paragraphs 14 and 15 herein with respect to insurance and bond (if any).

25. Permittee agrees that in the event that he fails, for any reason, to remove or relocate the said pipe line in compliance with the said written notice and instructions from the Engineer, that the Engineer or his duly authorized representatives may turn off any gas or liquid that is being conveyed by said pipe line and may remove or relocate said pipe line to the new location designated by the Engineer. Permittee further agrees that upon the completion of the said removing or relocating of the said line by the Engineer, and upon receiving a statement from the Engineer as to the cost of the removing or relocating of said pipe line, he will immediately, or within a period of time to be agreed upon between the Permittee and the Engineer, either in a lump sum or by such installments as may be arranged between the parties in an executed "Supplemental Permit Agreement", pay to the Commission the full amount of said removing or relocating costs that have been incurred by the Commission. Permittee further agrees that in the event that he fails, as provided in this paragraph, to pay the said costs incurred by the Commission for the removing or relocating of the said pipe line, covered by this permit agreement, and it becomes necessary for the Commission to commence an action or proceeding in a court of competent jurisdiction to recover the said removing or relocating costs that the Commission shall be entitled to recover in addition to the statutory court costs and disbursements, such additional sum as the court may adjudge reasonable for attorneys' fees to be allowed in such action or proceeding.

26 It is further understood and agreed that in the event that it becomes necessary for the Engineer to turn off the gas or liquids conveyed in said pipe line in order to remove or relocate the said pipe line, covered by this permit agreement, as set forth in paragraph 24 hereof, that neither the State, the Commission, its Engineer, or any of its officers, agents, or employees, shall be liable either personally or officially for any damage or injury sustained thereby, either to the Permittee, consumers, or patrons, or persons to whom the Permittee owes a responsibility or liability, and that the Permittee will indemnify and hold harmless the State, the Commission, and its Engineers, officers, employees, and agents, from any such claims for damages or liability.

This permit shall be in effect for a period of _____( ) years from and after the date hereof, unless sooner revoked by mutual consent or by the State Highway Engineer, for the failure of the Permittee to abide by the terms and conditions of this permit agreement, or by operation of the law This permit agreement shall not be effective unless accepted in writing by the permittee on or before _____, 195____.

SUPPLEMENTAL PIPE LINE PERMIT AGREEMENT TO PERMIT NO. _____

WHEREAS, on the _____ day of _____, 19_____ the State Highway Commission, by and through the State Highway Engineer, and _____ entered into Pipe Line Permit Agreenent No. _____ under which _____ _____, as Permittee, constructed and installed a pipe line within the right of way of the _____ Highway at the locations as set forth in said Permit Agreement; and

WHEREAS, the Oregon State Highway Commission in order to better serve the public interest has now authorized and approved a project to reconstruct, widen, and improve the _____ Section of the said _____ Highway along/across which the Permittee's pipe line, pursuant to said Permit Agreement, is located; and

WHEREAS, it is the judgment of the Commission and Engineer that, in order to properly reconstruct, widen, and improve the said highway, it is necessary for the Permittee, in accordance with the said Permit Agreement to remove or relocate the said pipe line to a new location in the said highway right of way in accordance with and as instructed by the Engineer; and

WHEREAS, the Permittee has notified the Engineer in writing that he is financially unable, at this time, to move or relocate at his sole cost the said pipe line provided for and agreed in paragraphs 23 and 24 of the said Pipe Line Permit Agreement No. _____ and in lieu thereof has requested the Commission, in order to prevent any delay in the completion of the said highway project, to remove or relocate the said pipe line to the new location

EXHIBIT "B"

EXHIBIT "F" (Cont)

at the expense of the Commission and that following the said removing or relocating of said pipe line by the Commission, he will reimburse the Commission for its costs as hereinafter provided.

NOW, THEREFORE, and in consideration of the benefits accruing to the parties hereto, it is hereby understood and agreed that the Commission, at its sole cost, shall cause to be removed or relocated the said Permittee's pipe line as described in that certain Pipe Line Permit Agreement No. _____ entered into between the Engineer and the Permittee on the _____ day of _____, 19_____, to the new location as selected by the Engineer;

That Permittee will cooperate with and assist the Engineer in all matters concerning the said removing or relocating of the pipe line, such as, but not limited to, shutting off any gas or liquid conveyed in said pipe line and arranging for continued service to any customers or other parties concerned;

That following the removing or relocating of said pipe line by the Commission, the Engineer shall determine the cost to the Commission for the removing or relocating thereof and shall submit a statement covering the said cost to the Permittee;

The Permittee upon receiving said statement shall then reimburse the Commission for the full amount of said cost of moving and relocating the said pipe line in _____ monthly/semi-annual/annual installments. The first of the said installments shall become due and payable to the Commission thirty (30) days after the receipt of the said Engineer's statement of costs by the Permittee.

It is further understood and agreed between the parties hereto that in the event the Permittee fails to pay any one or all of the said installments,

EXHIBIT "F" (Cont)

as herein agreed, and the Commission is required to file an action or proceeding in a court of competent jurisdiction for the collection of any one or more of said installments, the Commission shall be entitled, in each and every proceeding so filed, to recover, in addition to its statutory costs and disbursements, such additional sum as the court may adjudge reasonable for attorney's fees to be allowed in such action or proceeding.

It is further understood and agreed that the acceptance by the Commission of any installments after the date that said installment is due shall not be a waiver of the Permittee's obligation to pay any future installments when they become due and payable.

EXHIBIT "G-1"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the State Highway Commission relocates or realigns a state highway, or any section thereof, and by reason of said relocation or realignment, there is eliminated from the original route of the highway, any section thereof, the eliminated sections shall:

(a) If needed for service of persons living thereon or communities served thereby, be maintained by the Commission at state expense, or by the county or by state and county, under terms and conditions agreed upon; or

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, revert to the abutting property owners, unless, in the judgment of the Commission, some of said sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the Hermiston Highway, State Secondary Highway No. 333, known as the Hinkle-Bucks Corner Section located in Umatilla County, the northerly terminus of which is at relocated Highway Engineer's Survey Station 4+00 and the southerly terminus of which is at relocated Highway Engineer's Survey Station 68+00 on the relocated highway, and said relocated section of highway has now been completed and is open to public travel; and

WHEREAS, due to the relocation of the aforesaid section, certain portions of the former right of way are no longer needed for right of way purposes and may be eliminated as sections of the said relocated Hermiston Highway, State Secondary Highway No. 333, which said sections are designated as Units "A", "B" and "C". Units "A" and "B" are shown colored in brown on the map attached hereto, marked "Exhibit A" and by this reference made a part hereof and Unit "C" is shown colored in red on said "Exhibit A"; and

WHEREAS, Umatilla County and the State Highway Commission entered into an agreement on the 14th day of December, 1955, relating to the disposition to be made of the said sections of said original Hermiston Highway, State Secondary Highway No. 333, and which are subject to elimination; and

WHEREAS, said agreement provided that the State, by resolution and upon completion of the relocated sections of said highway, would formally eliminate said Units "A" "B" and "C" as part of the Hermiston Highway, State Secondary Highway No. 333, and from the state highway system, and that all right, title and interest which State has in said Units "A" and "B" would pass to and vest in the owner or owners of the property abutting

thereon and that all the right, title and interest which State has in Unit "C" would pass to and vest in County and that the County would accept jurisdiction over and all the right, title and interest which State has in said Unit "C", for the purpose of maintaining it as a county road as long as needed for the service of persons living thereon or communities served thereby; and

WHEREAS, in the judgment of the Commission, Units "A" and "B" are no longer needed for state highway right of way purposes or for the service of persons living thereon or communities served thereby, or for any public use and therefore may be eliminated from the boundaries of the relocated highway; and

WHEREAS, in the judgment of the Commission, certain other sections of the right of way of the former and the relocated Hermiston Highway, State Secondary Highway No. 333, together with real property acquired by State for right of way and other public purposes, are needed and are valuable for public use and title should remain in the public. The section in which title is retained by State is shown colored in green on the map attached hereto, marked "Exhibit A"

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. That by reason of the relocation of the Hinkle-Bucks Corner Section of the Hermiston Highway, State Secondary Highway No. 333, the hereinafter described sections of the right of way of the former Hinkle-Bucks Corner Section of the Hermiston Highway, State Secondary Highway No. 333, are no longer needed by the State of Oregon and are no longer required as part of the said new right of way of the said relocated Hermiston Highway. The said sections are identified as Units "A", "B" and "C" as shown on said "Exhibit A" and are described as follows:

Unit "A"
All the land situated within the right of way boundaries of the Hermiston Highway as formerly routed beginning at the center of the Umatilla River in the southeast quarter of the northwest quarter (SE¼-NW¼), Section 28, Township 4 North, Range 28 East, W.M.; thence southwesterly via said highway as formerly routed to the easterly line opposite Highway Engineer's Survey Station 29+50 of a parcel of State-owned right of way in the southeast quarter of the northwest quarter (SE¼-NW¼), Section 28, Township 4 North, Range 28 East, W.M.

Unit "B"
All the land situated within the right of way boundaries of the Hermiston Highway as formerly routed beginning at a place on said former highway opposite and easterly of Highway Engineer's Survey Station 29+50 of a parcel of State-owned right of way in the southeast quarter of the northwest quarter, (SE¼-NW¼), Section 28, Township 4 North, Range 28 East,

EXHIBIT "G-1" (Cont)

W.M.; thence southwesterly via said former highway to the easterly line opposite Highway Engineer's Survey Station 31+90 of said parcel of State-owned right of way in the southeast quarter of the northwest quarter (SE¼-NW¼), Section 28, Township 4 North, Range 28 East, W.M.

Unit "C"
All the land situated within the right of way boundaries of the Hermiston Highway as formerly routed beginning at Highway Engineer's Survey Station 7+14.5 of said former highway in the southeast quarter of the northwest quarter (SE¼-NW¼), Section 28, Township 4 North, Range 28 East, W.M.; thence southerly via said former highway to the northerly right of way line opposite Highway Engineer's Survey Station Y71+10 of said highway as relocated on the east-west center line of Section 33, Township 4 North, Range 28 East, W.M.

2. That pursuant to the agreement entered into with Umatilla County on the 14th day of December, 1955, Unit "C" as heretofore described and shown colored in red on the attached map, marked "Exhibit A" is hereby duly eliminated as part of the Hermiston Highway, State Secondary Highway No. 333 and the state highway system, and that all right, title, interest and jurisdiction which State has in said Unit "C" hereby passes to and vests in said Umatilla County.

3. That Units "A" and "B", as heretofore described, and as shown colored in brown on attached map, marked "Exhibit A", are hereby duly eliminated as part of the Hermiston Highway, State Secondary Highway No. 333, and the state highway system, and that all right, title and interest which State has in said Units "A" and "B" hereby passes to and vests in the owner or owners of the property abutting thereon.

4. That title shall remain in State to that portion of the right of way of the former and of the said relocated section of the Hermiston Highway, State Secondary Highway No. 333, known as the Hinkle-Bucks Corner Section in Umatilla County, together with real property acquired by State for right of way and other public uses as shown colored in green on said "Exhibit A" attached hereto.

5. That this resolution shall be entered in full in the minutes and records of the Oregon State Highway Commission this 16th day of January, 1958, as Abandonment and Retention Resolution No. 346, and the Secretary is ordered to mail a duly certified copy thereof to the County Court of Umatilla County.

EXHIBIT "G-1" (Cont)

FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 346, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the relocated East Unit, Camp Creek-Paulina Section of the Paulina Secondary Highway No. 380, located in Crook County, the southwesterly terminus of which is at Highway Engineer's Survey Station 165+00, and the northeasterly terminus of which is at Highway Engineer's Survey Station 589+93 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right-of-way is no longer needed for right-of-way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Crook County and the State Highway Commission entered into an agreement on the 22nd day of March, 1957, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be eliminated, to County by State, as part of the Paulina Highway; and that Unit "A" would be maintained thereafter by County as part of the county road system as long as needed for the service of persons living thereon, or communities served thereby; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right-of-way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said realignment:

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right-of-way which by reason of the relocation of the East Unit, Camp Creek-Paulina Section of the Paulina Highway is no longer needed as part of the new right-of-way, is identified as Unit "A" and described as follows:

Unit "A".

All the land situated within the right-of-way boundaries of the Paulina Highway as formerly routed, beginning at the southerly right-of-way line opposite Highway Engineer's Survey Station 558+30 of said highway as relocated in the southeast quarter of the northwest quarter (SE¼-NW¼), Section 4, Township 17 South, Range 23 East, W.M.; thence northeasterly via said highway as formerly routed to the southerly right-of-way line opposite Highway Engineer's Survey Station 589+45 of said highway as relocated

EXHIBIT "G-2" (Cont)

in the northeast quarter of the northeast quarter ($NE\frac{1}{4}$-$NE\frac{1}{4}$), Section 4, Township 17 South, Range 23 East, W. M.

2. Pursuant to the agreement entered into with Crook County on the 22nd day of March, 1957, Unit "A", indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is hereby duly eliminated as part of the Paulina Highway and the state highway system; and all right, title, and interest which the State has in the right-of-way of Unit "A" herein described, passes to and vests in said Crook County.

3. The right-of-way of the former and of the relocated East Unit, Camp Creek-Paulina Section of the Paulina Highway, together with the real property acquired by the State for roadway right-of-way and other public purposes, as indicated in green on Exhibit "A" attached hereto, shall be retained and held by State.

4. This Abandonment and Retention Resolution No. 327, be entered in the minutes and records of the Oregon State Highway Commission as of the 16th day of January, 1958, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Crook County.

FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 327, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-1"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: N. E. Portland Secondary Highway

Highway number 123 Route number US 30 By-pass

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
2.05 (E. city limits of) (Portland	3.46 (N.E. Cully Blvd.)	45

except that between M.P. 2.50 and M.P. 2.67 the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104.

3.46 (N.E. Cully Blvd.)	4.20 (N.E. 82nd Ave.)	35
4.20 (N.E. 82nd Ave.)	5.10 (N.E. Sandy Blvd.)	45

EXHIBIT "H-1" (Cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 71 adopted October 11, 1951.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 71a be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "H-2"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway

Highway number 1 Route number US99

167.70 (0.16 mi. S. of 1st St.)	168.41 (9th Street)	40

except that in the section between a point 0.04 mile north of 4th Street (M.P. 167.83) and a point 0.04 mile south of Main Street (M.P. 168.08) the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104.

EXHIBIT "H-3" (Cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 132, adopted January 21, 1954.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 132a be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "H-4"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following:

Name of highway: North Frontage Road to Columbia River Highway

Highway number: _____ Route number: _____

Location of Termini	Established Speed M.P.H.
From the west end of the North Frontage Road at US30 (M.P. 80.62) to the west city limits of The Dalles (M.P. 81.66)	40

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "H-4" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 206, adopted on August 11, 1955.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 206a be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "H-5"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Mt. Hood Highway

Highway number 26 Route number US26

Speed Zone Resolution No. 189, adopted May 25, 1955 is amended as follows:

DELETE:

"Except between a point 300 feet west of S.E. 14th Avenue (M.P. 8.42) and a point 0.12 mile east of S.E. 145th Avenue (M.P. 8.63) the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104."

EXHIBIT "H-5" (Cont.)

ADD:

"Except that between S. E. 145th Avenue (M.P. 8.30) and S. E. 148th Avenue (M.P. 8.46) the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104."

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 189a be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

29492

EXHIBIT "H-6"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: T.H. Banfield Expressway and temp. ramp connection to N.E. Third Avenue

Highway number 56 Route number US30

Location of Termini	Established Speed M.P.H.
westbound portion of the T.H. Banfield Expressway and temporary ramp connection to N.E. Third Avenue between Engineer's Stations 16+50 and 30+00	25

EXHIBIT "H-6" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 267 be entered in the minutes and records of the Commission as of the 16th day of January, 1958.

EXHIBIT "I"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the Columbia River Highway No. 2, is a state highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on both shoulders of said highway between M.P. 108.17 and M.P. 108.28; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles between curbs on either shoulder of the Columbia River Highway between M.P. 108.17 and M.P. 108.28 creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width between curbs to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles between curbs on the shoulders of said highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking " Resolution No. 189 be entered in the minutes and records of the State Highway Commission as of the 16th day of January, 1958.

29495

EXHIBIT "J"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, Section ORS 366.140, Oregon Laws, directs the State Highway Commission to appoint an Auditor who shall be charged with the duty of handling the fiscal affairs of the Commission; and

WHEREAS, said law further provides that the Commission shall fix the salary of the Auditor and shall prescribe his duties and functions, and that the said Auditor shall serve at the pleasure of the Commission, but shall not serve for a period in excess of four years without reappointment; and

WHEREAS, Clifford H. Maison is duly qualified by training and experience to perform the duties and obligations of the position of Auditor, and has served satisfactorily in that capacity since his appointment on July 22, 1953; and

WHEREAS, the Commssion after considering his record and qualifications, wishes to reappoint Clifford H. Maison as Auditor for the Commission for a new term of four years;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That Clifford H. Maison be and he hereby is reappointed as Auditor and is hereby charged with the duty of handling the accounting and fiscal affairs of the State Highway Commission for a term of four years commencing on the 22nd day of July, 1957.

2. That the salary to be paid to Clifford H. Maison as Auditor shall be the maximum salary as approved by the Civil Service Commission and the Department of Finance and Administration for an Accounts Executive III, and in addition thereto the said Clifford H. Maison shall be entitled to receive reimbursement for such actual traveling and other necessary expenses as may be incurred by him in the performance of his official duties.

3. That before entering upon the duties of his position as Auditor the said Clifford H. Maison shall give to the State of Oregon a fidelity bond executed by a corporate insurance company duly licensed to transact the business of surety within this state in a penal sum of $50,000 conditioned for the faithful discharge by him of the duties of his position, for the faithful performance by all persons employed by him of their duties and trusts, and for the transfer and delivery to his successor, or to any other person designated by the Commission, of all monies, books, papers, records, and other articles or effects belonging to the position.

EXHIBIT "J" (Cont)

4. That a copy of this resolution be certified by the Secretary of this Commission and by him filed with the Secretary of State and the State Treasurer, together with a sample of the signature of Clifford H. Maison as auditor.

5. That this resolution be entered in the minutes and records of this Commission as of the 16th day of January, 1958, as Miscellaneous Resolution No. 90a.

29497

EXHIBIT "K-1"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Grants Pass-Rock Point Section of the Pacific Highway in Josephine and Jackson Counties, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by his Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Grants Pass-Rock Point Section of the Pacific Highway, beginning at Highway Engineer's Station 45+57.04, a short distance north of the city of Grants Pass, and extending in a southerly and easterly direction to Highway Engineer's Station 819+00, near Rock Point, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1049, dated July 1957 (Right-of-Way Map No. 8B-6-1, 2, 3, 4 and 5 dated July , 1957) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

4. That heretofore this Commission by resolution dated November 3, 1948, designated the said Pacific Highway as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the

EXHIBIT "K-1" (Cont.)

"Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 16th day of January, 1958, as Survey Resolution No. 167.

EXHIBIT "K-2"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways in Josephine County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Redwood Interchange Section of the Redwood, Pacific, and Williams Secondary Highways beginning at Highway Engineer's Station 1335+50 on the Pacific Highway on Seventh Street in the city of Grants Pass and extending in a southerly and westerly direction to Highway Engineer's Station 1389+00 on the Redwood Highway to Highway Engineer's Station 1370+86 on the Williams Secondary Highway south of Grants Pass, and thence to Highway Engineer's Station 1371+84 on the Pacific Highway south and east of Grants Pass, together with the map, which for identification purposes, bears Sketch Map file No. 1R-5-1108, dated January 1958 (Right-of-way No. 1A-13-10, dated January, 1958) together with the field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

EXHIBIT "K-2" (Cont)

4. That theretofore by resolution of this Commission dated November 3, 1948, the said Pacific Highway and said Redwood Highway were designated as "Throughways" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of the said Redwood and said Pacific highways shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 16th day of January, 1958, as Survey Resolution No. 172.

EXHIBIT "K-3"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Richardson-Siuslaw River Section of the Richardson-Eugene Highway in Lane County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Richardson-Siuslaw River Section of the Richardson-Eugene Secondary Highway, beginning at Highway Engineer's Station 467+05.3 near the community of Richardson and extending in an easterly direction along the southerly side of the Siuslaw River to Highway Engineer's Station 640+50, near the railroad station of Austa, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1093, dated January, 1958, (Right-of-Way Map No. 5B-21-15, dated March, 1939) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 16th day of January, 1958, as Survey Resolution No. 166.

EXHIBIT "L-1"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Sunset Highway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "L-1" (Cont)

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said Sunset Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no right of access of any nature between the right of way of the said Sunset Highway, including the Murray Road traffic interchange, and including the connecting road between N. W. Glenridge Drive and Sherry Street, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 910.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 910, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29505

EXHIBIT "L-2"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Tunnel-Namorf Section of the Central Oregon Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

EXHIBIT "L-2" (Cont)

needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled, as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Tunnel-Namorf Section of the Central Oregon Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Central Oregon Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Tunnel-Namorf Section of the Central Oregon Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of

EXHIBIT "L-2" (Cont)

real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 911.

*FOOTNOTE

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 911, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full here in.

EXHIBIT "L-3"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Portland-Bonneville Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

needed for the highway proper; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Portland-Bonneville Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway, including the Sundial-Troutdale traffic interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of said Portland-Bonneville Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

EXHIBIT "L-3" (Cont)

Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 912.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 912, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29511

EXHIBIT "L-4"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

EXHIBIT "L-4" (Cont)

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 913.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 913, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-5"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right or access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

EXHIBIT "L-5" (Cont)

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of the highway of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner of the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event

that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 914.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 914, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29517

EXHIBIT "L-6"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providinga highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and widening in part, relocation in part, construction, improvement and maintenance of the said Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is

EXHIBIT "L-6" (Cont)

by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs, and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 915.

*FOOTNOTE

The name of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, is attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 915, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29519

EXHIBIT "L-7"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

EXHIBIT "L-7" (Cont)

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners as specified. Where specified on the attached list marked "Exhibit A", there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

EXHIBIT "L-7" (Cont)

Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 916.

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 916, under the heading "Real Property Condemnation Resolution," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-8"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hilgard-LaGrande Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

EXHIBIT "L-8" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination

EXHIBIT "L-8" (Cont)

such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 917.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 917, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29525

EXHIBIT "L-9"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pioneer Summit Unit, Toledo-Eddyville Section of the Corvallis-Newport Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pioneer Summit Unit, Toledo-Eddyville Section of the Corvallis-Newport Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "L-9" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Corvallis-Newport Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Pioneer Summit Unit, Toledo-Eddyville Section of the Corvallis-Newport Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 918.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 918, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29527

EXHIBIT "L-10"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

EXHIBIT "L-10" (Cont)

needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 919.

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 919, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-11"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hilgard-LaGrande Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not

immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Hilgard-La Grande Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of

29533

EXHIBIT "L-12"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "L-12" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to

attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 921.

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 921, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-13"

Minutes of January 16 and 17, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate and maintain the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of relocating and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation and maintenance of the said Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining

EXHIBIT "L-13" (Cont)

after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation and maintenance of the said Newberg-Gearin Corner Section of the said Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of January, 1958, as Condemnation Resolution No. 938.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcels of real property mentioned in this resolution, together with map are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 938, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
February 27, 1958

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who stated that the Commission would announce awards of contracts at 4:00 p.m. in the same room:

The Commission approved the minutes of meetings held December 5 and 6, 1957 and January 16 and 17, 1958.

The Parks Superintendent reported on the following park matters:

1. Agreement with Crown Zellerbach Corporation extending to December 31, 1958 the right of the State to remove rock from the Corporation's quarry near Cape Lookout State Park: The Parks Superintendent reported that the agreement involves no cost to the State. Upon his favorable recommendation the agreement was approved by the Commission.

2. Proposed agreement with Consumers Power, Inc., Corvallis, for a power line extension into Detroit Lake State Park: Power service in this park, the Parks Superintendent stated, is needed in both the overnight camping and day use area. The estimated cost to provide the service, he said, is $2,545, for which the power company is requesting an agreement providing for an annual payment in a minimum amount of $240.00 for the next ten years. It was his feeling that the amount of power consumed yearly should be at least equal the annual minimum payment and he recommended approval of the agreement. The Commission approved the agreement.

3. Proposed supplemental agreement with Central Lincoln Peoples' Utility District extending electrical power installation in Fogarty Creek State Park: Developments in the park have necessitated additional electrical

facilities, the Parks Superintendent stated. To provide this service it is necessary that the Utility District move one pole and extend the line 375 feet to the east, which, with the necessary transformers, is estimated to cost $645.87. To amortize this move the district has requested that the original agreement, which provided for payment of $108.00 annually, be increased to $144.00 annually for a period of five years. It was his opinion that the total power bill should equal or exceed the revised annual payment. Upon his favorable recommendation, the Commission approved the agreement.

4. Construction of a fence around the east portion of Beverly Beach State Park: The Parks Superintendent explained that in acquiring property for an overnight camping area the Oregon Pulp and Paper Company which owned the land, requested and the Commission approved fencing the extended area. To comply with the terms of the land sale, he recommended that approximately 7,000 lineal feet of fence be installed by contract at an estimated cost of $5,000.00, the contracting to be performed as soon as plans can be prepared. The Commission approved the project as recommended.

5. Request of the State Parks Advisory Committee that a study be made to determine the need for state parks along the Pacific Highway Interstate route: The Parks Superintendent commented that some studies have been made but additional data is needed. The Commission authorized the Parks Superintendent to conduct a complete study of the situation.

6. Request of National Park Service that the State maintain park facilities at Howard Prairie Reservoir in Jackson County: The Parks Superintendent state that a partial study of this matter indicates that the use would be largely local, probably not exceeding 20,000 visitors annually and that the cost to maintain the area would be about $3500.00 annually or approximately 17.5 cents per visitor. The amount of 15 cents per annual visitor has been established, he continued, as the maximum figure justified in recommending a project. The Game Commission also has expressed doubt that trout can be maintained in the lake, which if true, would lessen the fishermen interest. Also, the amount of drawdown during the summer months would leave a mud flat varying from 100 to 150 feet wide. The matter has been discussed with the Parks Advisory Committee who felt that action should be deferred until more information is available. He recommended that his study of the project be continued and that no action be taken at this time. The Commission approved his recommendation.

7. Request of Columbia River Gorge Commission that the State purchase 26 acres of land adjoining Shepperd's Dell State Park in the Columbia River Gorge: This property, the Parks Superintendent recalled, was considered at a previous meeting, with the understanding that it be acquired if purchase could be made at the appraised value. Mr. and Mrs. Edward K. Sheahan, the owners, are willing to accept the appraised value of $3,881.25. As the property adjoins the existing park area and has value as an addition to the park, he recommended that the property be acquired at the appraised value. The Commission approved the acquisition.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway right-of-way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is madea part hereof with like effect as though extended in full herein.

In considering the options, the Right of Way Engineer recommended that the option taken from John H. and Cecelia Lucille Holton, File 27355, on the North Tigard Interchange Section of the Pacific Highway, in the amount of $12,560.00, be rejected as the Bureau of Public Roads has indicated that it will not participate because the cost is too high. If a satisfactory price cannot be negotiated he also recommended that authority be granted to condemn. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I-15" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Property Manager's monthly report showing miscellaneous sales, rental terminations, and new rentals was presented by the Right of Way Engineer. During this period, miscellaneous sales amounted to $4,608.95 and rental receipts were $9,726.20. The Commission accepted the reports.

Changes in points of access to highways at 4 locations were presented by the Right of Way Engineer who stated that the access change proposed for Buffington in Gold Beach on the Oregon Coast Highway provides that entrance to this proposed service station property be widened from 25 feet to 40 feet, but the other changes are strictly routine to better accommodate the property owners and to provide greater safety for the traveling public. He added that in no case is additional access allowed. On his recommendation the Commission approved the following indentures of access:

a. Schwering property, File 25129, on the Finn Rock-Elk Creek Section of the McKenzie Highway in Lane County.

b. Owens property, File 12341, on the Zigzag-Rhododendron Section of the Mt. Hood Highway in Clackamas County.

c. Davis property, File 20973, on the Seven Oaks-Medford Section of the Pacific Highway in Jackson County.

d. Buffington property, File 25518, on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County.

Authority was requested by the Right of Way Engineer to spend approximately $1,000.00 to repair the former Mack Truck Building on the Front Avenue Section of the Pacific Highway West in Portland. He explained that repairs to windows, doors, and some painting is needed in order to preserve the value of the building. The Commission approved the expenditure.

A "Release and Waiver of Restrictions of Access Use" form pertaining to access for the Inland Radio, Inc., to the Old Oregon Trail Highway south of the City of La Grande was discussed. Chairman Reynolds commented that the Commission at a previous meeting tentatively approved relaxation of access restriction at this location. He also remarked that the property has been sold and there is a possibility that the new owner may ask for a new access. The Commission approved the "Waiver of Restrictions" form as presented.

Consideration was given to the conveyance of 0.22 acre of excess highway property to Josephine County for county road purposes. The parcel of land involved, the Right of Way Engineer explained, lies on the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and is not needed for state highway purposes. The County proposes to construct a county road in the vicinity of the Grants Pass Interchange and has asked that this parcel, which is a part of the former Harvey property, be deeded to the county and the Bureau of Public Roads offers no objections. Upon his favorable recommendation, the Commission approved deeding the land to the County for the sum of $1.00.

The Right of Way Engineer requested authority to sell several parcels of property that are no longer needed for highway purposes. The Commission authorized public sale of the following parcels:

a. 0.28 acre of the former Buckley property (File 6193) on the Provolt-Ruch Section of the Medford-Provolt Highway in Jackson County for a minimum price of $125.00.

b. Lots 5 and 6 of Block 2, Georgetown Addition in St. Helens (File 5860) on the Columbia River Highway, Columbia County, for a minimum price of $300.00.

c. 0.69 acre of the old former Arney property (File 20360) on the Willamette River-Gervais Road Section of the R. H. Baldock Freeway, for a minimum price of $450.00.

d. 0.53 acre of the former Lock property (File 19453) on the Salem By-pass Section of the Pacific Highway East in Marion County, for a minimum price of $1,500.00. Sale of this property was authorized by the Commission by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer also requested authority to sell to Mr. G. V. Wright by direct sale for a minimum price of $100.00, 0.33 acre of the former Smith property on the Jefferson Section of the old Pacific Highway (File 27713). The Commission granted the request.

The Right of Way Engineer recommended and the Commission approved out-of-state travel expenses for W. H. Haskin, Property Manager, to go to Seattle, Washington, March 3-6, 1958, to observe the procedure followed

by the state of Washington in connection with moving some large buildings from highway right of way. Similar conditions, he said, may be encountered in Portland. He estimated cost of the trip at $60.00.

Consideration was given to selling to the Union Pacific Railroad Company three parcels of property located on the Shogren-Rowena Section of the Columbia River Highway in Wasco County. These parcels, the Right of Way Engineer explained, are no longer needed for highway purposes and do not adjoin the highway. He recommended that they be sold to Union Pacific Company for the sum of $2,060.00, which represents the fair market value of the land. The Commission approved the sale.

Expenditure of $312.50 was requested by the Right of Way Engineer to reroof the former Bailey property that is now rented for $85.00 per month and is located on the Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County. He commented that the house will be rented until the Freeway section is completed and that $312.50 was the low bid for the roofing. The Commission approved the expenditure.

The Right of Way Engineer requested authority to use State Highway appraisers only in acquiring right of way needed for the Lancaster Drive-Gun Club Section of the North Santiam Secondary Highway in Marion County. He pointed out that the policy in the past has been to get one outside fee appraisal on property valued at more than $10,000 and two outside appraisals on property valued at $20,000 and more. In many cases, it has been difficult to get the two outside appraisers to appraise property on the same basis and such appraisals have at times presented widely varying figures, which has made it difficult to secure Bureau of Public Roads approval on the price to be paid for right of way. It was his feeling that the State has competent appraisers and he requested authority to use them in acquiring right of way for the Lancaster-Gun Club Section with the thought in mind that the same procedure may be used in the future on other projects if this one proves to be satisfactory. The Commission approved his request.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-27282 - Portland General Electric Company
Right of Way (Multnomah County)
0.33 acre

R-27350 - Thomas T. Hopkins and Rose M. Hopkins

R-26327 - Homer C. Parrett and Blanche E. Parrett
Right of Way (Yamhill County)
0.87 acre

R-26332 - Neal K. Grimstad and Elsie I. Grimstad
Right of Way (Yamhill County)
1.67 acres

R-26334 - Clyde H. Brawley and Ethel B. Brawley
Yamhill County
Parcel No. 1: 1.18 acres for Right of Way
Parcel No. 2: 0.23 acre for Right of Way

R-26337 - Carl E. Payne and Ava F. Payne
Right of Way (Yamhill County)
0.9 acre

R-26338 - Walter C. Gaibler and Lois B. Gaibler
Right of Way (Yamhill County)
0.22 acre

Ontario-Snake River Section of the Old Oregon Trail Highway

R-25860 - A. F. Toedter and C. H. Toedter, et al.
Malheur County
Parcel No. 1: 3.98 acres for Right of Way
Parcel No. 2: 4.07 acres for Excess Taking

R-27433 - J. M. Brown and Kate Fiser, et al.
Right of Way (Malheur County)
323 square feet

Sunset Highway

R-27590 - Humphrey Parry and Flossie Parry
Right of Way (Multnomah County)
31,495 square feet

February 27, 1958

Columbia River Highway

R-27693 - Mary K. Chamberlin
Acquisition of Roadbuilding Materials (Wasco County)
0.7 acre

R-27694 - Dolly Robinson
Acquisition of Roadbuilding Materials (Wasco County)
1.1 acres

Hilgard-La Grande Section of the Old Oregon Trail Highway

R-27072 - Jerald Cantrell and Alice May Cantrell, et al.
Right of Way (Union County)
9.0 acres

Richardson-Siuslaw River Section of the Richardson-Eugene Highway

R-27524 - International Paper Company
Lane County
Parcel No. 1: 1.08 acres for Right of Way
Parcel No. 2: 0.02 acre for a Temporary Construction Easement

R-27597 - Glenn W. Anderson and Mildred A. Anderson
Right of Way (Lane County)
0.1 acre

Butte Creek-Burton Canyon Section of the John Day Highway

R-26857 - Robert C. Jenkins, et al.
Wheeler County
Parcel No. 1: 14.2 acres (net) for Right of Way
Parcel No. 2: 0.57 acre for a Permanent Easement
Parcel No. 3: 0.32 acre (net) for Right of Way

R-26861 - Joseph R. Thomas
Right of Way (Wheeler County)
1.35 acres (net)

Pacific Highway West

L-2764 (R-25590) - Jane Ann Costello, et al.
Right of Way (Multnomah County)
1.21 acres
Amended resolution to revise description

Eckman Slough Section of the Alsea Highway

R-26112 - Fern Bolton and Bert Bolton
Right of Way (Lincoln County)
0.8 acre

February 27, 1958

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East)

R-25184 - Hubert F. Willoughby and Naomi I. Willoughby
Lane and Linn Counties
Parcel No. 1: 4.43 acres for Right of Way
Parcel No. 2: 1.81 acres for Right of Way
Parcel No. 3: 37.90 acres (net) for Right of Way
Parcel No. 4: 1.57 acres for a Haul Road
Parcel No. 5: 21.5 acres for a Material Source
Parcel No. 6: 0.48 acre for a Temporary Construction Easement

R-25189 - Juanita Wilkins Crews and John W. Crews
Lane County
Parcel No. 1: 31.4 acres for Right of Way
Parcel No. 2: 0.34 acre for Right of Way
Parcel No. 3: 0.31 acre for an Easement for Irrigation Ditch
Parcel No. 4: 0.81 acre for Temporary Easement for Detour Road
Amended resolution to change access control language

R-25383 - Edward W. Poland and Elaine M. Poland
Linn County
Parcel No. 1: 13.62 acres for Right of Way
Parcel No. 2: 5.0 acres for a Channel Change
Parcel No. 3: 1.6 acres for Right of Way
Parcel No. 4: 0.2 acre for Excess Taking
Amended resolution to acquire additional property for the Linn West County Road Overcrossing

R-25595 - Delazon C. Smith, et al.
Right of Way (Linn County)
22.67 acres

R-25596 - Oscar W. Olson and Emma Olson
Linn County
Parcel No. 1: 49.15 acres (net) for Right of Way
Parcel No. 2: 0.6 acre (net) for Right of Way

R-25597 - Fred C. Grell and Leona V. Grell
Right of Way (Linn County)
0.56 acre

R-25671 - Madeline Jo Lynch
Linn County
Parcel No. 1: 44.35 acres (net) for Right of Way
Parcel No. 2: 0.18 acre for a Haul Road
Amended resolution to authorize condemnation of Parcel No. 2

R-25900 - Earl E. Lansing and Iretha H. Lansing
Right of Way (Linn County)
9.64 acres
Amended resolution to change access control language

February 27, 1958

Myers Creek-Brookings Section of the Oregon Coast Highway and Samuel H. Boardman State Park

R-14758 - Paul de Block and Rachel de Block
Curry County
Acquisition of certain real property interests for right of way and for the enlargement and maintenance of the Samuel H. Boardman State Park

R-14759 - Nicholas Baumgartner and Alwina Baumgartner
Curry County
Acquisition of certain real property interests for right of way and for the enlargement and maintenance of the Samuel H. Boardman State Park

R-14760 - Delmer Colegrove, Jr., and Laura Colegrove, et al.
Curry County
Acquisition of certain real property interests for right of way and for the enlargement and maintenance of the Samuel H. Boardman State Park

R-15701 - G. C. Warterfield, et al.
Right of Way (Curry County)
Acquisition of certain real property interests for right of way and for the enlargement and maintenance of the Samuel H. Boardman State Park

R-26921 - E. B. Salmon and Edith R. Salmon
Curry County
Parcel No. 1: 4.7 acres for Right of Way
Parcel No. 2: 0.4 acres for Excess Taking
Amended resolution to reduce area of Parcel No. 1

R-27528 - Nettie Martin and B. A. Martin
Curry County
Parcel No. 1: 10.4 acres for Right of Way
Parcel No. 2: 1.05 acres for Slope Easement

R-27529 - Donnia N. Eggers
Right of Way (Curry County)
7.96 acres

R-27530 - Charles H. Skinner and Esther W. Skinner
Curry County
Parcel No. 1: 10.76 acres for Right of Way
Parcel No. 2: 0.68 acre for Slope Easement
Acquisition of certain real property interests for right of way and for the enlargement and maintenance of the Samuel H. Boardman State Park

February 27, 1958

R-27543 - Delmer Colegrove, Jr., and Laura Colegrove
Right of Way (Curry County)
3.7 acres

L-2931 (R-26915) - Maude Mosier Longacre
Right of Way (Curry County)
10.0 acres
Amended resolution to include construction item and convey an easement

Judkins Point-Goshen Section of the Pacific Highway

R-26700 - Varian C. Mounts and Laura D. Mounts
Right of Way (Lane County)
4.5 acres

R-26701 - George Mounts and Minnie D. Mounts
Right of Way (Lane County)
0.6 acre

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

R-26354 - D. D. Hall and Willene B. Hall, et al.
Right of Way (Douglas County)
8,600 square feet

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-27355 - John H. Holton, et ux.
Right of Way (Multnomah County)
10,200 square feet

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action was deferred by the Commission pending further study.

The Commission approved the condemnations on the following day.

A report was presented by the Chief Counsel and accepted by the Commission concerning condemnation cases that have been tried in court since the last Commission meeting, details of which are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
January 17, 1958 to February 27, 1958

Condemnation Cases on next page.

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Matthews R-21043 R-25810	Douglas	Pacific	Myrtle Creek-Canyonville	$ 7,500	$ 18,500	$ 14,150

State v. Lester J. Horigan, et al R-25853	Jefferson	The Dalles - California	Willowdale-Madras	$8,500	$ 35,000 Answer	$ 12,500

February 27, 1958

Condemnation Cases Tried (Cont.)

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
State v. Ray Parker, et al R-22723	Multnomah	Portland-Salem Expressway	Harbor Dr. Barbur Blvd.	$ 6,250	---	$ 6,250

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2523	State	Warnock	Curry	Damage action Timber trespass	$	Judgment $640.80 (Triple damages)
L-2607	Folston	State Highway Commission	Wheeler	Inverse Condemnation Flood case in Mitchell	Complaint $20,000 + $ 6,000 attorney fees. Testimony - $20,286.	$ 12,500
L-2782	Pacific Mutual Ins. Co.	State Highway Commission, Lazar Purigraski, et al.	Lane	Foreclosure of mortgage	No monetary claim against State	Stipulation that State have title to land needed for right of way upon payment into Court of $ 1,300.

(For additional details, see tabulations attached to the Chief Counsel's letters, dated February 24 and February 26, 1958, entitled "Report of Cases Tried", in the General Files).

The Chief Counsel also mentioned the Texaco Service Station in Mitchell owned by P.M. Shown which was damaged by flood waters. He said that there is a question whether the case should be defended on the basis of taking the entire property or on the basis of damage caused by the flood. He recommended that the case be tried on the basis of damage caused by flood waters. The Commission approved his recommendation.

The Commission considered and accepted a report from the Chief Counsel on condemnation cases which have been settled out of court since the last Commission meeting, details of which are summarized as follows:

29556

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Duffy, et al R-26995	Multnomah	Pacific	Harbor Drive Barbur Blvd.	$ 3,950	$ 3,950
Dames, et al R-26535	Washington	Tualatin	Forest Grove-Hillsboro	$ 1,200	$ 1,200
Azar, et ux. R-26994	Multnomah	Pacific	Harbor Drive-Barbur Blvd.	$ 1,200	$ 1,200
Bennett, et al R-20205	Lane	Pacific	Judkins Point-Goshen	$ 9,754	$ 10,200
Calkins, et al R-24652	Tillamook	Oregon Coast	Neskowin-Salmon River	$ 5,710 for land, fencing and timber	$ 3,000
Davidge, et al R-26534	Washington	Tualatin	Forest Grove-Hillsboro	$ 1,700	$ 1,700

(For additional details see tabulations attached to the Chief Counsel's letters of February 24, and 26, 1958, entitled "Report of Cases Settled", and "Supplemental Report of Cases Settled", in the General Files).

In conformity with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented and the Commission approved offers that were tendered to the owners for acquisition of real property prior to the

institution of condemnation proceedings, as follows:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-19388 - Daniel F. Creary, et ux. 34,472 square feet for right of way purposes. Offer of $6,500.00 approved by Mr. McIver January 24, 1958.

R-22485 - Carl N. Burgard, et ux. 10,000 square feet for right of way purposes and 10,000 square feet for excess taking. Offer of $1,950.00 approved by Mr. McIver January 23, 1958.

R-22766 - Evan T. Phillips, et al. 2,300 square feet for right of way purposes. Offer of $6,000.00 approved by Mr. McIver January 16, 1958.

R-22893 - Howard D. Hoops, et ux. 14,260 square feet for right of way purposes and 1,.750 square feet for excess taking. Offer of $2,550.00 approved by Mr. McIver January 27, 1958.

R-22902 - D. J. McClure, et ux. 5,000 square feet for right of way purposes. Offer of $800.00 approved by Mr. McIver January 20, 1958.

R-22907 - Ronald B. Gustaff, et ux. Two parcels of 7,000 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver January 21, 1958

R-23680 - T. M. Thorsen, et ux. 5,000 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver January 20, 1958.

R-24072 - Inga Howe. 4,875 square feet for right of way purposes and 2,350 square feet for excess taking. Offer of $4,800.00 approved by Mr. McIver January 20, 1958.

R-24842 - Lorne M. Snow, et ux. 6,750 square feet for right of way purposes. Offer of $3,215.00 approved by Mr. McIver January 27, 1958.

R-26724 - Frederick A. Larson, et al. 180 square feet for right of way purposes. Offer of $250.00 approved by Mr. McIver January 20, 1958.

R-26995 - Charles F. Duffy, et al. 1,014 square feet for right of way purposes. Offer of $3,950.00 approved by Mr. McIver January 28, 1958.

R-27001 - Carl J. Crouse, et al. 3,600 square feet for right of way purposes. Offer of $1,500.00 approved by Mr. McIver January 20, 1958.

R-27110 - A. J. Dreyer, et al. 8,260 square feet for right of way purposes. Offer of $600.00 approved by Mr. McIver January 21, 1958.

R-27266 - A. H. Edwards, et al. 4,188 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver January 27, 1958.

R-27267 - Mike Karaman, et ux. 13,500 square feet for right of way purposes. Offer of $1,925.00 approved by Mr. McIver January 20, 1958.

R-27448 - Ronald B. Gustaff, et al. 5,000 square feet for right of way purposes. Offer of $400.00 approved by Mr. McIver January 22, 1958.

Sunset Highway (Murray Road Interchange)

R-21835 - Harry Mittleman, Contractor, Inc., et al. 3.8 acres for right of way purposes. Offer of $29,550.00 approved by Mr. McIver February 17, 1958.

R-26959 - St. Andrew's Lutheran Church, et al. 0.23 acre for right of way purposes. Offer of $3,940.00 approved by Mr. McIver February 17, 1958.

R-26961 - Reul O. Wilkins, et al. 0.34 acre for right of way purposes. Offer of $17,500.00 approved by Mr. McIver February 17, 1958.

R-26962 - James R. Woodmansee, et ux. 0.44 acre for right of way purposes. Offer of $3,260.00 approved by Mr. McIver February 17, 1958.

R-26963 - Lester J. Wood, et al. Two parcels of 0.59 acre for right of way purposes. Offer of $21,500.00 approved by Mr. McIver February 17, 1958.

R-26964 - L. T. Graham, et ux. 0.34 acre for right of way purposes. Offer of $18,850.00 approved by Mr. McIver February 4, 1958.

R-26965 - Fred C. Shipps, Jr., et al. 0.14 acre for right of way purposes. Offer of $3,330.00 approved by Mr. McIver February 6, 1958.

R-26966 - J. Richard Eimers, et al. 0.07 acre for right of way purposes. Offer of $520.00 approved by Mr. McIver February 6, 1958.

R-26967 - Jan E. Bauer, et al. 0.09 acre for right of way purposes. Offer of $1,925.00 approved by Mr. McIver February 17, 1958.

R-26968 - Hoyt Corporation. 1,750 square feet for right of way purposes. Offer of $2,550.00 approved by Mr. McIver February 17, 1958.

Hilgard-La Grande Section of the Old Oregon Trail Highway

R-27104 - Kermit Ardell Braden, et al. 1.06 acres for right of way purposes. Offer of $50.00 approved by Mr. Reynolds February 4, 1958.

R-27107 - Leo G. Paulson, et ux. 17.4 acres for right of way purposes. Offer of $23,640.00 approved by Mr. Reynolds, February 3, 1958.

Portland-Bonneville Section of the Columbia River Highway

L-2903 (R-27162) - Chas. L. Abbott, et al. 2.45 acres for right of way purposes. Offer of $5,450.00 approved by Mr. McIver January 31, 1958. An offer of $5,400.00 was previously authorized by Mr. McIver November 26, 1957. This increase is due to additional property being acquired.

L-2906 (R-27163) - Theodore J. Schulte, et al. 0.47 acre for right of way purposes. Offer of $800.00 approved by Mr. McIver January 31, 1958. An offer of $450.00 was previously authorized by Mr. McIver November 27, 1957. This increase is due to additional property being acquired.

Toledo-Eddyville Section of the Corvallis-Newport Highway

R-26236 - C. P. Moore, et al. 9.77 acres for right of way purposes. Offer of $1,461.00 approved by Mr. Chessman February 4, 1958.

R-26240 - Charles Parker, et al. 8.4 acres for right of way purposes. Offer of $768.00 approved by Mr. Chessman February 4, 1958.

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway

R-27172 - August A. Schuler, et ux. 1,500 square feet for right of way purposes and 500 square feet for slope easement. Offer of $50.00 approved by Mr. McIver February 13, 1958.

L-2435, R-23163 - Albert Streiff, et ux. 0.23 acres for right of way purposes. Offer of $1,750.00 approved by Mr. McIver July 5, 1957.

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

R-26333 - Gladys F. Hamel, et vir. 0.27 acre for right of way purposes and 0.42 acre for excess taking. Offer of $6,500.00 approved by Mr. McIver February 6, 1958.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-26921 - Elmer Salmon, et ux. 4.7 acres for right of way purposes and 0.4 acre for excess taking. Offer of $4,600.00 approved by Mr. Chessman February 7, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25283 - E. G. McKenzie, et al. Three parcels of real property totaling 22.70 acres for right of way purposes. Offer of $4,650.00 approved by Mr. McIver February 6, 1958. (Benefits used to offset damage to remainder.)

R-25487 - James O. Randolph, et al. 1.32 acres for right of way purposes. Offer of $528.00 approved by Mr. McIver February 19, 1958.

Grants Pass (6th and 7th Sts.) Section of the Pacific Highway)

R-26498 - King Lumber Company. 113 square feet for right of way purposes. Offer of $170.00 approved by Mr. McIver February 6, 1958. (On July 16, 1957, it was reported that special benefits to this remaining property exceeded the value of property sought and damages to the remainder and, therefore, an amount of offer was not tendered to King Lumber Company. In view of change of benefit offset rule it is necessary to offer $170.00 for the real property sought to be acquired.)

The Chief Counsel presented a written report concerning an order issued by the Public Utilities Commissioner concerning railroad crossings in which the Highway Commission has been made a party, as follows:

PUX 251: City street crossings at grade by tracks of Southern Pacific Company across Seventh Place in Eugene. This matter arose upon application of Southern Pacific Company and does not involve any street under the jurisdiction of the Highway Commission.

The Chief Counsel reported institution of an action against the State Highway Commission by F. D. Logue and Loren Miller, owners of the John Cafe and Cocktail Lounge in the town of Rufus on the Columbia River Highway. They complain that the Commission threatens to cut off reasonable access to their property and have asked for a temporary injunction. The Chief Counsel recalled that Mr. Van Valkenburgh appeared before the Commission on December 6, 1957, concerning this matter, and that since this the State has erected some concrete posts near the cafe to protect traffic. It was his opinion that the State has not taken any improper action and that he will use all legal means to protect the interests of the State when the case comes up for hearing.

The Chief Counsel presented a brief oral report concerning legal action against Woody Smith, who operates a small business on the Hood River Secondary Highway near Dee, to compel removal of a sign from highway right of way. He recalled that the Commission previously authorized legal proceedings after Mr. Smith had threatened bodily harm to anyone who tried to move his sign which was located on and over state highway property. A court injunction ordering removal of the sign was secured and Mr. Smith has now indicated that he was in the wrong.

Authority was requested by the Chief Counsel to dismiss prosecution in the following cases:

1. State v. Dennis R. and Robert Briscoe, L-2726: The defendants in this case have been located in Lawndale, California, and since March, 1957, payments have been made at the rate of $15.00 per month on this account.

2. State v. Ruth Isaacson, L-2706: It appears from all known information that Ruth Isaacson is in DesMoines, Iowa, with no known street address. All attempts to determine her address have proved futile. The Commission authorized dismissal of both cases.

The Chief Counsel reported that a number of claims have been abandoned since his last report, as follows, and he requested approval of his action:

CAO-57-82, Ray Bell: For damage to a vertical flasher on the Pacific Highway at Fairgrounds Junction in Salem, in the amount of $68.26. Mr. Bell is in Fairbanks, Alaska, and his surety, Southwest American Fire & Casualty Company, has petitioned for bankruptcy. Attempts to correspond with Mr. Bell have been unsuccessful.

CAO-57-160, Frank Lee. Chamberlin: For damage to state equipment, in the amount of $94.33, incurred on July 16, 1957. Mr. Chamberlin carried no insurance and efforts to locate him have been unsuccessful.

CAO-57-195, Russell L. Means: For damage to state equipment, in the amount of $137.86, incurred September 4, 1957. Investigation has disclosed that there is no liability on the part of the driver of the privately owned vehicle.

CAO-56-214, Marvin A. Hall: For damages to a handrail and felloe guard at M.P. 105.33 on the Pacific Highway East, in the amount of $232 16, incurred December 7, 1955. It appears that Mr. Hall has moved to Florida, but efforts to locate him there have been unsuccessful.

CAO-56-361, Ted Puckett: To cover the cost of cleaning up a road approach constructed by Mr. Puckett, in the amount of $156.20. Certified mail sent to Mr. Puckett has been returned as unclaimed.

CAO-56-187, Frank Albert Waterbury: For damages to state equipment, in the amount of $158.57, incurred August 14, 1957. Mr. Waterbury has no insurance and no personal assets against which to make claim.

CAO-57-79, Myron and Morgan Boulware: For damage to a vertical flasher on US99 at Seven Oaks Junction, in the amount of $97.84, incurred December 17, 1956. No insurance was in effect at the time and subsequent efforts to locate the Boulwares have been unsuccessful.

The Commission authorized abandonment of each of the cases as reported.

The Chief Counsel reported that due to changed conditions it will not be necessary to acquire certain property owned by Emile F. Aufranc (File L-2860) located on the Salem By-pass Section of the Pacific Highway. As the property is no longer required for highway purposes, he requested authority to dismiss the condemnation action. The Commission granted the authority by adopting the attached resolution relative thereto, marked EXHIBIT N-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Chief Counsel stated that in negotiating for property belonging to Ralston (File L-2791) on the Hillsdale-Barbur Boulevard Section of the Beaverton-Hillsdale Highway it is now necessary to acquire additional property due to changes in plans. Accordingly he requested authority to dismiss the pending condemnation action. The Commission granted the authority by adopting the

attached resolution relative thereto, marked EXHIBIT "N-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Authority was also requested by the Chief Counsel to settle the last two claims for personal property damage arising out of the Mitchell flood, which claims have not as yet been filed in court. Both claims, he stated, have been carefully appraised and it has been determined that the settlements arrived at are legitimate and reasonable. On his favorable recommendation, the Commission approved payment of the claim of E. A. and Myrtle Horndon in the amount of $875.00 and payment of the claim of Hattie Horndon for an amount not to exceed our appraised value of the damage which would be less than $500.00.

In acquiring property from Frances L. and Francis C. Holt, wife and husband, and others, (File 24542-24543) it was agreed in the terms of the option to transfer to them 2,000 sq. ft. of land on the North Jefferson Junction Section of the Pacific Highway in Marion County. This provision, the Chief Counsel stated, was overlooked and he requested that the property be transferred to them as originally agreed. The Commission approved the transfer of property as recommended.

Consideration was given to an exchange of property with the U. S. Army Engineers, involving relocation of the Willamette Highway necessitated by construction of Lookout Point Dam. The Chief Counsel explained that the exchange of property is to comply with terms of an agreement entered into between the State and the U. S. Corps of Army Engineers on August 19, 1949 in which the State transfers to the Army Engineers the old roadway. Following this action the Army Engineers will transfer to the State the land occupied by the existing highway. The Commission approved the exchange by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Upon the favorable recommendation of the Chief Counsel, the Commission approved payment of attorneys fees in the amount of $158.00 and expenses in the amount of $27.62 to Fred Anderson and William Tassock, respectively, in the case of the State Highway Commission v. Stone, L-2811. Payment of these amounts are required by law, he stated, but were overlooked when original payment was made.

The Chief Counsel reported that in widening the Columbia River Highway near Troutdale it is necessary to acquire additional land from Paul Martin. He pointed out that the land required is part of the old borrow area which was deeded back to Mr. Martin, however, provision was made in the deed that the property could be repossessed by the State if the land is needed for highway purposes. He exhibited a map showing the land and read aloud provisions of the original deed. Following his favorable recommendation, the Commission approved repossession of the land by adopting the attached resolution relative thereto, marked EXHIBIT "O", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The matter of a timber trespass committed by the Klamath Cedar Company in Section 33, Township 38S, Range 14W, in the Carpenterville -Brookings Forest Wayside, Curry County, was reported by the Chief Counsel. It appears that the Klamath Cedar Company removed timber from the State property valued at $572.00. Their excuse was that they could not determine the property line and upon being informed of the trespass had submitted their check for $572.00, which is the single value of the timber. He pointed out that under the law, double damages may be secured if the trespass is unintentional and triple damage if the trespass is intentional. He inquired as to what action the Commission wished to take. The Parks Superintendent commented that the Company made no attempt to locate the property line so the state had to go to the expense of a survey; also, that double value for similar offenses had been secured in the past and that the logs are still lying on the state property. The Chief Counsel stated that in his opinion action should be taken as provided by law. There is no direct evidence that the trespass was intentional but when the area was surveyed and the cutting on state property was discovered, the Klamath Cedar Company submitted their check. The Commission approved his recommendation that action be taken to collect double the value of the timber

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts referred to him to award when certain conditions have been fulfilled. He said that the conditions have been satisfied and that he has awarded the following contracts:

(1) Grading the Cape Ferrelo-Brookings Section of Oregon Highway, Curry County. Bids received December 5, 1957. Contract awarded January 17, 1958 to Peter Kiewit Sons' Company, Medford, low bidder.

(2) Grading and paving Elm Street-Front Street Section of Medford-Provolt Highway, Jackson County. Bids received December 5, 1957. Contract awarded January 17, 1958 to M. C. Lininger & Sons, low bidder.

(3) Grading, paving and oiling the Forest Grove-Cornelius Unit of the Tualatin Valley Highway, Washington County. Bids received December 5, 1957. Contract awarded January 17, 1958 to Warren Northwest, Inc. Portland, low bidder.

(4) Grading and paving Third Street S. - South City Limits (Lakeview) Section of Fremont Highway, Lake County. Bids received January 16, 1958, Contract awarded January 22, 1958 to Russell Olson Construction Company, Inc., Pendleton, low bidder.

(5) Grading the Lowell Street-21st Avenue Unit, Harbor Drive-Washington County Line Section of Pacific Highway (R. H. Baldock Freeway) in Portland, Multnomah County. Bids received December 5, 1957. Contract awarded January 31, 1958 to Kuckenberg Construction Company, Portland, low bidder.

The Commission confirmed the award of contracts as reported.

The Commission discussed with the Engineer the routing for the proposed Ellensburg-Pendleton Interstate Highway. The Engineer exhibited a map, pointing out that the Washington Highway Department had studied four routes from Ellensburg southeasterly to Pendleton, and the Washington Commission had approved a line intersecting US Highway 30 about two or three miles east of the city of Boardman involving a crossing of the Columbia River at Blalock Island requiring construction of a new bridge. He further stated that he has given the matter study and in his opinion a better route would be one that crosses the Columbia River at Umatilla where an existing bridge could be utilized. This route, he stated, is somewhat shorter than that proposed by Washington, being 47.5 miles long, and estimated to cost $16,280,000 whereas the Washington route is 48 miles in length and is estimated to cost $19,020,000. Oregon's share of the costs are $4,780,000 and $6,133,000 respectively. It was his opinion that the route utilizing the Umatilla River Bridge should be used inasmuch as the existing bridge will carry the traffic for several years and can be readily widened to 28 feet when such widening becomes necessary. He suggested that he be given authority to discuss the matter with the authorities of the State of Washington on the basis of adoption of the Umatilla bridge route. The Commission deferred its decision until later in the session. (Discussion of this matter was resumed near the end of the following day at which time the Commission instructed the Engineer to discuss it with Mr. Wm. Bugge, Director of Highways, State of Washington, in an endeavor to reach an agreement as to the route that should be adopted. The Engineer was further instructed to report at the next meeting a recommendation from both states.)

The meeting recessed at 12:00 noon and reconvened at 1:30 p.m. in the same room, with the same persons present and participating.

The Commission accepted a report from the Engineer showing statistics taken from the weighmaster records covering overweight violations during the three month period of October through December for the years 1953 to 1957, inclusive.

The Engineer reported that because of highway construction acting under authority previously granted him, he has established temporary construction speed zones on the Columbia River Highway between the Sundial Road connection and Rooster Rock State Park where four lane highway construction is now under way. He said that a maximum speed of 35 miles per hour was posted between M.P. 15.3 (Engineer's Station 490) and M.P. 16.3 (Engineer's Station 538) and a 35 miles per hour maximum speed was posted between M.P. 19.90 (Engineer's Station 729+10) and M.P. 20.90 (Engineer's Station 791+00), both speed zones being effective at 12:00 noon, February 3, 1958. The Commission confirmed the Engineer's action.

Reclassification of several state highway sections from Group III to Group I status was also reported by the Engineer. In each instance, he stated, successful test runs with a truck-tractor and a 35-foot semitrailer combination indicated that such equipment can operate on its own side of the highway. The Commission approved the reclassification from Group III to

Group I status of the following highway sections:

1. Modoc Point Highway, No. 427, except at Williamson River Bridge at M.P. 7.33, on which bridge "One Way Traffic for Trucks" signs have been placed.

2. Klamath Lake Highway, No. 421, from its junction with US 97 to the junction with the Lake of the Woods Road at M.P. 24.54.

3. Crater Lake Highway, No. 22, from the junction with the Sun Mountain Highway, No. 428, at M.P. 91.34 to M.P. 89.82, which is the junction with the Klamath Lake Highway No. 421.

4. Paulina Highway, No. 380, with the exception of Crooked River Bridge at M.P. 37.92 and the Camp Creek Bridge at M.P. 44.18. These two bridges have been posted with "One Way Traffic for Trucks" signs.

The Engineer reported that satisfactory bids had been received on all of the projects on which bids were opened February 6 in the highway office in Salem. The Commission accepted the report and decided to publicly announce the awards at 4:00 p.m., along with the awards of contracts for projects on which bids were opened this day.

Consideration was given to a traffic survey for the City of The Dalles made in 1957. The Engineer observed that before any route for the Columbia River Highway can be constructed through the city as a part of the interstate system, it will be necessary to hold a public hearing. He requested authority to present the traffic survey to The Dalles city. Chairman Reynolds pointed out that he had been advised that the City favors a route which involves moving of the Union Pacific Railroad tracks. The Engineer replied that an analysis is being made of the route recommended by the City but it appears that the route favored by the City will cost approximately $1,500,000 more than the proposed state route and the added benefits will accrue principally to the City. He also commented that the railroad company is not pleased with the City plan. The Commission authorized him to present the report to the City with the understanding that the Commission is making no commitments regarding it, and to report back to the Commission the City's reaction.

A report was presented by the Engineer concerning the public hearing that was held in Aumsville on February 11, 1958, concerning relocation of the North Santiam Highway westerly from its present terminus at the Sublimity Gun Club, to the junction with the newly constructed section at Lancaster Drive, a short distance east of Salem. He pointed out that there was very little opposition to the proposed route. One person suggested that the present highway be widened to four lanes and another suggested that the road be left as it is. Other speakers were mostly interested in access points, road connections, crossings, and other features which would affect their properties but none had any particular criticism of the proposed highway route. In view of the results he recommended adoption of the survey for the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Highway. The Commission approved his recommendation by adopting the attached

resolution relative thereto, marked EXHIBIT "L-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Placement of load limit restrictions on two highway sections was reported by the Engineer as previously authorized. He said that thawing conditions have necessitated reduced load limits in order to prevent serious damage to the highway surface. The Commission confirmed his action in placing load limits allowing 11,000 pounds gross on any single axle and 20,000 pounds gross on any pair of tandem axles on the following state highway sections:

1. Crane-Scotts Butte Secondary Highway, from M.P. 56.0, approximately five miles northwest of the Harney County-Malheur County Line, to M.P. 66.00, southeast of the junction with the county road to Folly Farm, effective at 8:00 a.m., February 21, 1958.

2. Enterprise-Lewiston Highway, No. 11, from M.P. 29.25, approximately 13 miles north of Enterprise, to M.P. 42.67, at Enterprise, effective at 8:00 a.m., February 27, 1958.

Attention was given to a request from businessmen of Grants Pass that 6th Street be redesignated as a two-way street. The Engineer briefly reviewed the situation in Grants Pass, pointing out that at the present time 6th Street operates as a leg of a one-way couplet carrying southbound Pacific Highway traffic whereas 7th Street carries northbound traffic. The project was instigated by the City in 1953 and construction was completed and the one-way couplet put into operation in mid-1957. A great many local organizations, including the City Council and the County Court, urged installation of the system to relieve badly congested traffic conditions which existed on 6th Street when traffic was routed two ways thereon. It was his opinion that while some business establishments have been injured, the over-all benefit to the traveling public is greater. The Commission decided to stay with the present arrangement.

A request was considered from the City of Cannon Beach for private access to the Oregon Coast Highway to accommodate their waste disposal plant. The Engineer recalled that this request has been investigated and that it is his recommendation that an access 16 feet wide be allowed at highway station 239+80 provided the city will maintain a gate across the access roadway which is to be locked at all times except when city vehicles pass through and provided the City will pay all costs involved in construction of the access. The Commission approved the recommendation.

The Commission discussed a report submitted by the Engineer concerning a proposal made by James F. Johnson, Director of the Department of Motor Vehicles, that the State construct a building in Salem to house his offices and those of the State Police Department and of the Public Utilities Commissioner. He pointed out that construction of a State-owned building in the vicinity of the Salem Highway Shops would save the State approximately $600,000 by the end of a 19 year period. Commissioner McIver inquired as to how this saving had been computed and then commented that to the amount computed should also be added savings which would accrue by reason of having

the three departments in the same building. The Engineer replied that from comments he has heard from the departments involved, labor savings alone would amount to at least $1,000 per month. Commissioner McIver stated that, in his opinion, there are good economic reasons for constructing a State-owned building and he suggested that a copy of the Engineer's report and other economic data be subn..tted to the Board of Control. After some further discussion, the Commission instructed the Engineer to furnish the Commission a complete report on the subject in the near future and then to present the facts to the Board of Control for its information.

Attention was given to the Engineer's report concerning dredging of the Columbia River between Astoria and Megler to accommodate the State ferry operation between these points. The Engineer stated that conferences have been held with the U.S. Corps of Engineers pertaining to necessary procedure to have the channel classified as a federal waterway and also to obtain information in regard to the state contracting the dredging of a portion of the channel to provide sufficient depth. To classify the channel as a federal waterway so that the Corps of Engineers will be authorized to perform future dredging operations will require adoption of a resolution by the Commission a copy of which must be sent to a member of the Oregon delegation in Congress. The resolution, he continued, is now being prepared and will be presented to the Commission at the next meeting. A permit has been issued by the Corps of Engineers to allow immediate dredging and as soon as plans can be prepared it is proposed to contract the dredging at an estimated cost of $25,000. The Commission authorized the Engineer to proceed with the project.

The Commission took action on the following items of unfinished business as they appear on the Secretary's summary, dated January 17, 1958:

1. Offer of A. West Johnson, Eugene, to deed 140 acres of land at Hug Point for state park purposes: The Parks Superintendent stated that negotiations are still underway concerning acquisition of a house and lot. The Commission ordered the item deleted from the list of unfinished business and instructed the Parks Superintendent to submit a report when negotiations have been completed.

2. Request of the City of Cannon Beach for access to the Oregon Coast Highway to accommodate their waste disposal plant: This item was ordered removed from the list of unfinished business as a report had been presented earlier in the day.

3. Request of Sherman County Court for State cooperation in constructing approaches to the proposed Columbia River Bridge at Biggs Rapids: G. S. Paxson, Assistant Engineer, stated that a meeting is to be held with Washington officials concerning approaches to the bridge in Washington and Oregon. The approach on the Oregon side, he stated, would be nearly 60 feet high and would cross the new Interstate Highway and the Union Pacific Railroad tracks. He estimated that the overcrossing work which could be performed at this time and would be of a permanent nature would cost $89,000, and temporary work to take care of the crossing he estimated would cost $93,000. The State Highway Engineer stated that the State of Oregon could perform the permanent work, which would be utilized as a part of US30 but he

did not recommend it, and that Sherman County could probably finance the temporary work. Chairman Reynolds remarked that in his opinion the State should not subsidize this bridge. Commissioner McIver stated that to be consistent the State should provide the same treatment in this instance as has been been provided in previous similar cases. The Engineer suggested that, if Interstate funds cannot be secured, the permanent work not be performed. The Commission decided that the same policy would be applied concerning the approaches for this bridge as has been applied in similar situations in the past.

4. Proposal of the Director of the Department of Motor Vehicles that the State construct a building in Salem to house his offices, those of the State Police Department, and of the Public Utilities Commissioner: The Commission ordered this item deleted from the list of unfinished business as a report had been presented earlier.

5. Dredging of Columbia River between Astoria and Megler to accommodate State ferries. This item was also ordered deleted from the list as a report was presented earlier.

The Engineer stated that surveys have been developed to a point where a feasible route has been determined for the Southern Pacific Overcrossing at Parkplace on the Cascade Secondary Highway, Clackamas County, but before any formal action can be taken in acquiring right of way, it will be necessary to determine whether or not public hearings are required in the towns of Clackamas and Gladstone. He presented a map showing the proposed route and requested authority to hold hearings as may be required. The Commission granted the request, it being understood that approval of a route would be made only after the hearings have been held.

Attention was given to a request from the Clackamas County Court for improvement of a 0.72 mile section of the Cascade Secondary Highway between Hilda Avenue in Oregon City and Beaver Creek Road. The Engineer explained that the County is building a jail on property abutting this section and has plans for other buildings. The project, he continued, is worthy but he recommended that action be deferred until the County is ready to make the improvement mentioned because there are no funds available to finance it now. He estimated the cost of the project at $87,000. The Commission adopted his recommendation.

The Commission discussed a letter from the Cascade Highway Association, Inc., requesting improvement of the Cascade Secondary Highway between Molalla Junction and Oregon City. The Engineer commented that a delegation is scheduled to appear before the Commission on the matter the following day. It was his opinion that the project is needed and should have high priority when programming future secondary funds for Division No. I. No action was taken at this time pending the appearance of the delegation. (When the delegation appeared, they were informed by Chairman Reynolds that the project is worthy and would be given serious consideration in formulating future highway programs but no funds are available to finance it now.)

A report was submitted by the Engineer concerning changes in the Marion County Road System necessitated by construction of the Salem By-pass.

He pointed out that an agreement entered into with the County on February 1, 1952, provides that the State is to construct that portion of Rose Avenue from "D" Street southerly to Center Street, a distance of 0 25 mile. Because of a house on the right of way, the improvement was not made at the time of initial construction. However, arrangements have been made to remove the house now. He recommended that the project, be constructed at an estimated cost of $13,000. He also recommended that Federal Aid Interstate funds be requested, but if denied, that the project be completed with State funds. The Commission approved his recommendations.

Attention was given to a letter from Mr. B. M. French, Regional Engineer of the Bureau of Public Roads, recommending changes in the Oregon Forest Highway System. These changes, the Engineer stated, are minor in character, correcting mileages on existing sections and providing for the removal of the Sand Creek Section extending 4.3 miles from The Dalles-California Highway to the Crater Lake Park boundary. The Commission approved the changes as outlined in the letter. (For details, see Mr. French's letter dated January 28, 1958, in the General Files.)

Also discussed by the Commission was a letter from the Beautification Committee of the Cannon Beach Commercial Club concerning landscaping of the Oregon Coast Highway southerly from its connection with the old route north of Cannon Beach to the intersection of the old and new highways south of Cannon Beach and offering local cooperation. The Engineer estimated cost of this project at approximately $10,500 and advised that a question of policy is involved, whether a section should be landscaped which was constructed eight or ten years ago. If the project is to be performed, it would most likely be with State funds because federal aid cannot be obtained. Commissioner Chessman remarked that there are probably many sections of highways which have been constructed in the past and which might be landscaped thus posing the question where such projects are to stop Commissioner McIver expressed the thought that the project should not be undertaken. As a result of the discussion the Commission denied the request but agreed to assist in this undertaking with advice and otherwise - but not financially.

Consideration was given to a request from Deschutes County that the State and the County share the cost to remove snow from the Cascade Lakes Secondary Highway between Bend and Bachelor Butte Ski area. The Engineer commented that several requests have been received in the past for snow removal from this highway and that individuals are planning to build a resort in the Bachelor Butte area costing approximately one-half million dollars. The County advises that the sponsors of the project will not be able to sell bonds to finance the undertaking unless assurance is received that snow will be plowed from the road during the skiing season. He pointed out that the distance from Bend to the ski area is approximately 22 miles, 11 of which are on the State secondary highway system; also, that the state highway portion is at a much lower elevation than the county section. He estimated that snow removal on the state section would cost approximately $2,500 per year, whereas the 11 mile section on the county road would cost approximately $25,000 annually. He recommended that the County Court be advised that the State will remove snow from the state highway portion only but the county will have to remove the snow from the county portion. He called attention to the fact that several

similar requests for snow removal on roads not on the State highway system have been denied. The Commission approved his recommendation.

The Engineer requested authority to transfer $1,100,000 from the amount budgeted for construction of the Herman Creek Road Section and the Cascade Locks Bypass-Herman Creek Road Section of the Columbia River Highway, to the Rooster Rock-Multnomah Falls Section of the same highway. He explained that plans are not ready for the Herman Creek Section and that the Bureau of Public Roads has requested that improvements on the Interstate highways be not in intermittent sections because of accident potential. The Rooster Rock-Multnomah Falls Section will provide continuity from Sundial eastward and there will be no delay in construction of the Herman Creek Road Section. The Commission approved the transfer.

Consideration was given to a request from R. L. K. and Company, operators of the Timberline Lodge on Mt. Hood for the sanding of the access road leading to the Lodge and the adjacent parking areas so as to provide traction for cars. The Engineer stated that past experience has shown that such sanding efforts in comparable areas has done little good because of daily freezing and thawing conditions in which the rock disappears into the slush. The use of calcium or sodium chloride is of a temporary nature with little value. Furthermore, people who use winter resorts usually realize that the use of chains is a necessity. Upon his adverse recommendation, the Commission denied the request.

The matter of replacing a portion of the City of Sandy's water system which underlies the Mt. Hood Highway east of Sandy which is being reconstructed was discussed. The Engineer explained that there are about three miles of four inch and six inch water mains which will be under the pavement of the new highway and approximately two miles of eight inch main supply line which is only a few years old. The four inch and six inch lines are twenty to twenty five years old and their life expectancy is short. The City, he said, advises that it has no funds to move or replace its water line so he proposed that the State replace the old four inch and six inch mains with the exception of approximately one mile on the easterly end, the City to assume all obligations for the eight inch supply line and the approximate one mile section of four inch line. Assuming of such cost, he stated, is not new as it has been done in a number of similar cases. To leave the old line under the highway would provide a source of serious damage when the water line started to leak. He estimated the State's share of the cost at $30,000 and recommended that the work be performed as being in the best interests of the Highway Department and the City of Sandy. The Commission approved the project as outlined.

A suggestion made by the U.S. Forest Service was considered concerning a joint water system supplying the Austin Highway Maintenance Station and the Blue Mountain Forest Ranger Station. To provide adequate water for fire protection during the summer months, the Forest Service has suggested that the two inch pipe be replaced with a four inch pipe and has offered to pay 50 per cent of the cost, which the Engineer estimated to be $6,000, or $3,000 for each party. He recommended that the proposal be accepted and that an appropriate agreement be prepared. The Commission

approved the project.

The Engineer reported that location surveys previously authorized by the Commission have been completed on three highway sections. He advised that careful engineering study has determined that each of the proposed relocations will provide the greatest benefit to the traveling public commensurate with the cost. After carefully studying the proposed routes, the Commission approved the following surveys by adopting the attached resolutions relative thereto marked EXHIBITS "L-2" through "L-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

(1) Butte Creek-Service Creek Section of John Day Highway, Wheeler County.

(2) Middleton-Rex Hill Section of Pacific Highway West, Washington and Yamhill Counties.

(3) Hillsboro-Campbell Bridge Section of Hillsboro-Silverton Highway, Washington County.

Commissioner McIver inquired as to when it is planned to construct the balance of the Three Mile Lane Highway to McMinnville in Yamhill County. The Engineer replied that funds are set up in the last two years of the five year program and it is contemplated that this project will be considered in the program to be set up this fall.

The Engineer reported that the towns of Dufur and Long Creek have complied with requirements of the law pertaining to expenditures of State Tax Street Funds accrued to them during the first six months period of 1957, and he recommended that plans for expenditure of $1,518.36 in the town of Dufur and $999.68 in the town of Long Creek be approved. The Commission approved the plans by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and upon recommendation of the Engineer granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. Harney Homes, Inc., Contract No. 4980, for construction of Middle Fork Malheur River Bridge in Harney County, requested an extension of time from 100 to 105 workdays. Approved as requested. Concurrence of the Bureau of Public Roads is not required.

2. Rogers Construction, Inc., Contract No. 4781, for grading and paving the North Unit, Pendleton-Pilot Rock section of the Pendleton-John Day Highway in Umatilla County, requested an extension of time from July 31 to October 23, 1957. Approved as requested. A letter from the Bureau of Public Roads concurring in the extension was presented.

3. The Central Heating Company, Oregon Ltd., Contract No. 4548, for paving the Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from October 31, 1956 to November 15, 1957. Approved to October 22, the date of completion. A letter from the Bureau of Public Roads concurring in the extension was presented.

4. Gibbons and Reed Company, Contract No. 4590, for structure, grading and stone base on the Union Avenue-37th Avenue Section of the T. H. Banfield Expressway in Multnomah County requested an extension of time from October 15, 1956, to September 1, 1957. Approved as requested. A letter from the Bureau of Public Roads concurring in the extension was presented.

5. Allum Brothers, Contract No. 4592, for grading and oiling on the Deep Canyon Section of the McKenzie Highway in Deschutes County requested an extension of time from September 30, 1956, to August 31, 1957. Approved to August 20, 1957, the date of completion. A letter was presented from the Bureau of Public Roads concurring therein.

6. Rogers Construction, Inc., Contract No. 4520, for grading and paving on the Bradley Park -Wauna Section of the Columbia River Highway in Clatsop County, requested an extension of time from August 31, 1956, to August 31, 1958. Approved to December 13, 1957, the date of completion. A letter from the Bureau of Public Roads concurring therein was presented.

7. Hamilton and Thoms, Contract No. 4654, for construction of the Springfield Bridge across the Willamette River in Lane County, requested an extension of time from December 31, 1957, to July 31, 1958. Approved as requested, and a letter from the Bureau of Public Roads concurring therein was presented

8. Porter W. Yett, Contract No. 4560, for grading and paving on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway in Multnomah County, requested an extension of time from August 31, 1956, to November 30, 1957. Approved to November 12, 1957, the date of completion. A letter from the Bureau of Public Roads refusing to concur in the extension was presented.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 4498, 4520, 4548, 4560, 4590, 4592, 4640, 4645, 4781, 4813, 4836, 4842, 4857, 4949, 5047, and 5059 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are

now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed briefly with the Engineer a letter from the Josephine County Court listing priority for projects which the County desires, as follows:

1. That the Interchange between the Redwood Highway (199) and the Pacific Highway (99) together with the bridge across Rogue River on Seventh Street be completed.

2. That construction of the link on the Redwood Highway (199) between the new interchange and the segment of road completed at the Applegate Bridge be programmed.

3. That elimination of the narrow bridges on the balance of the Redwood Highway (199) be again studied and programmed.

The Commission took no action but instructed that the County Court be advised that the projects will be given due consideration in formulating future construction programs.

Requests from Columbia, Crook, Deschutes, and Malheur Counties for additions to the Federal Aid County Road Secondary System were considered. The Engineer stated that these additions totalling 61.9 miles, qualify for inclusion in the County FAS System and he recommended that they be added to the system as follows:

Columbia County

FAS 816 - 10.9 miles from the Columbia River Highway in St. Helens westerly to the community of Trenholm.

FAS 854 - 6.4 miles extending from the Nehalem State Highway near Vernonia southerly to FAS 601 approximately one mile north of the Columbia-Washington County line.

Crook and Deschutes Counties

FAS 780 - 3.2 miles (2.6 miles in Deschutes and 0.6 mile in Crook County) extending from FAS 779 northeast of Terrebonne easterly to FAS 322 in Crook County.

Deschutes County

FAS 330 - an extension of 1.3 miles extending the existing route southerly to the end of the Tekampe County Road.

FAS 554 - 2 miles extending the existing route from its southerly terminus southerly and westerly to proposed FAS 789.

FAS 659 - 3.9 miles, an extension northerly from FAS 326 to FAS 657.

FAS 784 - 2.1 miles extending from the McKenzie-Bend State Highway at Tumalo, southerly to a county road junction.

FAS 789 - 7.6 miles extending from the Central Oregon Highway easterly and northerly to FAS 398 near Alfalfa.

FAS 792 - 3.1 miles extending from McKenzie-Bend State Highway, southerly and easterly to FAS 319.

FAS 853 - 4.4 miles extending from the McKenzie State Highway in Sisters southerly to a county road junction.

Malheur County

FAS 825 - 7.0 miles extending from the John Day Highway in Vale, easterly and southerly to the Central Oregon Highway. The Commission approved the additions.

Additional 1958-1959 Federal Aid Secondary projects totalling $278,000 were requested by Columbia, Deschutes, and Malheur Counties. These projects, the Engineer stated, have been inspected and qualify for this program and he recommended that the following projects be approved:

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fund
Columbia	567	Oak Ranch Creek Section, 3 miles, G. and P.	$ 88,000	'59
	816	Milton Creek (St. Helens) Bridge, Structure only.	35,000	'59
	854	Coon and Pebble Creek Bridges, Structures (2) only.	55,000	'59
		Subtotal, Columbia County	$ 178,000	
Deschutes	330	Tekampe Road Section, 1 mile	)	
	554	Walker Road Section, 2 miles	)	
	657	Franks Road Section, 2.7 miles	)	
	658	Eby Road Section, 1 mile	)	
	759	Atkinson Road-Whitmore Road Section, 2.2 miles	)	
Oiling:	691	E. Unit, Ward Road Section 1.4 miles	) 73,000	'59
	778	Wimp Road Section, 1 mile	)	

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fund
Deschutes (Cont.)				
Oiling: (Cont.)	780	Lambart Road Section, 2.6 miles		
	784	Bailey Road Section, 1.1 miles		
	789	Dobbs Road Section, 4.2 miles		
	792	Tweed Road Section, 2 miles		
	853	Three Creeks Road Section, 4 miles		
Malheur	825	West Unit, Foothills Drive Section, 2 miles. G., S., and O. NOTE: This project will be combined with the Vale Unit, Vale-Grand Ave. Section of FAS 515 (approved 10/31/57) under one contract totaling $97,000. $70,000 was originally approved for FAS 515 and this project is being reduced to 0.7 mile in length at County's request.	$ 27,000	'59
		TOTAL ADDITIONAL 1959 FUNDS	$ 278,000	

SUMMARY, FISCAL YEARS 1958 & 1959 FUNDS*

Available Funds*	$ 8,033,000
Previously Approved	6,809,000
Unprogrammed Balance	$ 1,224,000
Proposed Project 2/17/58	278,000
Unprogrammed Balance	$ 946,000

* Includes additional fiscal year 1957 funds provided in Federal Aid Highway Act of 1956 and $33,000 carry over from regular fiscal year 1957 funds.

The Commission approved the projects.

February 27, 1958

The Commission gave attention to reports submitted by the Engineer concerning the establishment of reduced speed zones on several highway sections. The Engineer commented that these speed zones have been investigated individually by the Traffic Engineering Division and are being recommended in order to conform with speed zones established within the respective towns by the State Speed Control Board. He pointed out that roadside development often extends beyond the city limits and in many instances the reduced speed zone should also extend beyond the city limits, which is the limit of jurisdiction exercised by the Speed Control Board. Upon his favorable recommendation, the Commission approved the following speed zone designations by adopting the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-7", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein:

a. Oregon Coast Highway - 45 mile per hour speed zone in the community of Manhattan Beach between a point 50 feet south of the Lake Lytle outlet bridge and the north city limits of Rockaway; also, rescind 35 mile per hour speed zone established December 30, 1946, in the community of Twin Rocks and establish a 40 mile per hour speed zone between the south city limits of Rockaway and a point 150 feet south of Pansy Street. See EXHIBIT "J-1"

b. Pacific Highway, North Sixth Street (one way southbound) - 40 mile per hour speed zone between a point 50 feet south of Morgan Lane and the north city limits of Grants Pass at N. W. Midland Avenue. See EXHIBIT "J-2".

c. Pacific Highway East - 50 mile per hour speed zone between a point 0.14 mile south of the Queen Street south city limits of Albany and the northerly south city limits of Albany; also, 50 miles per hour between the southerly south city limits of Albany and a point 0.21 mile north of Oak Creek. See EXHIBIT "J-3".

d. Oregon Coast Highway - 45 miles per hour between the south city limits of Gearhart and a point 0.13 mile north of Neawanna Creek; also 30 miles per hour between a point 0.13 mile north of Neawanna Creek and the north city limits of Seaside; also 35 miles per hour between the south city limits of Seaside and a point 0.10 mile north of Dooley Bridge. See EXHIBIT "J-4".

e. Beaverton-Tualatin Highway No. 141 - 30 miles per hour between a point 150 feet south of Southern Pacific Railroad crossing and the north city limits of Tualatin; also, 40 miles per hour between the northerly south city limits of Tualatin and the easterly west city limits of Tualatin. See EXHIBIT "J-5".

The Commission considered a petition requesting a reduced speed zone on the Cascade Highway between the community of Clackamas and the northerly city limits of Gladstone. This request, the Engineer stated, was investigated by the Traffic Engineering Department and from the facts disclosed it is his recommendation that a 45 mile per hour speed zone be established on the Cascade Secondary Highway No. 160 between a point 500 feet south of the

Clackamas Secondary Highway No. 171 and the north city limits of Gladstone, except that between a point 500 feet north of Strawberry Avenue and a point 500 feet south of Strawberry Avenue the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved such reduced speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "J-6", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was also given to a request from Mr. C. A. Houser, Newberg, for a reduced speed zone on the Yamhill-Newberg Secondary Highway west of Newberg. A traffic engineering investigation was made and as a result of the investigation the Engineer recommended that a 40 mile per hour speed zone be established on the Yamhill-Newberg Secondary Highway No. 151 between a point 0.26 mile west of Chehalem Drive and the west city limits of Newberg. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "J-7", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration requests for out-of-state travel for a number of state highway employees. He commented that the trips are to the advantage of the Highway Department in that employees are afforded an opportunity to study new methods and to keep abreast of developments in other states. Following his favorable recommendation, the Commission approved out-of-state travel as follows:

1. W. H. Kosesan, Landscape Division Agronomist, to attend Western StatesWeed Conference in Spokane, Washington, March 18-20, 1958, at an estimated cost of $56.00.

2. Tom Edwards, Construction Engineer; L. H. Young, Assistant Construction Engineer; D. J. Barbee, Assistant Construction Engineer; and George LeTourneux, Director, Data Processing Division, to attend Northwest Conference on Road Building at the University of Washington, February 20-21, 1958, at an estimated cost of $50.00 for each person. The Commission confirmed this item.

3. C. H. Maison, Auditor, and George LeTourneux, Director, Data Processing Division, to Olympia, Washington, on February 11-12, 1958, at an estimated cost of $50.00. The Commission confirmed this item.

4. Dennis Clarke, Assistant Travel Director, to attend the American and Canadian Travel Show at Cleveland, Ohio, March 11-25, 1958, at an estimated cost of $271.30, to be paid by Pacific Northwest Travel Association.

5. L. E. Maudlin, Assistant Travel Director, to attend the Northwest Sports, Travel and Boat Show at Minneapolis, Minnesota, March 31-April 16, 1958, at an estimated cost of $155.20, to be paid by Pacific Northwest Travel Association.

6. J. Al Head, Assistant Traffic Engineer, and R. C. Blensly, Planning Survey Engineer, to attend WASHO Planning Conference in Phoenix, Arizona, April 9-10, 1958, at an estimated cost of $440 total, to be paid

60% from federal funds, 40% from state funds.

7. F. B. Crandall, Traffic Engineer, to attend Regional Conference of the President's Traffic Safety Committee in San Francisco, California, April 8-9, 1958, at an estimated cost of $120.00.

8. Malcolm Cameron, Photocopyist Foreman, to attend a seminar on photocopy work and related processes in Holyoke, Massachusetts, April 21-25, 1958, at an estimated cost of $375.00.

In conformance with the terms of agreements previously entered into with the various counties concerning disposition of the old sections of highways, the Engineer presented resolutions formally abandoning the old sections to the counties involved. He said that the new sections of highways have been completed and opened to travel and the old sections are no longer needed. The Commission approved the abandonment of the sections by adopting the attached resolutions relative thereto, marked EXHIBITS "F-1" through F-5", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein:

1. Deschutes River Section of the McKenzie Highway in Deschutes County. See EXHIBIT "F-1".

2. North Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County. See EXHIBIT "F-2".

3. East and West Forks, Illinois River Bridge Sections of the Redwood Highway in Josephine County. See EXHIBIT "F-3".

4. Little Creek-Estacada Section of the Woodburn-Estacada Secondary Highway in Clackamas County. See EXHIBIT "F-4".

5. East Unit, Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County. See EXHIBIT "F-5".

A request from the city of Myrtle Creek was considered for designation of the existing highway through the city as "US99 Business Route" when the new by-pass is opened to traffic. The Engineer stated that in other instances such designation has been granted and he recommended that the same be done for the city of Myrtle Creek. The Commission approved the business route designation.

The Commission discussed with the Engineer and the Director of the Travel Information Division the matter of selecting an agency to handle the advertising for the Travel Information Division. No action was taken at this meeting other than a statement to the effect that the Commission had complete confidence in the Travel Information Advisory Committee and if there appeared to be any misunderstanding with any other state department that the Commission would be happy to explain their position.

The Commission considered a bill from Bonneville Power Administration in the amount of $27,748.99, being the cost for changes in its power lines resulting from relocation of the Meacham-Glover Section of US30. The Engineer

explained that the sum of $13,400 has already been paid to the Bonneville Administration as a deposit, leaving a balance due of $14,348.99. The unusually large overrun, the Engineer stated, had been caused by overtime labor and rock formation encountered in the work. It was his opinion that the original estimate was much too low and he recommended payment of the additional amount. The Commission approved the additional payment as recommended.

Attention was given by the Commission to a letter from U.S. Congressman Charles O. Porter, requesting reconsideration in the matter of adding the Gold Beach-Agness-Selma Road to the Forest Highway System. The Engineer recalled that this matter had been considered at a previous meeting and had been denied because of lack of funds and the fact that existing forest highways are not yet developed. Since that time, he stated, officials of the U. S. Forest Service have indicated that they do not desire the road on the Forest Highway System. He recommended that the Commission reaffirm its previous discussion. The Commission instructed that Congressman Porter be advised that further study of the matter indicates that no change in the Commission's previous decision is justified at this time.

The Engineer requested and the Commission approved an expenditure of approximately $2,000 for the purchase and installation of radio-telephone equipment on ferries Tourist No. 2 and Tourist No. 3, in order to comply with requirements of the Federal Communications Commission The Engineer commented that operation of the ferries without such equipment is unlawful.

The Engineer presented for the Commission's consideration a number of requests for prohibition of vehicle parking on the shoulders of state highways at various locations. These requests, he stated, have all been investigated, and to provide safety for the traveling public as well as for the safety of the parked vehicles and their occupants, he recommended that parking be prohibited on the following sections of state highways:

1. On both highway shoulders of the Crater Lake Highway near the north city limits of Medford between M.P. 0 38 and M.P. 0.53. See EXHIBIT "K-1".

2. On the north shoulder of the Pacific Highway at the intersection of Charlotte Ann Road, M.P. 312.78 in front of Kim's Restaurant. See EXHIBIT "K-2".

3. On both sides of the frontage road along the westerly side of the Oregon Coast Highway for a distance of 100 feet at the access road leading to Sunset Memorial Park, Coos Bay. See EXHIBIT "K-3".

4. On both shoulders of the Columbia Highway between M.P. 25.56 and M.P. 25.38 in the community of Warren. See EXHIBIT "K-4".

5. In the median strip which lies between Sixth Street (US97) and ' Canal Boulevard opposite Juniper Avenue in Redmond. See EXHIBIT "K-5".

The Commission approved his recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "K-1" through EXHIBIT "K-5", which resolutions by this reference are made a part hereof with like effect as through extended in full herein.

The Commission discussed with the Secretary the matter of his reappointment beginning March 1, 1958. The Secretary stated that although the Commission could reappoint him for four years if they so desired, that he

would be 70 years of age on November 2, 1958, and that he did not wish to serve after that date. In view of this information Commissioner McIver moved that Mr. Glaisyer be reappointed as Secretary to the Commission for a term expiring November 1, 1958, and that an appropriate resolution be entered in the records stating the Commission's regard for him. The motion was duly seconded by Commissioner Chessman and was declared carried unanimously by Chairman Reynolds. The Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a request from the city of Prineville for permission to erect on state highway right of way three large signs bearing the wording "Crooked River Roundup, Prineville, August 8-9-10." The Engineer stated that although the Oregon Legislature had authorized the erection of such signs on highway right of way, information received from the Chief Counsel of the Bureau of Public Roads, Mr. C. W. Enfield, indicates that the signs are not permissible under federal law. He suggested in view thereof and to avoid jeopardizing the federal law and the securing of federal aid money, that the city of Prinville be advised that the Commission cannot approve its request. The Commission adopted the suggestion and so ordered.

The Commission considered a report submitted by the Chief Auditor concerning a survey of the state highway accounting system. The auditor pointed out briefly that the matter had been discussed at the previous Commission meeting and that in compliance with the wishes of the Commission he had contacted two independent public accounting firms concerning a preliminary survey of the existing system with an objective of making recommendations toward revisions that might appear to be advisable. He commented that the present accounting system was installed in 1939 after an extensive review and was revised in 1948 somewhat based on the recommendations contained in another survey. He also pointed out that during the intervening years improvements in procedure and mechanical means have been continuously employed and in his opinion a major overhaul is not needed. The Division of Audits under the Secretary of State, he said, is required to audit the books of the Department annually, and it was his feeling that these auditors who are certified public accountants could very well include suggestions for improvement procedures in connection with their regular audit work. He recommended that such action be taken at a cost of $1500 to $2000. The Commission approved his recommendation unanimously upon a motion offered by Commissioner McIver that was duly seconded by Commissioner Chessman.

Attention was given to a request from the Central Planning Office of Lane County for a modification of the description of an area that is to be annexed to the city of Eugene near Judkins Point. The Engineer recalled that at the October 31, 1957, meeting a "Consent to Annexation" was approved by the Commission but the Central Planning Office now desires a modification because of problems encountered in attempting to include part of a cemetery. The Commission approved the revised "Consent to Annexation" following the favorable recommendation of the Engineer.

The Commission considered a form of "Trust Agreement" with Bonneville Power Administration concerning revision of its Santiam-Albany and

Albany-Lebanon transmission lines on the Albany-Judkins Point Section of the Pacific Highway. This agreement, the Engineer explained, is a routine procedure in which the Bonneville Administration requires a deposit to cover the estimated cost of moving their facilities when necessitated by highway construction. In this instance the required deposit is $13,200 and he recommended that the agreement be approved. The Commission approved the agreement and authorized the payment of the deposit as required.

The Commission approved the Secretary's report concerning papers signed by him in behalf of the Commission during the period January 13 through February 21, 1958.

The Commission confirmed the dates of March 27 and 28, 1958, for its next regular meeting to be held in the Queens Room of the Imperial Hotel, Portland. A tentative date for the next following regular meeting was set for May 8-9. The Commission also authorized the Engineer to receive bids in the Salem office on April 17, 1958, the results to be reported to the Commission on May 8, 1958, for award of contracts.

Upon the favorable recommendation of the Engineer the Commission accepted from Lincoln County a section of the Old Oregon Coast Highway in Beverly Beach State Park, Lincoln County. The Engineer recalled that an agreement covering this transfer was approved by the Commission at its January meeting and that a resolution is necessary to complete the transfer. The Commission accepted the old highway section by adopting the attached resolution relating thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to an agreement with the Grants Pass irrigation district covering purchase of water to irrigate the grounds adjoining the State Highway Office Building in Grants Pass. The Engineer explained that the agreement which provides for purchase of water from the district at the rate of $12.00 per acre per year is necessary until an application can be completed by which the irrigation district can change its boundaries to include this area. The Commission approved the agreement.

The Commission discussed with the Engineer plans that have been developed for construction of the East Bank Freeway route as part of the Pacific Highway through the city of Portland. The Engineer commented that five routes had been studied carefully and it appears that the most satisfactory route is the low level location along the east bank of the Willamette River designated as "B-2" from the Banfield Expressway to the proposed Marquam Bridge. He pointed out that there had been considerable objection raised to a route known as the high level line and that the low level line, or "B-2" route appears to be the most generally acceptable as well as being approximately $5,000,000 cheaper. He recommended adoption of the "B-2" route and explained construction features. Negotiations have been under way for some time with the city of Portland and the Bureau of Public Roads, he stated, and it appears that an agreement is near. However, he pointed out that before any action can be taken on adoption of a route, it will be necessary to determine if a hearing must be held as required by state and federal law. He requested authority to hold such a hearing if required. It was his opinion that the hearing could be

held in the near future, the survey adopted, and acquisition of right of way be started in 1958, with construction starting in 1959. In connection with the relative merits of the high level and low level routes, Mr. C. G. Polk, Division Engineer for the Bureau of Public Roads, stated that the low level route appears to be the most feasible. Mr. F. T. Fowler, Highway Coordinator for the city of Portland, stated that he felt that the state had done a commendable job in the selection of the low level East Bank Freeway route and that this route being less costly and less destructive to property values, is pleasing to the city. It was his opinion that the city officials would approve the route and that it also would be popular with the people of Portland. Commissioner McIver inquired as to plans for boat tie-up facilities, footpaths, and landscaping along the river. Mr. Fowler stated that there would probably be no facilities for boats but he felt the area should be adequately landscaped. The Engineer commented that it would be difficult to landscape the river bank and he felt that pedestrians should not be allowed on the river side of the highway. He pointed out that to get the project under way, it is necessary to advertise a public hearing as required by law, adopt a survey, program the work with the Bureau of Public Roads, and reach an agreement with the city of Portland. The Commission, upon motion by Commissioner McIver, authorized the Engineer to schedule a hearing in Portland as soon as possible.

Chairman Reynolds reported receipt of an inquiry from Walter Ride, Portland, concerning disposition of a stockpile site on the Scholls Secondary Highway near Progress. The Engineer was instructed to determine if the site is necessary for highway purposes as it appears to be valuable for development that is proposed at that place.

The matter of access to the R. H. Baldock Freeway at Norwood Road was discussed. The Engineer recalled that Chairman Reynolds received a letter from Governor Holmes asking for a complete review in the matter of establishing access at this point, and inquiring whether or not any representative of the Highway Commission had promised that such access would be granted. A six day continuous traffic count, he stated, was taken from February 7 to 12, 1958, and it was found that average daily traffic was 282 compared with 280 in 1955 when the previous count was taken which indicates that so far as traffic is concerned there is no more justification now for access than there was before. Concerning early alleged promises for access at Norwood Road, the Engineer recalled that when original negotiations for right of way were undertaken in 1951, the plan at that time was for a temporary grade crossing at Norwood Road, but property owners were advised that some time in the future if and when traffic volume demanded, a grade separation might be constructed. During the period of negotiations and because of the necessity of meeting interstate highway standards, it was decided to construct the entire Portland-Salem Freeway on a freeway basis, which meant the overcrossing or undercrossing of all local roads. It was his feeling that the Governor should be advised concerning the entire history of the matter, including requests, delegations, studies and findings of the Highway Department and other pertinent information. The Secretary and the Engineer were instructed to prepare a letter to the Governor in behalf of the Commission containing this information.

The Engineer reported that the survey for reconstruction of the Service Creek-Burton Canyon Section of the John Day Highway in Wheeler County has

been completed. The proposed route, he stated, follows the existing route quite closely. He explained details, with maps, and recommended that the survey be approved. The Commission approved the survey by adopting the attached resolution relative thereto marked EXHIBIT "L-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that in adopting the Manual of Uniform Practice of Signing and Striping for the Interstate Highway System, the majority of the states voted to use white center line paint, so in order to conform to federal regulations it may be necessary for Oregon to do likewise. He anticipated no change this year and asked authority to purchase yellow paint for use in 1958. The Commission approved the use of yellow paint for this year's operations.

The Commission discussed with the Engineer bids received on February 6 in Salem and the bids received this date (February 27). At 4:00 P.M., Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON FEBRUARY 6, 1958

"Baker-Maiden Gulch Rock Production Project on the Baker-Homestead Highway in Baker County. The Commission awarded the contract to the low bidder, Richard Beshey, Othello, Washington, at $30,821.35.

"Grading the Thomas Creek-Cape Ferrelo Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the low bid of Darkenwald Construction Company, Inc., and Harms Brothers, Sacramento, in the sum of $1,635,781.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving the Myrtle Creek-Fords Bridge Section of the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $603,772.00.

"Oiling the Lonerock Junction-Eightmile Section of the Wasco-Heppner Highway in Gilliam and Morrow Counties. The Commission awarded the contract to the low bidder, Russell Olson Construction Company, Inc., Pendleton, at $19,332.50.

"Long Creek-Beech Creek Summit Rock Production Project on the Pendleton-John Day Highway in Grant County. The Commission awarded the contract to the low bidder, Barney Helser Rock Production, Beaverton, at $21,735.00.

"Oiling and furnishing crushed materials in stock piles on the John Day-Bridgeport Junction Section on the John Day and Baker-Unity Highways in Grant and Baker Counties. The Commission awarded the contract to the low bidder, Calkins Crushing Company, Oceanlake, at $81,244.40.

"Grading the Richardson-Siuslaw River Section of the Richardson-Eugene Highway in Lane County. The Commission elects to accept the low bid of Hudspeth Pine, Inc., Prineville, in the sum of $199,413.50 and directs the State

Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Hermiston Guardrail Project on the Umatilla-Stanfield Highway in Umatilla County. The Commission awarded the contract to the low bidder, J. C. Denton & Sons, Beaverton, at $5,859.00

BIDS RECEIVED IN PORTLAND AT 9:00 A.M., FEBRUARY 27, 1958

Commissioner McIver also announced the award of contracts for bids received at the morning session, as follows:

"Bridge redecking, Corvallis Drawspan over Willamette River on Corvallis-Eastside Highway at Corvallis in Benton and Linn Counties. The Commission awarded the contract to the low bidder, James F. Turner, Corvallis, at $61,641.00.

"Paving and stone shoulders on the Dans Point-Plywood Plant Section of the Gold Beach-Bagnell Ferry Road in Curry County. The Commission elects to accept the low bid of J. C. Compton Company, McMinnville, in the sum of $71,715.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Curry County is received and the sum of $16,250.00 is deposited by the County.

"Spray-Fields Creek Rock Production Project on the John Day Highway in Grant and Wheeler Counties. The Commission elects to accept the low bid of E. H. Itschner Company, Molalla, in the sum of $42,262.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and oiling on the Horse Ranch-Fort Rock Section of the Fort Rock Road in Lake County. The Commission elects to accept the low bid of A. L. Harding, Inc., Stayton, in the sum of $103,940.80 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lake County is received and the sum of $26,300.00 is deposited by the County.

"Roadside improvement on the Willamette River (Springfield Bridge) Section of the McKenzie Highway in Lane County. The Commission awarded the contract to the low bidder, Knight Pearcy, Salem, at $8,811.60.

"Stone base and shoulders and paving on the Salem By-pass Section of the Pacific Highway in Marion County. The Commission awarded the contract to the low bidder, Roy L. Houck & Sons and Roy L. Houck Sons Corporation, Salem, at $645,389.00.

"Construct overnight camping facilities in Detroit Lake State Park in Marion County. The Commission awarded the contract to the low bidder, L. J. Plank Contractor, Woodburn, at $19,604.75.

"Grading and paving and construction of two reinforced concrete interchange structures on the Tigard Interchange Unit, Harbor Drive-Washington County Line Section of the Pacific Highway (R. H. Baldock Freeway) in Multnomah County. The Commission elects to accept the low bid of Central Paving Company, Independence, in the sum of $481,333.35 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Little Luckiamute River Bridge at Falls City in Polk County. The Commission elects to accept the low bid of Henry G. Stach, Oakridge, in the sum of $35,477.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $7,980.00 is deposited by the County.

"Construct Elgin Sand Shed at Elgin on Weston-Elgin Highway in Union County. The Commission awarded the contract to the low bidder, Bechtel Brothers, La Grande, at $10,486.00.

"Grading and paving and furnishing materials in stock pile on the Minam-Rock Creek Section of the Wallowa Lake Highway in Wallowa County. The Commission elects to accept the low bid of McNutt & Sons, Inc., Eugene, in the sum of $523,902.32 and directs the State Highway Engineer to award the contract to the said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

The Engineer reported that the Liquor Control Commission which has occupied offices on the fifth floor of the State Highway Building in Salem for several years has moved out so the space is now available for highway personnel. He requested authority to install partitions, doors, etc. to make it suitable for such personnel at an estimated cost of about $7,100.00. The Commission approved the project.

The Commission discussed with the Engineer matters to be presented by delegations that are scheduled to appear on the following day but deferred action pending appearance of the delegations.

The Engineer stated that the Highway Legislative Interim Committee has requested information concerning the organizations of the membership states of the Western Association of State Highway Officials that is being assembled by the Secretary for Commissioner McIver. This information, he said, outlines the highway organizational setup in the several western states, methods of taxation, and other features pertaining to highway business. Commissioner McIver stated that he felt that it would be of considerable advantage to the Highway Interim Committee to have the information. The Commission thereupon instructed that the information be sent to the Interim Committee as soon as it is prepared.

Chairman Reynolds brought up for discussion the contracting of the state advertising business under the direction of the Travel Advisory Committee and the Travel Information Department. He said that Mr. Richardson, Director of the Department of Finance and Administration, has indicated his belief that the statute giving authority to the Highway Commission to appoint and delegate

authority to the advisory board concerning handling of advertising has been repealed. The Chief Counsel gave as his opinion that the Highway Commission has legal authority to appoint the advisory committee and to order investigations within its power, and to take such action as is deemed necessary. The Commission reaffirmed its confidence in the Travel Advisory Committee and referred the matter to Chairman Reynolds to handle.

Chairman Reynolds also commented briefly on a schedule of bond payments prepared by the auditor pointing out that in 1965 the State will be required to pay the sum of $7,361,000 for bond interest and retirement. The Engineer observed that the bond issue of $12,600,000 authorized by the 1957 legislature had not been calculated in planning the highway finance program. It was his opinion that in 1960 $3,000,000 in additional highway revenue will be needed in order to match available federal funds. To provide this amount, he stated, would mean an additional one cent per gallon gas tax or an increase of $5.00 in vehicle license plates. He pointed out that in connection with all federal projects, including interstate as well as regular federal aid, the State is required to contribute approximately one dollar for each four dollars expended, or approximately 25 per cent. He mentioned that in the state of Washington the license plate and tax, on a Buick automobile, for example, costs $40.00 compared with $10.00 charged in the state of Oregon. Commissioner Reynolds stated that in his opinion the 1959 legislature should be advised that more money for highway work is needed in order to match federal funds. No definite action was taken at this time.

The Commission discussed briefly with the Engineer the matter of what appears to be a cut in federal funds for the interstate program. The Engineer explained that under the present law expenditures cannot be made in excess of income, and the income for the first few years will not average three billion dollars yearly It appears that only one billion six hundred million is available for interstate construction at this time but will pick up to three billion annually in a few years. Oregon, he said, has fared very well in the revision of highway needs and even with the indicated reduction it appears that approximately twenty four million dollars annually will be available as compared with twenty six million dollars in the original estimate. The state of Oregon is in twelfth place among the 48 states in getting its interstate program underway, having dropped from eighth place because when the ratings were determined credit was not given for the December 5 and 6 letting.

Chairman Reynolds mentioned that numerous letters etc. have been received concerning the proposed west side highway cutoff extending northerly from Forest Grove to Rainier. No action was taken in the matter except that the Secretary was instructed to file the correspondence for future consideration.

Brief attention was given to the list of critical highways and the cost of their construction as prepared for the governor. The Engineer observed that the total cost of two hundred eleven million dollars for the modernization of these highways could probably be reduced by approximately sixty million dollars by eliminating some of the new and lower priority roads that have been requested.

The Commission signed the following agreements and other papers:

Continued on following page

"Agreement" with Crown Zellerbach Corporation extending to December 31, 1958 the right for the State to remove rock from the Corporation's quarry near the entrance to Cape Lookout State Park.

"Agreement" with Consumers Power, Inc., Corvallis, for a power line extension to service the Detroit Lake park facility and overnight camping area.

"Indentures of Access" on the following properties:

a. Schwering property on Finn Rock-Elk Creek Section of McKenzie Highway, Lane County.

b. Owens property on Zigzag-Rhododendron Section of Mt. Hood Highway, Clackamas County.

c. Davis property on Seven Oaks-Medford Section of Pacific Highway, Jackson County.

"Release" covering property situate on Old Oregon Trail Highway in Union County.

"Bargain & Sale Deed" re selling to Union Pacific Company three parcels of excess property on Shogren-Rowena Section of Columbia River Highway, Wasco County.

"Letter" from B. M. French recommending certain changes in the Oregon Forest Highway System.

"Consent to Annexation" re modification of the area to be annexed to the city of Eugene in the Judkins Point area so as to exclude a cemetery.

"Trust Agreement" with Bonneville Power Administration covering revision of the Santiam-Albany and Albany-Lebanon transmission lines on Albany-Judkins Point Section of Pacific Highway.

"Bargain & Sale Deed" to Louis Wampler for a parcel of land on the Middle Grove-Central Howell Section of the Salem-Silverton Highway, Marion County.

"Bargain & Sale Deed" to Maple Dell Steel for a parcel of land in Multnomah County.

"Bargain & Sale Deed" to Jack R. Taggart for a parcel of land in Marion County.

"Finance & Maintenance Agreement" with Polk County covering the Little Luckiamute River Bridge project in Falls City.

"Bargain & Sale Deed" to Placidus James Schubert for a parcel of land on the Benton County Line-Cheshire Section of the Territorial Highway in Lane County.

"Lease & Sale of Road Materials Agreement" with Hood River County covering the Odell Section of the Odell Secondary Highway in Hood River County.

"Grant of Access" 16 feet wide at Highway Station 239+80 to be provided with a locked gate on State right of way except when vehicles are passing through.

"Agreement to Supply Irrigation Water" with the Grants Pass Irrigation District covering the purchase of water for the state office building in Grants Pass.

"Deed" covering conveyance of 2,000 sq. ft. of land to grantor (Holt-24543) pursuant to terms of option and settlement previously approved.

"Deed" with US Army Engineers covering exchange of property pursuant to agreement between State and Army Engineers involving relocation of Willamette Highway due to construction of Lookout Point Reservoir.

"Finance & Maintenance Agreement" with Curry County covering the Dans Point-Plywood Plant Section of FAS 258.

"Bargain & Sale Deed" to City of Eugene for a parcel of land on the Judkins Point-Goshen Section of the Pacific Highway in Lane County.

"Agreement" with City of Salem covering the proposed installation of traffic signals at six intersections in Salem.

"Notice of Application" and "Petition to Vacate" covering vacation of streets in Harbarton.

"Bargain & Sale Deed" to C. Millard Wood for a parcel of land on the Sutherlin Section of the Pacific Highway in Douglas County.

"Bargain & Sale Deed" to Hugo H. Paul for a parcel of land on the Willamette River-42nd Avenue Section of the T. H. Banfield Expressway, in Multnomah County

"Bargain & Sale Deed" to Josephine County for a parcel of land on the Jumpoff Joe Creek-Grants Pass Section of Pacific Highway in Josephine County.

"Indentures of Access" to the Richard Buffington property on the Gold Beach-Cape Sebastian Section of Oregon Coast Highway in Curry County.

The meeting adjourned at 4:45 p.m. to reconvene on the following day at 9:00 a.m.

Portland, Oregon
February 28, 1958

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel.

The following people were present:

Chas. H. Reynolds, Chairman

M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who stated that the Commission would announce the award of contracts at 3:30 p. m. in the same room. He also announced that the next bid letting would be held in Portland on March 27 and 28 and that bids would also be opened in Salem on April 17:

BIDS RECEIVED FEBRUARY 28, 1958

CLACKAMAS COUNTY
GRADING, PAVING AND ILLUMINATION EVELYN STREET CHANNELIZATION SECTION OF THE CLACKAMAS HIGHWAY

Parker & Fuhrman, Portland	$	27,167.90
Portland Road & Driveway Company		28,527.80

CURRY COUNTY
GRADING AND PAVING RINEHART CREEK SLIDE SECTION OF THE OREGON COAST HIGHWAY

Martin Kincheloe, Myrtle Point	$	15,691.00
Woodward & Son & Barklow, Coquille		16,729.00
Robert Angeli, Eastside		18,406.50
Calkins Crushing Company, Oceanlake		19,180.00
Sig Andersson, Coos Bay		19,915.00
J. C. Compton Company, McMinnville		21,795.00
F. L. Somers, Medford		23,980.00

The Benton County Highway Committee representing the cities of Corvallis, Philomath and Monroe, Benton County Court and Benton County Chamber of Commerce came before the Commission concerning highway improvements desired in Benton County. The following people were present: Fred Merrifield, Chairman, Chamber of Commerce Highway Committee, Corvallis; John F. Porter, City Manager, Corvallis; Gordon Larson, Mayor, Philomath.

Mr. Merrifield, who acted as spokesman, read aloud a statement of the desired highway program including (1) a reduced grade on the Alsea Mountain Section of the Alsea Highway (2) improvement of the Corvallis-Newport Highway between Philomath and Corvallis (3) improvement of First Street in Corvallis as the route of the Pacific Highway West (4) a survey of the Pacific Highway West from Corvallis to Camp Adair and from Corvallis south to Monroe, and (5) a more direct access highway from Corvallis easterly to a junction with the new Pacific Highway.

He also read aloud letters from the City of Corvallis, City of Philomath, the Benton County Court and the Benton County Chamber of Commerce, all urging various segments of this program and he asked the Commission to have studies made and to give serious consideration to the improvements.

Chairman Reynolds stated that a hearing was held recently in Corvallis concerning the section of the Corvallis-Philomath Highway within the city of Corvallis and it is hoped that work can be undertaken soon to be followed by improvements westerly to Philomath. Mr. Porter commented that the city of Corvallis is strongly in favor of improvement of First Street as the route for the Pacific Highway West. Commissioner McIver inquired as to what route the

delegation has in mind as a more direct connection with the Pacific Highway. Mr. Merrifield replied that the location they are proposing extends due easterly from Corvallis to a connection with the Pacific Highway south of Albany near Tangent. Chairman Reynolds assured the delegation that their requests would be given careful consideration, however, he pointed out that the Commission's main handicap is lack of funds.

A delegation representing the Warrenton Chamber of Commerce and others came before the Commission regarding the proposed bridge across Youngs Bay on the Oregon Coast Highway at Smith Point south of Astoria. The following people composed the group: E. R. Baldwin, City Manager, Warrenton; Forrest Vaughn, Chairman, Highway Transportation Committee, Chamber of Commerce, Astoria; John Sheppard, President, Chamber of Commerce, Warrenton; C. E. Wade, City Commissioner, Warrenton; Wayne Sampson, Jr., Chamber of Commerce, Warrenton. Mr. Baldwin headed the group and introduced the members. He reviewed briefly the events leading up to the Commission's authorization for construction of the bridge. The people of Warrenton, he stated, are concerned about efforts made by communities on the Lower Columbia River Highway for development of that highway in preference to construction of the Youngs Bay bridge and he reiterated that the group he represents is still strongly in favor of construction of the bridge. Mr. Vaughn observed that the Astoria Chamber of Commerce is in favor of the Youngs Bay bridge and has asked that construction be started as soon as possible. Chairman Reynolds stated that the Commission sees no reason to change its program and he pointed out that there is no basis for contention that politics influenced approval of the Youngs Bay bridge as cost studies were made on various routes, benefit quotients determined in 1950 and a decision made approving the route including the Youngs Bay bridge in August 1956, prior to the last election.

The Engineer recalled that a letter written by former highway engineer Mr. R. H. Baldock, dated in 1950, showed a benefit quotient in excess of seven to one for the Youngs Bay bridge route Commissioner McIver commented that much time has been spent in determining all angles in connection with the Oregon Coast Highway route south of Astoria and that other groups in the area had agreed that the Youngs Bay bridge should be considered as the No. 1 project. Commissioner Chessman stated that although the action approving the Youngs Bay bridge had taken place prior to his appointment as a member of the Commission, that he concurs with the action that was taken by the previous Commission.

Chairman Reynolds then asked the Engineer if there has been any change in his attitude concerning the Youngs Bay bridge project. The Engineer replied that the project was recommended only after exhaustive study and that no facts have been presented since then to change his opinion.

Chairman Reynolds advised the group that the Commission plans an orderly program of construction in this area and in due time hopes to complete reconstruction on the Lower Columbia River Highway.

Crook County Judge Harry C. Fowler, Crook County Commissioners Luke Reif and Melvin Weberg, all of Prineville, accompanied by F. G. Whitaker of the U.S. Bureau of Reclamation, Boise, Idaho; Mr. LaSelle Cole, Manager, Ochoco Irrigation District, and a Mr. Merritt and a Mr. Graffenbarger also

representing the Ochoco Irrigation District, came before the Commission concerning (1) construction of a climbing lane on the Ochoco Highway west of Prineville; (2) improvement of an additional three mile section of the "Paulina Road" and (3) relocation of the Crooked River Highway that will be required by reason of construction of the Crooked River Dam south of Prineville. Judge Fowler pointed out the need for a climbing lane west of Prineville. Concerning improvement of the Paulina Secondary Highway he inquired if it would be possible for the Commission to reconstruct an eleven mile section instead of the eight miles that is proposed. He mentioned particularly the need for placing a two mile section of the Paulina Highway about fifteen miles west of Paulina on the north side of the river to avoid a hazardous icing condition which now prevails on what is known as the "Stewart Grade". The Engineer remarked that funds are not available for construction of the climbing lane west of Prineville as the county had agreed to transfer funds from this section so the highway between Redmond and Sisters could be improved. Chairman Reynolds in commenting on the increase in length of the Paulina Section from eight to eleven miles stated that any savings on contract projects are reallocated for improvements within the division in which they occur and the Commission could give no promise that the length of the project could be extended. The Engineer stated that there appears to be some misunderstanding concerning savings on this project as the amount allocated was $600,000 whereas the amount expended, including the bridge, was $660,000. He stated also that careful attention would be given to the icy section mentioned by Judge Fowler.

Concerning the proposed construction of the Crooked River Dam, Judge Fowler called attention to the application of a 1949 law which concerns reconstruction of highways that will be necessary when the dam is constructed. The Engineer stated that no official notice has come to his attention concerning sections of highway which would be inundated and that no official request or statement has been made to him concerning the dam. Judge Fowler urged that the route for the relocated sections of highways be determined at an early date.

Mr. Cole, Manager of the Ochoco Irrigation District, stated that $1,000,000 has been appropriated for construction in 1958 and it is anticipated that bids will be received about June 1. In the meantime an agreement must be reached with the Highway Commission and the county concerning replacement and routing of roads which will be flooded. He strongly urged that the Commission approve closing a section of the Crooked River highway near the dam as an aid in construction of the dam. He pointed out that approximately 90 per cent of the traffic on this route could use the route that they propose as a detour. He said that there are several possible routes which can be used, and he urged that early agreement be reached so as not to hold up award of the contract for the dam construction. The Irrigation District has the sum of $200,000 available in next year's budget to replace roads because of dam construction.

Chairman Reynolds stated that this is the first official presentation that the Commission has received on this project and that the Engineer would be instructed to study the matter. The Commission, he stated, will also need to know who will pay for the relocated highway sections. Judge Fowler stated that county roads as well as the state highways are involved. Mr. Cole again urged the Commission to grant authority to close a section of the highway near the dam site. The Engineer commented that relocation of highways in connection

with construction of this dam was studied several years ago and the cost at that time appeared to be quite high. It was his feeling that a conference should be held to work out details including proposed routes, closure of the highway at the dam, financing, and other details. The Commission instructed the Engineer to study the matter, hold such conferences as are necessary, and report his findings to the Commission.

A group of people from the towns of Umatilla and Irrigon came before the Commission concerning improvement of the 15 mile section of US730 between Umatilla and the Boardman overpass. The following people were present: Archie Easton, Mayor and member of Umatilla Port Commission; Dallas Dusenberry, President, and Cyril Brownell, both of the Chamber of Commerce; Sinice Moore, Councilman, all of Umatilla; Don Adams, Mayor, and Warren McCoy, Councilman, both of Irrigon. Mr. Easton, who acted as spokesman, introduced the other members of the delegation. He pointed out that heretofore plans for improvement of the highway have been difficult because of the unknown height of the John Day Dam on the Columbia River. However, the elevation of the proposed dam is now known and it has been determined that impounded waters will affect the roadway only slightly. He pointed out that the existing roadway was constructed approximately 40 years ago, is very narrow and crooked and carries a large volume of traffic for the type of road that it is. He estimated that the road could be improved to a reasonable standard for approximately $1,000,000 of which the state would have to pay approximately $400,000. Mr. McCoy called attention to several serious accidents in which persons had been killed, and he also pointed out that six accidents had occurred in one week. Mr. Easton commented that plans are under way for development of a port district in that area and improvement of the road is necessary to the welfare of the port district. Mr. Brownell called attention to the obsolete condition of the present road and the large number of accidents that have occurred on it. It was his feeling that construction of the proposed interstate highway from Ellensburg, Washington, will funnel considerable additional traffic onto the road. Commissioner Reynolds informed the delegation that their request would be given careful consideration when the next construction program is formulated.

A delegation consisting of the Umatilla County Court and others came before the Commission to urge use of the Umatilla Bridge as the point of crossing the Columbia River on the route of the proposed Interstate Highway between Ellensburg, Washington, and Pendleton, Oregon. The following people were present: Hon. D. R. Cook, County Judge of Umatilla County: Frank Hayes and Roscoe Kelly, County Commissioners, and Gene Hiatt, Manager, Umatilla Toll Bridge, all of Pendleton; Cyril G Brownell, Umatilla, and Loyd Key, taxpayer, Milton-Freewater. Judge Cook, who acted as spokesman, introduced the other members of the delegation. He advised that the tolls being received on the recently completed bridge at Umatilla are barely meeting expenses, and that were the proposed Ellensburg-Pendleton Interstate Highway to be routed via a crossing of the Columbia near Boardman it would bankrupt the Umatilla Bridge operation. He urged the Commission to do everything possible to route the proposed Interstate Highway over the Umatilla Bridge in order to avoid such situation. He gave as his opinion that it would not be difficult or too costly to widen the Umatilla Bridge to acceptable interstate standards for two lanes of traffic and in years to come, when traffic volume demanded it, a second structure could be built. It was his opinion too that the location of the crossing of

the Ellensburg-Pendleton Interstate Highway over the Columbia River will have a great bearing on the location of the proposed port facilities in that area. Chairman Reynolds remarked that definite action has not as yet been taken as to the route of the proposed interstate highway. In order to determine facts as to the best route, he stated that the Engineer had been instructed to secure engineering data and from the information secured a decision will be reached. The Commission, he continued, wishes to hear all sides of the matter and he mentioned that a delegation from Boardman will be in to urge a crossing near Boardman. When all interested parties have been heard and the Commission has reached a decision the Engineer will then be instructed to discuss the matter further with the authorities of the State of Washington who are concerned. He added that everything possible will be done to protect the best interests of Oregon.

Judge Cook commented that he had heard that there are plans under way to start operation of a Columbia River ferry at Boardman within the next few days. Chairman Reynolds stated that the Commission has no control over the operation of the Columbia River ferries other than at Astoria. In reply to an inquiry from Judge Cook, the Engineer stated that he had investigated the southern end of the interstate route in Washington and had given the information to the Commission. It appears, he said, that a route using the Umatilla Bridge is entirely feasible. He also said that the route suggested by the State of Washington authorities with a contemplated crossing of the Columbia River near Boardman is not a bad route, but in his estimation the Umatilla Bridge route would be just as good and somewhat cheaper to build. Chairman Reynolds stated that the Commission would do all it could to utilize the Umatilla Bridge as the interstate crossing. The Engineer then inquired if Umatilla County is in favor of placing the Ellensburg-Pendleton route on the interstate system. Judge Cook replied in the affirmative provided that the route selected will not jeopardize the Umatilla Bridge.

Judge Cook then called attention to the fact that a contractor (Vernie Jarl) had left a rock pit on the Vansycle-Helix FAS Highway loaded with dynamite. The Engineer advised that the contractor already has been ordered to eliminate this hazard.

Judge Cook also inquired concerning the status of improvement of the South Mission Road and the section of the Oregon-Washington Highway between Adams and Milton. Chairman Reynolds stated that the problem is to find funds to finance the work, but the Commission will try to get it on the construction program as soon as possible. He also said that bids are to be received by the Commission on March 27, 1958, for improvement of the South Mission Road.

The meeting recessed at 12:10 p.m. and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

Mr. Ernie Fatland, representing the Commercial Club of Condon; Mr. W. H. Steiwer, representing the Fossil Community Club; and Hon. James D. Burns, County Judge of Gilliam County, appeared before the Commission to urge improvements on the Service Creek-Pioneer Picnic Grounds Section, the Service Creek-Spray Section, and the Fossil-Condon Section, all on the John Day Highway. Mr. Fatland stated that they are also interested in improvements to Highway 206. Mr. Steiwer inquired as to reasons for delay in construction on

the Pioneer Park-Burton Canyon Section and urged early improvement of the section between Fossil and Condon. The Engineer reviewed allocations that have been made on this highway and pointed out that it may be as late as December 1958 before the Bureau of Public Roads appropriates the necessary federal funds. The survey work, he stated, has been completed and construction will be contracted as soon as the money is available.

Mr. Steiwer then inquired if a survey could be started between Fossil and Condon. Chairman Reynolds replied that so far the Commission has not considered the matter. Judge Burns stated that more people would be served if the highway improvement was started at Fossil. Early improvement of the section between Fossil and Condon was also urged by Mr. Fatland. The Engineer inquired if the people in that area are all agreed on this project and if the people in John Day for instance, prefer improvement between Fossil and Condon. Mr. Fatland replied that all of the people he has contacted favor the project. Commissioner McIver inquired as to the section between Fossil and Condon that the group would designate as their No. 1 project. Judge Burns replied that in his estimation improvement of the Cummings Hill Section should be first consideration. Mr. Fatland called attention to the following additional items which need attention: (1) Better warning signs between Olex and Shutler Flats on the John Day Highway south of Arlington. (2) Determination of ownership of property in Condon which is needed for the school district swimming pool. He requested, if it is determined that the Highway Commission has ownership, that the land be deeded to the school district. (3) Widening for parking and construction of a rest area at the Devils Butte Viewpoint on the Condon-Cottonwood Section of Highway 206 where a fine view of Mt. Adams is available. (4) Construction of a new bridge over the John Day River on Highway 206. Chairman Reynolds stated that these matters would be investigated.

A delegation representing the Junction City Lions Club, the Chamber of Commerce, and others, came before the Commission concerning relocation of the Siuslaw Highway along the south side of Triangle Lake. The following people were present: Frank Knox and Ford Hand, both of Junction City Chamber of Commerce; Lee Murphy and Julius Hult, Lions Club; Warren Marshall, School Superintendent, Triangle Lake; and Philip Hult, Hult Lumber Company, Horton. Mr. Knox acted as spokesman and introduced the other members of the group. He pointed out that the Siuslaw Highway is an important road and that the existing section north of Triangle Lake is exceedingly crooked. Mr. Marshall, School Superintendent, stated that between 125 and 150 children are transported daily to and from school over this highway section and that during the course of the school term there are usually about five days when the school bus cannot make the run because of the bad condition of the road. One school bus, he said, has been sideswiped and there have been two rear end collisions. Also, traffic in following the buses over the crooked road is delayed considerably because of inability to pass. Julius Hult pointed out that construction to the south of the lake would eliminate 45 curves and he declared that increasing traffic on the Siuslaw Highway has made the need for improvement imperative. Mr. Hand stated that to remove the 45 curves would require construction of only two miles of new road. He mentioned that a survey has been made and he urged early construction for safety reasons. Mr. Murphy commented that he has traveled this road since 1924 and in that time the nature and volume of traffic has changed considerably. He mentioned particularly the increasing number of boats and

trailers that are transported over the road and the large number of logging trucks that operate over it. He also pointed out that rerouting the highway to the south of the lake would make available an excellent area for development as a state park. Philip Hult mentioned the advantage of a possible park area on the south of the lake and commented on the difficulties that are encountered in adequately maintaining the existing road. The Engineer stated that the proposed project is desirable and that studies indicate a benefit quotient of 3.87 to 1 and a cost of approximately $1,000,000 for construction. However, he added, no funds are available to finance it. Chairman Reynolds stated that the Commission personally examined the proposed route last year and although they did not like to say "No", such an answer is necessary at this time as there are no available funds. He also remarked that additional highway funds are needed in order to improve many substandard highway sections, and he mentioned additional gas taxes or an increase in license fees as possible sources of revenue.

Father O'Brien and Stewart Leavy, representing the Board of Directors of Immaculata Academy, Portland, appeared before the Commission to request that the Academy building be permitted to remain on state highway property along the Banfield Expressway near 132nd Avenue. Father O'Brien recalled that the Sisters of the Immaculata Academy had purchased the building by bid and he asked that a revocable permit be granted allowing the building to remain where it is for a period of approximately five years. He pointed out that to move the building would cost approximately $30,000. Mr. Leavy explained that when the property was purchased it was fully intended to move the building from the highway right of way within a year but unexpected financial emergencies have arisen' and it would place a financial burden on the Academy if they are required to move it immediately. Father O'Brien emphasized that no collusion has occurred but because of financial and other reasons plans for the school have been changed and the building has no permanent value to them.

Chairman Reynolds pointed out that if the building had been sold on the basis that removal from the right of way would not be required the Commission might have secured a much larger sum from the sale. Commissioner McIver commented that if the building is allowed to remain on the right of way it would jeopardize the Highway Commission's position with the U.S. Bureau of Public Roads which is assisting with federal funds in financing construction of the Banfield Expressway. He recalled that when the building was offered for sale it was clearly understood that it was to be removed from the right of way within a year. He suggested that the Engineer be instructed to check into the matter and submit a report. The Engineer called attention to the fact that prior to the sale of the building the Commission was receiving $525.00 per month rent for its use. The Commission instructed the Engineer to investigate the matter and submit a report.

Ted Keyler, Paul Jan, and Elton Everhart, representing the Molalla Chamber of Commerce, came before the Commission to request improvement of the Cascade Secondary Highway. Mr. Keyler pointed out that the highway is in good condition north of the town of Clackamas but south of that place it is quite narrow and crooked. He called particular attention to improvements needed in and near Oregon City, at Beaver Creek, at the Alder Tree curves, on the Mulino Hill Section which is steep and narrow, the narrow, slick bridge at Liberal, and the railroad crossing at Atlers Mill. He also mentioned that since

Detroit Reservoir has been opened to the public the volume of traffic over the Cascade Secondary Highway has increased greatly. Civil Defense authorities in Portland, he added, would also like to see the highway improved. Paul Jan stated that in his opinion several industries have been lost to the area south of Portland because of the poor condition of the Cascade Secondary Highway. Elton Everhart stated that the highway to the north and south of the sections previously mentioned are in good condition, thereby accentuating the deficiencies of the unimproved section.

The Engineer stated that this highway carries a heavy volume of traffic and is deserving of a high priority rating but at the present time no funds are available to finance its improvement. Chairman Reynolds stated that the Commission will give careful consideration to the project in the formulation of the next construction program.

Hon. Oscar Peterson, Morrow County Judge; Mr. George Wiese, President of the Boardman Planning Commission; Mr. Dewey West, President of the Boardman Chamber of Commerce, and Mr. Joe Tatone, Mayor of Boardman, came before the Commission to urge routing of the proposed Ellensburg-Pendleton interstate highway across the Columbia River near Boardman. Judge Peterson, who acted as spokesman, introduced the other members of the delegation and stated that people of Boardman are much enthused about the interstate route as proposed by the State of Washington which would provide a crossing of the Columbia River a short distance east of Boardman. He questioned if a project of this magnitude and cost should be hinged on the existence of a bridge at Umatilla. The route as proposed by the Washington officials, he stated, is a short inexpensive route which has considerable merit and in their estimation should be added to the interstate system. Mr. Wiese read aloud and presented a brief submitted by the Boardman Planning Commission, favoring adoption of the interstate route near Boardman. He inquired if there are any other toll bridges on the interstate system. He declared that the Umatilla Bridge is too narrow and if it is not used for the Interstate route it would simply mean that it would take a longer time to pay off the bridge bonds. He felt that the Washington State officials have done a good job in selecting the route near Boardman and he doubted that their judgment should be questioned. The Engineer commented that there are a considerable number of toll bridges on the interstate system. Mr. West read aloud and presented a statement in behalf of the Boardman Chamber of Commerce urging adoption of the route suggested by Washington State. Mr. Tatone read aloud and presented a letter from the City of Boardman endorsing the interstate routing near Boardman. Judge Patterson stated that the Morrow County Court favors the Boardman crossing. The Engineer remarked that there is no intent to construct a four-lane bridge across the Columbia to accommodate the proposed Ellensburg-Pendleton Interstate Highway as it appears that traffic will not justify a four-lane facility before 1975. Chairman Reynolds concluded the discussion by thanking the delegation for its well organized presentation.

A delegation from Pendleton, Weston, and Milton-Freewater was present and urged the Commission to improve the Oregon-Washington Highway between Adams and Milton-Freewater. The following people composed the group: Vern Hendershott, President of the Pendleton Chamber of Commerce; Vern Tinterstette, Manager of the Chamber of Commerce; Paul DeGraf, Sites Silver

Wheel Freight Lines, all of Pendleton; Gilbert Lamb, food processor, Weston; L. W. Price, Mayor of Milton-Freewater; Dick Yantis, President of Milton-Freewater Chamber of Commerce, and Lloyd Key, representing canneries, all of Milton-Freewater. Mayor Price headed the group and introduced the members. He read aloud and presented a resolution adopted by the Milton-Freewater City Council urging early reconstruction of the Oregon-Washington Highway between Milton-Freewater and Adams. Mr. Yantis read aloud and presented a statement from the Pendleton Chamber of Commerce asking early reconstruction of this section. Mr. Lamb read aloud and presented a prepared statement calling attention to the heavy volume of traffic caused by the pea and vegetable industries. He also cited the increase in logging and pulp and lumber trucks which often cause traffic jams on hills when faster moving vehicles are unable to pass. During the pea harvesting season, he said, there is an average of one pea truck passing a given point on the highway every minute and a half. Mr. Key emphasized the great amount of traffic during the canning season and mentioned that recently one state highway employee had been killed near Weston. It was his feeling that the traffic volume would increase still more as time goes on. Mr. Hendershott presented a prepared statement showing the volume of pea hauling trucks and accidents in this vicinity. Commissioner McIver commented that the improvement requested undoubtedly is needed but the problem is complicated by lack of funds. He concluded the discussion by stating that the Commission will make every effort to include a project on this highway section in formulating its next construction program.

Chairman Reynolds brought up for discussion the bids received at the morning session for operating the concession at Rooster Rock State Park. He inquired when the award of this contract could be made. The Parks Superintendent replied that some bidders had qualified their bids and it would be necessary to check the reliability of several of the high bidders in order to determine the best bidder. The Commission instructed him to study the bids and report his recommendation at the next meeting. In this connection the Commission also authorized the advertising for bids for concession privileges at Fort Stevens State Park in Clatsop County.

The Commission again considered proposed routing of the interstate highway between Ellensburg, Washington, and Pendleton, Oregon, particularly as this route affects the Umatilla Bridge. Upon motion by Commissioner McIver which carried unanimously, the Engineer was instructed to confer with Washington State highway officials in an endeavor to reach an agreement as to a route and to report back at the next Commission meeting a joint recommendation from both states.

The Commission, after carefully considering the list of condemnations submitted by the Chief Counsel on the preceding day and in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning those projects and properties involved, approved the condemnations by adopting the attached resolutions relative thereto, marked EXHIBITS "I-1" through "I-15", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented proposed settlements of condemnation proceedings for acquisition of right of way as follows:

Edmund H. Verdurmen, File 2947, in the amount of $100.00, Harbor Drive-Barbur Boulevard Section of the Pacific Highway in Multnomah County.

Lars Haugan, File L-2928, for $22,500.00, on the Harbor Drive - Barbur Boulevard Section of the Pacific Highway in Multnomah County.

These settlements, he stated, are reasonable and he recommended that they be accepted. The Commission approved the settlements as recommended.

The Chief Counsel also reported that the Douglas Community Hospital has offered to accept the sum of $30,000.00 as settlement in full for acquisition for right of way from them. This amount, he stated, is entirely too high and he recommended that the offer be rejected. The Commission rejected the proffered settlement.

The Engineer called attention to a resolution adopted by the Highway Commission on August 6, 1953, authorizing the Engineer or any Assistant Highway Engineer to impose reduced load limits on highways. The 1957 Legislature, he pointed out, authorized the Highway Commission to delegate certain matters to the Engineer and he recommended that a new resolution be adopted granting the Engineer, the Deputy Highway Engineer, or either Assistant State Highway Engineer authority to impose reduced load limits on state highways when such action is necessary to prevent damage. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer bids received at the morning session and at 3:30 p.m., Commissioner McIver announced awards of contracts as follows:

Grading, paving, and illumination of the Evelyn Street Channelization Section of the Clackamas Highway, Clackamas County. The Commission elects to accept the low bid of Parker & Fuhrman, Portland, in the sum of $27,167.90 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $12,720.00 is deposited by the County.

Grading and paving the Rinehart Creek Slide Section of the Oregon Coast Highway, Curry County. The Commission awarded the contract to the low bidder, Martin Kincheloe, Myrtle Point, at $15,691.00.

Construction of Long Creek Sand Shed on Pendleton-John Day Highway, Grant County. The Commission awarded the contract to the low bidder, H. G. Wirtz, Grants Pass, at $10,190.00.

Rock production on the Murphy-Ruch Section of the Medford-Provolt and Williams Highways, Jackson and Josephine Counties. The Commission awarded the contract to the low bidder, Moyer Gravel Company, Alturas, California, at $23,368.00.

Construction of Eugene Office Building, Lane County. The Commission awarded the contract to the low bidder, Lee-Built Homes & John D. Bachman, Springfield, at $6,873.00.

Construction of Beachside State Park Latrine, Lincoln County. The Commission awarded the contract to the low bidder, George W. Millett, Jr., Eugene, at $6,692.00.

Construction of Devils Lake State Park Facilities, Lincoln County. The Commission awarded the contract to the low bidder, George W. Millett, Jr., Eugene, at $23,687.50.

Installation of traffic signals at six intersections in the city of Salem, Marion County. The Commission awarded the contract to the low bidder, Electric Corporation, Salem, at $24,140.00.

North Jefferson Jct. -North Albany Street Section of the Pacific Highway, Marion and Linn Counties. The Commission awarded the contract to the low bidder, Roy L. Houck & Sons & Roy L. Houck Sons Corporation, Salem, at $1,262,693.00.

Grading and paving the 16th Avenue connection to the Columbia River Highway (T.H. Banfield Expressway) in the city of Portland, Multnomah County. The Commission elects to accept the low bid of Howard Angell, Portland, in the sum of $36,533.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

Grading and paving the Rooster Rock State Park parking area extension, Multnomah County. The Commission awarded the contract to the low bidder, George E. Blaisdell & Sons Construction Company, Portland at $30,440.00.

Construction of Rooster Rock State Park facilities, Multnomah County. The Commission awarded the contract to the low bidder, Zuber Brothers Contractors, Portland, at $35,038.50.

Umatilla Rock Production Project on state highways in the vicinity of Umatilla, Umatilla County. The Commission awarded the contract to the low bidder, Cartwright Construction Company, Durkee, at $11,250.00.

Grading, stone base and paving on the West Unit, Shogren-Rowena Section of the Columbia River Highway, Wasco County. The Commission elects to accept the low bid of Roy L. Houck & Sons & Roy L. Houck Sons Corporation, Salem, in the sum of $295,492.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

Widen existing Shogren Overcrossing of UPRR, Wasco County. The Commission elects to accept the low bid of Babler Brothers, Inc., Portland, in the sum of $161,626.00 and the State Highway Engineer is directed to

award the contract to said bidder as soon as approval of the Bureau of Public Roads is received.

There being no further business to transact at this time, the meeting was declared adjourned by Chairman Reynolds at 3:35 p. m.

EXHIBITS "A" through "O"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

February 27 and 28, 1958

EXHIBIT "A"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27088	Oregon General Discount Company		(Grant)
	Right of Way, 0317 S.W. Grover St., Sta. 93		
	Option expires July 26, 1958		
	2,085 sq.ft.	$1,500.00	
	House	4,800.00	
	Lawn, walks and shrubs	100.00	
	Amount to be paid owner - chrg to Right of Way		$6,400.00
	Grantor to vacate 30 days after notice.

Amount to be paid owners - chrg to Right of Way $650.00

Access not controlled -

NEWBERG-GEARIN CORNER SECTION - HILLSBORO-SILVERTON HIGHWAY

26317 Hoffman, Otto (Hart)
Right of Way, Stas. 9-12
Option expires August 9, 1958
0.54 acre at $2,000 per acre $1,080.00
Amount to be paid owner - chrg to Right of Way $1,080.00
Grantor to vacate by February 15, 1958 or within 5 days after payment, whichever occurs later.

Access not controlled -

26324 Everest, Archie Charles and Esther Owens (Hart)
Right of Way, Stas. 32+95-33+22
Option expires August 10, 1958
0.08 acre at $750 per acre $ 60.00
Amount to be paid owners - chrg to Right of Way $60.00
Grantors to vacate by February 15, 1958.

Complete restriction of access -

26340 DePaolo, Antonio and Victoria (Henry)
Right of Way, Stas. 83-91
Option expires August 3, 1958
0.25 acre at $300 per acre $ 75.00
0.2 acre at $600 per acre 120.00
0.05 acre, including shrubs 205.00
23 rods fencing at $4 per rod 92.00
Amount to be paid owners - chrg to Right of Way $492.00
Grantors to have until March 15, 1958 to remove fence.
THINGS TO BE DONE BY THE STATE

Construct road approach at 87+40 on W. side of hwy.
Access: 87+40, W., residential and agricultural.

Access controlled -

EXHIBIT "A" (Cont)

NEWBERG-GEARIN CORNER SECTION - HILLSBORO-SILVERTON HIGHWAY

26322 Hayden, Margaret C. (Hart)
Right of Way, Stas. 29-31
Option expires August 10, 1958
0.34 acre at $750- per acre $ 250.00
Severance and encroachment damage and loss of trees 345.00
Amount to be paid owner - chrg to Right of Way $595.00
Grantor to vacate by February 15, 1958.

THINGS TO BE DONE BY THE STATE

Re-establish road approach at present location.
Access: 31+00, Northeasterly, residential.

Access controlled -

26331 Wegter, Kenneth and Katherine (Henry)
Right of Way, Stas. 58-59
Option expires July 19, 1958
0.01 acre $ 25.00
5 rods fencing at $5 per rod 25.00
Amount to be paid owners - chrg to Right of Way $50.00
Grantors to have until March 1, 1958 to remove fence.

Complete restriction of access -

26335 McKeoun, Jay S. and Maud F. (Henry)
Right of Way, Stas. 76-82
Option expires July 2, 1958
1.06 acres at $500 per acre $ 530.00
Damage 600.00
Amount to be paid owners - chrg to Right of Way $1,130.00
Farm crossing: 25' wide at 80+00.

Access controlled -

26336 Werth, Raymond H. and Wanda L. (Henry)
Right of Way, Stas. 82-84
Option expires July 22, 1958
0.62 acre at $400 per acre $ 248.00
Damage 252.00
Amount to be paid owners - chrg to Right of Way $500.00

Complete restriction of access -

BIG CLIFF-GATES SECTION - NORTH SANTIAM HIGHWAY

27711 U.S.A. (Army Engineers) (Saling)
Right of Way, M.P. 30.8-M.P. 36.5
Letter of January 27, 1958

3.77 acres fee and 69.1 acres easement of abandoned Southern Pacific Railroad right of way	$ 150.00	
Amount to be paid owner - chrg to Right of Way		$150.00

Access not controlled -

ALBANY-LANE COUNTY LINE UNIT, ALBANY-JUDKINS POINT SECTION-PACIFIC HIGHWAY

25488 Heyerly, Percy and Mildred (Friess)
Right of Way, Stas. 1164-1196
Option expires July 27, 1958

0.5 acre at $1,500 per acre	$ 750.00	
23.8 acres at $400 per acre	9,520,00	
Storage shed	457.50	
Replacing bridge	200.00	
Encroach. damage to house and garage and incr. grade	5,400.00	
Damage to land	8,772.50	
Amount to be paid owners - chrg to Right of Way		$25,100.00

Grantors to remove black walnut tree from r/w prior to March 15, 1958, and to vacate by same date.
Grantors allowed to salvage present fencing before construction if it does not interfere with State.

EXHIBIT "A" (Cont)

ALBANY-LANE COUNTY LINE UNIT, ALBANY-JUDKINS POINT SECTION-PACIFIC HIGHWAY

25488 Heyerly, Percy and Mildred (Cont)

THINGS TO BE DONE BY THE STATE

Fence right of way. Proposed detour road to be left intact, with full access thereto, except portion in hwy. right of way. Construct 25' approach and install double 10' gates at 15+50 on N. side of detour rd. Construct approach at 16+60, S., and a gravel drive from approach to 13+10. Construct two 25' approaches at 2+50, each side, and install double 10' gates to each. Fence r/w except from 16+72 to hwy. right of way. Construct fence on Grantors' remaining land from 16+72 to farmyard fence at approx. 15+50.

Complete restriction of access -

27367 Roth, Anna and Ed (Friess)
Right of Way, Stas. 372-380
Option expires July 20, 1958
0.8 acre $ 300.00
Amount to be paid owners - chrg to Right of Way $300.00
Grantors allowed to salvage present fencing before construction, if it does not interfere with State.

THINGS TO BE DONE BY THE STATE

Fence right of way. Construct 25' approach, S., at 376+50 and install two 10' metal gates. Construct detour road N. of present county road and Grantors allowed full access thereto. Install sufficient anchor posts at all fence corners affected by hwy. construction.

Complete restriction of access -

25733 Malpass, Richard W. et al (Hart)
Right of Way, Stas. 2530-2537
Option expires June 3, 1958
8.07 acres at $275+ per acre $2,220.00
Severance damage 2,780.00
Amount to be paid owners - chrg to Right of Way $5,000.00
Grantors to vacate by August 31, 1958, or as soon as crop is harvested, if this occurs sooner, or upon written notice by State. If crop damage occurs before said date, Grantors to be reimbursed at the rate of $25 per acre.

29615

EXHIBIT "A" (Cont)

ALBANY-LANE COUNTY LINE UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25733 Malpass, Richard W. et al (Cont)

THINGS TO BE DONE BY THE STATE

Provide E. frontage road. Construct road approach to E. side of same opp. 2530+00, approximately. Fence r/w with #2 sheep type fence with exception of portion between 2535+00 and 2537+30, which will use type 2 fence, with three barbed wires at top.

Complete restriction of access -

26707 Malpass, David C. and Evelyn R. (Hart)
Right of Way, Stas. 2527-2559
Option expires June 3, 1958

21.19 acres at $275- per acre	$5,800.00
10 acres at $200 per acre	2,000.00
Timber	1,110.00
Loss of irr. water facilities to west parcel	2,190.00
Electric power line ease. and joint use of existing facilities agreement	1,500.00
Land damage	5,150.00
Amount to be paid owners - chrg to Right of Way	$17,750.00

Grantors allowed to salvage present fencing if same does not interfere with construction, and before construction begins. Grantors to vacate by August 31, 1958, or as soon as crop is harvested if this occurs sooner, or upon written notice. If crop damaged before said date, Grantors to be reimbursed at the rate of $25 per acre. Grantors to pay 1957-58 and 1958-59 taxes, if property used for fiscal period.

THINGS TO BE DONE BY THE STATE

Provide E. frontage road. Fence r/w with #2 sheep type fence with exception of portion between 2537+30 and 2549+00, which will use standard type fence, with three barbed wires at top.

Complete restriction of access -

EXHIBIT "A" (Cont)

ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

25184 Willoughby, Hubert F. and Naomi (Morgan)
Construction Easement, Stas. L2638-L5 18+50
Option expires August 7, 1958
5.75 acres, temporary easement $ 200.00
Amount to be paid owners - chrg to Construction $200.00

THINGS TO BE DONE BY THE STATE

Construct grade 11' wide on top from Grantors' present irr. ditch 500' to Sta. 2644+00. Install 3 equipment crossings and connect to frontage road. Agrees not to borrow fill material from Grantors' easement and that no natural drainage shall be blocked. Install 3 gates, 14' in width and replace fences torn down or removed during construction. As soon as State's obligations are completed Grantors to relieve it of any further obligations concerning irrigation system.

Complete restriction of access -

BENTON COUNTY LINE-CHESHIRE SECTION - TERRITORIAL HIGHWAY

27592 Schubert, Placidus James and Marion N. (Benner)
Quarry Site Exchange
Owners deed signed January 30, 1958
State to acquire in exchange:
6 acres at $100 per acre Equal Exchange
State to convey in exchange:
6 acres at $100 per acre
(Acquired under file 19317), upon the grounds and for the reason that the said property, in the opinion of the Commission, is no longer needed, required, or useful for highway purposes, and the value of the property to be acquired by the State is not less than the value of the property to be relinquished by the State.
Property being deeded by State was under cultivation.

EXHIBIT "A" (Cont)

PIONEER SUMMIT UNIT, TOLEDO-EDDYVILLE SECTION - CORVALLIS-NEWPORT HIGHWAY

26235 Smouse, William and Ida (Henry)
Right of Way, Stas. 479-497
Option expires August 4, 1958

1.8 acres at $500 per acre	$ 900.00	
2.57 acres at $30 per acre	77.00	
Timber	120.00	
125 rods fencing at $4.50+ per rod	563.00	
Damages	440.00	
Amount to be paid owners - chrg to Right of Way		$2,100.00

THINGS TO BE DONE BY THE STATE

Reconstruct road approach at 483+00 when hwy. is constructed. Access: 483+00, E., residential and production and transportation of agricultural and timber products.

Access controlled -

RICHARDSON-SIUSLAW RIVER UNIT, RICHARDSON-WALTON SECTION-RICHARDSON-EUGENE HIGHWAY

27520 Richardson, Jason Ellis and Dena (Allen)
Right of Way, Stas. 465-481
Option expires August 5, 1958

0.2 acre	$ 50.00	
Amount to be paid owners - chrg to Right of Way		$50.00

THINGS TO BE DONE BY THE STATE

Reconstruct approaches at 467+00 and 470+20, W., and 469+20, 469+80, and 470+80, E. Reconnect water line under road at 469+80 through a 12" sleeve. Access: 467+00 and 470+20, W., and 469+20, 469+80, 470+80 and 473+00, E., unrestricted. Access control will not apply between 460+00 and W. boundary of property.

Access controlled -

27521 Globe Lumber Co. (Curfman)
R/W and Easement for clearing, Stas. 481-510
Option expires August 3, 1958

1 acre and 1.05 acres easement	$ 1.00	
Amount to be paid owner - chrg to Right of Way		$1.00

EXHIBIT "A" (Cont)

RICHARDSON-SIUSLAW RIVER UNIT, RICHARDSON-WALTON SECTION - RICHARDSON-EUGENE HIGHWAY

27521 Globe Lumber Co. (Cont)

THINGS TO BE DONE BY THE STATE

Install 12" sleeve through roadbed at 506+00. Grantor to have right to run water line through sleeve.
Access: 505+30, N., and 509+50, S., unrestricted.

Access controlled -

27523 Lane County (Curfman)
Right of Way, Stas. 513-520
Option expires August 4, 1958
0.32 acre $ 1.00
Amount to be paid owner - chrg to Right of Way $1.00

THINGS TO BE DONE BY THE STATE

Construct road approach at 524+10, S. side.
Access: 530+00, N. and S., 524+10, S., and 515+00, N., unrestricted. Grantor to have right to change location of accesses, subject to approval by State Hwy. Commission.

Access controlled -

27582 Rust, Cora A. and Henry E. (Curfman)
Easement for clearing, Stas. 541-543
Option expires August 3, 1958
0.04 acre easement $ 1.00
Amount to be paid owners - chrg to Right of Way $1.00

Access not controlled -

BEAVER LOOKOUT-BULLARDS BRIDGE UNIT, DAVIS SLOUGH-BANDON SECTION - OREGON COAST HIGHWAY

27593 Shook, Luke (Curfman)
Drainage and Ditching Easement, Stas. 897-907
Option expires July 14, 1958
1.02 acre, easement for drainage and ditching $ 50.00
Amount to be paid owner - chrg to Right of Way $50.00

Access not controlled -

29619

EXHIBIT "A" (Cont)

BEAVER LOOKOUT-BULLARDS BRIDGE UNIT, DAVIS SLOUGH-BANDON SECTION - OREGON COAST HIGHWAY

27262 Philpott, David R. et al (Curfman)
Right of Way and Borrow Area
Option expires July 21, 1958
16.9 acres at $50+ per acre $ 850.00
3 acres at $100 per acre 300.00
Amount to be paid owners - chrg to Right of Way $1,150.00
Grantors have right to remove 12,000 cu. yds. of sand from parcel 2, after completion of hwy., if same does not affect State's use of hwy. or endanger hwy. Sand to be removed within 12 years.

THINGS TO BE DONE BY THE STATE

Construct approach to W. line of borrow area from Sta. 930, but reserves right to locate approach within 500' of Sta. 930, if construction features make it advisable. Construct all approaches. Install 12" sleeve through roadbed S. of 935. Access: 937+00, E., and 933+75, W., residential and production and transportation of agricultural and timber products.

Access controlled -

SHADY-BOOTH RANCH UNIT, SHADY-CANYONVILLE SECTION - PACIFIC HIGHWAY

27513 Smith, Edward D. and Frances P. (Curfman)
R/W and Ease. for perm. drainage ditch, Stas. 2840-2841
Option expires July 15, 1958
0.08 acre and easement, 0.03 acre $ 50.00
Amount to be paid owners - chrg to Right of Way $50.00

THINGS TO BE DONE BY THE STATE

Fence right of way.

Complete restriction of access -

EXHIBIT "A" (Cont)

GRAND TOTAL (Est.) - chrg to Right of Way		$13,150.00

Grantors to vacate 30 days from notice.

Entire taking -

EXHIBIT "A" (Cont)

ALBANY-LANE COUNTY LINE UNIT, ALBANY-JUDKINS POINT SECTION - PACIFIC HIGHWAY

27498 Holub, Mary et al (Hart)
Right of Way, Stas. 0-20
Option expires August 11, 1958
0.4 acre at $250 per acre $ 100.00
Amount to be paid owners - chrg to Right of Way $100.00
Grantors to vacate by June 30, 1958, and may salvage trees by same date.

THINGS TO BE DONE BY THE STATE

Construct road approaches opposite county road stas. 0+00 and 20+00, S., with gates provided, to allow access to county road.
As per prior option of September 6, 1957, fence r/w with #2 sheep-type fencing and provide adequate surface drainage along S. side of county road taking.

Complete restriction of access -

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

26994 Azar, Samule K. and Norma (Grothaus)
Right of Way, S.W. Canby and S.W. Burlingame, Sta. 234
Option expires August 16, 1958
4,000 sq.ft. at $0.10 per sq.ft. $ 400.00
Damage 800.00
Amount to be paid owners - chrg to Right of Way $1,200.00

Complete restriction of access to Pacific Hwy.

PORTLAND INTERNATIONAL AIRPORT-N.E. ALBERTA STREET SECTION - CASCADE HIGHWAY

26393 Semolke, Lawrence P. and Eleanor D. (Grothaus)
Right of Way, 8205 N.E. Webster, Sta. 110
Option expires August 17, 1958
5,906 sq.ft., house, attached garage $7,500.00
Amount to be paid owners - chrg to Right of Way $7,500.00
State to have possession May 1, 1958.

Entire taking -

EXHIBIT "A" (Cont)

NORTH TIGARD INTERCHANGE SECTION - PACIFIC HIGHWAY

27566 Wiebusch, John C. and Marcy C. (Scott)
Right of Way, Sta. 27
Option expires August 17, 1958
600 sq.ft. at $0.17 per sq.ft. $ 100.00
Amount to be paid owners - chrg to Right of Way $100.00

Complete restriction of access -

27365 Wieder, David M. et al (Smith)
Right of Way, S.W. 64th and Coronada, Stas. 203-205
Option expires August 23, 1958
5,227 sq.ft. at $1 per sq.ft. $5,227.00
Damages 7,273.00
Amount to be paid owners - chrg to Right of Way $12,500.00
Grantors give State permission to dispose of surplus material on remaining property.

THINGS TO BE DONE BY THE STATE

Construct S. frontage road, which connects to Pacific W. at 202+85.

Complete restriction of access -

27525 Beguin, Althea Frances (Scott)
Right of Way, 6305 S.W. Lesser Way, Sta. 25
Option expires August 16, 1958
0.03 acre (at $0.08 per sq.ft. for 1250 sq.ft.+ $ 100.00
Amount to be paid owner - chrg to Right of Way $100.00

Complete restriction of access -

NEWBERG-GEARIN CORNER - HILLSBORO-SILVERTON HIGHWAY

26330 Janssen, Aca and Ruby (Henry)
Right of Way, Stas. 54-58
Option expires July 19, 1958
0.85 acre at $300 per acre $ 255.00
Damage 360.00
Amount to be paid owners - chrg to Right of Way $615.00

THINGS TO BE DONE BY THE STATE

Construct road approaches on E. and W. side of hwy. at Sta. 55+75, 25' wide.
Access: 55+75, W., residential and agricultural.

Access controlled -

EXHIBIT "A" (Cont)

CASCADE LOCKS-VIENTO SECTION - COLUMBIA RIVER HIGHWAY

27176 Needham, George P. and Madge E. (Grant)
Right of Way, Stas. 502-504
Option expires August 17, 1958
2,613 sq.ft. at $0.12 per sq.ft. $ 313.56
Damage 12.44
Amount to be paid owners - chrg to Right of Way $326.00

THINGS TO BE DONE BY THE STATE

Provide S. frontage road.

Access controlled -

FERRY STREET BRIDGE-MOHAWK ROAD SECTION - EUGENE-SPRINGFIELD HIGHWAY

23540 Ham, Arthur F. and Hattie J. (Holt)
Right of Way, Stas. 150-153
Option expires August 16, 1958
0.08 acre at $1,500 per acre $ 120.00
Amount to be paid owners - chrg to Right of Way $120.00

Complete restriction of access -

ONTARIO-SNAKE RIVER SECTION - OLD OREGON TRAIL HIGHWAY

26117 Johnson, Alpha (Brainerd)
Right of Way, Stas. 1222-1227
Option expires August 12, 1958
2 acres at $1,300 per acre $2,600.00
4.5 acres at $100 per acre 450.00
4.65 acres, quitclaim deed (8.85 A. Excess) Gratis
Shop bldg., 2,560 sq.ft. at $4.50 per sq.ft. 11,520.00
Gas storage bldg., 81 sq.ft. at $4.50 per sq.ft. 364.50
Allow. for gravel fill, fencing, etc. 65.50
Amount to be paid owner - chrg to Right of Way $15,000.00
State to have possession March 5, 1958.
Title not warranted to 8.85 acres, parcel no. 2.

Entire taking-

EXHIBIT "B"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Salem By-Pass Section of the Pacific Highway described as follows:

> A parcel of land lying in Lot 2, Cherry City Fruit Tracts, situated in Section 13, Township 7 South, Range 3 West, W.M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 444, Page 104 of Marion County Records of Deeds; the said parcel being described as follows:
>
> Beginning at the southwest corner of said Lot 2; thence North along the West line of said Lot 2, a distance of 186 feet, to a point which is 210 feet South of the northwest corner of said Lot 2; thence East parallel to the North line of said Lot 2, a distance of 125 feet, more or less, to a line which is parallel to and 130 feet West of the center line of the Salem By-Pass Section of the Pacific Highway: thence South parallel to said center line 186 feet to the South line of said Lot 2; thence West along said South line 125 feet, more or less, to the point of beginning.
>
> Grantor to retain a permanent easement over and across the easterly 5 feet of said property.
>
> The parcel of land to which this description applies contains 0.53 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is

EXHIBIT "B" (Cont.)

reserved to the State and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway. Access is by way of the frontage road.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 63 be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

29639

EXHIBIT "C"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, on the 19th day of August, 1949, the United States of America and the State of Oregon, by and through its State Highway Commission, entered into a contract for the abandonment and relocation of a portion of Oregon State Highway No. 58 in Lane County, Oregon, necessitated by the construction of Lookout Point Dam and Reservoir (Meridian Site) Oregon and numbered contract DA-35-026-eng-19; and

WHEREAS, said contract provided that the United States of America would relocate a section of said Willamette Highway, Oregon State Highway No. 58, known as the Lowell-Black Canyon Section, and located in Lane County, Oregon, which relocation is shown in red on the print of one page attached hereto marked Exhibit "A" and by this reference made a part hereof; and

WHEREAS, said contract further provided that the State of Oregon, by and through its State Highway Commission, as soon as possible after the completion of the relocated highway above mentioned, is to abandon and vacate, in accordance with the laws of the State of Oregon in such cases, all of the highway rights of way appertaining to the existing Oregon State Highway No. 58 to be abandoned hereunder between the limits "B-C" as shown in blue on Exhibit "A" within the Lookout Point Dam and Reservoir (Meridian Site) project boundary, excluding so much of said rights of way as may be required for the relocated highway; and

WHEREAS, the section of the Willamette Highway, State Primary Highway No. 58, located in Lane County and known as the Lowell-Black Canyon Section, has been relocated and completed and in now open for public travel; and

WHEREAS, under the provisions of ORS 366.300, whenever the State Highway Commission relocates a state highway, or a section thereof, and by reason of said relocation there is eliminated from the original route of the highway a section thereof, and such sections of old right of way in judgment of the Commission are needed or valuable for any public use, then the Commission shall by appropriate resolution declare the purpose of the Commission to preserve the same for public use; and

WHEREAS under the provisions of ORS 271.330 the State Highway Commission is granted express authority to relinquish the title to any of its property not needed for its public use to the United States government, providing such property shall be used and continue to be used for a public purpose for the United States government; and

WHEREAS as a consequence of the relocation of said section of the highway, said section of the old right of way has been eliminated from the boundary of the relocated highway and is no longer needed for the public use of the State of Oregon; and

EXHIBIT "C" (Cont)

WHEREAS, said eliminated section is being used and shall continue to be used for a public purpose for the United States government in the construction and maintenance of Lookout Point Dam and Reservoir (Meridian Site) Oregon; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the section of the right of way of said highway affected by reason of said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way and which is identified herein as section "B-C" and is shown colored in blue on Exhibit "A" attached hereto, is no longer needed for State of Oregon public use.*

2. That said eliminated section is being and shall continue to be used for a public purpose for the United States government in the construction and maintenance of Lookout Point Dam and Resevoir (Meridian Site) Oregon.

3. That pursuant to the aforesaid agreement and ORS 366.300 and ORS 271.330, the aforementioned section of highway is hereby duly abandoned as part of the Willamette Highway, State Primary Highway No. 58, effective as of the 27th day of February, 1958, and that all right, title, and interest which the State had in the right of way above described pass to and vest in the United States of America.

4. That this resolution shall be entered in the minutes and records of this Commission on the 27th day of February, 1958, as Abandonment Resolution No. 349, and the Secretary is directed to mail a duly certified copy thereof to the United States of America.

---

*FOOTNOTE:

The exhibit mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 349, and said exhibit by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29641

EXHIBIT "D"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From Revenues Accrued during
the First Six-month Period of 1957:

Dufur ----------	$ 1,518.36
Long Creek ----------	999.68

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed as appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of February, 1958.

February 27, 1958

EXHIBIT "E"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4498 with Parker-Schram Co. for paving the Cottage Grove-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County, completed August 24, 1957.

"Contract No. 5047 with Decatur & Maerz for constructing the Rufus maintenance building in Sherman County, completed January 15, 1958.

"Contract No. 5059 with Pantovich Construction Co. for park facilities in the Fort Stevens State Park in Clatsop County, completed January 23, 1958.

THEREFORE BE IT RESOLVED that the work covered by the State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 70 shall be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

EXHIBIT "F-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment, there is eliminated from the original route of the highway a section thereof, the eliminated section shall:

(a) If needed for the service of persons living thereon or communities served thereby, be maintained by the Commission at State expense, or by the County, or by the State and County, on such terms and conditions as may be agreed upon;

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners, unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the McKenzie Highway, State Primary Highway No. 15, known as the Deschutes River Section, in Deschutes County, the westerly terminus of which is at relocated Highway Engineer's Centerline Survey Station 5+00, and the easterly terminus of which is at relocated Highway Engineer's Centerline Survey Station 101+50 on said relocated highway, and said relocated section of highway has now been complete and is open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated as a section of the said original McKenzie Highway, State Primary Highway No. 15, which said section is hereinafter designated as Unit "A" as shown on Exhibit "A" which is attached hereto and by this reference made a part hereof; and

WHEREAS, Deschutes County and the State Highway Commission entered into an agreement on the 27th day of January, 1958, relating to the disposition to be made of that certain section of the said original McKenzie Highway and which is subject to elimination herein and hereafter referred to as Unit "A"; and

WHEREAS, said agreement provides that State by resolution, would formally eliminate said Unit "A" as part of the McKenzie Highway, State Primary Highway No. 15 and from the State Highway System, and that all right, title and interest which the State had in said Unit "A" should pass to and vest in the County and the County should accept all right, title and interest which the State had in said Unit "A" and should maintain said Unit "A" as a county road so long as needed for the service of persons living thereon or communities served thereby; and

"Contract No. 4842 with Roy L. Houck & Sons for constructing a structure, grading and paving on the Chenoweth Creek-The Dalles Section of the Columbia River Highway in Wasco County, completed September 12, 1957.

"Contract No. 4857 with Central Paving Co. for paving on the Louse Cr.-Grants Pass Section of the Pacific Highway in Josephine County, completed October 31, 1957.

"Contract No. 4949 with Warren Northwest, Inc. for stone base and paving on the Union Ave.-42nd Ave. Section of the T. H. Banfield Expressway in Multnomah County, completed January 31, 1958.

"Contract No. 5047 with Decatur & Maerz for constructing the Rufus maintenance building in Sherman County, completed January 15, 1958.

"Contract No. 5059 with Pantovich Construction Co. for park facilities in the Fort Stevens State Park in Clatsop County, completed January 23, 1958.

THEREFORE BE IT RESOLVED that the work covered by the State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 70 shall be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

EXHIBIT "F-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, whenever the Highway Commission relocates or realigns a state highway or any section thereof, and by reason of said relocation or realignment, there is eliminated from the original route of the highway a section thereof, the eliminated section shall:

(a) If needed for the service of persons living thereon or communities served thereby, be maintained by the Commission at State expense, or by the County, or by the State and County, on such terms and conditions as may be agreed upon;

(b) If the abandoned sections are merely a part of the old right of way which are no longer needed for right of way purposes, they shall revert to the abutting property owners, unless, in the judgment of the Commission, said sections are needed or are valuable for any public use; and

WHEREAS, the State has relocated a section of the McKenzie Highway, State Primary Highway No. 15, known as the Deschutes River Section, in Deschutes County, the westerly terminus of which is at relocated Highway Engineer's Centerline Survey Station 5+00, and the easterly terminus of which is at relocated Highway Engineer's Centerline Survey Station 101+50 on said relocated highway, and said relocated section of highway has now been complete and is open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated as a section of the said original McKenzie Highway, State Primary Highway No. 15, which said section is hereinafter designated as Unit "A" as shown on Exhibit "A" which is attached hereto and by this reference made a part hereof; and

WHEREAS, Deschutes County and the State Highway Commission entered into an agreement on the 27th day of January, 1958, relating to the disposition to be made of that certain section of the said original McKenzie Highway and which is subject to elimination herein and hereafter referred to as Unit "A"; and

WHEREAS, said agreement provides that State by resolution, would formally eliminate said Unit "A" as part of the McKenzie Highway, State Primary Highway No. 15 and from the State Highway System, and that all right, title and interest which the State had in said Unit "A" should pass to and vest in the County and the County should accept all right, title and interest which the State had in said Unit "A" and should maintain said Unit "A" as a county road so long as needed for the service of persons living thereon or communities served thereby; and

EXHIBIT "F-1" (Cont)

WHEREAS, said agreement further provided that in the event that the said Unit "A" was no longer needed or used as a county road that County would not vacate that portion of said Unit "A" between Highway Engineer's Centerline Survey Station 220+50 and 232+70. 2 but that that portion of said Unit "A" between said Highway Engineer's Centerline Stations should revert to and all right, title and interest of the County in said Unit "A" should pass to and vest in the State; and

WHEREAS, in the judgment of the Commission, certain other portions of the right of way of the former Deschutes River Section of the McKenzie Highway, State Primary Highway No. 15, together with real property acquired by State for roadway and other public purposes, are needed and are valuable for public use and that title should remain in the public. The portions in which title is retained by the State are shown colored in green on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof.

NOW, THEREFORE, be it and it hereby is resolved by this Commission:

1. That by reason of the relocation of the Deschutes River Section of the McKenzie Highway, Oregon Primary Highway No. 15 in Deschutes County, a section of the former right of way of the former Deschutes River Section of the McKenzie Highway is no longer needed by the State of Oregon and is no longer required for a part of the said new right of way of the said relocated McKenzie Highway, which said section is identified as Unit "A" on said Exhibit "A", and is described as follows:

Unit "A"

All the land situated within the right of way boundaries of the McKenzie Highway as formerly routed, beginning at the northerly right of way line opposite Highway Engineer's Centerline Survey Station 511+30 of said highway as relocated in the southwest quarter of the northeast quarter (SW$\frac{1}{4}$ NE$\frac{1}{4}$), Section 10, Township 12 South, Range 16 East, W.M.; thence easterly and southerly via said highway as formerly routed to the northerly right of way line of said relocated highway at Highway Engineer's Centerline Survey Station 220+50 of said highway as formerly routed in the northeast quarter of the northeast quarter (NE$\frac{1}{4}$ NE$\frac{1}{4}$), Section 14, Township 12 South, Range 15 East, W.M.

2. That pursuant to the agreement entered into with Deschutes County on the 27th day of January, 1958, Unit "A" as heretofore described, and as shown colored in red on said attached map marked Exhibit "A", is hereby duly eliminated as part of the McKenzie Highway, Oregon Primary Highway No. 15 and the State Highway System, and that all of the right, title and interest which the State has in said Unit "A" does hereby pass to and vest in said Deschutes County.

EXHIBIT "F-1" (Cont)

3. That title shall remain in State to the right of way of the former and of the relocated section of the McKenzie Highway, Oregon Primary Highway No. 15, known as the Deschutes River Section, in Deschutes County, together with real property acquired by State for roadway right of way and other public uses, as shown in green on said Exhibit "A" attached hereto.

4. That in the event, however, that said Unit "A" is no longer needed or used as a county road, the County shall never vacate that portion of said Unit "A" between Highway Engineer's Centerline Survey Stations 220+50 and 232+70. 2 but said portions of said Unit "A" between said Highway Engineer's Centerline Survey Stations shall revert to and all right, title and interest of the County in said portion of said Unit "A" shall pass to and rest in State.

5. That this resolution be entered in full in the Minutes and records of this Commission as Resolution No. 347 this 27th day of February, 1958, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Deschutes County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 347, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29647

EXHIBIT "F-2"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the relocated North Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Primary State Highway No. 28, located in Umatilla County, the northerly terminus of which is at Highway Engineer's Survey Station 200+00 and the southerly terminus of which is at Highway Engineer's Survey Station 242+00 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, as a result of the said relocation of the aforesaid section, portions of the former right of way are no longer needed for right of way purposes and may be eliminated from the state highway system; and

WHEREAS, on the 2nd day of November, 1956, the State Highway Commission and Umatilla County entered into an agreement whereby the State agreed to eliminate said portions from the state highway system and transfer all right, title and interest of the State therein to Umatilla County; and Umatilla County agreed to maintain said eliminated portions as a part of the county road system so long as needed for the service of persons living thereon or a community served thereby; and

WHEREAS, it is the purpose of this Commission to take official action and impress upon its records the disposition made of the portions or units of the former right of way of the said highway referred to herein as Units "A" and "B" as well as all the property affected by reason of the said realignment.

NOW, THEREFORE, it is hereby ordered and resolved that:

1. The following described Units "A" and "B" which by reason of the relocation and realignment of the North Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway may be eliminated from the state highway system are herein designated Units "A" and "B" and described as follows:

Unit "A"

All the land situated within the right of way boundaries of the Pendleton-John Day Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 234+15 of the said highway as relocated in the southeast quarter of the northwest quarter (SE$\frac{1}{4}$ NW$\frac{1}{4}$), Section 3, Township 1 North, Range 32 East, W. M.; thence northerly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 130+55 of said highway as relocated in the southwest quarter of the northwest quarter (SW$\frac{1}{4}$ NW$\frac{1}{4}$), Section 27, Township 2 North, Range 32 East, W.M.

EXHIBIT "F-2" (Cont)

Unit "B"

All the land situated within the right of way boundaries of the Pendleton-John Day Highway as formerly routed beginning at the westerly right of way line opposite Highway Engineer's Survey Station 47+50 of said relocated highway in the northeast quarter of the northwest quarter (NE¼ NW¼), Section 21 Township 2 North, Range 32 East, W. M.; thence northerly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 15+00 of said relocated highway in the northwest quarter of the southeast quarter (NW¼ SE¼), Section 16, Township 2 North, Range 32 East, W. M.

2. Units "A" and "B" as hereinabove described and shown in red on the map attached hereto marked Exhibit "A", and by this reference made a part hereof, are hereby eliminated from the route of the Pendleton-John Day Primary State Highway No. 28 and the state highway system, and all right, title and interest which the State has in the said described Units "A" and "B" is hereby transferred to Umatilla County, by and through its county court, to be maintained as a part of the county road system so long as needed for the service of persons living thereon or the service of a community served thereby.

3. The right of way of the former North Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, together with the real property acquired by the State for right of way and other purposes as indicated and as colored in green on Exhibit "A" attached hereto shall be retained and held by the State.

4. That this resolution be entered in the minutes of the Oregon State Highway Commission as of the 27th day of February, 1958, as Abandonment and Retention Resolution No. 322, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Umatilla County.

---

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 322, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29649

EXHIBIT "F-3"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate those sections of the Redwood Primary Highway No. 25 in Josephine County known as the East Fork Illinois River Bridge and the West Fork Illinois River Bridge Sections; and

WHEREAS, as a consequence of the relocation of said sections of said highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Josephine County and the State Highway Commission entered into an agreement under the date of the 26th day of January, 1956, relating to the disposition to be made of the eliminated portions, therein and hereinafter referred to as Units "A","B", and "C"; and

WHEREAS, the said agreement provided that after the relocation was completed and open to public travel, Units "A", "B", and "C" would be abandoned as part of the Redwood Highway and the State Highway System; and all right, title, and interest which the State may have in the right of way of Units "B" and "C" shall thereupon pass to and vest in the County; and all right, title, and interest which the State may have in the right of way of Unit "A" shall thereupon pass to and vest in the abutting property owners as provided in ORS 366.300; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right of way of the East and West Illinois River Bridge Sections of the Redwood Highway, together with other real property acquired by the State for roadway, right of way, and other public purposes, are needed and are valuable for right of way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the former right of way of said highway referred to herein as Units "A", "B", and "C" as well as the property affected by reason of the said relocation; and

WHEREAS, those sections of the Redwood Primary Highway No. 25 located in Josephine County and known as the East Fork Illinois River Bridge and the West Fork Illinois River Bridge Sections have been completed and open to travel;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. Portions or units of the old right of way which by reason of the relocation of the said section of highway are no longer within the boundaries

EXHIBIT "F-3" (Cont)

of the new right of way and which are identified as Units "B" and "C" as shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof; and Unit "A" as shown colored in brown on said Exhibit "A" attached hereto. The descriptions of the aforementioned Units "A", "B", and "C" are as follow:

Unit "A"

All the land situated within the right of way boundaries of the Redwood Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 638+30 of said highway as relocated in the Northwest quarter of the Northeast quarter (NW¼ NE¼), Section 28, Township 39 South, Range 8 West, W.M.; thence southerly via said highway as formerly routed to the westerly right of way line opposite to Highway Engineer's Survey Station 628+00 of said highway as relocated in the Southeast quarter of the Northwest quarter (SE¼ NW¼), Section 28, Township 39 South, Range 8 West, W.M.

Unit "B"

All the land situated within the right of way boundaries of the Redwood Highway as formerly routed, beginning at the westerly right of way line opposite Highway Engineer's Survey Station 538+29 of said highway as relocated in the Northwest quarter of the Southeast quarter (NW¼ SE¼), Section 32, Township 39 South, Range 8 West, W.M.; thence southerly via said highway as formerly routed to the westerly right of way lying opposite Highway Engineer's Survey Station 517+50 of said highway as relocated in the Southwest quarter of the Southeast quarter (SW¼ SE¼), Section 32, Township 39 South, Range 8 West, W.M.

Unit "C"

All the land situated within the right of way boundaries of the Redwood Highway as formerly routed, beginning on the westerly right of way line opposite Highway Engineer's Survey Station 508+20 of said highway as relocated in the Northeast quarter of the Northwest quarter (NE¼ NW¼) of Section 5, Township 40 South, Range 8 West, W.M.; thence southerly via said highway as formerly routed to the westerly right of way line opposite Highway Engineer's Survey Station 497+00 in the Southeast quarter of the Northwest quarter (SE¼ NW¼), Section 5, Township 40 South, Range 8 West, W.M.

2. That, pursuant to the aforesaid agreement entered into with Josephine County on the 26th day of January, 1956, Units "A", "B", and "C" are hereby duly abandoned as part of the Redwood Highway and the State Highway System; and all right, title, and interest which the State

may have in the right of way of Units "B" and "C" shall thereupon pass to and vest in the county; and all right, title, and interest which the State may have in the right of way of Unit "A" shall thereupon pass to and vest in the abutting property owners as provided in ORS 366.300.

3. That the area shown colored in green on said Exhibit "A" includes right of way acquired for the said relocated section of highway. It also includes some parts or areas of the old right of way. In connection with the area colored in green, it is the judgment and finding of the Commission that all of the said area is, and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.

4. That this Abandonment and Retention Resolution No. 314 be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of February, 1958, and that the Secretary be hereby directed to mail a duly certified copy hereof to the Josephine County Court to be recorded in the deed records of said county.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 314, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-4"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the section of the Woodburn-Estacada Highway, State Secondary Highway No. 161, located in Clackamas County and known as the Little Creek-Estacada Section, the southerly terminus of which is at Highway Engineer's Station 1518+34. 39 on the relocated highway and the northerly terminus of which is at Highway Engineer's Station 1739+00 on the relocated highway, was opened to public travel on June 15, 1957; and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Clackamas County and the Highway Commission entered into an agreement under date of March 25, 1954, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway and would be maintained thereafter by said county as a county road under the jurisdiction and control of said county so long as it is needed or valuable for public use; and

WHEREAS, Clackamas County was duly notified by letter dated June 25, 1957, that the said section had been opened to public travel and that as of June 25, 1957, jurisdiction and control over Unit "A" became vested in said County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:

EXHIBIT "F-4" (Cont)

Unit "A"

Beginning at State Highway Engineer's Station 1520+90 of the relocated Woodburn-Estacada Highway in the southeast quarter of the southwest quarter (SE 1/4-SW 1/4) of Section 9, Township 4 South, Range 4 East, W.M.; thence northerly via the former route of the Woodburn-Estacada Highway to State Highway Engineer's Station 1728+20 of the former route of the Woodburn-Estacada Highway in the southeast quarter of the northwest quarter (SE 1/4-NW 1/4) of Section 29, Township 3 South, Range 4 East, W.M.

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Woodburn-Estacada Highway, State Secondary Highway No. 161, effective as of June 25, 1957, the date of said letter to Clackamas County, and that all right, title and interest which the State has in the right of way of Unit "A" hereby passes to and vests in the said County.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.

4. That this resolution be entered in the minutes and records of the Commission as of this 27th day of February, 1958, as Abandonment and Retention Resolution File No. 288; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clackamas County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 288, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-5"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the relocated East Unit, Black Bridge-Richland Section of the Baker-Homestead Primary Highway No. 12 located in Baker County, the westerly terminus of which is at Highway Engineer's Survey Station 1851+53, and the easterly terminus of which is at Highway Engineer's Survey Station 2145+89 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right-of-way are no longer needed for right-of-way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Baker County and the State Highway Commission entered into an agreement on the 16th day of April, 1957, relating to the disposition to be made of the portions that may be eliminated, therein and hereinafter referred to as Units "A", "B", "C", "D", "E", and "F".

WHEREAS, said agreement provided that Units "A", "B", "C", "D", "E", and "F" would be eliminated by State as part of the Baker-Homestead Highway by formal resolution; that Units "A" and "F" would be maintained thereafter by County as part of the county road system as long as needed for the service of persons living thereon, or communities served thereby; and that Units "B", "C", "D", and "E" would revert to the abutting property owners; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the former right-of-way of the said highway referred to herein as Units "A", "B", "C", "D", "E", and "F" as well as all the property affected by reason of said realignment;

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portions of the former right-of-way which by reason of the relocation of the East Unit, Black Bridge-Richland Section of the Baker-Homestead Highway are no longer needed as part of the new right-of-way, are identified as Units "A", "B", "C", "D", "E", and "F" and described as follows:

Unit "A"

All the land situated within the right-of-way boundaries of the Baker-Homestead Highway as formerly routed, beginning on the southerly right-of-way line opposite Highway Engineer's Survey Station 1913+40 of said highway as relocated in the south-

EXHIBIT "F-5" (Cont)

east quarter of the northwest quarter (SE¼ - NW¼), Section 17, Township 9 South, Range 45 East, W.M.; thence southerly via said highway as formerly routed to the easterly right-of-way line, extended, of a county road where the same intersects said highway as formerly routed in the northwest quarter of the southeast quarter (NW¼ - SE¼), Section 17, Township 9 South, Range 45 East, W.M.

Unit "B"

All of the land situated within the right-of-way boundaries of the Baker-Homestead Highway as formerly routed, beginning on said highway as formerly routed at the easterly right-of-way line, extended, of a county road where the same intersects said highway as formerly routed in the northwest quarter of the southeast quarter (NW¼ - SE¼), Section 17, Township 9 South, Range 45 East, W.M.; thence southeasterly via said highway as formerly routed to the westerly right-of-way line opposite Highway Engineer's Survey Station 1941+60 of said highway as relocated in the northeast quarter of the southeast quarter (NE¼ - SE¼), Section 17, Township 9 South, Range 45 East, W.M.

Unit "C"

All the land situated within the right-of-way boundaries of the Baker-Homestead Highway as formerly routed beginning at the easterly right-of-way line opposite Highway Engineer's Survey Station 1980+10 of said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼) of Section 21, Township 9 South, Range 45 East, W.M.; thence southeasterly via said highway as relocated to the easterly right-of-way line opposite Highway Engineer's Survey Station 1986+90 of said relocated highway in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 21, Township 9 South, Range 45 East, W.M.

Unit "D"

All the land situated within the former right-of-way boundaries of the Baker-Homestead Highway as formerly routed, beginning at the westerly right-of-way line opposite Highway Engineer's Survey Station 1987+10 of said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 21, Township 9 South, Range 45 East, W.M.; thence southerly via said highway as formerly routed to the westerly right-of-way line opposite Highway Engineer's Survey Station 2000+80 of said relocated highway in the southeast quarter of the northwest quarter (SE¼ - NW¼), Section 21, Township 9 South, Range 45 East, W.M.

EXHIBIT "F-5" (Cont)

Unit "E"

All the land situated within the right-of-way boundaries of the Baker-Homestead Highway as formerly routed beginning at the northerly right-of-way line opposite Highway Engineer's Survey Station 2029+50 in the northeast quarter of the southeast quarter (NE¼ - SE¼), Section 21, Township 9 South, Range 45 East, W.M.; thence easterly via said former highway to the northerly right-of-way line opposite Highway Engineer's Survey Station 2044+90 of said relocated highway in the southwest quarter of the southwest quarter (SW¼ - SW¼), Section 22, Township 9 South, Range 45 East, W.M.

Unit "F"

All the land situated within the right-of-way boundaries of the Baker-Homestead Highway as formerly routed beginning at the westerly right-of-way line opposite Highway Engineer's Survey Station 2124+40 of said highway as relocated in the northeast quarter of the southwest quarter (NE¼ - SW¼), Section 23, Township 9 South, Range 45 East, W.M.; thence northerly and easterly via said former highway to the northerly right-of-way line opposite Highway Engineer's Survey Station 2137+00 of said highway as relocated in the southeast quarter of the northwest quarter (SE¼ - NW¼), Section 23, Township 9 South, Range 45 East, W.M.

2. Pursuant to the agreement entered into with Baker County on the 16th day of April, 1957, Units "A", "B", "C", "D", "E", and "F" indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, are hereby duly eliminated as part of the Baker-Homestead Highway and the state highway system; and all right, title, and interest which State has in the right-of-way of Units "A" and "F", herein described, pass to and vest in said Baker County; and all right, title, and interest which State has in Units "B", "C", "D", and "E" pass to and vest in the owners of the abutting property.

3. That right-of-way of the former and of the relocated East Unit, Black Bridge-Richland Section of the Baker-Homestead Highway, together with the real property acquired by State for roadway right-of-way and other public purposes, as indicated in green on said Exhibit "A" shall be retained and held by State.

4. This Abandonment and Retention Resolution, No. 329, be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of February, 1958, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Baker County.

EXHIBIT "F-5" (Cont)

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 329, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, under the provisions of ORS 271.330 the State, or county or any other public subdivision thereof is granted the express power to relinquish the title to any of its property not used for public use to the United States Government or to any other governmental body or political subdivision within the State, providing such property shall be used and continue to be used, for a public purpose by the United States Government, or such other governmental body or political subdivision in the State of Oregon, and

WHEREAS, the State of Oregon, acting by and through the State Highway Commission and Lincoln County entered into an agreement on the 16th day of January, 1958 by the terms of which agreement the State agreed to accept and County agreed to convey a portion of the right of way of a certain county road no longer needed by the County for right of way of any county road but which can be used by the State for public right of way to serve Beverly Beach State Park, and

WHEREAS, the County Court of Lincoln County entered an order on the 13th day of January, 1958, conveying all of its right, title, and interest to the State in the hereinafter described county road, and

WHEREAS, in the judgment of the State Highway Commission, the best interests of the State of Oregon and of Lincoln County will be served by the State accepting that portion of the hereinafter described county road as shown colored in red on the attached sketched map, marked Exhibit "A" and by this reference made a part hereof,*

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. That the Commission does hereby accept all right, title and interest of Lincoln County in the hereinafter described real property, said real property being a portion of the right of way of the former county road, as shown in red on the attached Exhibit "A" and the Commission does hereby accept jurisdiction and control over said right of way of said road and shall maintain it so long as needed for public use. The said road and real property is described as follows, to wit: *

> All the land situated within the right of way boundaries of the Oregon Coast Highway as formerly routed beginning at the east-west center line of Section 5, Township 10 South, Range 11 West, Willamette Meridian; thence Southwesterly via said highway as formerly routed to the Easterly right of way line opposite and at right angles to Highway Engineer's centerline Survey Station 731+20 of said highway as relocated in Lot 4, Section 5, Township 10 South, Range 11 West, Willamette Meridian.

EXHIBIT "G" (Cont)

That this resolution be entered in full in the minutes and records of this Commission as Miscellaneous Resolution No. 213 this 27th day of February, 1958, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Lincoln County.

---

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 213, under the heading "Miscellaneous Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission during a regular meeting on August 6, 1953, adopted a resolution authorizing the State Highway Engineer and any Assistant State Highway Engineer under his direction, to impose limits as to any gross weight of any vehicle, or combination of vehicles and to impose any other restrictions that in the judgment of the State Highway Engineer are necessary for the best interests of the State and the general public welfare and to protect any highway or section thereof from being unduly damaged; and

WHEREAS, it has been found necessary to revise said resolution to include the permissible gross weight of any axle or tandem axles in addition to any vehicle or combination of vehicles, and to extend the regulatory authority under the direction of the State Highway Engineer to the Deputy Highway Engineer, and either Assistant Highway Engineer; and

WHEREAS, under the provisions of ORS 483.532, the State Highway Commission, with respect to state highways, is authorized to prohibit the operation thereon of any or all vehicles of any class or kind, and may impose limits as to any gross weight or any dimension of any vehicle or combination of vehicles and impose any other restrictions that in the judgment of the State Highway Commission are necessary to protect any highway or section thereof from being unduly damaged; and

WHEREAS, state highways and sections thereof, including structures, may become impaired and in a weakened condition when subjected to periods of excessive rainfall, periods of flood or periods of freezing and thawing, or when adversely affected by fire, wind, landslides, subsidence or structural instability and said highways and sections thereof during such periods or when adversely affected have been and are damaged due to the movement of vehicles having gross weights which are lawful; and

WHEREAS, said state highways and sections thereof subject to such conditions can only be preserved and protected by the immediate closure thereof to vehicles having a gross weight or axle or tandem axle weight that will cause damage to said highways or sections thereof; and

WHEREAS, the Oregon legislature, under the provisions of Chapter 635, Oregon Laws of 1957, has authorized the State Highway Commission to delegate to the State Highway Engineer authority to exercise or perform or cause to be exercised or performed any duty imposed upon or authority granted to the Commission by ORS 483.532;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission as follows:

EXHIBIT "H" (Cont)

1. It is the judgment and opinion of this Commission that those things hereinafter set forth and ordered in this resolution are necessary to protect state highways and sections thereof, including structures from being unduly damaged.

2. It is hereby directed that whenever information and statistics collected and compiled by the State Highway Engineer relative to the character and condition of state highways reveal that any state highway or section thereof, including any structure, is being subjected to a period of excessive rainfall, flood, or freezing and thawing, or has been or is being adversely affected by fire, wind, landslides, subsidence or any other cause, and by reason thereof is in a weakened condition and may be damaged by the movement thereon of any vehicle or combination of vehicles, the State Highway Engineer or under his direction, the Deputy Highway Engineer or either Assistant State Highway Engineer, shall determine from such information and statistics the maximum gross weight of any axle or tandem axles of any vehicle or combination of vehicles or the maximum gross weight of any vehicle or combination of vehicles which can move upon such state highway or section thereof without unduly damaging the same.

3. It is further directed that upon determination of the maximum gross weight of any axle, tandem axles, any vehicle or combination of vehicles which can move upon such state highway or section thereof without unduly damaging the same, the State Highway Engineer, or under his direction, the Deputy Highway Engineer, or either assistant State Highway Engineer, or any Division Engineer upon the approval of the State Highway Engineer, or under his direction, the Deputy Highway Engineer or either Assistant State Highway Engineer, shall cause to be posted conspicuous signs at each end of the highway or section of the highway affected and at such other places as may be necessary to inform the public, giving notice that all vehicles or combination of vehicles having any gross weight in excess of said maximum gross weights are prohibited from moving upon said highway or section thereof.

4. It is hereby directed and ordered that from and during the time such signs are posted as set forth hereinabove, the movement upon any highway or section thereof so posted of any vehicle or combination of vehicles having any gross weight in excess of any maximum gross weight specified on such signs is prohibited and no person shall operate any vehicle or combination of vehicles having any gross weight in excess thereof upon such highway or section thereof.

5. Whenever the information and statistics collected and compiled by the State Highway Engineer reveal that any highway or section thereof which has been posted as set forth hereinabove is in such condition that said highway or section thereof will not be unduly damaged by the unrestricted movement of vehicles or combinations of vehicles having lawful gross weights, the signs giving notice of reduced weight limits shall be immediately removed.

EXHIBIT "H" (Cont)

6. A complete report of all action taken pursuant to this resolution shall be submitted to the Highway Commission by the State Highway Engineer, Deputy Highway Engineer or either Assistant State Highway Engineer at the meeting of the Commission next following such action.

7. That resolution pertaining to the imposition of limitations upon the gross weight of vehicles permitted to operate upon state highways adopted by this Commission and entered in its minutes as of the 6th day of August, 1953, is hereby revoked and rescinded.

8. Nothing herein shall be deemed to modify any action or actions of the Commission heretofore taken based upon peculiar facts or circumstances applying to any particular section or sections of any state highway.

9. The Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced in the minutes and records of this Commission.

10. That this Resolution and Order be entered in the minutes of the Commission as of the 27th day of February, 1958, as Miscellaneous Resolution Number 94a, and that the original of this Resolution be filed in the office of the Secretary of the Highway Commission and that a duly certified copy thereof be filed with the Secretary of State, and Public Utilities Commissioner, and the Superintendent of State Police.

29663

EXHIBIT "I-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreements, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-1" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

EXHIBIT "I-1" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 922.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 922, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-2"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, widen and maintain the Minam-Rock Creek Section of the Wallowa Lake Highway; and

WHEREAS, for the purpose of relocating, widening and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, widening and maintenance of the said Minam-Rock Creek Section of the Wallowa Lake Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "I-2" (Cont)

2. That it is necessary that there shall be, and there shall be where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated and widened Wallowa Lake Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, widening and maintenance of the said Minam-Ro s Creek Section of the said Wallowa Lake Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 923.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 923, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-3"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate and maintain the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of relocating and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation and maintenance of the said Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Hillsboro-Silverton

EXHIBIT "I-3" (Cont)

Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation and maintenance of the said Newberg-Gearin Corner Section of the said Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 924.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 924, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-4"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-4" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-4" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 925.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 925, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29673

EXHIBIT "I-5"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, improving and maintaining

EXHIBIT "I-5" (Cont)

the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Sunset Highway, including the Highlands Traffic Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his

EXHIBIT "I-5" (Cont)

absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 926.

---

*FOOTNOTE

The name of the property owners and the detailed descrition of the parcel of real property mentioned in this resolution, together with map, is attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 926, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-6"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or other wise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the highway facilities for which the said parcel of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be con-

EXHIBIT "I-6" (Cont)

structed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 927.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, is attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 927, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-7"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Hilgard-LaGrande Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-7" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Hilgard-LaGrande Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Hilgard-LaGrande Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-7" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 928.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 928, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29681

EXHIBIT "I-8"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct and maintain the Richardson-Siuslaw River Section of the Richardson-Eugene Highway; and

WHEREAS, for the purpose of relocating, constructing and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction and maintenance of the said Richardson-Siuslaw River Section of the Richardson-Eugene Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "I-8" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Richardson-Eugene Highway and all of the contiguous real p. operty of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, constru_tion and maintenance of the said Richardson-Siuslaw River Section of the said Richardson-Eugene Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel. or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation. agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 929.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 929, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29683

EXHIBIT "I-9"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, widen and maintain the Butte Creek-Burton Canyon Section of the John Day Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-9" (Cont)

WHEREAS, for the purpose of relocating, widening and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, widening and maintenance of the said Butte Creek-Burton Canyon Section of the John Day Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", said relocated and widened John Day Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, widening and maintenance of the said Butte Creek-Burton Canyon Section of the John Day Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 930.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 930, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-10"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed

EXHIBIT "I-10" (Cont)

and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said Pacific Highway West, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the improvement and maintenance of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 931.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 931, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-11"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Eckman Slough Section of the Alsea Highway; and

WHEREAS, for the purpose of improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said Eckman Slough Section of the Alsea Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the improvement and maintenance of the said Eckman Slough Section of the said Alsea Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned,

designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 932.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 932, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-12"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-12" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-12" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 933.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 933, and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29693

EXHIBIT "I-13"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Samuel H. Boardman State Park has been established by and under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Samuel H. Boardman State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the interests in real property hereinafter described are necessary; and

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of

RESOLUTION

eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation,construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development and maintenance of the Samuel H. Boardman State Park; and does further find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain

parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 934.

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 934, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I-14"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture or roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Judkins Point-Goshen Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-14" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of the said Judkins Point-Goshen Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "I-14" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1958, as Condemnation Resolution No. 935.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 935, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29699

EXHIBIT "I-15"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, be agreements, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained and the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "I-15" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

EXHIBIT "I-15" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of February, 1958, as Condemnation Resolution No. 936.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcel of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 936, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Oregon Coast Highway

Highway number: 9 Route number: 101

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
49.24 (50 ft. south of Lake Lytle Outlet Bridge)	50.01 (north city limits of Rockaway)	45
51.60 (south city limits of Rockaway)	52.01 (150 ft. south of Pansy Street)	40

EXHIBIT "J-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, particularly Speed Zone Resolution No. 7, adopted on December 30, 1946.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 7a, be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

EXHIBIT "J-2"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway

Highway number: 1 Route number: 99

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
276.83 (50 ft. south of Morgan Lane)	277.36 (N.W. Midland Ave., north city limits of Grants Pass)	40

(on north 6th Street, one-way, southbound)

EXHIBIT "J-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 268 be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

EXHIBIT "J-3"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway East

Highway number: 1E Route number: 99E

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway;

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 269 be entered in the minutes and records of the Commission as of the 27th day of February, 1958.

EXHIBIT "J-4"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Oregon Coast Highway

EXHIBIT "K-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Crater Lake Highway No. 22 is a state highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway at an auction sale establishment near the north city limits of Medford; and

WHEREAS, the parking of vehicles on said shoulders at said location creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Crater Lake Highway between M.P. 0.38 and M.P. 0.53 creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the said Crater Lake Highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 175 be entered in the minutes and records of the State Highway Commission as of the 27th day of February, 1958.

29717

EXHIBIT "K-2"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Pacific Highway No. 1 is a state highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the northerly shoulder of said highway in front of Kim's Restaurant, approximately 0.65 mile south of the south city limits of Medford; and

WHEREAS, the parking of vehicles at said location creates a hazard to the traveling public by restricting sight distance of cars entering the Pacific Highway from the Charlotte Ann Road; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the northeasterly side of the Pacific Highway from the southerly side of Charlotte Ann Road at M.P. 312.78, southerly and easterly to the curb at the back side of Kim's Restaurant, a distance of approximately 120 feet, creates a hazard to the traveling public.

2 That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the northeasterly side of the said Pacific Highway at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 176 be entered in the minutes and records of the State Highway Commission as of the 27th day of February, 1958.

EXHIBIT "K-3"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Oregon Coast Highway No. 9 is a state highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on a frontage road along the westerly side of the Oregon Coast Highway at the road leading to Sunset Park; and

WHEREAS, the parking of vehicles at said location creates a hazard to the traveling public by reason of restricting sight distance for vehicles entering the Oregon Coast Highway; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said frontage road at said location:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the frontage road to the Oregon Coast Highway at the road leading to Sunset Park for a distance of 100 feet north of the road to Sunset Park creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of said frontage road at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 177 be entered in the minutes and records of the State Highway Commission as of the 27th day of February, 1958.

EXHIBIT "K-4"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Columbia River Highway is a State Highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked on the shoulders of said highway at the intersection of Church Road in the vicinity of a drive-in restaurant, in the community of Warren; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public by restricting sight distance for vehicles entering the highway from said Church Road; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Columbia River Highway between M.P. 25.38 (Engineer's Station 764+30) and M.P. 25.56 (Engineer's Station 755+30) creates a hazard to the traveling public.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 178 be entered in the minutes and records of the State Highway Commission as of the 27th day of February, 1958.

EXHIBIT K"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, The Dalles-California Highway is a State Highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are being parked around the median strip between South Sixth Street and Canal Boulevard at Juniper Avenue in the City of Redmond on said highway; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows.

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on Juniper Avenue in the areas hereinafter described constitutes a hazard to the traveling public:

(1) On the north side of Juniper Avenue.

All that portion of land lying between the West line of South Sixth Street which is U.S. Highway No. 97, and the East line of Canal Boulevard, between the North line of Juniper Avenue and the intersection of Canal Boulevard and South Sixth Street.

(2) On the South side of Juniper Avenue.

All that portion of land lying between the West line of South Sixth Street which is U.S. Highway No. 97, and the East line of Canal Boulevard, between the South line of Juniper Avenue and a line parallel to and 100 feet South of the South line of Juniper Avenue.

(3) Also that portion of Juniper Avenue between the West line of South Sixth Street which is U.S. Highway No. 97, and the East line of Canal Boulevard.

2. That in the opinion of this Commission the shoulders of said highway are not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

EXHIBIT "K-5" (Cont)

3. That the Commission does further find and declare that the parking of vehicles at said location should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared.

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 179 be entered in the minutes and records of the State Highway Commission as of the 27th day of February, 1958.

29722

EXHIBIT "L-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Secondary Highway in Marion County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Lancaster Drive-Sublimity Gun Club Section of the North Santiam Highway, beginning at Highway Engineer's centerline station 176+10, said station being between Lancaster Drive and the Pacific Highway, east of Salem, Oregon, and extending in a southerly and easterly direction to Highway Engineer's centerline station 695+15, said station being at the intersection of a Marion County road to Stayton and the old North Santiam Highway route to Sublimity, Oregon, together with a map dated February, 1958, which is attached hereto, marked Exhibit "A", and by this reference made a part hereof (Right of Way Maps No. 7B-22-18, dated July, 1953, and 7B-30-4 & 5, dated January, 1955,) together with the field notes and other engineering data submitted by the Engineer, hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey consitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the said highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right of way for a throughway highway pursuant to the normal and approved method with complete access control

between Highway Engineer's centerline station 176+10 and the interchange with the Silver Creek Falls Highway at Highway Engineer's centerline station 455+00 and limited access control between said Highway Engineer's centerline station 455+00 and the end of the project at Highway Engineer's centerline station 695+15.

4. That when said highway section is permanently constructed such construction shall be accomplished within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above-mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law.

5. That this resolution be entered in the minutes and records of the Commission as of this 27th day of February, 1958, as Survey Resolution No. 173.

EXHIBIT "L-2"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Butte Creek-Service Creek Section of the John Day Highway in Wheeler County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Butte Creek-Service Creek Section of the John Day Highway, beginning at Highway Engineer's Station 1000+00, approximately 0.75 mile east of Shelton State Park, and extending in a southerly direction to Highway Engineer's Station 8+70.2, a short distance east of Service Creek, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1110, dated February, 1958, (Right of Way Maps Nos. 8B-5-26 and 27, dated June, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

5. That this resolution be entered in the minutes and records of the Commission as of the 27th day of February, 1958, as Survey Resolution No. 161.

29725

EXHIBIT "L-3"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Middleton-Rex Hill Section of the Pacific Highway West in Washington and Yamhill Counties, and in connection there with to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Middleton-Rex Hill Section of the Pacific Highway West, beginning at Highway Engineer's Station 490+44, north of the community of Middleton, and extending in a southerly and westerly direction to Highway Engineer's Station 655+50, near the railroad station of Rex, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1109, dated February, 1958, (Right of Way Maps Nos. 4B-21-25 and 26, dated January, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

EXHIBIT "L-3" (Cont)

4. That heretofore this Commission by resolution dated November 3, 1948, designated the said Pacific Highway West as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above-mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 27th day of February, 1958, as Survey Resolution No. 162.

29727

EXHIBIT "L-4"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Secondary Highway in Washington County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Hillsboro-Campbell Bridge Section of the Hillsboro-Silverton Highway beginning at Highway Engineer's Station 0+00 at Baseline Street in the city of Hillsboro, and extending in a southerly direction to Highway Engineer's Station 293+00, a short distance south of Christensen Creek, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1111, dated February, 1958, (Right of Way Map No. 8B-7-22, dated January, 1958), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 27th day of February, 1958, as Survey Resolution No. 163.

EXHIBIT "L-5"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Service Creek-Burton Canyon Section of the John Day Highway in Wheeler County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Service Creek-Burton Canyon Section of the John Day Highway, beginning at Highway Engineer's Station 8+70.2, a short distance east of the junction with the road to Mitchell, and extending in an easterly direction on the northerly side of the John Day River to Highway Engineer's Station 446+00, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1123, dated February, 1958, (Right of Way Map No. 5B-21-13 and 14, dated June, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 27th day of February, 1958, as Survey Resolution No. 164.

Minutes of February 27, 1958

RESOLUTION

WHEREAS, ORS 366.135 authorizes and requires the State Highway Commission to appoint a Secretary; and

WHEREAS, ORS 366.135 requires that the appointment be made for not more than four years; and

WHEREAS, the term of the present Secretary for the Highway Commission, Mr. Herbert B. Glaisyer, will expire on February 28, 1958; and

WHEREAS, Mr. Herbert B. Glaisyer has announced his intention to retire from public service on November 1, 1958; and

WHEREAS, this Commission desires to express to Mr. Herbert B. Glaisyer its most sincere appreciation for his untiring efforts and meritorious service as Secretary for the past twenty-eight years and for his loyalty and devotion to his work and his unfailing attention to maintaining the office of Secretary for the Commission in the highest standards possible.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. Mr. Herbert B. Glaisyer is hereby appointed Secretary for the Highway Commission to serve in such capacity for a term of eight months commencing on March 1, 1958, and terminating on October 31, 1958.

2. The salary to be paid to Mr. Herbert B. Glaisyer is hereby fixed by the Commission in the sum of $880.00 per month.

3. That in addition to the salary to be paid to Mr. Herbert B. Glaisyer, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That this resolution be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 220 this 27th day of February, 1958.

EXHIBIT "N-1"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, on August 8, 1957, the State Highway Commission, by resolution, declared the necessity of acquiring a parcel of land lying in Lot 4, City View, also lying in Section 25, Township 7 South, Range 3 West, Willamette Meridian, Marion County, Oregon, consisting of 0.07 acre, and in addition certain access rights to the Pacific Highway (formerly Portland-Salem Expressway), owned by Emile F. Aufranc and Evelyn M. Aufranc et al, File L-2860 (R-26546), for the widening, construction, improvement and maintenance of the Salem By-Pass Section of the said Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, it has now been determined that the Salem By-Pass Section of the Pacific Highway (formerly Portland-Salem Expressway) can be completed without the necessity of acquiring the said parcel and said access rights from the said Emile F. Aufranc and Evelyn M. Aufranc, et al, and

WHEREAS, present highway construction plans do not contemplate using the said parcel or said access rights at this time or in the immediate future; and

WHEREAS, pursuant to the said resolution of August 8, 1957, the Legal Department of the State Highway Commission filed a condemnation proceeding to acquire the said parcel and access rights on September 23, 1957, which said proceeding is still pending in the Circuit Court of Marion County, Oregon, and being Marion County Circuit Court Case No. 45017, and

WHEREAS, the State Highway Commission has not taken physical possession of the said parcel described in said resolution of August 8, 1957, and which parcel is also described in the said condemnation proceeding.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution adopted by this Commission on August 8, 1957, and identified as Condemnation Resolution No. 835, declaring the necessity of acquiring the real property described above, is hereby cancelled and revoked.

2. That the Chief Counsel for the State Highway Commission be and he hereby is authorized to move the Circuit Court of Marion County, Oregon for an order to dismiss, without prejudice, Marion County Circuit Court Case No. 45017, entitled State of Oregon, by and through its State Highway Commission, composed of Charles H. Reynolds, M. K. McIver, and Robert B. Chessman, vs. Emile F. Aufranc and Evelyn M. Aufranc, et al.

3. That this resolution be entered in full in the minutes and records of the Commission this 27th day of February, 1958, as Condemnation Resolution No. 835a.

29731

EXHIBIT "N-2"

Minutes of February 27, 1958

RESOLUTION

WHEREAS, on April 19, 1957, the State Highway Commission, by resolution, declared the necessity of acquiring a parcel of land lying in the James Terwilliger and Philinda Terwilliger Donation Land Claim, also lying in the West half ($W\frac{1}{2}$) of Section 15, Township 1 South, Range 1 East, Willamette Meridian, Multnomah County, Oregon, consisting of 0.35 acre owned by William C. Ralston(File R-23477 L-2791), for the widening, improvement and maintenance of the Pacific Highway West; and

WHEREAS, it has now been determined that the Pacific Highway West can be completed without the necessity of acquiring the said parcel from the said William C. Ralston, et ux; and

WHEREAS, present highway construction plans do not contemplate using the said parcel at this time or in the immediate future; and

WHEREAS, pursuant to the said resolution of April 19, 1957, the Legal Department of the State Highway Commission filed a condemnation proceeding to acquire the said parcel on June 7, 1957, which said proceeding is still pending in the Circuit Court of Multnomah County, Oregon, and being Multnomah County Circuit Court Case No. 240140; and

WHEREAS, the State Highway Commission has not taken physical possession of the said parcel described in said resolution of April 19, 1957, and which parcel is also described in the said condemnation proceeding.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution adopted by this Commission on April 19, 1957, and identified as Condemnation Resolution No. 784, declaring the necessity of acquiring the real property described above, is hereby cancelled and revoked.

2. That the Chief Counsel for the State Highway Commission be and he hereby is authorized to move the Circuit Court of Multnomah County, Oregon for an order to dismiss, without prejudice, Multnomah County Circuit Court Case No. 240140, entitled State of Oregon, by and through its State Highway Commission, composed of Charles H. Reynolds, M.K. McIver, and Robert B. Chessman, vs. William C. Ralston, et ux.

3. That this resolution be entered in full in the minutes and records of the Commission this 27th day of February, 1958, as Resolution No. 784-a.

February 27, 1958

EXHIBIT "O"

Minutes of February 27 and 28, 1958

RESOLUTION

WHEREAS, pursuant to an agreement and without consideration, the State of Oregon, by and through its State Highway Commission, conveyed to Paul Martin and Verla Martin, husband and wife, twenty-one (21) acres of land adjacent to the Columbia River Highway in Government Lot 1 and in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 West, Willamette Meridian, Multnomah County, Oregon, by deed duly accepted by the grantees and recorded in Book 1523, Page 418, of the Deed Records of Multnomah County, Oregon, wherein said land is more particularly described, said conveyance being subject to the condition that:

> "title in fee simple to all or any part of said real property shall revest in the State of Oregon, by and through its State Highway Commission, at any future time that the State Highway Commission, by resolution entered in its official minutes, declares that all or any part of said property is required or necessary for right of way for construction of a clover leaf, interchange, connecting road or other roadway in connection with an improvement of the relocated Columbia River Highway and connections and approaches thereto. The resolution of the Highway Commission shall be conclusive as to the necessity for public use of all the property described in said resolution."

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to construct, reconstruct, improve and maintain the Columbia River Highway, including frontage roads, a traffic interchange, and a connecting road between the Columbia River Highway and the Crown Point Secondary Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that for its present plans there is needed and required for right of way purposes for the construction, reconstruction, improvement, and maintenance of the Columbia River Highway and for the construction, reconstruction, improvement and maintenance of frontage roads and a traffic interchange on said highway, (which traffic interchange, with a connecting road to be constructed by the State Highway Commission, will connect the Columbia River Highway and the Crown Point Secondary Highway), the following described real property, to wit:

> A parcel of land lying in Government Lot 1 and the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, W.M., Multnomah

EXHIBIT "O" (Cont)

County, Oregon, and being a portion of that property described in that certain deed to Paul and Verla Martin, recorded in Book 1523, Page 418, of Multnomah County Records of Deeds; the said parcel being described as follows:

Beginning at the Southwest corner of that tract conveyed to Paul and Verla Martin by deed recorded in Book 1523, Page 418, of Multnomah County Deed Records, said corner being 686 feet West and 191.52 feet North 0° 07' East from the Southeast corner of said Lot 1; thence North 84° 17' West, parallel to and 200 feet Northerly from the relocated center line of the Columbia River Highway, 228.9 feet to a point opposite Station 521+50 on said relocated highway center line; thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet Northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 65.4 feet to the West line of said Martin tract and the true point of beginning; thence continuing North 87° 35' 12" East 641.71 feet to a point which is opposite and 400 feet Northerly of Station 530+00 on the center line of the Columbia River Highway; thence South 84° 17' East parallel to and 400 feet Northerly of said center line, 140 feet, more or less, to the East line of said Martin property; thence North along said East line 40 feet, more or less, to a line which is parallel to and 440 feet Northerly of said center line, thence North 84° 17' West parallel to said center line 140 feet, more or less, to a point opposite Station 530+00 on said center line; thence Westerly in a straight line 655 feet, more or less, to the true point of beginning.

The parcel of land to which this description applies contains 0.42 acre.

2. The State Highway Commission does further find and declare that fee simple title to that portion of the real property conveyed by the State of Oregon by and through its State Highway Commission, to the said Paul Martin and Verla Martin, husband and wife, by the said deed recorded in Book 1523, Page 418 of the Deed Records of Multnomah County, Oregon, and described above is hereby revested in the State of Oregon, by and through its State Highway Commission.

3. It is directed that a certified copy of this resolution be transmitted to the said Paul Martin and Verla Martin, husband and wife, or their successors in interest.

4. It is further directed that the State Highway Engineer, or such person as he authorizes, re-enter and take peaceable possession of the hereinabove described parcel of land in the name of and on behalf of the State of Oregon, by and through its State Highway Commission.

EXHIBIT "O" (Cont)

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of February, 1958, as Miscellaneous Resolution No. 214.

Salem, Oregon
March 24, 1958

The State Highway Commission met in special telephonic session at 2:30 p.m. on Monday, March 24, 1958. Present were

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Leonard I. Lindas, Chief Counsel

The Chief Counsel explained the necessity for amending prior resolutions so as to provide for and declare the necessity of acquiring four parcels of real property for right of way purposes, including their use for the wasting of excess materials for the relocation, construction, improvement and maintenance of the Myrtle Creek-Canyonville Section of the Pacific Highway, Douglas County, the said parcels being more particularly described under the following designated files and in the resolution attached and made a part hereof:

MYRTLE CREEK-CANYONVILLE SECTION OF THE PACIFIC HIGHWAY

L-2648 (R-22481) - Treva Alspaugh, et. al.
Douglas County
Parcel No. 1: 0.92 acre for right of way
Parcel No. 2: 0.4 acre for right of way
Amended resolution to redesignate use of Parcel No. 2

L-2649 (R-22482) - Kenneth Bruce Amesbury, et al.
Douglas County
Parcel No. 1: 1.16 acres for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 0.11 acre for excess taking
Amended resolution to redesignate use of Parcel No. 2

L-2650 (R-22483) - Alton E. Alspaugh, et ux.
Douglas County
Parcel No. 1: 1.16 acres for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 0.49 acre for excess taking
Amended resolution to redesignate use of Parcel No. 2

L-2651 (R-22480) - R. F. Klose, et al.
Douglas County
Parcel No. 1: 0.71 acre for right of way
Parcel No. 2: 0.27 acre for right of way
Amended resolution to redesignate use of Parcel No. 2

The Commission considered and approved the request of the Chief Counsel to amend the said prior resolutions, and thereupon adopted the following resolution with regard thereto:

29736

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it become necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and acquired for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of March, 1958, as Condemnation Resolution No. 950.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 950, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and p ans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

There being no further business, the meeting adjourned.

Chas. H. Raymeds
Chairman

Howard J. Lindas
Chief Counsel

Commissioner

Portland, Oregon
March 27, 1958

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxton, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Also present were Mr. Darrell Hedges, Secretary and Mr. Herbert Higgins, Engineer, representing the Washington Toll Bridge Authority, and Mr. Richard Thorgrimson, Attorney, representing Preston, Thorgrimson and Horowitz, Seattle, Bond Counsel for the Washington Toll Bridge Authority.

Bids as follows for highway construction were opened and read aloud by the Secretary of the Oregon Highway Commission who then stated that the Commission would announce awards of contracts at 4:30 p.m. in the same room:

The Chief Counsel called to the attention of the Commission an item that appears on the agenda, concerning the issuance and sale by the Washington Toll Bridge Authority of the remainder of the Vancouver-Portland Interstate

Toll Bridge Facility Revenue Bonds in the principal sum of $5,200,000 out of the $14,500,000 of such bonds provided for by agreement dated April 27, 1955, between Oregon State Highway Commission, Washington State Highway Commission and Washington Toll Bridge Authority and originally authorized by Resolution No. 312 of the Authority. The Chief Counsel explained that the sale of these bonds is for the purpose of providing funds to pay the cost of part of the proposed improvements, and incidental expenses, for which said $14,500,000 of bonds were authorized, particularly to finance the reconstruction of the existing bridge over the Columbia River.

He introduced Mr. Darrell Hedges, Secretary of Washington Toll Bridge Authority, Mr. Herbert Higgins, Engineer of such Authority, and Mr. Richard Thorgrimson of the firm of Preston, Thorgrimson and Horowitz of Seattle, bond counsel for the Authority, who were present. At his request Mr. Thorgrimson explained the terms and provisions of the resolution adopted by the Authority for the issuance and sale of the bonds. The Chief Counsel (Mr. Lindas) then advised that the resolution, which incorporates the form of bond, has been studied and found to be in proper legal form. Based upon such study and upon opinion of bond counsel as to the validity thereof, he recommended approval by the Oregon Highway Commission of the form of Resolution, Notice of Sale and the Bond as presented.

Commissioner McIver moved that the same be approved and Commissioner Chessman seconded the motion. Thereupon, the Commission voted unanimously to approve the form of said Resolution, the Bond incorporated therein and the Notice of Sale, and directed the Secretary to retain a copy of the same in the official records of the Commission.

Since the Washington Toll Bridge Authority plans to receive bids for the sale of the bonds on April 24, 1958, and, since under the agreement between the parties a bid will be accepted only if satisfactory to both the Commission and the Authority, the State Highway Engineer was authorized to advise the Authority as to whether or not any bid submitted for the sale of the bonds is satisfactory to the Oregon Highway Commission.

The Parks Superintendent reported on the following park matters:

1. Letter from Neal A. Butterfield, National Park Service, concerning proposed park developments at Howard Prairie Reservoir in Jackson County: The Parks Superintendent recalled that he had been authorized to make a study of this area at the preceding Commission meeting and he recommended that it be continued. However, if the U.S. Bureau of Land Management decides to take over the recreation area, he would so advise the Commission. Continuation of the study was approved.

2. Report on overnight camp use in State parks during 1957: The Commission accepted the Parks Superintendent's written report on this subject. He called attention to the average number of campers per site, which in 1952 was 136.2 compared with 266.7 in 1957. The total number of camper-nights in 1952 was 36,218 whereas in 1957 the total was 318,191.

3. Request of Parkrose Chamber of Commerce for a study concerning feasibility of using Government Island in the Columbia River for recreational purposes: The Parks Superintendent stated that although it appears that the area is not too desirable because of inaccessibility and its nearness to the city of Portland, nonetheless it is worthy of study, and he recommended that he be granted authority to conduct a study to determine the possibilities of the area and cost of development. The Commission authorized the study.

4. Request of the Citizens Park Committee of Brookings that the State take over as a state park the Loeb Memorial Forest on the Chetco River in Curry County: This area, the Parks Superintendent stated, is a tract containing a large number of myrtle trees and is owned by the State Board of Forestry. The Commission granted him authority to study the area and requested a report at the next meeting.

5. Request of the U.S. Bureau of Public Roads for permission to use a portion of Susan Creek State Park as a stock pile and plant setup site during the remainder of 1958: The Parks Superintendent explained that the area desired has been used for stock-pile purposes and there still is a small quantity of material on the ground. It was his opinion that use of the area by the Bureau of Public Roads for stock piling its road material would not handicap use of the park or damage the area in any way, and he recommended that the area be leased to the Bureau of Public Roads for the year 1958. The Commission approved the lease.

6. Out-of-state travel expense for L. V. Koons, Assistant Parks Superintendent: Upon the favorable recommendation of the Parks Superintendent, the Commission authorized Mr. Koons to attend a meeting of the Columbia Basin Inter-Agency Subcommittee at Victoria, B.C., May 28-29, 1958, at an estimated cost of $80.00

7. Proposed purchase of 77.94 acres of land from Chas. Hoyt as an addition to Rooster Rock State Park in the Columbia Gorge: This property, the Parks Superintendent stated, adjoins Rooster Rock Park and is located a short distance west of the Vista House between the old highway and the U.P. railroad. The Columbia Gorge Commission, he said, is anxious that the area be acquired in order to preserve the scenic values in the Columbia Gorge in this area. The property, he continued, has been appraised at $7,542.40. He recommended that it be acquired from the owner for $7,600, which is his asking price. The Commission approved the purchase.

8. Bids received for Rooster Rock Park Concession at the February meeting: The Parks Superintendent stated that of the 21 bids received, four had been qualified, and of the remaining, two had been considered for award; namely, P & A Enterprises, Inc., Portland, who offered to pay the state 20 per cent of gross revenues, and Wm. R. and Patricia M. Blake, Portland, who offered to pay 17½ per cent. It was his opinion, considering prices which the bidders propose to charge for commodities and their financial status and experience, that the proposal of either P & A Enterprises, Inc., or the Blakes would prove satisfactory. The Engineer commented that inasmuch as both bidders apparently are qualified according to the specifications, it would be a dangerous precedent to make an award other than to the high bidder. After

some further discussion, the Parks Superintendent definitely recommended acceptance of the proposal of P & A Enterprises, Inc., The Commission adopted the recommendation unanimously.

9. Request of George Blum Logging Company, Tillamook, for permission to transport logs across a portion of the Cape Lookout State Park Road: The Parks Superintendent advised that the Company has purchased timber east of the park and wants to move it over the park road; also that the Company has offered to provide a bond to cover possible damages to the road by reason of their hauling operations and had also agreed to furnish liability insurance in the amount of $100,000-$300,000. He recommended that a permit be granted subject to those conditions, the same to expire on May 1, 1960. The Commission adopted the recommendation.

Sewage disposal for Delake overnight camping facilities: The Parks Superintendent stated that in connection with overnight camping facilities being developed at this location the City of Oceanlake has been contacted regarding disposal of sewage through its disposal plant. The City indicated willingness to handle the sewage for a charge of 26 cents per thousand gallons, or an approximate cost of $20.00 per month for the anticipated sewage volume. The use of septic tanks, he said, is not as desirable as the facilities offered by the City and he recommended that an agreement be entered into with the City of Oceanlake for disposal of sewage during the year 1958 at the outlined cost. The Commission accepted his recommendation.

Letter from Hon Fred Meek inviting the Commission to attend "Founder's Day" celebration at Champoeg State Park on May 4, 1958: The Parks Superintendent stated that Mr. Meek's letter invited the Commission and other highway personnel to attend this celebration. The Commission accepted the invitation with thanks and agreed to attend the function if possible.

The Parks Superintendent also mentioned receipt of a letter from Mr. Meek as a representative of the "Sons and Daughters of Oregon Pioneers" urging the Commission to take immediate action to provide a museum and meeting hall at Champoeg State Park so it will be completed and ready for the Oregon Centennial celebration in 1959. He recalled that construction of such a building was considered by the 1957 Legislative Assembly but no action was taken. The Engineer recalled that the bill that was presented to the Legislature provided that the Highway Department was to pay 50 per cent of the cost of such building which was then estimated to cost about $250,000. However, it was amended to provide that the Highway Department pay the entire cost, and the bill subsequently died in committee. The Commission instructed the Engineer and Parks Superintendent to study the matter and ascertain whether or not a suitable building can be provided for approximately $125,000, and be prepared to take action should the matter again be presented to the Legislature.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration of the individual items the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof, with like effect as though

extended in full herein.

A report was presented by the Right of Way Engineer showing the Property Manager's monthly sales in the amount of $6,652.50, and rental reports showing terminations and new rentals, for the period from February 19 to March 17, 1958. Rental receipts for the month of February amounted to $7,521.13. The Commission accepted the reports. (For details concerning miscellaneous sales and property rentals, see the Right of Way Engineer's letter, dated March 20, 1958, in the General Files.)

Consideration was given to a request for vacation of a portion of Panorama Heights adjacent to the City of Hermiston and situated on the Umatilla-Stanfield Highway in Umatilla County. The Right of Way Engineer stated that vacation of this area will cause no harm to the State Highway Department and he recommended that the Commission concur in the vacation of the area which is situate in Section 14, Township 4 North, Range 28 East. W.M. Umatilla County. The Commission approved the vacation.

A Bargain and Sale Deed was presented by the Right of Way Engineer reconveying to Swan Lake Moulding Company certain property that had previously been conveyed to the State. He explained that due to a series of errors in description it was impossible to proceed, and to clarify the matter he suggested that the proceedings be started over again. To accomplish this, he explained, it is necessary for the state to reconvey the area to the Swan Lake Moulding Company which, in turn, will then deed to the state the right of way that the state actually needs. Upon his favorable recommendation, the Commission approved the transaction as outlined.

Upon the Right of Way Engineer's favorable recommendation, the Commission approved granting to E. H. Pedwell and the Standard Oil Company of California permission to occupy a portion of the right of way of the Salem By-pass Section of the Pacific Highway near the Market Street interchange in Salem. He explained that Mr. Pedwell deeded the land to the state at no cost with the provision that the service station remain where it is until the land is needed for highway purposes.

Consideration was given to an offer made by Howard Cooper Corporation to purchase for the sum of $ 2,200.00, a pneumatic tube system, three jib cranes, and a platform scale, located in a building that was purchased from them on the Banfield Expressway, Portland. The Right of Way Engineer recommended acceptance of the offer as a matter of good business. The Commission approved the sale at the price mentioned.

Sale of 1.44 acres of land on the Hauser Section of the Oregon Coast Highway (old route) in Coos County to School District 26C was discussed. This property, the Right of Way Engineer explained, is no longer required for highway purposes and he recommended that it be sold to the school district for $300.00. The Commission approved the sale.

The matter of granting an easement to School District No. 19, Douglas County, for permission to cross excess state land on the Myrtle Creek-Umpqua Bend Section of the Pacific Highway in Douglas County was discussed. The

Right of Way Engineer stated that the transaction is part of an exchange of easements. Upon his favorable recommendation the Commission approved the easement.

The Commission considered a grant of access removing restrictions on the use of an access that was previously granted to Mrs. Maple Brandhagen on the Tigard-Newberg Section of the Pacific Highway West in Washington County. This modification, the Right of Way Engineer stated, involves an increase from 20 to 30 feet in width of an access at highway engineer's station 133+41.5 and is unrestricted as to use. The Commission approved the modification of access following the Right of Way Engineer's recommendation and his comment that this property should not have been restricted in the first instance.

Consideration was given to the conveyance to Mr. and Mrs. Earl B. Houston, Albany, 0.38 acre of land on the North Jefferson Junction-Albany Section of the Pacific Highway in Linn County. The Right of Way Engineer commented that in acquiring property from the Houstons it had been agreed to sell this parcel to them but specific approval had not been secured from the Commission. He recommended that it be sold to the Houstons for $2480.00, which is the amount paid for the property, and that this amount be deducted from the condemnation judgment awarded to the Houstons in the amount of $15,750.00. The Commission approved the sale as recommended.

The Right of Way Engineer requested and the Commission approved public sale of two parcels of land that no longer are required for right of way purposes, as follows:

File 24450 - 0.5 acre of land on the East Fork Illinois River Section of the Redwood Highway for the minimum sum of $300.00.

File 18332 - 0.18 acre of land on the Medford-Ashland Section of the Pacific Highway in Jackson County for a minimum amount of $500.00.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following described properties that are needed as right of way in connection with various highway improvements or for other purposes and to tender offers for the same in conformity with instructions given to him by the Commission by resolution adopted December 20, 1951:

Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway)

R-23662 - Louis Adler and Dorothy Rose Adler
Multnomah County
Parcel No. 1: 5,000 square feet for right of way
Parcel No. 2: 4,400 square feet for right of way
Parcel No. 3: 0.59 acre for right of way

R-23663 - Filomena Scioly
Right of Way (Multnomah County)
1.85 acres

Harbor Drive-Boulevard Section (Cont.)

R-25001 - Cyril J. Murray
Multnomah County
Parcel No. 1: 0.6 acre
Parcel No. 2: 0.29 acre

R-27082 - Mike M. DeCicco
Multnomah County
Parcel No. 1: 6,234 square feet for right of way
Parcel No. 2: 5,530 square feet for right of way

R-27083 - Mike DeCicco, Louis DeCicco and Harold DeCicco
Right of Way (Multnomah County)
2,100 square feet

R-27086 - Cecil C. Flora and Irma J. Flora
Right of Way (Multnomah County)
4,014 square feet

R-27087 - R. W. Gráce & Co.
Right of Way (Multnomah County)
8,000 square feet

R-27091 - Mildred Schmidt and William W. Schmidt
Right of Way (Multnomah County)
5,000 square feet

R-27100 - Rudolph L. Viergutz and Ardella Viergutz
Right of Way (Multnomah County)
10,000 square feet

R-27332 - Schnitzer-Wolfe Investment Co.
Right of Way (Multnomah County)
0.05 acre

R-27502 - Frank Madonna and Doris R. Madonna
Right of Way (Multnomah County)
5,000 square feet

R-27503 - William Gray and LaVera Gray
Right of Way (Multnomah County)
5,000 square feet

R-27598 - Etta Bell Gordon and Albert C. Gordon
Right of Way (Multnomah County)
700 square feet

R-27683 - Grace Johnson
Multnomah County
Parcel No. 1: 0.37 acre for right of way
Parcel No. 2: 2,200 square feet for right of way
Amended resolution to reduce area of Parcel No. 1

March 27, 1958

29750

Harbor Drive -Barbur Boulevard Section (Cont.)

L-2789 (R-20986) - Hazel D. Clark, et al.
Right of Way (Multnomah County
0.782 acre
Amended resolution to reduce area of the taking

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

R-26326 - Walter Marion Everest and Margaret Gall Everest
Yamhill County
Parcel No. 1: 1.56 acres for right of way
Parcel No. 2: 0.07 acre for right of way
Amended resolution to increase area of the taking and change access provisions

R-26334 - Clyde H. Brawley and Ethel B. Brawley
Yamhill County
Parcel No. 1: 1.18 acres for right of way
Parcel No. 2: 0.23 acre for right of way
Parcel No. 3: 0.07 acre for right of way
Amended resolution to authorize condemnation of Parcel 3.

R-26337 - Carl E. Payne and Ava F. Payne
Right of Way (Yamhill County)
0.91 acre
Amended resolution to increase area of the taking

Pleasant Hill-Creswell Section of the Springfield-Creswell Highway

L-2876 (R-26804) - Vernon Chitwood, et al.
Lane County
Parcel No. 1: 5.04 acres (net) for right of way
Parcel No. 2: 0.69 acre for channel change easement
Amended resolution to add construction item and change access provisions.

Myers Creek-Brookings Section of the Oregon Coast Highway

R-27548 - Byrdie B. Metzgus and Vida Walker
Curry County
Parcel No. 1: 15.7 acres for right of way
Parcel No. 2: 0.15 acre for a construction easement

R-27549 - Harvey D. Crook and Wilda R. Crook
Curry County
Parcel No. 1: 12.8 acres for right of way
Parcel No. 2: 0.25 acre for an easement for fill
Parcel No. 3: 0.29 acre for a permanent easement
Parcel No. 4: 0.05 acre for an easement for fill
Parcel No. 5: 0.57 acre for an easement for fill and drainage

March 27, 1958

Myers Creek-Brookings Section (Cont.)

R-27550 - Oleta A. Walker, Harvey D. Crook and Wilda R. Crook
Curry County
Parcel No. 1: 17.3 acres for right of way
Parcel No. 2: 1.2 acres for an easement for fill
Parcel No. 3: 1.2 acres for an easement for fill

R-27551 - Wilbur W. Ostrander and Mable Ostrander
Curry County
Parcel No. 1: 172 acres for right of way
Parcel No. 2: 6.0 acres for right of way

R-27581 - H. E. Timeus, Harmon Timeus, Joy Yarnold and James Yarnold
Right of Way (Curry County)
5.0 acres

L-2929 (R-26916) - Lloyd D. Mosier, Sr., et ux.
Curry County
Parcel No. 1: 2.2 acres for right of way
Parcel No. 2: 0.03 acre for excess taking
Parcel No. 3: 0.2 acre for drainage easement
Amended resolution to change access provisions

Minam-Rock Creek Section of the Wallowa Lake Highway

R-26942 - E. C. Fleser and Myron Fleser
Wallowa County
Parcel No. 1: 4.6 acres (net) for right of way
Parcel No. 2: 2.5 acres (net) for right of way
Amended resolutionto reduce area of taking

Columbia River Highway

R-27710 - Stebco Incorporated
Acquisition of roadbuilding materials (Multnomah County)
73.0 acres

Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East)

R-25290 - M. & R. Properties Company
Right of Way (Lane County)
1.04 acres

R-25596 - Oscar W. Olson and Emma Olson
Linn County
Parcel No. 1: 49.15 acres (net) for right of way
Parcel No. 2: 0.6 acre (net) for right of way
Amended resolution to change access provisions

March 27, 1958

Albany-Judkins Point Section (Cont.)

R-25598 - Greta Murl Swatzka
Linn County
Parcel No. 1: 0.15 acre (net) for right of way
Parcel No. 2: 0.22 acre for right of way

R-27330 - F. T. Glaser and Mary T. Glaser
Linn County
Parcel No. 1: 14.22 acres for right of way
Parcel No. 2: 70.63 acres (net) for right of way
Parcel No. 3: 2.55 acres (net) for right of way
Parcel No. 4: 1.68 acres (net) for right of way
Parcel No. 5: 0.8 acre (net) for right of way
Parcel No. 6: 3.81 acres (net) for right of way for a channel change
Parcel No. 7: 1.55 acres for right of way for a channel change

North Jefferson Junction-Albany Section of the Pacific Highway (formerly Pacific Highway East)

L-2823 (R-26450) - Frank Flamme, et ux.
Right of Way (Linn County)
0.05 acre
Amended resolution to change frontage road provisions

L-2824 (R-26451) - Ada Frances Sudtell
Right of Way (Linn County)
0.09 acre
Amended resolution to change frontage road provisions

Myrtle Creek-Canyonville Section of the Pacific Highway

L-2648 (R-22481) - Treva Alspaugh, et al. (authorized by Commission by telephone on March 24, 1958)
Douglas County
Parcel No. 1: 0.92 acre for right of way
Parcel No. 2: 0.4 acre for right of way
Amended resolution to redesignate use of Parcel No. 2

L-2649 (R-22482) - Kenneth Bruce Amesbury, et al. (authorized by Commission by telephone on March 24, 1958)
Douglas County
Parcel No. 1: 1.16 acres for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 0.11 acre for excess taking
Amended resolution to redesignate use of Parcel No. 2

L-2650 (R-22483) - Alton E. Alspaugh, et ux. (authorized by Commission by telephone on March 24, 1958)
Douglas County
Parcel No. 1: 1.16 acres for right of way
Parcel No. 2: 0.36 acre for right of way
Parcel No. 3: 0.49 acre for excess taking
Amended resolution to redesignate use of Parcel No. 2

March 27, 1958

Myrtle Creek-Canyonville Section (Cont.)

L-2651 (R-22480) - R. F. Klose, et al. (authorized by Commission by tele-)
Douglas County (phone on March 24, 1958)
Parcel No. 1: 0.71 acre for right of way
Parcel No. 2: 0.27 acre for right of way
Amended resolution to redesignate use of Parcel No. 2

Cascade Secondary Highway

R-26381 - Ethel Pullen Kosher
Multnomah County
Parcel No. 1: 14.53 acres for right of way
Parcel No. 2: 0.42 acre for right of way

R-26382 - Cosmo Spada and Angiolina Spada
Multnomah County
Parcel No. 1: 2.92 acres (net) for right of way
Parcel No. 2: 0.3 acre for right of way

R-26384 - Robert A. Bitar and Frank A. Bitar
Right of Way (Multnomah County)
4.147 acres (net)

R-26385 - G. H. Wagner and Harold Wagner
Right of Way (Multnomah County)
1.84 acres

R-26386 - H. E. Musselwhite
Right of Way (Multnomah County)
10,000 square feet

R-26387 - Louis Sisk and Ira D. Brin
Multnomah County
Parcel No. 1: 2.32 acres for right of way
Parcel No. 2: 1.22 acres for a stock pile site

R-26388 - H. V. Higley
Right of Way (Multnomah County)
5,909 square feet

R-26392 - Thomas J. Burke and Imogene M. Burke
Right of Way (Multnomah County)
5,992 square feet

R-26394 - Charles C. Quimby and Cleo Quimby
Right of Way (Multnomah County)
5,992 square feet

R-27165 - Parkrose School District Number Three Multnomah County
Right of Way (Multnomah County)
6,009 square feet

March 27, 1958

Cascade Secondary Highway (Cont.)

R-27166 - Lloyd J. Griffith and Helen E. Griffith
Right of Way (Multnomah County)
0.2 acre

R-27167 - Chester E. Pullen
Right of Way (Multnomah County)
0.13 acre

R-27171 - Harris Distributing Co.
Right of Way (Multnomah County)
588 square feet

R-27341 - Crystal R. Aube
Right of Way (Multnomah County)
5,992 square feet

R-27342 - Michael Hodes and Sarah Hodes
Right of Way (Multnomah County)
838 square feet

R-27534 - Gustave H. Wagner and Harold A. Wagner
Temporary Construction Easement (Multnomah County)
4.3 acres

Olds Ferry-Ontario Highway

R-27574 - Fred Head and Gladys Head
Malheur County
Parcel No. 1: 29.5 acres for a material source
Parcel No. 2: 1.6 acres for an easement for haul road

Ontario-Snake River Section of the Old Oregon Trail Highway

R-26732 - Julia Westfall Mendazona and Mae Westfall
(Malheur County)
Parcel No. 1: 8.59 acres (net) for right of way
Parcel No. 2: 0.36 acre (net) for right of way

Right-of-way maps and other data were submitted to the Commission. The Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action was deferred by the Commission pending study of the material submitted. (Condemnation of the parcels as submitted was authorized later in the day. See minute entry ahead.)

A report was presented by the Chief Counsel on condemnation cases which have been tried in court between February 24 and March 20, 1958, summarized as follows:

(Continued on next page)

REPORT OF CONDEMNATION CASES TRIED
February 24 to March 20, 1958

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Geo. W Sturgis, et al. R-25467	Linn	Pacific	N. Jefferson Junction-Albany	$ 2,450	$ 6,000	$ 3,000
Melanie A. Parke, et al. R-22733	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	6,000	15,000 (Answer)	6,000
Gearold Hilbert, et al. R-24460	Umatilla	Ukiah-Hilgard	Ukiah-West Forest Boundary	50	None	Judgment 50
Sarah Perry, et al. R-24200	Umatilla	Havana-Helix	Havana	70	None	Judgment 70

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2616	Hobart D. Osborn	State of Oregon	Grant	Damage	$ 2,275	Involuntary Non-suit

The Commission accepted the report. (For additional details, see Chief Counsel's letter dated March 21, 1958, in the General Files in Salem.)

March 27, 1958

The Commission also accepted a report submitted by the Chief Counsel on cases which have been settled out of court since the last Commission meeting, summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Humphrey Parry, et al. R-25886	Multnomah	Sunset	Zoo Overcrossing	$ 450	$ 750
John Glaser, et al. R-25378	Linn	Pacific	Albany-Judkins Point	250	300
P. W. Drushella, et al. R-25535	Linn	Pacific	Albany-N. Jefferson Jct.	100	100
Lars Haugen, et al. R-24841	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	20,650	22,500
Douglas Community Hospital R-17857	Douglas	Pacific	Winchester-Shady Point (Appraised at $10,000)	750	15,000
Louis Lang, et al. R-14388	Multnomah	Banfield Expressway	Unit #2 (Appraised at $10,000 on unity of use, $5,000 without)	5,227	11,000
Harris Oil Co. R-27031	Washington	Tualatin Valley	Forest Grove-Hillsboro	440	440
T. M. Thorsen, et al. R-24994	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Blvd.	1,950	1,950

Report of Condemantion Cases Settled (Cont.)

Case	County	Highway	Section	State's Offer	Amount of Settlement
Frank Flamme R-26450	Linn	Pacific	N. Jefferson Jct. -Albany	$ 975	$ 1,250
Oregon Pulp & Paper Co. R-24035	Lincoln	Beverly Beach State Park - for park purposes. 37.7 acres.		5,750	8,000 plus fence
T. M. Thorsen, et al. R. 26725	Multnomah	Portland Salem Expressway	Harbor Drive-Barbur Blvd.	800	800

(For additional details, see the Chief Counsel's letter dated March 25, 1958, attached to Report of Condemnation Cases Settled, in the General Files.)

March 27, 1958

Offers for acquisition of real property, which offers either have been tendered or are to be tendered to property owners prior to institution of condemnation proceedings, were submitted by the Chief Counsel in compliance with a resolution adopted by the Commission on December 20, 1951. The Commission confirmed the offers as follows:

Albany-Judkins Point Section of the Pacific Highway

R-25601 - Fred C. Grell, et ux. 15.15 acres for right of way purposes. Offer of $9,500.00 approved by Mr. McIver March 18, 1958.

R-25900 - Iretha H. Lansing, et al. 9.64 acres for right of way purposes. Offer of $6,000 00 approved by Mr. McIver March 4, 1958.

Sunset Highway (Highlands Interchange)

R-27590 - Humphrey Parry, et ux. 31,495 square feet for right of way purposes. Offer of $600.00 approved by Mr. McIver March 11, 1958.

Eckman Slough Section of the Alsea Highway

R-26112 - Bert Bolton, et al. 0.8 acre for right of way purposes. Offer of $50.00 approved by Mr. McIver March 11, 1958.

Hilgard-La Grande Section of the Old Oregon Trail Highway

R-27507 - Karee J. Fugit, et al. 0.5 acre for right of way purposes. Offer of $4,000.00 approved by Mr. Reynolds March 5, 1958.

R-27072 - Jerald Cantrell, et al. 9.0 acres for right of way purposes. Offer of $19,072.00 approved by Mr. Reynolds March 4, 1958.

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-27687 - Ronald B. Gustaff, et ux. 4,000 square feet for right of way purposes. Offer of $200.00 approved by Mr. McIver March 5, 1958.

Minam-Rock Creek Section of the Wallowa Lake Highway

R-27334 - Harry Williamson, et al. 1.91 acres for right of way purposes Offer of $75 00 approved by Mr. Reynolds March 19, 1958.

Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway

R-26327 - Homer C. Parrett. 0.87 acre for right of way purposes. Offer of $525.00 approved by Mr. McIver March 5, 1958.

Albany-Judkins Point Section of the Pacific Highway

R-25383 - Edward W. Poland, et ux. 13.62 acres for right of way, 5.0 acres for easement for channel change, 1.6 acres for right of way and .2 acre for excess taking. Offer of $6,650.00 approved by Mr. McIver March 24, 1958.

March 27, 1958

Harbor Drive-Barbur Boulevard Section of the Pacific Highway

R-27352 - A. C. Johannesen, et ux. 27,420 square feet for right of way purposes. Offer of $7,150.00 approved by Mr. McIver March 24, 1958.

R-27359 - L. A. DesBouillons, et al. 600 square feet for right of way purposes. Offer of $12,000.00 approved by Mr. McIver March 24, 1958.

R-27361 - Eugene Scherrer, et al. 7,450 square feet for right of way purposes. Offer of $6,450.00 approved by Mr. McIver March 24, 1958.

R-27497 - Sun Developers, Inc., et al. 900 square feet for right of way purposes. Offer of $3,100.00 approved by Mr. McIver March 24, 1958.

The Commission accepted a report submitted by the Chief Counsel concerning orders which have been issued by the Public Utilities Commissioner regarding railroad crossings in which the State Highway Commission has been made a party. These orders are summarized as follows:

PUX 9: Shevlin-Hixon private road crossing with The Dalles-California Highway near M.P. 191.5. The present order grants the request of Brooks-Scanlon, Inc., who have taken over the Shevlin-Hixon Company, that the crossing be closed and barricaded.

PUX 98: Brooks-Scanlon, Inc., private road crossing at grade of the McKenzie Highway near Sisters in Deschutes County. On February 22, 1958, Brooks-Scanlon advised it had no further need for the private road crossing. The crossing is to be closed and barricaded.

PUX 220: Beck Station grade crossing of the tracks of the Southern Pacific Company near Beck Station in Lane County. A grade crossing would have involved a connection with the Siuslaw Highway, but at the request of the U. S. Department of Agriculture, who made the application, the application has been dismissed.

PUX 253: Portland International Airport Undercrossing of the tracks of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee. The order authorizes construction of the undercrossing on the Airport-Alberta Street Section in accordance with the original application.

The Chief Counsel requested and the Commission granted authority to institute legal proceedings against Richard and Robert Smutz to collect $529.00 for repairs to a state-owned vehicle which was damaged in an accident that occurred on July 9, 1957, near M.P. 301 on U.S. Highway No. 30. Damages amount to $529.00.

March 27, 1958

The Commission accepted a report submitted by the Chief Counsel recommending abandonment of a claim in the amount of $40.00 against Roy Gray, CAO-57-263, for damaging the south traffic gate of the Interstate Bridge, Portland. The Chief Counsel advised that the insurance company denied liability and in his estimation the cost to prosecute the case is not worth the amount which might be collected.

The Chief Counsel brought up for discussion the matter of acquiring the outstanding bonds of the Fairmore Irrigation District, Malheur County, to clear right of way needed for the Ontario-Snake River Section of the Old Oregon Trail Highway. The irrigation district, he stated, is defunct so if the bonds are not purchased it will be necessary to condemn each parcel of land in the irrigation district. It was his opinion that it would be cheaper to purchase the bonds, which he estimated would cost about $3,500.00, and he so recommended. The Commission accepted the recommendation and authorized the Chief Counsel to proceed with the purchase.

Consideration was given by the Commission to the proposed extension of Cascade Secondary Highway No. 160 northerly from its present terminus at N. E. Killingsworth Avenue, Portland, to the County Airport Road. Following the Chief Counsel's favorable recommendation the Commission approved the extension by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered designation as a "throughway" the North Santiam Secondary Highway westerly from a point east of Detroit to its junction with the Pacific Highway east of the city of Salem. The Chief Counsel pointed out that completion of the highway is planned in the near future and the "throughway" designation is needed in order to close certain county roads and to provide for access control. The Commission approved the "throughway" designation by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Reynolds reported receipt of information to the effect that Idaho Power Company may wish to flood portions of existing highways near the Snake River before they complete the road between Richland and Halfway. The Engineer remarked that Mr. McCormack, Chief Engineer of the Company, with whom he had been discussing this matter, died two days ago. However, it appears that on May 5 the Idaho Power Company wishes to close the diversion tunnel at the dam at Brownlee which will flood the highway below Richland Junction but traffic will be able to use the new road from Halfway to Copperfield which is available. It was his opinion that the State should inspect the roadways to be used to determine if they are in shape to handle traffic adequately. Chairman Reynolds stated that, in his opinion, the Highway Commission should have final control as to when portions of the old roadway may be flooded. No action was taken at this time pending the appearance of representatives from the Idaho Power Company later in the day. (See additional entry ahead.)

The Engineer reported that he has awarded contracts referred to him by the Commission to award when certain conditions had been fulfilled, which conditions have now been fulfilled. The Commission confirmed the awards as follows:

(1) Grading the Pioneer Mountain Section of the Corvallis-Newport Highway, Lincoln County. Bids received January 16, 1958. Contract awarded February 28, 1958 to Earl L. McNutt Company, Eugene, low bidder.

(2) Grading and paving the Murray Road Interchange Section of Sunset Highway, Washington County. Bids received January 16, 1958. Contract awarded February 28, 1958 to Porter W. Yett, Portland, low bidder.

(3) Construction of the Little Luckiamute River Bridge at Falls City, Polk County. Bids received February 27, 1958. Contract awarded March 6, 1958 to Henry G. Stach, Oakridge, low bidder.

(4) Grading and oiling the Horse Ranch-Fort Rock Section of Fort Rock Road, Lake County. Bids received February 27, 1958. Contract awarded March 6, 1958 to A. L. Harding, Inc., Stayton, low bidder.

(5) Grading the Thomas Creek-Cape Ferrelo Section of Oregon Coast Highway, Curry County. Bids received February 27, 1958. Contract awarded March 7, 1958 to Darkenwald Construction Company, Inc., Sacramento, California, low bidder.

(6) Grading the Richardson-Siuslaw River Section of Richardson-Eugene Highway, Lane County. Bids received February 6, 1958. Contract awarded March 12, 1958 to Hudspeth Pine, Inc., Prineville, low bidder.

(7) Grading, paving and illumination of Evelyn Street Channelization Section of Clackamas Highway, Clackamas County. Bids received February 28, 1958. Contract awarded March 12, 1958 to Parker & Fuhrman, Portland, low bidder.

(8) Grading and paving and construction of a 256 ft. reinforced concrete bridge on Perry-Oro Dell Section of Old Oregon Trail Highway, Union County. Bids received January 16, 1958. Contract awarded March 13, 1958 to Durbin Brothers, Eugene, low bidder.

(9) Spray-Fields Creek Rock Production Project on John Day Highway, Grant and Wheeler Counties. Bids received February 27, 1958. Contract awarded March 13, 1958 to E. H. Itschner Company, Molalla, low bidder.

(10) Construction of Shogren Overcrossing of the SPRR, Wasco County. Bids received February 28, 1958. Contract awarded March 18, 1958 to Babler Brothers, Inc., Portland, low bidder.

(11) Grading and paving the 16th Avenue Connection to Columbia River Highway (T. H. Banfield Expressway) in city of Portland, Multnomah County. Bids received February 28, 1958. Contract awarded March 19, 1958 to Howard Angell, Portland, low bidder.

Reclassification from Group 3 to Group 1 status of the section of the Hillsboro-Silverton Secondary Highway No. 141 between the R. H. Baldock Freeway (US99) and the Pacific Highway East (Route US99E) was reported by the Engineer. The reclassification was made, he stated, after a satisfactory test run had been made with a 60-foot truck and full trailer. The Commission confirmed the reclassification.

Upon the Engineer's request, the Commission authorized holding of a public hearing in the town of Springfield concerning location of the "Q" Street Interchange-McKenzie Highway section of the Eugene-Springfield Highway. Surveys on this section, the Engineer stated, have progressed to a point where a feasible route has been determined and a hearing is in order if it is required.

The Commission discussed with the Engineer his written reports dated March 20 and February 20, 1958, concerning construction of a state-owned building at Salem to house offices of the Department of Motor Vehicles, the State Police, and the Public Utilities Commissioner. The Engineer estimated that a saving of $50,000 per year in operating costs would accrue to the state if the Department of Motor Vehicles and the State Police were housed in the same building in addition to the convenience that would result by reason of both departments being in close contact one with the other. He estimated the cost of a building to house both departments at $640,000, which amount, he said, can be amortized in 19 years at 3.2% interest when the value of the building would be $ 397,000. He pointed out savings of $186,000 during the period for rental charges under the state ownership plan. Commissioner McIver gave as his feeling, in view of the obvious savings to be gained, that the matter should be presented to the Board of Control and the savings explained. Commissioner Chessman indicated a similar opinion. The Commission expressed a desire to construct such building and instructed the Engineer to present the matter to the Board of Control for its consideration.

The Commission considered the following items of unfinished business as shown on the Secretary's summary, dated March 28, 1958, as follows:

1 Request of National Park Service that the state maintain park facilities at Howard Prairie Dam in Jackson County. This item is to remain on the list of unfinished business pending further study and report by the Parks

Superintendent.

2. Presentation of traffic survey plan to the City of The Dalles, Technical Report No. 57-3: The Engineer advised that acting under authority granted by the Commission at the previous meeting, the report was formally presented to the City Council of The Dalles on Monday evening, March 3, 1958, at which meeting also were present County Judge James A. Hunt and Mr. Dolph D. Kimsey, Manager of the Port of The Dalles. The report, he said, was well received and was accepted by all; however, at the conclusion of the presentation the question was asked whether or not consideration had been given to the plan proposed by the City for routing the Interstate Highway (US 30) which involves the relocation of the facilities of the Union Pacific Railroad on an alignment nearer the Columbia River than is proposed under the Highway Department plan. They were informed, he said, that the City plan is now being studied, however, indications are that construction of such plan will cost approximately $1,300,000 more than the State's plan. He was instructed by the Commission to complete his studies on the routing of the Interstate Highway as soon as is possible. Chairman Reynolds inquired how soon construction of the Interstate Highway project can be gotten underway. The Engineer expressed a doubt that work could be started this year because of the study that has to be made, the need to hold a public hearing in The Dalles on the subject, and because of the need to consummate agreements with the City and the Railroad Company which is involved. He was instructed by the Commission to get the project in the construction stage as expeditiously as is possible. The Commission ordered this item deleted from the list of unfinished business.

3. Proposed construction of a building in Salem to house offices of the Department of Motor Vehicles, State Police, and Public Utilities Commission: This item was ordered deleted from the list as the Engineer's report on the subject had already been discussed.

4. Inquiry by Walter Ride concerning disposition of stockpile site road near the community of Progress: This item is to remain on the list of unfinished business as the Engineer advised that his investigation is not yet complete. An industrial development is proposed and a solution based on an exchange of properties may soon be reached.

5. Relocation of highways because of construction of the Crooked River Dam south of Prineville: The Engineer reported that the irrigation district officials plan to let a contract for construction of the dam in June of this year, which will require relocation of about 10 to 20 miles of state and county roads. There appears to be a considerable difference of opinion in the county as to where the roads should be relocated and the question of who is to pay for the relocated roads also appears to be unresolved. It was his opinion that the problem is largely a local one but negotiations are being continued with all agencies concerned. This item is to remain on the list of unfinished business.

6. Request of Ernie Fatland, Condon, for (a) Property needed for school district swimming pool, Condon, involving question of ownership; (b) Better warning signs southerly from Shuttler Flat on John Day Highway south of Arlington; (c) Widening and rest area at Devils Butte viewpoint on Condon-Cottonwood Section; and (d) New bridge over John Day River on Highway 206. The Chief Counsel reported that item "a" has been investigated and it has been ascertained that title is in the name of the State. The Engineer stated

that item "b" has also been taken care of and that consideration is being given to item "c". Concerning item "d", he stated that a new bridge will be needed sometime in the future but not necessarily now. The Commission accepted the reports and ordered this item removed from the list of unfinished business.

7. Request of Father O'Brien for a revocable permit allowing the "Sisters of the Convent of St. Dominic" to continue use of a building located partially on right of way of the Banfield Expressway near 132nd Avenue, Portland: Concerning this matter the Engineer stated that before the building was sold, the state was receiving in excess of $6,000 per year rental. It was his opinion that the school should not be allowed to leave the building on the right of way as requested and he recommended if the Sisters will reconvey to the state its title to the property that the money they paid for the building be refunded to them. Otherwise, that they be required to remove the building from the right of way in conformity with the provisions of the sale. Commissioner McIver stated that such solution of the problem would be a good one. Chairman Reynolds observed that the State should not deviate from the conditions of the original sale and he felt that repossession of the property and refunding of the money paid for it would be an equitable solution. The Commission thereupon approved the Engineer's recommendation unanimously. The Right of Way Engineer inquired if the school is to be required to refund to the state the rent money that they have received since they purchased the building. The Commission decided not to require the refunding of the rent money. This item is to be removed from the list of unfinished business.

8. Rooster Rock Park Concession bids: The Parks Superintendent reported on this matter earlier in the session; accordingly, the item was ordered deleted from the list.

9. Routing of the proposed Ellensburg-Pendleton Interstate Highway: The Engineer reported that pursuant to the instructions given him at the previous meeting, he has discussed with Mr. Wm. Bugge, Director of Highways, State of Washington, the routing of this proposed Interstate Highway and they have reached agreement on a route that will utilize the Columbia River Bridge at Umatilla and, temporarily, a routing on the Washington side of the river between Umatilla and Patterson, thence on a diagonal to Horse Heaven Hills. Mr. Bugge, he said, approved the Oregon plan with some slight variations but offered no objection to use of the Umatilla Bridge as a control point. The substance of their agreement, he stated, is that the State of Washington will control the routing in that state and the State of Oregon will designate the point of crossing the Columbia River which, of course, will be the Umatilla Bridge. He recommended approval of the compromise routing, adding that the State of Washington is anxious to have the route designated as a part of the Interstate Highway System. As a result of discussion a motion was made by Commissioner McIver that the Commission accept the Engineer's recommendation by which the proposed Ellensburg-Pendleton Interstate Highway would enter Oregon by using the Umatilla Bridge across the Columbia River and that the Commission recommend to the U.S. Bureau of Public Roads that such route be added to the Interstate Highway System. The motion was seconded by Commissioner Chessman and carried unanimously. This item is to be removed from the list of unfinished business.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

Messrs. Gomer Condit, Engineer, and Al Grant, Attorney, representing the Idaho Power Company, came before the Commission concerning flooding of the Baker-Homestead Highway between Richland and Halfway before completion of the relocated sections. Mr. Condit recalled that the existing contract between the state and the company required that the relocated sections shall be completed before the old highway is flooded. He requested clarification as to the meaning of the word "completed". He pointed out that the relocated highway between Halfway and Copperfield is nearly complete and he inquired if completion would mean the application of all surfacing materials and the construction of guardrail. Mr. Grant stated that in order to conserve the spring flood waters, the power company wishes to raise the water back of the Brownlee Dam to the bottom of the spillways in May of this year, and he requested modification of the agreement so that certain sections of state highways upstream from the Brownlee Dam could be flooded before the new highway sections are complete. The Engineer stated that he could see no objection to allowing the company to close its diversion tunnel and impound waters back of the dam provided adequate road facilities are made available for the traveling public and he so recommended He added that the State Highway Department should reserve the right to pass on the adequacy of the road facilities. In reply to Mr. Condit's question as to when a roadway is deemed usable for traffic, the Engineer stated that sufficient material should be applied to provide a smooth surface and that pending this application of the oil it would be necessary to water the road summer months to keep down the dust until the oiling could be performed. Concerning the matter of guardrail installations, he felt that these could be installed while traffic was using the roadway. He pointed out that it is now too late to modify the existing agreement but he suggested that the same result could be accomplished by an arrangement agreed upon among the parties that could be put in writing. The Commission approved the Engineer's solution of the problem and thereupon instructed him and the Chief Counsel to prepare such written statement embodying the things mentioned at this meeting, and to forward it to the Idaho Power Company for acceptance, with the understanding that the state is to inspect the newly constructed highway sections and give its approval before these sections are open to public travel. The Commission granted authority to the Engineer to determine when the newly built road sections are suitable for public travel and to take necessary action in behalf of the Commission at that time.

The Commission approved a request from the Engineer for an increase of $15,000 in the project authorization for the Hancock Street-Multnomah Street and Stephens Street project on the Pacific Highway in Portland, Contract No. 5055. The Engineer explained that unforeseen right of way difficulties and construction of a retaining wall caused the overrun in the original authorization.

Consideration was given to a request from the Associated General Contractors that the state reduce the amount of retained percentage on larger contracts. The Engineer explained that under the present plan 10% is retained on all contract payments until such time as the value of completed work equals 75% of the total amount of the contract, and no additional monies are withheld until the contract is completed which means that upon completion of the contract the retained percentage amounts to 7.5 percent of the contract price. It was

his feeling that this amount could, and in some cases probably does, work a hardship on the contractor, particularly in connection with the larger projects. The matter was carefully investigated, he stated, and it is his recommendation that on contracts amounting to $300,000 or more the retained percentage be 10 per cent of the value of work done up to 50 per cent of the total contract amount, which upon completion of the contract would provide a retained percentage of 5 per cent. He also recommended that the retained percentage now in effect be continued in connection with all contracts less than $300,000. The Commission approved his recommendations.

The Commission considered a request from the city of Bend for construction of curbs, drainage facilities and a 44 foot pavement on an 1,800 foot section of Galveston Avenue and the improvement of Third Street north and south of Franklin Avenue. The Engineer reported that the cost to construct the Galveston Avenue project is estimated at $60,000 to $70,000 and that the city proposes to contribute 25 per cent of the cost, the state to furnish 75 per cent. He recommended that the city be informed that no funds are available to finance the work at this time. Concerning the improvement of Third Street, he pointed out that funds have been budgeted in the 1960 federal year to improve South Third Street and a survey is now being made of the North Third Street project. However, no funds are available at this time for the North Third Street project. He recommended that the city be so advised. Accordingly, the Commission accepted his recommendation.

Attention was given to a proposed traffic signal agreement with the city of Gearhart providing for installation of a flashing beacon at a school crossing at the intersection of Sixth Street with the Oregon Coast Highway in Gearhart. This agreement, the Engineer stated, provides that the State shall install a signal at an estimated cost of $600 and the city is to maintain the signal and to furnish the necessary electrical energy to operate it. Upon his favorable recommendation, the Commission approved the agreement.

The Commission considered a request from the Supervisor of the Willamette National Forest for widening the Hoodoo Ski Bowl road which intersects the Santiam Highway near Cascade summit in Linn County. The Engineer commented that the road is not on the state highway system but the Commission heretofore agreed to plow snow on the spur as a courtesy to the Forest Service and for the convenience of skiers. He felt that a precedent should not be established by improving a road not on the state highway system and he recommended that the request be denied. The Commission denied the request.

Considered by the Commission was a petition from Kellogg Grange No. 811, Douglas County, in which request is made that the next improvement on the Elkton-Sutherlin Secondary Highway be made on the Kellogg Bridge-Smith Bridge Section, sometimes known as Kesterson Hill. The Engineer advised that an investigation disclosed that the Kellogg Bridge-Smith Bridge Section would cost approximately $1,000,000 and that the entire section would have to be built before it could be used. In the 1960 construction program an item for $600,000 is allocated to the northerly or Elkton-Smith Bridge Section. As no additional funds are available now he recommended that construction be made on the northerly unit as planned and that the remaining work be programmed when additional secondary funds become available. The Commission approved his recommendation.

Attention was given to a request from the city of Scappoose for an investigation of traffic conditions at the intersection of the Columbia River Highway and Columbia Avenue in Scappoose. An investigation was made, the Engineer stated, which indicated the need for a flashing beacon. He recommended installation of such a flashing beacon at an estimated cost of $800 on the condition that the city will maintain it and will furnish electrical energy to operate it. The Commission approved the installation on such basis.

The Commission considered a request from the Cedar Hills Community Club, Portland, for installation of a flashing beacon at the intersection of Sunset Highway with Cedar Hills Boulevard, a short distance west of the westerly end of the four lane section of the Sunset Highway. This request was investigated, the Engineer reported, and it was found that a flashing beacon would be advantageous, particularly in identifying the intersection. He recommended that a flashing beacon be installed at an estimated cost of $750, to be paid by the state as the signal is not in an incorporated city or town. The Commission approved the installation.

The Commission also considered a request from Reedsport school authorities and others for improvement of traffic conditions at the school crossing on the Oregon Coast Highway in the southerly part of the city. The Engineer advised that an investigation was made of conditions existing at this point and from the facts disclosed it is his recommendation that two existing school crossings on US 101 in the southerly part of Reedsport be abolished and that a single new crossing be established approximately midway between them. He also recommended that in conjunction with the new crossing an overhead doublefaced school crossing sign be installed at an estimated cost of $1200 with flashing amber beacons to operate when children are going to and from school. The Commission approved his recommendations, with the provision that the city shall maintain the sign and pay for electrical energy to operate the beacons.

The Commission upon the recommendation of the Engineer took action as noted on the following requests of contractors for extensions of time within which to complete state highway contracts. Reimbursement for engineering expenses and other expenses incurred by the state in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. Porter W. Yett, Contract No. 4499, for grading and paving the Reedville-Beaverton Section of the Tualatin Valley Highway in Washington County, requested an extension of time from August 31, 1956 to October 31, 1957. Approved to September 6, 1957, the actual completion date of the contract. A letter from the Bureau of Public Roads concurring in an extension of time to December 31, 1956, was presented.

2. Rogers Construction, Inc., Contract No. 4326, for structure, grading, and paving the Tualatin River-Middleton Unit, Tigard-Newberg Section of the Pacific Highway West in Washington County, requested an extension of time from November 30, 1955 to July 31, 1957. Approved as requested. A letter from the Bureau of Public Roads was presented concurring in an extension of time to July 31, 1956.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 4326, 4499, 4824, 5029, 5067 and 5123 for highway construction had been completed in accordance with requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that as previously authorized by the Commission, surveys have been completed for relocations of two state highway sections as follows:

1. Southwest Capitol Highway-Tigard Interchange Section of the Pacific Highway in Multnomah County.

2. The Jonesboro-Tunnel Section of the Central Oregon Highway in Malheur County.

The proposed relocated sections, he said, have been given very careful Engineering consideration to provide the best highway facility for the traveling public commensurate with the cost involved and he recommended their approval. The Commission approved the following surveys by adopting the attached resolutions relative thereto marked EXHIBITS "I- " and "I- ", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Engineer reported that in connection with action taken by the State Speed Control Board in the city of Port Orford and in the city of Talent it has been determined by a traffic engineering investigation that it is necessary because of roadside culture to extend the speed zones established within the corporate city limits to a point outside in order to provide a logical terminal point. He recommended that the following reduced speed zones be established:

a. Oregon Coast Highway - 45 miles per hour between a point 100 feet north of Silver Butte Avenue at M.P. 299.06 and the north city limits of Port Orford at M.P. 299.95. (SEE EXHIBIT "G-1").

b. Pacific Highway - 50 miles per hour between a point 500 feet north of the north city limits of Talent at M.P. 317.76 and the north city limits of Talent at M.P. 317.85 and between the east city limits of Talent at M.P. 318.01

and a point 300 feet south of Valleyview Road at M.P. 318.25. (SEE EXHIBIT "G-2").

The Commission approved such reduced speed zones as recommended by adopting the attached resolutions relative there to marked EXHIBITS "G-1" and "G-2", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Engineer also reported that there is need for a 45 mile per hour speed zone on the Columbia River Highway between Mosier and The Dalles (M.P. 69.1 to 72.3) because of construction work. The Commission approved such reduced speed zone as a temporary expedient while construction is under way.

The Engineer also reported receipt of a number of complaints regarding the excessive speed at which traffic moves on the Oakland-Shady Section of the old Pacific Highway at the south edge of Roseburg. A traffic engineering investigation was conducted and from the facts disclosed he recommended that a 35 mile per hour speed zone be established on the Oakland-Shady Highway No. 234 between the south city limits of Roseburg, at M.P. 18.28, and a point 250 feet south of Main Street, at M.P. 18.58. The Commission approved his recommendat by adopting the attached resolution relative thereto marked EXHIBIT "G-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Amendment of an existing reduced speed zone on the Warm Springs Highway through Warm Springs Agency was requested by the Engineer who advised that the original reduced speed zone enacted on December 19, 1949, as Speed Zone Resolution No. 35 did not contain the school-zone exception established later by law. He recommended that the existing speed zone be amended to read as follows: "45 miles per hour between M.P. 103.07 and M.P. 103.87, except that between M.P. 103.13 and M.P. 103.35 the indicated speed shall be 20 miles per hour during the hours of school crossings". The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-4", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer stated that during the coming summer there will be a great deal of construction activity on the Pacific Highway between a point south of Salem and the North Albany Interchange, in view of which he recommended that construction speed zones be established on the Pacific Highway East between Salem and Albany as follows:

50 miles per hour between a point 700 feet north of the Illahee truck crossing at M.P. 60.84 and a point 0.57 mile north of the Albany Airport Highway at M.P. 72.90.

35 miles per hour between M.P. 72.90 and Cox Creek at M.P. 73.97.

The Commission approved the construction speed zones as recommended

In response to a request from Houston Davis of Klamath Falls, the Engineer reported an investigation of traffic conditions was made on the Green Springs Highway in the Stewart-Lennox District, west of Klamath Falls. He said that conditions were such that a reduced speed zone is warranted. He recommended a maximum speed of 45 miles per hour between a point 0.47 mile west of Emerald Street at M.P. 57.89 and the junction with The Dalles-California Highway, except that from a point 0.37 mile west of Emerald Street to a point 0.19 mile west of Emerald Street the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved such reduced speed zone by adopting the attached resolution relative thereto marked EXHIBIT "G-5", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Out-of-state travel authorizations were requested by the Engineer and approved by the Commission as follows:

W. C. Williams, State Highway Engineer, to attend a meeting of state highway officials in Chicago, Illinois, on April 14, 1958, for discussion of matters pertaining to the highway act that is now before the Congress and to attend a joint committee meeting between the AASHO Transport Committee and the AASHO Test Road Committee at LaSalle, Illinois, on April 16, 17, and 18, 1958. Estimated total cost $300.

R. L. Porter, Right of Way Engineer, to attend a conference among state highway right of way officials and the Federal Bureau of Public Roads concerning right of way matters, in San Francisco, California, on May 26 and 27, 1958, at an estimated cost of $120.

G. S. Paxson, Assistant State Highway Engineer and Chairman of the Bridge Committee of AASHO to attend meetings of this Committee in four regions of the United States during May 12 - 23, 1958. His expenses are to be paid by AASHO except for the meeting at Salt Lake City, Utah, which is estimated at $35.

Ivan D. Merchant, State Bridge Engineer, to attend AASHO Bridge Committee meeting in Salt Lake City, Utah, on May 22 and 23, 1958, at an estimated cost of $120.

Commissioner McIver stated that he would like to see a statement of actual costs incurred by highway representatives at some of these meetings as he felt that out-of-state allowances do not meet actual expenditures.

The Commission gave attention to resolutions from the Lewiston, Idaho, Chamber of Commerce, the Clarkston, Washington, Chamber of Commerce, and others requesting that state and federal highways in Washington and Oregon be designated as US195 from a point 11 miles north of Lewiston, Idaho, to LaGrande, Oregon, via Enterprise and Elgin, Oregon. The Engineer stated that Mr. Wm. Bugge, Director of the Washington Highway Department has indicated that he does not favor such designation, which, in his estimation is not particularly advantageous at this time. The Commission took no action.

The Commission considered an application from the Albany Timber Carnival Association for use of the Waverly Lake area in the northern part of Albany in connection with their annual Timber Carnival during July 2, 3, and 4, 1958. The Commission approved the Engineer's recommendation that they be allowed to use the area subject to the conditions which were imposed in 1957. The Engineer pointed out that because of highway construction now under way in this vicinity, this will probably be the last year that the area can be used for the purpose intended as most of the land will be required for the new Pacific Highway interchange purposes.

The Engineer reported that two sections of state highways had been reconstructed and opened to public travel in conformity with agreements previously executed with Yamhill and Clatsop Counties. He recommended that the old highway sections be formally abandoned to the counties as follows:

1. Whiteson Section of Pacific Highway West in Yamhill County.

2. Bradley Park-Wauna Section of the Columbia River Highway in Clatsop County.

The Commission approved the abandonment of both sections by adopting the attached resolutions relative thereto marked EXHIBITS "E-1" and "E-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission approved the Secretary's report on papers signed by him on behalf of the Commission during the period of February 24, 1958 through March 20, 1958.

The Commission confirmed the date heretofore set for its next regular meeting on May 8 and 9, 1958, in the Imperial Hotel in Portland and also set June 19 and 20 as the date for its next following meeting. The Commission also authorized the Engineer to conduct bid openings in Salem on April 17 and on May 29.

The Engineer called attention to an action taken by the Commission at its meeting held on March 28 and 29, 1957, changing the existing four-way stop at the intersection of the Beaverton-Tualatin and Scholls Highways to a two-way stop requiring traffic on the Scholls Highway to stop before entering the intersection and allowing traffic on the Beaverton-Tualatin Highway to enter without stopping. He said that since the stop indications were changed, numerous complaints have been received objecting to the change so a reinvestigation was made which disclosed that the four-way stop regulation should be reinstated, and he so recommended. The Commission approved the recommendation by adopting the attached resolution relative thereto marked "EXHIBIT "H", which

resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the traffic situation at this location, Commissioner McIver commented that the volume of traffic has become so great that more drastic action may be required. The Commission instructed the Engineer to make a further study of traffic conditions at this location and submit a report.

The Commission considered the matter of extending for a period of one year its agreement with Cole and Weber Advertising Agency to handle advertising for the Travel Information Division. Mr. Carl Jordan, Travel Director, stated that the present agreement expires June 30, 1958, and that renewal of the agreement has been recommended by the Travel Advisory Committee. The Commission approved extending the agreement to June 30, 1959, subject to concurrence by the Department of Finance and Administration. The Commission also accepted the recommendation of the Travel Advisory Committee that this account be reopened early in 1959 for presentation by all advertising agencies that may be interested in this business. The selection of an agency to handle this business during the next five-year period will be made after a careful study of the qualifications of all agencies.

Consideration was given to an agreement with Douglas County concerning disposition of the Myrtle Creek-Missouri Bottom and the Missouri Bottom-Fords Bridge Units of the Myrtle Creek-Canyonville Section of the Pacific Highway (old route) when the new highway is completed. The Engineer explained that it is planned to convey a portion of the old highway to Douglas County when the new highway is constructed; also that the state is to take over a 0.25 mile section of the Riddle County road which with the portion of the old Pacific Highway beginning at a junction with the Pacific Highway at M.P. 209.89 and extending along the former route of the Pacific Highway to a junction with Riddle Road and thence westerly via Riddle Road to a junction with the Pacific Highway at M.P. 214.58, a distance of 5.72 miles, is to be designated as the Myrtle Creek State Secondary Highway No. 237. Following the favorable recommendation of the Engineer, the Commission approved the agreement.

Consideration was given to a request for a public hearing in Portland concerning plans for construction of the East Bank Freeway Route of the Pacific Highway. The Commission authorized the hearing and left it with Commissioner McIver to set a date for the same which is agreeable with the other Commissioners who will attend if possible. (The hearing was later scheduled for 10:00 a.m. on Friday, May 2, 1958, in the City Hall in Portland.)

Attention was given to an agreement with the City of Sandy pertaining to construction of the Sandy-Alder Creek Section of the Mt. Hood Highway as it affects the city. The Engineer pointed out that under the terms of the agreement the State is to replace with new pipe certain city-owned water lines and shall reinstall certain other sections of water line and in addition relocate certain utilities which are located on private property. Following the Engineer's favorable recommendation, the Commission approved the agreement.

Renewal of an accident analysis agreement previously executed with the City of Portland, State Department of Motor Vehicles, and the State Highway Commission, was presented by the Engineer who explained that the agreement

is simply an extension of an agreement which has been in effect for several years under which the Highway Department furnishes to the Department of Motor Vehicles and to the city of Portland data with respect to accidents that occur in Portland, and in return for which the city of Portland pays to the Highway Department the sum of $300 per month. He further explained that the new agreement is to be effective from January 1, 1958 to December 31, 1962, but may be terminated at an earlier date by mutual consent. The Commission approved the agreement.

Widening of State Street in the city of Salem was brought up by the Engineer. The Engineer pointed out that in previous negotiations with the City, the City had agreed to pay 25% of the estimated widening cost, the total cost of which was estimated at $74,000. The present estimated cost, he stated, is slightly in excess of $100,000 and the City advises that it has only $20,000 available to apply on its share or approximately 20% of the total. He mentioned that travel on the street is becoming very heavy, amounting to approximately 15,000 vehicles per day in view of which he recommended approval of the project on the basis that the City shall be required to contribute only $20,000. He pointed out that State Street is the route for the North Santiam State Secondary Highway through Salem. The Commission approved the project as recommended by the Engineer.

Consideration was again given to a request made by the Chief Counsel earlier in the day that he be granted authority to condemn certain parcels of real property that are needed as right of way for certain highway improvements or for other highway purposes. After careful consideration of the proposed condemnations and in light of the information and advice submitted together with the general knowledge of the members of the Commission concerning the project and the properties involved, the Commission authorized the Chief Counsel to condemn the properties by adopting the attached resolutions relative thereto marked EXHIBITS "F-1" through "F-11", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer matters to be presented by delegations which are scheduled to appear before the Commission on the following day, however, deferred action on them pending appearance of the delegations. In this connection the Engineer reported that the Lane County Court which is scheduled to be present at 11:30 a.m. is going to propose to the Commission the designation as a state highway of the so called "Route F" road that extends westerly from Eugene to Mapleton, a portion of which presently is a state highway, and will offer as consideration therefore to assume complete jurisdiction over the Alsea-Deadwood Highway in Lane County. The Engineer advised that the Alsea-Deadwood Highway is about 19 miles long and that the proposed extension of "Route F" is about 9 miles long; further, that he has been informed by Mr. Kenneth Nielsen, Lane County Commissioner, that the County Court is agreeable to such exchange of roads. He recommended approval of the exchange on the condition that Lane County will complete the surfacing of the "Route F" extension, will apply thereto a satisfactory oiled surface, and will construct concrete curbs in the tunnel at the summit. The Commission approved the exchange of roads. The Commission ordered the matter covered by an appropriate agreement with Lane Cou

An exchange of properties at Price Fuller Road and 82nd Street, Portland, was brought up by the Engineer. He recalled that the Commission previously authorized such exchange in order to square up the holdings of the State and the adjacent property owner. To complete the arrangement, he said, it is necessary that the State convey a parcel of land to Mrs. Rita Gallerini who in turn will deed a parcel to the State. The Commission approved the deed transferring the state land to Mrs. Rita Gallerini.

The Chief Auditor, Mr. C. H. Maison, brought up the matter of out-of-state travel allowances which can be paid to the members of the Commission. It was his opinion that under the law, the Commissioners are entitled to actual expenses while on out-of-state travel. The Secretary pointed out that the Department of Finance and Administration has raised no question about actual expenditures' being allowed the Commissioners while on Commission business within the State and has approved vouchers covering such expenses without question. The Chief Counsel suggested that the matter be presented to the Attorney General for a ruling After some further discussion, the Commission instructed the Chief Counsel to discuss the matter with the Attorney General and to ask him for an opinion on the subject if that appears advisable.

Mr. Kenneth Nielson, member of the Board of County Commissioners of Lane County, appeared before the Highway Commission at this time regarding the county's offer to take over the Lane County portion of the Alsea-Deadwood State Secondary Highway if the Commission will place on the state highway system the nine mile section of county road which extends westerly from Richardson (end of the present state secondary highway) to a connection with the Siuslaw Highway at Mapleton. He was informed of the Commission's action taken previously on this matter. Mr. Nielson thanked the Commission for the consideration given.

The Commission signed agreements and other papers as follows:

"Consent" to the vacation of a portion of Panorama Heights on Umatilla-Stanfield Highway adjacent to city of Hermiston, Umatilla County.

"Deed" reconveying to Swan Lake Moulding Company property they have previously conveyed to the State.

"Permit" granting to E. H. Pedwell and Standard Oil Company permission to occupy a portion of the right of way next to the Market Street Interchange on Salem By-pass Section of Pacific Highway, Marion County.

"Agreement" with City of Gearhart covering installation of a flashing beacon at a school crossing at intersection of Oregon Coast Highway and Sixth Street in Gearhart.

"Agreement" with Cole and Weber as advertising agency for the Travel Information Division.

"Grant of Easement" to School District #19, Douglas County, across property situate on Myrtle Creek-Umpqua Bend Section of Pacific Highway, Douglas County.

"Agreement" with Douglas County covering abandonment of Myrtle Creek-Missouri Bottom and Missouri Bottom-Fords Bridge Units of Myrtle Creek-Canyonville Section of Pacific Highway, Douglas County, and extension of proposed Myrtle Creek Secondary Highway No. 237 via Riddle Road.

"Finance and Maintenance Agreement" with Wasco County covering the Long Hollow Canyon-Hunter Ranch Section of FAS 706.

Finance and Maintenance Agreement" with Umatilla County covering the South Mission Road Section of FAS 475.

"Agreement" with City of Coquille covering the special city allotment project on East Tenth Street and Collier Street in Coquille.

"Extension Rider" to agreement dated August 18, 1939, to and including August 17, 1956 covering construction, main entrance and use of private roadway under the main track across right of way of railroad companies at M.P. 30.6 near Oneonta.

"Grant of Access" modifying an access granted to Mrs. Maple Brandhagen in June 1956.

"Bargain and Sale Deed" conveying to Mr. and Mrs. Earl B. Houston 0.38 acre of excess property on North Jefferson Junction-Albany Section of Pacific Highway, Linn County.

"Finance and Maintenance Agreement" with Multnomah County covering the Division Street-Powell Boulevard Section of FAS 654.

"Quitclaim Deed" to Rita Gallerini for a parcel of land covering a portion of the Price Fuller Road at its intersection with East 82nd Avenue in Clackamas County.

"Agreement" with city of Portland and State Motor Vehicle Division covering the Motor Vehicle Accident Analysis in city of Portland.

"Permit Agreement" with George Blum Logging Company for permission to transport logs for a two-year period over a portion of Cape Lookout State Park road.

"Throughway Agreement" with city of Sandy covering the Sandy-Alder Creek Section of the Mt. Hood Highway in city of Sandy.

"Supplemental Agreement" to an agreement dated January 16, 1958, with the Oregon State Game Commission granting Game Commission the right and license to locate boat launching facility on a revised location to permit public access to Shinglehouse Slough.

At 4:00 p.m. the Commission discussed with the Engineer the bids received during the morning session for reconstructing the existing bridge over the Columbia River between Portland, Oregon, and Vancouver, Washington, and other projects. Concerning the Columbia River Bridge Project, the Engineer stated that the bid submitted by General Construction Company, Portland, at $2,993,995.00 was the low bid received for this undertaking. He recommended acceptance of such bid. As a result of the discussion that followed the Commission expressed the feeling that the bid of General Construction Company in the amount of $2,993,995.00 should be accepted as recommended by the Engineer and that the contract for construction of the bridge should be awarded to said company if the Washington Toll Bridge Authority and the Washington State Highway Commission will concur.

At 4:30 p.m. Commissioner McIver publicly announced the award of contracts as follows:

"Astoria Ferry Channel Dredging Project on the Astoria Crossing Range in the Columbia River at Astoria in Clatsop County. The Commission awarded the contract to the low bidder, Port of Astoria, Astoria, at $15,750.00.

"Intermittent slide correction on the Winchester Slide Section on the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Lee Mortensen, Inc., Roseburg, at $17,593.00.

"Grading and oiling Condon (Lincoln Street) Section on Lincoln Street in the City of Condon in Gilliam County. The Commission awarded the contract to the low bidder, Russell Olson Construction Co., Inc., Pendleton, at $14,792.00.

"Grading Santiam Junction-Lebanon Road Section of the Pacific Highway in Linn County. The Commission elects to accept the low bid of J. N. Conley, Portland, in the sum of $818,721.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Rock production on the Olds Ferry-Ontario Section of the Olds Ferry-Ontario Highway in Malheur County. The Commission elects to accept the low bid of C. E. Leseberg, Nyssa, in the sum of $19,530.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct twin bridges over Snake River, 1.5 miles south of Ontario, on Old Oregon Trail Highway in Malheur County. The Commission elects to accept the low bid of Hoffman Construction Company, Portland, in the sum of $720,492 00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received and concurrence of the State of Idaho is received.

"Construct sand shed on Stanton Boulevard Undercrossing Section of the Old Oregon Trail Highway in Malheur County. The Commission awarded the contract to the low bidder, Roberts, Adams & Roberts, Hood River at $11,362.00.

"Grading and paving the Heppner (Court Street) Section on Court Street in the City of Heppner in Morrow County. The Commission awarded the contract to the low bidder, Russell Olson Construction Company, Inc., Pendleton, at $15,248.00.

"Reconstruction of the existing bridge over the Columbia River betwen Portland, Oregon, and Vancouver, Washington. The Commission elects to accept the bid of General Construction Company in the sum of $2,993,995.00, and the State Highway Engineer is directed to award the contract to said bidder as soon as concurrence of the Washington Toll Bridge Authority and Washington State Highway Department is received.

"Grading and oiling on the South Mission Road Section of the South Mission Road in Umatilla County. The Commission elects to accept the low bid of Shannon Construction Company and Sardine Creek Timber Company, Sweet Home, in the sum of $108,928.30, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Umatilla County is received and the sum of $24,500.00 is deposited by the County.

"Construction of addition to Maintenance Building at Ukiah on Pendleton-John Day Highway in Umatilla County. The Commission rejected all bids as being too high.

"Grading and oiling the Union (Bellwood Avenue) Section on Bellwood Avenue in the City of Union in Union County. The Commission rejected all bids as being too high.

"Grading the Long Hollow Canyon-Hunter Ranch Section of the Tygh Ridge Road in Wasco County. The Commission elects to accept the low bid of J. M. Purcell Construction Company, Kalispell, Montana, in the sum of $57,661.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wasco County is received and the sum of $13,080.00 is deposited by the County. All right of way has been acquired and low bidder concurs in a line revision between approximate Stations 80 and 120 at unit bid prices.

"Illumination installation on Wallace Bridge-Sheridan Section of the Salmon River Highway in Yamhill County. The Commission awarded the contract to the low bidder, Rochat Electric, Portland, at $17,683.50.

"Grading and paving the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway in Yamhill and Marion Counties. The Commission elects to accept the low bid of Morse Brothers, Lebanon, in the sum of $207,151.50, and directs the State Highway Engineer to award the contract to bidder as soon as necessary right of way is acquired".

The Parks Superintendent inquired as to what action the Commission wished to take concerning bids received this morning for the Fort Stevens State Park concession privilege. The Commission instructed him to evaluate the bids carefully and submit a recommendation at the next Commission meeting.

The meeting adjourned at 5:15 p.m., to reconvene in the same room at 9:00 a.m. on the following day.

Portland Oregon
March 28, 1958

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
P. M. Stephenson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who then announced that awards of contracts would be made at 3:00 p.m. in the same room. He also announced that a bid opening will be held in the State Highway Building in Salem on April 17, 1958.

BAKER COUNTY
GRADING AND PAVING HAINES SECTION ON FOURTH STREET IN THE CITY OF HAINES

Arthur Simonsen & Company, Baker	$	16,506.50
H. J. & H. W. Miller, Baker		17,445.00

CLATSOP COUNTY
FORT STEVENS STATE PARK FACILITIES, NEAR ASTORIA

Enoch I. Maerz, Salem	$	26,694.00

CROOK COUNTY
GRADING AND TWO REINFORCED CONCRETE BRIDGES ON TIMBER PILES

Geo. E. Blaisdell & Son Construction Co., Portland	$	83,337.50
Frank Lyons & Company, Portland		85,151.40
G. D. Dennis & Sons, Portland		86,426.90
Floyd R. Grubb, Salem		86,474.20
F. L. Somers, Medford		89,425.80
Shannon Const. Co. & Sardine Creek Timber Co., Sweet Home		91,590.50

March 27, 1958

Grading and reinforced concrete bridges on timber piles (Cont.)

John L. Jersey, Inc., Portland	$	92,326.60
Don Greene Construction, Salem		92,416.70
Durbin Brothers, Eugene		96,870.80

Warren Northwest, Inc., Portland	$ 9,568.00
C. C. Meisel, McMinnville	10,437.00
Tedrick Construction Company, McMinnville	10,599.50

The Engineer gave an oral report on increased funds which may be available for highway construction under legislation now in the National Congress. A bill, he stated, has passed the U. S. Senate which is designed to speed up highway construction as an aid in reducing unemployment. Under the bill, Oregon will receive approximately $16,000,000 this year in addition to the regular allocations. Provision is also made whereby states can borrow from the federal government to match the increased federal authorization. The bill also contains provision that the projects to be financed with the increased funds must be placed under contract in 1958 and construction completed by December 1959. Commissioner McIver inquired if projects are ready to be contracted in case the additional funds materialize. The Engineer replied in the affirmative.

March 28, 1958

The Commission discussed with the Engineer projects scheduled for contracting in April and May. The Engineer outlined briefly the status of each and mentioned particularly the right of way acquisition problems which are being encountered.

A delegation representing the Oregon Coast Ad Club came before the Commission concerning lack of directional signs indicating the Lincoln County beaches. The following people were present: Albert M. Jaroff, Chairman, Highway Committee, Dorchester House; Margie Jaroff, Oregon Coast Ad Club, Dorchester House; Larry E. Moore, President, Lincoln Realty Board, and Vice President of Oregon Coast Ad Club; Russell Poff, District Manager for Pacific Power & Light Company; Mabel Miller, Commercial Art, all of Oceanlake; Carrie McClanathan, Oregon Coast Ad Club, Ester Lee Apartments, Taft; Mrs. Violet Rinehart, President, Oregon Coast Ad Club, Delake; P. C. Rinehart, Realtor, Delake; W. W. Wilson, Secretary, Oregon Coast Ad Club, Wecoma; and Mrs. Harold Andrews, Lucy Lee Cottages, Gleneden Beach. Mr. Jaroff introduced members of the delegation and exhibited material which, in his opinion, indicated a lack of proper signing in the Portland area to direct people to the Lincoln County beaches. He mentioned particularly one person who had a business engagement in Oceanlake but who arrived there four hours late due to his taking the Sunset Highway route by error. He also stated that adequate signs mentioning Lincoln County beaches have not been installed between McMinnville and Valley Junction or between McMinnville and Portland. It was his opinion that signing south of McMinnville tends to direct highway traffic through Sheridan on the old highway. Objection was made to signs on the Salem-Dallas Highway calling attention to the route to Tillamook. He pointed out that at the Wallace Bridge intersection there is no sign indicating the new Salemon River Highway for northbound traffic. In summation, he asked particularly for additional signing in the Portland area directing traffic to the Lincoln County beaches, and on the Pacific Highway West and the Salmon River Highway The Commission referred the matter to the Engineer for study. At the request of Chairman Reynolds Mr. Jaroff left with the Engineer the pictures and other material that he had exhibited. He asked that they be returned to him.

A delegation from Milwaukie, Oregon City, and Canby came before the Commission to request widening of the Pacific Highway East to four traffic lanes from the south end of the existing four lane section at the New Era hill to Hayesville near Salem. The following people were present: Hon. Howard C. Belton, State Senator from Clackamas County; John Rasmussen, President of the Canby Chamber of Commerce, both of Canby; A. Lewis, Vice Chairman, Highway Committee, Oregon City Chamber of Commerce; Stanford Ely, Clackamas County Commissioner, both of Oregon City; Hon. Richard E. Groener, State Representative and Member of the Legislative Highway Interim Committee, Milwaukie; and Charles Renard, President, Milwaukie Chamber of Commerce. Senator Belton, who acted as spokesman, introduced the other members of the delegation. He recalled that a four lane highway was constructed between Oregon City and New Era several years ago. Since that time, he said, travel on the highway has increased to the extent that construction of four lanes between New Era and Salem is a necessity. He called attention to the scenic attractions on this route, including the Willamette Falls and historical points at Oregon City. It was his opinion that US99E should have the same

priority in improvement as is given to US99W. It was his feeling that widening of the highway can be done at a relatively small cost as there would be very little right of way to acquire. He also urged the Commission to complete improvement of 82nd Street, south of Portland, route of the Cascade Secondary Highway. He also mentioned inadequate lighting on US99E at the north end of the junction with the Wilsonville-Hubbard Highway north of Hubbard. The lighting, he stated, is satisfactory for northbound traffic but is very inadequate for southbound traffic on US99E. Representative Groener declared that US99E is badly congested south of Milwaukie. He also urged early construction of the Laurelhurst Freeway. County Commissioner Ely called attention to the large amount of industrial development which has taken place south of Portland, including the Safeway distribution center, thereby greatly increasing the traffic on US99E. He expressed his opinion that the four laning of this section is a necessity for safety reasons. Chairman Reynolds stated that the Commission appreciates the problem and will give careful consideration to the delegation's requests.

Hon. C. L. Allen, Deschutes County Judge; D. L. Penhollow and Fred Shepard, County Commissioners; and Frank Loggan, Chairman, Highway Committee of the Bend Chamber of Commerce, all of Bend, came before the Commission concerning snow removal on the Cascade Lakes Highway. Judge Allen, who acted as spokesman, asked the Commission to share with the County the cost to remove snow from this highway between Bend and the Bachelor Butte Ski Area, a distance of about 22 miles. He said that the County with its equipment will perform the snow removal operations between Bend and Bachelor Butte if the State will pay 25 per cent of the cost. It was his opinion that the Bachelor Butte Ski Area is one of the best in the United States and that it will prove to be a great tourist attraction particularly as the area provides a long ski season being higher in elevation than Timberline Lodge on Mt. Hood. The Deputy Highway Engineer pointed out that only onephalf of the 22 miles between Bend and Bachelor Butte is now on the state secondary highway system, that the state section is lower in elevation than the county portion, and that the cost of snow removal therefrom is relatively light compared with the county portion. He felt that the county's offer to pay 75 per cent of the cost of removing snow from Bend to Bachelor Butte is a fair offer as there would probably be twice as much or more snow on the upper end of the road which is a county road. As a result of discussion, the Commission agreed to pay 25 per cent of the cost to remove the snow from the 22 miles section during the winter season -1958-1959 as a trial proposition, the County to do the work.

A delegation representing several lumber companies appeared before the Commission to request a revision in restrictions governing the truck hauling of logs over state highways. The following people were present: Fred Endicott, Wm. Endicott Lumber Company; C. W. Rhoden and Willis Mahlin, Pine Products Corporation; R. L. Kincaid, B.B.K. Company, all of Prineville; R. W. Kensit, Bohemia Lumber Company, Culp Creek; J. L. Curtis, Oregon Timber Transport Operators, Portland; and C. E. Ogle, Associated Forest Industries, Salem. Mr. Endicott acted as spokesman and introduced the other members of the group. The Endicott operations, he stated, are concerned with operations over the Paulina Secondary Highway. He urged that they be allowed to haul 24 hours per day during the dry season. He called attention to the short log hauling season and advised that their equipment

is kept in first class condition, is equipped with two way radios and has adequate and well maintained lighting fixtures.

Mr. Kensit stated that the Bohemia Lumber Company operates a 100 mile log haul west of Roseburg and their problem is similar to the one outlined by Mr. Endicott. Their trucks and trailers are also modern and are equipped with safety devices. He pointed out that because of the short season and the depressed log and lumber market it is necessary that equipment be operated as long as possible each day in order to produce a profit. Mr. Kincaid stated that hauling 24 hours per day would provide a much more efficient operation, and he mentioned that the State of Washington allows 24 hour hauling. He also said that it is necessary that the hours of hauling be increased in order to keep the mills running. Mr. Endicott mentioned that it would be easy to enforce safety regulations for his Company as their hauling is done with their own trucks and tourist and other traffic over the Paulina Secondary Highway is relatively light.

Chairman Reynolds inquired if any operators run their equipment 24 hours per day on private roads. Mr. Curtis replied that he hauls on a private road and although they operate more than 16 hours a day they do not operate the entire 24 hours. Chairman Reynolds pointed out that if 24 hour operation is permitted in one locality the privilege would have to be state wide, which would mean that the state probably would be required to have weighmasters on duty 24 hours per day. Mr. Endicott and Mr. Kensit stated that so far as their companies are concerned that would not be necessary as they would put up a bond to assure satisfactory operation. Mr. Endicott urged the extension of the hauling hours as a trial proposition. Chairman Reynolds stated that the Commission would consider the matter.

The Secretary stated that a revised agreement with the State Game Commission concerning a boat launching facility on Shinglehouse Slough on the Oregon Coast Highway has been received. Revisions in the agreement, he stated, have been approved by the Chief Counsel and the Engineer. The Commission approved the revised agreement.

The meeting recessed at 11:35 a.m. and reconvened at 1:30 p.m. in the same room, with the same persons present and participating.

Mr. Gene L. Brown, Attorney, Grants Pass, came before the Commission concerning the proposed "M" Street comection to the Pacific Highway in Grants Pass. He stated that he represents the people located on the section of the existing Pacific Highway east of Grants Pass known as the "Miracle Mile." It was his opinion that the "M" Street route as proposed would be badly congested and suggested that a bridge across the Rogue River should be located at Aurora Avenue or Jones Creek. The importance of the connection of the Redwood Highway with the Pacific Highway, he felt, has not been fully emphasized and many businessmen in Grants Pass feel differently now than they did when the hearing was held in December 1957, and now are very unhappy with the present plan. Both the city and county, he continued, have expressed a need for a third bridge at Aurora Avenue or Jones Creek. He urged the Commission to investigate the matter further and to consult with city and county officials

The Engineer pointed out that neither the city of Grants Pass nor the Josephine County Court has indicated to him any change in the attitude that they expressed at the hearing in December. Commissioner McIver inquired about the possibility of moving the interchange between US99 and US199 farther to the south with limited access up to the point where the river is crossed. Mr. Brown stated that he felt such a plan would be acceptable. He again urged the Commission to consult with county officials who, he was sure, would cooperate fully. Chairman Reynolds stated that the suggestion would be given further consideration and that the group would be notified when action was taken.

A delegation composed of people from Haines, Baker, and Newbridge came before the Commission concerning the rerouting of the Haines-Anthony Lake Secondary Highway where it enters US30 near the town of Haines. The following people were present: Hon. Lloyd Rea, County Judge, Baker; Gil Wright, County Commissioner, Newbridge; Claude Doney, City Councilman; Jack Proebstel, Mr. and Mrs. Dorrell Spence, Dick Camp, and Jack Kramer, all of Haines. Judge Rea introduced the members of the delegation. Mr. Proebstel exhibited a map showing the proposed realignment and urged that a change be made to avoid going through expensive property. He presented a peitition signed by numerous residents of Haines favoring the change. He also pointed out that use of the revised route would avoid a hazardous railroad crossing. The Engineer commented that the proposed route is entirely new to him but it appears that if it is used, it would add about one half mile to the state highway system and would involve approximately one and one half miles of new construction. The Commission instructed the Engineer to investigate the request and submit a report.

Mr. B. A. Vallerga and Mr. Carl Larson, representing the Pacific Coast Division of the Asphalt Institute, came before the Commission in behalf of the use of asphalt for highway construction. They exhibited six charts pointing out the advantages of asphaltic pavement. Concerning maintenance costs, Mr. Vallerga stated that no conclusive evidence has been presented which would show that there is any clean cut advantage in favor of either asphalt or portland concrete paving. They presented three brochures to the Commission on the use of asphalt pavement. The Commission took no action.

The Commission authorized the Engineer to go to Washington D.C., if and when his presence is required in connection with the highway construction program which is now in Congress; also to attend a meeting of state highway officials in Chicago on April 14, 1958, when this matter is to be discussed. Estimated cost - $232.40.

A delegation from Tillamook County came before the Commission to urge oiling of the unoiled section of the Little Nestucca Secondary Highway. The following people were present: O. E. Effenberger, Tillamook County Judge, Tillamook; Harry B. Hammel, Chairman, South Tillamook Road Committee, Pacific City; Mr. and Mrs. Walter Bodyfelt, Mr. and Mrs. Fred Kiser, Mrs. Tony Hurliman, Mrs. Roy Dunn, Mrs. Gus Hammen, all of Cloverdale. Judge Effenberger introduced the other members of the delegation. Mr. Bodyfelt urged the Commission to oil a two and one half mile section on the westerly end of the Little Nestucca Secondary Highway to remove the dust

nuisance. He pointed out that the dusty condition of the road is detrimental to their dairy pastures and a hindrance in keeping their dairy barns in sanitary condition. Housewives also complain that clothes that are hung outside to dry become dirty. He urged the Commission to construct an oil macadam surfacing and stated that various salt chemicals which are sometimes used are injurious to vehicles. Judge Effenberger also remarked that chemicals do not work well in the coastal area and he asked that an oiled surface be provided. Judge Effenberger also commented on a dyking project which affects the Tillamook River Bridge and asked that a new bridge be constructed as it is used by many log trucks. Mr. Bodyfelt presented a brief and a petition urging elimination of the dust hazard on the Little Nestucca Secondary Highway. He introduced the lady members of their group. Chairman Reynolds stated that the request would be investigated. Mr. Hammel stated that the south Tillamook Road group are most heartily in favor of this improvement. Following departure of the delegation, the Engineer commented briefly that to improve the two and one half mile section on the Little Nestucca Secondary Highway to Bureau of Public Roads standards will cost approximately $100,000, and the bridge requested by Judge Effenberger will cost approximately $400,000 including the approaches. He recalled that the Commission previously approved an expenditure of $20,000 for cooperation with the Army Engineers in work on the dyke. Concerning the dusty condition on the Little Nestucca Secondary Highway, he pointed out that the county has oiled its portion of what is known as the Meda Loop and that the dusty condition on the state highway is bad.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 p.m., Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED AT THE MORNING SESSION, MARCH 28, 1958

"Grading and paving Haines (4th Street) Section on 4th Street in the city of Haines in Baker County. The Commission awarded the contract to the low bidder, Arthur Simonsen & Company, Baker, at $16,506.50.

"Construct Fort Stevens State Park Facilities in Clatsop County. The Commission awarded the contract to the lone bidder, Enoch I. Maerz, Salem, at $26,694.00.

"Grading and bridges on East Unit, Paulina-Trout Creek Section of the Paulina-Logdell Road in Crook County. The Commission elects to accept the low bid of Geo. E. Blaisdell & Son Construction Company, Portland, in the sum of $83,337.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Crook County is received and the sum of $18,800.00 is deposited by the county.

"Old Faithful Slide Section on the Dillard Highway in Douglas County. The Commission awarded the contract to the low bidder, Funderburk Construction Corporation, Sutherlin, at $14,330.00.

"Construct Silvies River Bridge on Silvies River Road in Harney County. The Commission elects to accept the low bid of Inter City Sand & Gravel Company, Inc., Eugene, in the sum of $24,755.00, and directs the State Highway Engineer

to award the contract to said bidder as soon as approval of Harney County is received and the sum of $5,550.00 is deposited by the county.

"Construct bridge on Camp Creek Road in Lane County. The Commission referred all bids to Lane County for award.

"Construct twin bridges over McKenzie River on the relocated Pacific Highway in Lane County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Inc., Eugene, at $700,365.00.

"Roadside improvement on Stayton-Sublimity Interchange Section on the North Santiam Highway in Marion County. The Commission awarded the contract to the low bidder, Knight Pearcy, Salem, at $4,206.25.

"Grading and paving Division Street-Powell Boulevard Section of S.E. 122nd Avenue, in Multnomah County. The Commission elects to accept the low bid of Oregon Asphaltic Paving Company, Portland, in the sum of $87,348.90, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $18,700.00 is deposited by the county.

"Construct Luckiamute Overflow Bridge on Pacific Highway West in Polk County. The Commission awarded the contract to the low bidder, John L. Jersey, Inc., Portland, at $61,260.00.

"Grading and paving Hot Lake Overcrossing Section of the La Grande - North Powder Highway in Union County. The Commission awarded the contract to the low bidder, Parker & Fuhrman, Portland, at $21,262.00.

"Grading and paving Carlton (North Kutch and East Monroe Streets) Section on North Kutch and East Monroe Streets in the city of Carlton in Yamhill County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $9,568.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the city of Carlton is received and the sum of $2,000.00 is deposited by the city."

The Engineer, speaking in behalf of State employees, stated that they are all saddened by Chairman Reynold's retirement from the Highway Commission. Chairman Reynolds responded by saying that he has enjoyed very much his service on the Commission and appreciates the loyalty and cooperation of the employees.

There being no further business to conduct, the meeting was declared adjourned by Chairman Reynolds at 3:05 p.m.

State Highway Engineer

Chairman

Commissioner

Commissioner

March 28, 1958

EXHIBITS "A" through "I"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

March 27 and 28, 1958

EXHIBIT "A"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

26114 City of Portland (Scott)
Permanent Easement, Sta. 121+43
Easement signed January 16, 1958
2.0 acres, easement for construction of bridge approach — Gratis

26974 City of Portland (Smith)
Right of Way, Sta. 121
Option expires August 26, 1958
3.07 acres at $10,666+ per acre — $32,746.00
Amount to be paid owner - chrg to Right of Way — $32,746.00
Approval subject to title being acceptable to Hwy. attorneys.

Entire taking -

29789

EXHIBIT "A" (Cnnt)

HARBCR DRIVE-BARBUR BOULEVARD SECTION - PACIFIC HIGHWAY

27003 City of Portland (Smith)
Right of Way, S.W. 11th and Troy, Stas. 240-248
Option expires August 26, 1958
51,690 sq.ft. (28, 975 sq.ft. Excess) $3,618.30
8745 sq.ft. Slope Easement Gratis
Amount to be paid owner - chrg to Right of Way $3,618.30
Approval subject to title being acceptable to Hwy. attorneys.

Complete restriction of access -

27079 Wolfe, Max et al (Grant)
Right of Way, 2917 S.W. Hood, Sta. 88
Option expires August 26, 1958
5,400 sq.ft. at $0.32+ per sq.ft. $1,730.00
House 1,270.00
Trees, shrubs, and walks 200.00
Amount to be paid owners - chrg to Right of Way $3,200.00
Grantors to vacate 30 days after acceptance.

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, ORS 366.220(1) authorizes the State Highway Commission to select, establish, designate and construct a system of state highways within the state; and

WHEREAS, the State Highway Commission has adopted a survey and will place under contract for construction a new section of highway which will extend from the intersection of N. E. Killingsworth Street and the Cascade Secondary State Highway No. 160 in the City of Portland, Multnomah County, and terminate at a point northerly of the said above mentioned intersection, at Highway Engineer's center line Survey Station 87+04.07, said point being further identified as an intersection and interchange between the said new road and a public way known as Air Port Road; and

WHEREAS, the present termination of the said Cascade Secondary State Highway No. 160 is located at its intersection with the said N. E. Killingsworth Street in the City of Portland; and

WHEREAS, it is the desire of the State Highway Commission to designate the above described new section of road as a part of the said Cascade Secondary State Highway No. 160;

NOW, THEREFORE, BE IT AND IT HEREBY is unanimously resolved by this Commission as follows:

1. The State Highway Commission, pursuant to the authority vested in it by law, does hereby select, adopt, establish and designate the following described road as an extension and part of the Cascade Secondary State Highway No. 160, to wit:

> Beginning at the intersection of N. E. Killingsworth Street and the Cascade Secondary State Highway No. 160 in Multnomah County and the City of Portland, and extending thence from said intersection in a northerly direction to a terminus consisting of an intersection with a public way known as Air Port Road at Highway Engineer's center line Survey Station 87+04.07.

Attached hereto, marked Exhibit "A", and by this reference made a part hereof is a point upon which is shown by dotted lines outlined in green, the above described portion of the said road, which is herein made an extension and part of the Cascade Secondary State Highway No. 160.

2. That said Cascade Secondary State Highway No. 160 as extended shall retain its present designation and classification as a State Secondary Highway.

3. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Resolution No. 44.

29807

EXHIBIT "C"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4326 with Rogers Construction, Inc. for constructing a structure, grading and paving on the Tualatin River-Middleton Unit, Tigard-Newberg Section of the Pacific West Highway in Washington County, completed July 31, 1957.

"Contract No. 4499 with Porter W. Yett for grading and paving on the Reedville-Beaverton Section of the Tualatin Valley Highway in Washington County, completed September 6, 1957.

"Contract No. 4824 with Rogers Construction, Inc. for grading on the Emigrant Hill-Deadmans Pass Section of the Old Oregon Trail in Umatilla County, completed December 24, 1957.

"Contract No. 5029 with Hamilton & Thoms for constructing Bear Creek and Rock Creek Bridges on the Barlow-Monitor and Whiskey Hill County Roads in Clackamas County, completed March 3, 1958.

"Contract No. 5067 with Fred J. Stubbert for construction of park facilities in the Tumalo State Park on the Bend-Sisters Highway in Deschutes County, completed February 28, 1958.

"Contract No. 5123 with J. C. Denton & Sons for constructing guard rail on the Hermiston Section of the Umatilla-Stanfield Highway in Umatilla County, completed March 19, 1958.

THEREFORE, BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 71 shall be entered in the minutes and records of the Commission as of the 27th day of March, 1958.

EXHIBIT "D"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by the authority granted in ORS 374.015(1), the Highway Commission is empowered to lay out, locate, relocate, adopt, establish, construct, designate, maintain and supervise the use and operation of new highways which shall be known as "throughways" as that term is defined in ORS 374.010; and

WHEREAS, ORS 374.015(2) provides that any relocated section of an existing highway or such portions of existing highways which at the time the same are designated as throughways, have less than ten commercial businesses abutting thereon in any one mile, may be designated and constructed as, or converted into throughways by the Highway Commission; and

WHEREAS, the Highway Commission has directed the highway engineer to prepare a map of that portion of the North Santiam Highway, State Secondary Highway No. 162, commencing at Highway Engineer's Centerline Station 10+00 east of the City of Detroit and extending westerly therefrom through Detroit, Gates and Mill City to a junction and interchange with the Pacific Highway east of the City of Salem in Marion County, Oregon, showing those sections of the said North Santiam Highway having less than ten commercial businesses abutting thereon in any one mile catering to the motoring public, and those portions having ten or more commercial businesses abutting thereon in any one mile catering to the motoring public, and the highway engineer, pursuant to the direction of the Highway Commission, has caused said map to be made and filed in the offices of the Highway Department in Salem, Oregon a copy of which is attached hereto, marked Exhibit "A" and by this reference made a part hereof which shows the location of those portions upon which are located ten or more commercial businesses catering to the motoring public; and

WHEREAS, the Highway Commission has considered the aforesaid map and, after due deliberation, does hereby find and declare that for the purposes of preserving human lives and minimizing property damage and to facilitate the safe and convenient transportation of persons and property by motor vehicle and to promote the safety and welfare of the public in general, that those sections of the North Santiam Highway having less than ten commercial businesses abutting thereon in any one mile catering to the motoring public shall henceforth be classified, reconstructed, relocated and maintained as a throughway as that term is defined in ORS 374.010.

NOW, THEREFORE, be it and it hereby is, resolved by the Highway Commission as follows:

1. That that portion of the North Santiam Highway, commencing at Highway Engineer's Centerline Station 10+00 and thence extending westerly through Detroit, Gates and Mill City to a junction and interchange with the Pacific Highway east of the City of Salem, and including any portion or units thereof which may hereafter be relocated, is hereby selected, designated

EXHIBIT "D" (Cont)

and established as a throughway as that term is defined in ORS 374.010, except for those portions thereof which at the time of the adoption of this resolution have ten or more commercial businesses abutting thereon, catering to the motoring public in any one mile, which portions of the said North Santiam Highway are specifically set forth herein as follows:

(1) Extending from Highway Engineer's Centerline Station 198+00 on the said North Santiam Highway in the City of Gates westerly along the said North Santiam Highway to Highway Engineer's Centerline Station 145+00;

(2) Extending westerly from Highway Engineer's Centerline Station 50+00 located east of the City of Mill City on the said North Santiam Highway, to Highway Engineer's Centerline Station 777+64 $\frac{(\text{Sta. } 820+00 \quad *}{(\text{Sta. } 28+14.36 \quad *}$ EQUA.)

2. Whenever the said North Santiam Highway or any section or portion thereof which herein has been designated as a throughway, is relocated, reconstructed or otherwise permanently improved, such relocation, reconstruction or improvement shall be accomplished so as to preserve the character of the said North Santiam Highway as a throughway.

3. The map prepared and filed by the highway engineer which is attached hereto and marked Exhibit "A", disclosing the location of those portions of the North Santiam Highway upon which there are ten commercial businesses abutting on the North Santiam Highway, bearing the date of March, 1958, is hereby adopted and approved for the purpose for which it was prepared.

4. That this resolution be entered in the minutes and records of the Highway Commission this 27th day of March, 1958, as Resolution File No. 12.

---

*Footnote:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being file No. 12, under the heading "Throughway Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-1"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission has relocated a section of the Pacific Highway West, State Primary Highway No. 1W, known as the Whiteson Section in Yamhill County, the northerly terminus of which is at relocated Highway Engineer's Center Line Survey Station 196+45, and the southerly terminus of which is at relocated Highway Engineer's Center Line Survey Station 225+00 on the said relocated highway, and said relocated section of highway is now open to public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way of said highway is no longer needed for right of way purposes and may be eliminated from the said relocated Pacific Highway West, State Primary Highway No. 1W, which said portion is hereinafter designated as Unit "A" and as shown colored in blue on Exhibit "A" which is attached hereto and by this reference made a part hereof; and

WHEREAS, Yamhill County and the State Highway Commission entered into a throughway agreement on the 28th day of September, 1956, which, among other things, related to the disposition to be made of a portion of that said section of said original Pacific Highway West, hereinafter referred to as Unit "A" after the said relocated section was open to public travel; and

WHEREAS, said agreement provides that State, after the said relocated section was open to public travel would, by resolution, eliminate said Unit "A" as part of the Pacific Highway West, State Primary Highway No. 1W and from the state highway system, and that all right, title and interest which State had in Unit "A" should pass to and vest in the County and the County would accept all right, title and interest that the State had in said Unit "A" and would maintain said Unit "A" as a county road as long as needed for the service of persons living thereon or communities served thereby; and

WHEREAS, in the judgment of the Commission, certain other portions of the right of way of the former Pacific Highway West, State Primary Highway No. 1W, together with real property acquired by State for roadway and other public purposes, are needed and are valuable for public purposes, and that with respect to said portions, title should remain in the State, which said portions are shown colored in green on the map attached hereto and marked Exhibit "A"; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said realignment;

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is hereby ordered and resolved that:

EXHIBIT "E-1" (Cont)

1. By reason of the relocation of a section of the Pacific Highway West, State Primary Highway No. 1W in Yamhill County, a portion of the original right of way of the former Whiteson Section of the said Pacific Highway West is no longer needed by the State of Oregon and is no longer required as part of the said new right of way of the said relocated Pacific Highway West, which said portion is designated as Unit "A" upon said Exhibit "A" and described as follows:

Unit "A":
All the land situated within the right of way boundaries of the Pacific Highway West as formerly routed, beginning at the easterly right of way line of said highway as relocated where the same is intersected by and runs parallel with the westerly right of way line of Front Street in the town of Whiteson in the southeast quarter of the northeast quarter (SE¼ NE¼), Section 8, Township 5 South, Range 4 West, Willamette Meridian; thence southerly via said highway as formerly routed to the southerly right of way line of Yamhill Street in the town of Whiteson in the northwest quarter of the southwest quarter (NW¼ SW¼), Section 9, Township 5 South, Range 4 West, Willamette Meridian.

2. That pursuant to the agreement entered into with Yamhill County on the 28th day of September, 1956, Unit "A" as hereinbefore described and as shown colored in blue on said attached map, marked Exhibit "A", is hereby duly eliminated as a part of the Pacific Highway West, State Primary Highway No. 1W, and the state highway system. All right, title and interest which State has in said Unit "A" does hereby pass to and vest in said Yamhill County.

3. That title shall remain in State to the right of way of the former and of the relocated section of the Pacific Highway West, Oregon Primary Highway No. 1W, known as the Whiteson Section in Yamhill County, together with real property acquired by State for highway right of way and other public uses, as shown colored in green on said Exhibit "A" attached hereto.

4. That this resolution be entered in full in the minutes and records of the Highway Commission this 27th day of March, 1958, as Abandonment and Retention File No. 350, and that the Secretary is ordered to mail a duly certified copy hereof to the County Court of Yamhill County.

---

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 350, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E-2"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the relocated Bradley Park-Wauna Section of the Columbia River Primary Highway No. 2 located in Clatsop County, the northwesterly terminus of which is at Highway Engineer's Survey Station 96+38.14 and the southeasterly terminus of which is at Highway Engineer's Survey Station 235+00 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, portions of the former right-of-way are no longer needed for right-of-way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Clatsop County and the State Highway Commission entered into an agreement on the 27th day of April, 1956, relating to the disposition to be made of the portions that may be eliminated, therein and hereinafter referred to as Units "A", "B", "C", "D", and "E"; and

WHEREAS, said agreement provided that Units "A", "B", "C", "D", and "E" would be abandoned by the State Highway Commission by a formal resolution as part of the Columbia River Highway and the state highway system that Unit "D" would be maintained thereafter by the County as part of the county road system; and that Units "A", "B", "C", and "E" would revert to the owners of the abutting property; and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the former right-of-way of the Bradley Park-Wauna Section of the Columbia River Highway, together with other real property acquired by the State for roadway right-of-way and other public purposes, is needed and valuable for right-of-way purposes and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the former right-of-way of the said Columbia River Highway referred to herein as Units "A", "B", "C", "D", and "E" as well as all the property affected by reason of said realignment;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions of the former right-of-way which by reason of the relocation of the Bradley Park-Wauna Section of the Columbia River Highway are no longer within the boundaries of the new right-of-way are identified as Units "A", "B", "C", "D", and "E" and are described as follow:

Unit "A"
All the land situated within the right-of-way boundaries of the Columbia River Highway as formerly routed, beginning

at the westerly right-of-way line opposite Highway Engineer's Survey Station 115+10 of the said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 21, Township 8 North, Range 6 West, W.M.; thence southerly and northerly via said highway as formerly routed to the westerly right-of-way line opposite Highway Engineer's Survey Station 124+00 of said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 21, Township 8 North, Range 6 West, W.M.

Unit "B"

All the land situated within the right-of-way boundaries of the Columbia River Highway as formerly routed beginning at the easterly right-of-way line opposite Highway Engineer's Survey Station 116+90 of said relocated highway in the northwest quarter of the northeast quarter (NW¼ - NE¼), Section 21, Township 8 North, Range 6 West, W.M.; thence southerly via said highway as formerly routed to the easterly right-of-way line opposite Highway Engineer's Survey Station 119+80 of said relocated highway in the northwest quarter of the northeast quarter (NW¼ - NE¼), Section 21, Township 8 North, Range 6 West, W.M.

Unit "C"

All the land situated within the right-of-way boundaries of the Columbia River Highway as formerly routed beginning at the easterly right-of-way line opposite Highway Engineer's Survey Station 120+00 of said highway as relocated in the northwest quarter of the northeast quarter (NW¼ - NE¼) of Section 21, Township 8 North, Range 6 West, W.M.; thence southerly via said highway as relocated to the easterly right-of-way line opposite Highway Engineer's Survey Station 122+80 of said relocated highway in the northwest quarter of the northeast quarter (NW¼ - NE¼), Section 21, Township 8 North, Range 6 West, W.M.

Unit "D"

All the land situated within the former right-of-way boundaries of the Columbia River Highway as formerly routed, beginning at the northerly right-of-way line opposite Highway Engineer's Survey Station 164+85 of said highway as relocated in the southeast quarter of the southeast quarter (SE¼ - SE¼), Section 21, Township 8 North, Range 6 West, W.M.; thence easterly via said highway as formerly routed to the northerly right-of-way line opposite Highway Engineer's Survey Station 183+80 of said relocated highway in the northeast quarter

EXHIBIT "E-2" (Cont)

of the northwest quarter (NE¼ - NW¼), Section 27, Township 8 North, Range 6 West, W. M.

Unit "E"
All the land situated within the right-of-way boundaries of the Columbia River Highway as formerly routed beginning at the southerly right-of-way line opposite Highway Engineer's Survey Station 184+70 of said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 27, Township 8 North, Range 6 West, W. M.; thence easterly via said former highway to the southerly right-of-way line opposite Highway Engineer's Survey Station 196+40 of said highway as relocated in the northeast quarter of the northwest quarter (NE¼ - NW¼), Section 27, Township 8 North, Range 6 West, W. M.

2. That, pursuant to the agreement entered into with Clatsop County on the 27th day of April, 1956, Units "A", "B" "C", "D", and "E" indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, are hereby duly abandoned as parts of the Columbia River Highway and the state highway system, all right, title, and interest which the State has in the right-of-way of Unit "D" herein described, pass to and vest in said County; and all right, title, and interest which the State has in the right of-way of Units "A", "B", "C", and "E" herein described, pass to and vest in the abutting property owners.

3. That the right-of-way of the former and of the relocated Bradley Park-Wauna Section of the Columbia River Highway, together with the real property acquired by the State for roadway right-of-way and other public purposes, as indicated and shown colored in green on Exhibit "A" attached hereto, shall be retained and held by the State

4. That this Abandonment & Retention Resolution No. 318, be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of March, 1958, and that the Secretary be ordered to mail a duly certified copy hereof to the County Court of Clatsop County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, said resolution being File No. 318, under the heading "Abandonment and Retention Resolution" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

29815

EXHIBIT "F-1"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "F-1" (Cont)

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "F-1" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 939.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 939, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-2"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate and maintain the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, for the purpose of relocating and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commissi that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenanc of highways of the state highway system, and the relocation and maintenance of the said Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Hillsboro-Silverton Highwa

EXHIBIT "F-2" (Cont)

and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation and maintenance of the said Newberg-Gearin Corner Section of the said Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 940.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 940, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-3"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pleasant Hill-Creswell Section of the Springfield-Creswell Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the Springfield-Creswell Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any

EXHIBIT "F-3" (Cont)

nature between the right of way of the said relocated Springfield-Creswell Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the said Springfield-Creswell Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 941.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 941, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-4"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, widen and maintain the Minam-Rock Creek Section of the Wallowa Lake Highway; and

WHEREAS, for the purpose of relocating, widening and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commissio that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Com mission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, widening and maint nance of the said Minam-Rock Creek Section of the Wallowa Lake Highway, certa interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the Stat and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated and widened Wallowa Lake

EXHIBIT "F-4" (Cont.)

Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, widening and maintenance of the said Minam-Rock Creek Section of the said Wallowa Lake Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 942.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 942, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29824

EXHIBIT "F-5"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the highway facilities for which the said parcel of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be con-

structed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 943.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with the map, is attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 943, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-6"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "F-6" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "F-6" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 944.

FOOTNOTE*:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 944, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

29829

EXHIBIT "F-7"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "F-7" (Cont.)

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "F-7" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 945.

---

*FOOTNOTE:

EXHIBIT "F-8"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myers Creek-Brookings Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "F-8" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway, as a throughway, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remainaag after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Myers Creek-Brookings Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "F-8" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 946.

---

*FOOTNOTE:

29835

EXHIBIT "F-9"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage roads, highway drainage drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to locate in part, relocate in part, construct and maintain the Cascade Secondary Highway and locate and construct a public way known as Airport Road; and

WHEREAS, for the purpose of locating in part, relocating in part, constructing and maintaining the said Cascade Secondary Highway and locating and constructing a public way known as Airport Road, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "F-9" (Cont)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Cascade Secondary Highway and the public way known as Airport Road and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location in part, relocation in part, construction and maintenance of the said Cascade Secondary Highway and the location and construction of a public way known as Airport Road and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 947.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 947, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stockpile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system and right of way for a haul road; and

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "F-10" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 948.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 948, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-11"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "F-11" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number, and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "F-11" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of March, 1958, as Condemnation Resolution No. 949.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 949, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-1"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highway or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Warm Springs Highway

Highway number 53 Route number US 26

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
103.07	103.87 (through Warm Springs Reservation)	45

except that between M.P. 103.13 and M.P. 103.35 the indicated speed shall be 20 miles per hour during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

March 27, 1958 1

EXHIBIT "G-1" (Cont)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 35a be entered in the minutes and records of the Commission as of the 27th day of March, 1958.

EXHIBIT "G-2"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Oregon Coast Highway

Highway number 9 Route number US 101

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
299.06 (100 feet north of Silver Butte Avenue)	299.95 (north city limits of Port Orford)	45

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions

EXHIBIT "G-2" (Cont)

of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 274 be entered in the minutes and records of the Commission as of the 27th day of March, 1958.

EXHIBIT "G-3"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway

Highway number 1 Route number US99

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
317.76 (500 feet north of the north city limits of Talent)	317.85 (north city limits of Talent)	50
318.01 (east city limits of Talent)	318.25 (a point 300 feet south of Valley View Road)	50

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 277 be entered in the minutes and records of the Commission as of the 27th day of March, 1958.

EXHIBIT "H"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 27th day of April, 1943, adopted a resolution by which certain State Highways and Sections thereof were declared to be and were designated as main or "through" highways and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by resolution of September 21, 1949, said resolution of April 27, 1943, was revised and rewritten; and

WHEREAS, in said resolution of September 21, 1949, the Highway Commission eliminated an exception in said resolution of April 27, 1943 requiring that traffic on the (Beaverton-Aurora) Beaverton-Tualatin Highway No. 141 should stop at its intersection with the Scholls Highway at Progress but the stop sign was not removed; and

WHEREAS, on the 28th day of March, 1957, the Commission ordered removal of the stop sign on the (Beaverton-Aurora) Beaverton-Tualatin Highway No. 141 at its intersection with the Scholls Highway, thereby allowing traffic to move freely on the Beaverton-Tualatin Highway; and

WHEREAS, subsequent to the removal of said stop sign numerous complaints have been received because of difficulty in entering the intersection from the Scholls Highway; and

WHEREAS, an engineering investigation now discloses that for the safety of the traveling public, all traffic should be required to stop before entering the intersection of the Scholls Highway with the Beaverton-Tualatin Highway at Progress,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, based upon engineering investigation and the recommendation of the State Highway Engineer, that this Commission does hereby find, declare, resolve and order as follows:

1. That said resolution of September 21, 1949, be amended by adding the following exception pertaining to the (Beaverton-Aurora) Beaverton-Tualatin Highway No. 141:

EXHIBIT "H" (Cont)

"Exception: All traffic shall stop before entering the intersection of the Scholls Highway with the (Beaverton-Aurora) Beaverton-Tualatin Highway at Progress."

In all other respects, the provisions of said resolution of September 21, 1949, shall remain in full force and effect.

2. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

3. That this resolution shall be entered in the minutes and records of the Commission as of the 27th day of March, 1958, as "Through Highways" Resolution No. 13f, and a duly certified copy thereof delivered to the U.S. Bureau of Public Roads, and a like copy to the County Clerk of Washington County and to the Superintendent of the Department of State Police for their information.

29854

EXHIBIT "I-1"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Southwest Capitol Highway-Tigard Interchange Section of the Pacific Highway in Multnomah County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration.

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Southwest Capitol Highway-Tigard Interchange Section of the Pacific Highway, beginning at Highway Engineer's Station 349+22 at the intersection with Southwest Capitol Highway and extending in a southerly and westerly direction to Highway Engineer's Station 27+00 the Multnomah-Washington County line, together with the map, which for identification purposes bears Sketch Map file No. 1R-5-1124, dated February, 1958. (Right-of-way map No. 8B-3-21, dated September, 1956, and 1A-8-6A, dated November, 1935) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

EXHIBIT "I-1" (Cont)

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Pacific Highway was designated as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 27th day of March, 1958, as Survey Resolution No. 159.

29856

EXHIBIT "I-2"

Minutes of March 27 and 28, 1958

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Jonesboro-Tunnel Section of the Central Oregon Highway in Malheur County and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration.

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Jonesboro-Tunnel Section of the Central Oregon Highway, beginning at Highway Engineer's Station 690+28.30, approximately one mile north of the railroad station at Jonesboro and extending in an easterly direction to Highway Engineer's Station 1083+26.36, together with the map, which for identification purposes bears Sketch Map file No. 1R-3-1197 dated March, 1958 (Right-of-way Map No. 8B-8-1920, dated March, 1958) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That heretofore by resolution of this Commission dated November 3, 1948, the said Central Oregon Highway was designated as a "Throughway"

within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 27th day of March, 1958, as Survey Resolution No. 160.

Salem, Oregon
April 3, 1958

An organizational meeting of the State Highway Commission was held at 9:00 a.m. this date in the office of Hon. Robert D. Holmes, Governor of Oregon, State Capitol Building, for the purpose of greeting Mr. Kenneth N. Fridley, whose appointment as a member of this Commission by Governor Holmes became effective on the previous day, and to elect a chairman pursuant to legal requirements. Present were

Hon. Robert D. Holmes, Governor
M. K. McIver, State Highway Commissioner
Robert B. Chessman, State Highway Commissioner
Kenneth N. Fridley, State Highway Commissioner
Forrest Cooper, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

Following introductions, the "Oath of Office" was administered to the new Commissioner, Mr. Kenneth N. Fridley, by Secretary Glaisyer. There followed a brief discussion of highway matters in general, at the conclusion of which Governor Holmes excused himself from the meeting and turned it over to the members of the Commission to transact such business as they deemed proper.

The first order of business was the election of a chairman. Motion was made by Commissioner Chessman that Mr. M. K. McIver be elected Chairman of the Highway Commission, such office being vacant by reason of the retirement of Mr. Charles H. Reynolds, former Chairman. The motion was duly seconded by Commissioner Fridley and carried by the unanimous vote of the Commission. Commissioner McIver thereupon expressed appreciation for the confidence that had been placed in him by the other Commissioners.

Matters of a general nature with respect to the duties of the Commission and the procedure of the State Highway Department were then explained by Chairman McIver. At the conclusion thereof, Governor Holmes was invited to return to the meeting and upon his arrival was informed of the Commission's action with respect to the election of a Chairman. He expressed his satisfaction of the action.

The meeting adjourned at 10:00 a.m. and reconvened immediately in the Office of the State Highway Engineer, Room 137 State Highway Building. Present at the adjourned meeting were the following:

M. K. McIver, Chairman
Robert B. Chessman, Commissioner
Kenneth N. Fridley, Commissioner
Forrest Cooper, Deputy State Highway Engineer
L. I. Lindas, Chief Counsel
R. L. Porter, Right of Way Engineer

C. H. Armstrong, State Parks Superintendent
H. B. Glaisyer, Secretary

The meeting was called to order by Chairman McIver and the following routine matters were considered:

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following state parks matters:
